

Star of Space 784

Chapter 784 Oh, I understand

There was no other way, he had to send his elders to the restaurant before the two aunts left.

...

In the restaurant.

Seeing the table full of roast chicken, all packed, Sui Ziyou couldn't help but twitch the corner of his mouth.

"Sister-in-law, why do you want so much roast chicken?"

"Eat."

What Lin Caisang said was reasonable.

"Don't you think this roast chicken tastes really good? It's rare to eat such good roast chicken, so naturally I have to pack it back so that my family can have a try."

"This roast chicken is delicious.

Sui Ziyou doesn't deny this, because in the past, she often sent servants here to eat this roast chicken, and the reason why this restaurant has become the number one restaurant in Shaohua City is because the roast chicken here is far and near. Well-known.

But is it really okay for them to buy so much roast chicken at once?

"But...sister-in-law, there are so many...how to get them back?"

"This is not simple." Lin Caisang shrugged.

Just throw it directly into the golden bead space later and it will be fine.

"If you don't eat anything for free, that's not stupid."

Sui Ziyou: "..."

Why is it free food? These things all cost money.

"Sister-in-law, are you going to have a meal?" she asked.

This restaurant, even if the prince comes, has to know the money before he can leave. Is her sister-in-law planning to leave right after eating without even taking the money to pay?

"Who said that I am such a person?" Lin Caisang threw a chicken leg bone on the table and asked her.

"Then you are...oh, I understand."

Before he could finish speaking, he already understood.

Because, she saw a group of people carrying a soft sedan coming from the east side of the street.

"If I had known better, I shouldn't have ordered so much. I should have ordered more."

After all, someone is paying the money, so it's good to eat more. The money from the Imperial Master's Office is not stolen from others, so it's not wasted.

"You can't digest it if you eat too much." Lin Caisang said.

"Okay, we've almost eaten. It's time to go."

With that said, she put the packed roast chicken on the table into Jinzhu's space, opened the door of the private room, and was about to leave. Sui Ziyu also stood up and followed Lin Caisang downstairs.

On the first floor, Imperial Master Suyang was carried in on a soft sedan. Although nothing unusual could be seen and Suyang was sitting upright, many people looked at the group of people in confusion and began to whisper. .

"Why is the Imperial Master's face so pale? Could it be that Mr. Su was infected with the disease?"

"I also heard that Mr. Su's disease is contagious. Is it possible that the Imperial Master is also infected? Isn't it said that the Imperial Master is a celestial being? How could he be infected by those ordinary diseases?"

"Hush, shush, you guys, be careful that trouble comes from your mouth."

After hearing those people's words, a man made a silent gesture towards them.

What kind of heavenly being? If it were a true heavenly being, how could he give birth to such a wicked son? Not only was he infected with a disease, but he still wanted to be arrogant and domineering outside until he died. He deserved his death.

But they only dare to think about these words in their hearts. As for speaking them out, who dares?

"What are you afraid of? They can't hear you."

On the other side, Su Yang endured the severe pain in his body and turned to Butler Xin with a stiff neck.

"Where are the people?"

"Sir, wait a moment, I'll go right away..."

"Hey, isn't this Master Su? Why are you interested in coming to the restaurant for dinner?" Before Butler Xin finished speaking, he heard a very sarcastic voice coming from the second floor.
