Chapter 797 Someone came from the Zhou family

Presumably, Brother Mo Lian must have his own plan when he comes back this time. She doesn't want to disrupt Brother Mo Lian's own plan because of herself.

"Sister-in-law, you are right."

Sui Ziyou also agreed with Lin Caisang's words. At this time, they really shouldn't appear next to their cousin.

"Then...sister-in-law, can Su Ri's poison be cured?" she asked.

"It's just a little poison, no big deal."

Lin Caisang raised her eyebrows. As for the poison on Su Ri, she didn't take it seriously yet, but...

"I have to think about how to detoxify him. This is really troublesome. I'll think about it again."

Sui Ziyou listened to her words with confusion on his face.

Didn't my sister-in-law say it was just a little bit poisonous, so why would it cause trouble again? Is it difficult to understand or easy to understand?

"Sister-in-law...is it difficult to cure his poison?"

"No." Lin Caisang shook his head.

"Then what are you..."

"I just thought, if I detoxify that guy all at once, wouldn't the mission be completed immediately? Then I won't be able to come to Shaohua City so easily."

Lin Caisang understood what Sui Ziyu meant, so he explained.

"So, let's think of a way to slow down the poison on Su Ri. We will go to the Jinzhu Space to study it later and see what methods we can use to delay it for a little longer. Well... the longer the better."

Sui Ziyu: "!!!"

Why did she suddenly sympathize with those villains in Su Ri?

Meeting Lin Caisang was probably the most unlucky moment for Su Ri. It was obvious that he could detoxify directly, but he still had to delay it for a long time. This was simply... a trick to kill someone without paying for it.

However, this is how she likes to play.

"Then today...are we going back?"

she asked.

Lin Caisang shook his head and said nothing.

How long have you been here? It's not dark yet. How can you go back? It's not too late to at least find out more about Shaohua City before going back.

"Let's take a look first."

"oh."

Sui Ziyou nodded.

...

Back home, it was already very late.

"Brother, what happened to Grandma and the others?"

Seeing Lin Laojie and Lu Qiubo in the main room with angry looks on their faces, she pulled her eldest brother out for some reason and asked.

She just left in the morning, and she didn't see anything happened to Grandpa and Grandma. Could it be that they had a quarrel?

However, when Liu Baixiao came back before, the two of them had never officially quarreled. Now that there is no stick, what else can they quarrel about? Besides, the two old people have nothing to quarrel with, right?

"Someone from the Zhou family has come."

Lin Changhong's expression wasn't very good either. After snorting coldly, he said angrily.

"Zhou family?"

Lin Caisang was stunned for a moment when he heard the word 'Zhou Family'.

I had known before that the Zhou family wanted to become a monster again, but I didn't expect it to happen so quickly. This was how much she valued her reputation as a 'star of destiny and wealth'.

"Who came and what did you say?" she asked.

"Who can he be? He is a servant of the Zhou family." Lin Changhong replied.

"Mrs. Zhou really deceived people so much that she actually sent a servant to say that she pitied our Lin family and was willing to continue the previous marriage. However, you can't marry Zhou Liang as your head wife, you can only be the aunt of an illegitimate wife.

No matter what Zhou Liang is, he really dares to think about it! "

"laugh."

Lin Caisang sneered.

"Are you angry?"
