Chapter 786 Xiao Hei doesn't bite good people

"this....."

Hearing her words, Su Yang's face looked as ugly as possible.

He didn't mention anything else, but he just mentioned the Millennium Snow Ginseng. The Millennium Snow Ginseng was gone long ago. Apart from the emperor, only he knew this.

It was also his idea for the emperor, hoping that those who were eyeing the Millennium Snow Ginseng would change their targets and stop targeting the palace, so he included the Millennium Snow Ginseng among the rewards.

Who would have thought that the two little women in front of them would know everything about the Millennium Snow Ginseng.

Who are these two people?

"You...who are you?"

"Do you need to know?"

Lin Caisang smiled slightly and looked at Su Yang without blinking.

"you--"

Facing her smile, her eyes were solemn, as if someone was pinching her neck. She felt even more like she was being stripped naked at this moment. What secrets were hidden in the eyes of this little woman in front of her? , can't even hide it.

"Okay, since the girl doesn't like Millennium Snow Ginseng, my master will enter the palace after a while and ask the emperor to take back the order. This thank you gift will be exchanged for something else."

He spoke quietly and said.

This little girl, I really don't know where the monsters came from, she actually knows the secrets of the royal family of their country. May I ask, is there anything else she doesn't know?

In other words, what else can he hide?

"I hope so." Lin Caisang curled his lips and said.

"Since the Imperial Master has come to invite you in person, I will leave with you, Xiao Hei, let's go."

As she said this, she shouted loudly.

Before she could finish her voice, everyone saw a black shadow running directly in from outside, and finally landed at her feet.

"ah!"

After seeing clearly what the black shadow was, someone immediately shouted.

Su Yang, who was sitting on the soft sedan, was so scared that his hands and feet were weak. He was not afraid of anything. The only thing he was afraid of in his life was leopards, especially leopards that were completely black.

In the beginning, he was bitten by the black panther.

Before, at the entrance of the mansion, the black panther was still far away. Unlike now, in the lobby of the restaurant, which was so large, the black panther was almost right in front of his eyes.

He felt that as long as he moved slightly, he could feel the temperature of the black panther.

"Let's go, go quickly."

He didn't care about Lin Caisang anymore, and with a trembling voice, he ordered to come down and carry him away quickly.

"Tsk, look at these people."

Lin Caisang laughed out loud as he looked at Su Yang's figure running faster than a rabbit.

Then, she slowly turned her eyes and looked at the others.

"Don't worry, everyone, my little black one won't bite nice people. As long as you don't offend it, it will be very well-behaved."

Everyone: "..."

That's a black panther, a beast. The word 'good' cannot be applied to it, right?

If it doesn't bite, who are you kidding? Are there any wild animals that don't bite?

"Girl, let's...just leave."

Butler Xin had no choice but to leave or stay. In the end, he had no choice but to bite the bullet and ask Lin Caisang to go to the Imperial Master's Mansion with him.

"Well, lead the way." Lin Caisang nodded.

"wait wait wait."

When Xiao Er saw Lin Caisang was leaving, although she was afraid of the black panther beside her, she still gritted her teeth and came forward, blocking the way for her and Sui Ziyou.

"Girl, you haven't paid for the meal yet." He reminded, trembling.

"Meal money?"

Lin Caisang raised his eyebrows and glanced at Butler Xin.

When Butler Xin saw this, he immediately frowned and kicked the waiter hard.
