

## Star of Space 788

Chapter 788 Get out of here all!

"Steward Xin, my young lady is here to treat Mr. Suri. He is ill now. Isn't it the best time to treat him? Why don't you, Steward Xin, take us in together?"

She received the signal from Lin Caisang's eyes and then spoke to Butler Xin.

Otherwise, that bastard Su Ri would have died early and been reborn, and she wouldn't have said a word.

"this....."

Butler Xin was a little hesitant when he heard her words.

His young master has a bad temper. If he brings a stranger in rashly and makes the young master angry, he will order someone to beat him to death. If he offends Lin Caisang with his words, his family will learn from the past. omj

Can he take the risk?

"Why, Butler Xin is unwilling?" Lin Caisang asked with a cold voice after seeing his hesitation.

Hearing this, Butler Xin was startled and frightened.

"No, no, girl, I'm afraid that my young master will be reckless and do some disrespectful things to the girl later. It will be bad if he offends the girl." He explained quickly.

Why isn't his master here at this time? If he were there, he could at least be able to control the young master.

In this Imperial Master's Mansion, the young master is only willing to listen to the words of adults.

"I don't dare to take the blame. I am not an intolerant person. I still have some magnanimity. I will care about a patient." Lin Caisang said.

After hearing her words, Butler Xin knew that the girl in front of him was determined to go in with him, so he could only bite the bullet and go in with Lin Caisang and the two of them.

"Xiao Hei, you wait outside." Lin Caisang told Black Panther, and then followed Butler Xin in.

...

"Get out, everyone, get out!"

In the room, a man who was so fat that he could barely see his eyes was lying on the ground. There were some things for him to throw and smash around. He picked up one and knelt on the ground not far away. The maids were smashed.

Although the maids who were hit were crying and screaming, none of them dared to dodge.

Because they knew that if they didn't dodge and let Mr. Suri hit them, they might still be alive. But if they dodged, it was very likely that Mr. Suri would get angry and let the guards pull them out and beat them to death with sticks.

Moreover, these guards will not beat them to death directly, but will humiliate them severely before they die.

They would rather kneel on the ground and be beaten to death than be dragged out by the guards.

"I will smash you bastards to death, hide, I told you to hide, I will smash you to death!" Su Ri picked up another porcelain bottle and threw it at the maids.

In fact, none of the maids dared to dodge, but in Su Ri's heart, he hoped that they would dodge. It would be best if he could scare them into shouting "Wow!", then he would feel happy and happy!

"You cheap maids, if you don't serve me well and dare to curse me behind my back, I will peel off your skin and pickle you all with salt!"

After listening to Su Ri's words, the maids were all so frightened that their faces turned pale and they huddled up.

None of them here have ever seen Su Ri's cruelty. He is a person who can say it and will definitely do it. Those methods of punishment are really beyond the imagination of people.

"Come here, come here, come here, why don't you let me die!"

"Sir, please don't..."

Butler Xin looked at Su Ri's appearance and groaned secretly in his heart.
