Chapter 792 You, don't come here!

Dou Qiankuo: "..."

Master, haven't you already answered the call? Why do you still call your subordinate Doudou? He doesn't like the name Doudou at all. It's true, not false!

"Yes, my subordinates are going to prepare the sedan chair for the evacuation." He responded.

...

Elsewhere, several women also heard the news and knew that someone had uncovered the list, so they went to treat Su Ri.

"This woman is so brave, daring to save that thief Su Ri!" The leading woman made a fist with her right hand, hit it hard on the figure beside her, gritted her teeth angrily, and spoke.

"Chief, let's go kill that woman!" someone behind him suggested.

"No, that woman can be killed if she wants to in the Imperial Master's Mansion. And I heard that there is a black panther beside that woman. She is definitely not an ordinary person."

The other woman immediately denied her words and said.

"Leader, my subordinates feel that..."

"Where's Suyang? Where is he at this moment?" The leading woman's scarlet eyes glanced at the people behind her and asked.

"Suyang has just entered the palace, but I think he will return home soon." A woman replied.

Suyang's son was poisoned. At this moment, someone revealed the evidence and wanted to cure his son. How could he be away from the palace for so long while he was here? He would definitely come out of the palace immediately.

"Order to go down and ambush outside the Imperial Preceptor's Mansion. I will take Su Yang's head to avenge my master!" said the leading woman.

"Yes, chief."

When several women heard her words, they immediately responded and left quickly.

...

In the Imperial Prefect's Mansion, Lin Caisang did not see Su Yang. Even Butler Xin had just found out that his master had entered the palace. Because Lin Caisang did not want to stay in the Imperial Preceptor's Mansion longer, he did not dare to force Lin Caisang. What he could do was take Lin Caisang out of the house.

"Girl, when will you come again?" Butler Xin asked outside the house.

"tomorrow."

Lin Caisang replied.

"The medicine list given to you must be given to your adults."

"Yes, yes, I understand, I must..." Butler Xin responded repeatedly.

Even if he had a thousand courages, he would not dare to forget to give the medicine list to his family, because it was related to the poison of the young master.

However, before he finished speaking, he heard the sound of a carriage approaching from far away. He turned around and saw that his family members were coming back. He felt happy and quickly turned around to look at Lin Caisang.

"Girl, my master is back. Can you tell him in person?"

Lin Caisang looked at the solemn carriage and thought to himself that it would be good to tell him clearly some things in person. There was no need to embarrass a servant, so he nodded and walked towards the solemn carriage.

By chance, Suyang got off the carriage and was about to enter the mansion when he saw Lin Caisang walking towards him.

"You, don't come here!"

He hurriedly took a step back. If his identity hadn't allowed him to be too nervous, he would have hid behind the carriage.

Who knew that Lin Caisang, in addition to Sui Ziyu, was also followed by another behemoth? This black panther was something he never wanted to see in his life. It would simply kill him.

He also knows that with today's status and future skills, a black panther is nothing, he can be killed instantly.

However, the fear that emanates from the bones cannot be eliminated no matter what.

When Lin Caisang saw the solemn look, he couldn't help but stomp his feet, and then looked at Black Panther, "Xiao Hei, squat here and don't move. I'll be back as soon as I go."
