

Star of Space 791

Chapter 791 Suri can be saved

"Girl? Female doctor?"

Hearing this, the man raised his brows, and his dark eyes were filled with intense interest.

"Where's Suri, how's it going?" he asked.

"No news has come yet, but... I found out before that the girl poisoned the Imperial Master when she first met him. The doctors in the Imperial Master's residence were helpless, and in the end it was the Imperial Master who went to the restaurant to apologize in person. The girl then gave the antidote to the master."

The subordinate replied.

"Interesting, really interesting. People who dare to poison Suyang are rare in the world."

"Sir, I have a problem. I don't know whether to talk about it or not."

"If there's anything we can't talk about between you and me, just talk." The man glanced sideways at his subordinate and said.

"Su Ri has done many evil things. There are many people in Shaohua City who want him dead. Since that person can poison, why not just poison Su Ri to death?"

These days, he still can't figure it out.

Since it was possible to poison Su Ri without directly poisoning him, but he had to let Su Ri get poisoned once a day, was he deliberately playing tricks on Su Ri, or was he playing tricks on the Imperial Master's Office?

What kind of deep hatred requires the poisoner to tease the Imperial Prefect like a cat and a mouse?
The courage of the poisoner is not bad.

"This question is not waiting for the poisoner to show up and you ask him personally?" the man said quietly.

"I was joking.

The subordinate raised his eyes to look at him, then lowered his head and said.

"Go down and protect those two people and the leopard," the man said again.

"What do you mean...someone will attack those two girls?" the subordinate asked.

It's not impossible. Su Ri is hated by others, and now someone actually wants to cure Su Ri's illness and detoxify him. Wouldn't that be against the people of the world? Even if the female doctor could not cure Su Ri's illness, she would not be able to leave Shaohua City safely, because many people would not allow it!

But what happened to his master? He actually wanted to protect the two girls. What's the point of this?

"Yes, I will take care of it now." He nodded and responded.

"What's going on in Prince Mo's Mansion these days?" the man asked again.

"Prince Mo's Mansion is very peaceful, as if Prince Mo has never come back. There are quite a few people who have come to visit these days, but they have all been sent back. Prince Mo has never been seen."

The subordinate replied.

"He's quite calm." The man grinned.

"Forget it, let him go. My father and the emperor don't take him seriously, so why should I be the same as him? I'll tell you to go down, Su Ri, to save him."

"Do you want to save Su Ri?"

When his subordinates heard his words, they were so shocked that they immediately raised their heads and looked at their master.

Don't you wish that Su Ri would die early and be born early? Why do you still want to save Su Ri? What is this situation?

"Sir, if Su Ri is not dead, the people will not be angry."

"Doudou, you are still too young."

After hearing what his subordinate said, the man shook his head.

"Who said that after Su Ri is rescued, he will never die again? To kill someone, it's just a bag of poison, that's it. It's very simple."

Hearing this, the subordinate's face quickly turned red, and he held it in for a long time before he could say a word.

"Master, can you please stop calling me... Doudou!"

His surname is Dou, and his name is Dou Qiankuo, but this 'Dou' surname has really scarred him for life!

"Um."

The man nodded his head lightly and responded.

"Doudou, now that Su Ri's poison has been cured, should I go and have a look?"
