

Star of Space 80

Chapter 80 Advanced mission, prepare all equipment

In the golden bead space, Lin Caisang stared angrily at the jade mirror.

"Can't you be gentler? Also, before you let me go, please tell me clearly where I'm going, okay?" She lectured to the jade mirror.

Fortunately, it was not difficult to treat this patient. He only had acupuncture points.

Otherwise, if she says a few more words and she doesn't even know where she is, wouldn't it be embarrassing?

However, Yu Jing did not respond fluently to her words. It only showed the percentage of completion of the mission, which was 70%.

"Why."

Every family has sutras that are difficult to recite.

This time, this old man didn't exaggerate her symptoms. If she had arrived two days later and had been pricked two or three times by Zhong You, she would have died in one visit.

Some acupuncture points can be used for acupuncture, but the intensity of acupuncture is very demanding.

It has to be said that Zhong You has the talent to study medicine, but no matter how good the talent is, it is just a talent. If no one teaches him, he can only succeed after hundreds, thousands or even tens of thousands of dead people are tested.

After several injections, Mr. Zhong's body was severely damaged. He should be able to recover after taking the medicine she prescribed for half a year.

"Brother Yu Jing, I have barely completed this mission. Can you let me go and see the high-level mission?" She was still thinking about the high-level mission. So many people were sick. She would feel bad if she didn't go and see it. ?

Moreover, there are still a thousand taels of gold. If she had this gold, she would be able to do whatever she wanted. She would never have to worry about eating and drinking.

Well, she had to admit, she was mainly thinking about gold.

'Master, high-level missions are difficult, Yu Jing recommends that you prepare all equipment.' A line of words appeared on the jade mirror.

"Equipment, what equipment?" Lin Caisang asked, a little confused.

But the next moment, before Yu Jing could answer, she had already thought about what kind of equipment she needed. Naturally, it was medicinal materials. She was now a bare-bones person with nothing else.

So many people in a town were infected with the same disease. How could she not be more careful? If she accidentally brought the source of the disease back, wouldn't it be the end?

It seems that Yu Jing is right, she still needs to prepare some things.

In other words, stay in that place for a few more days, get the disease under control, and then come back?

"No, no, if I don't go home at night, grandma will be anxious to death, right?" She immediately rejected the budding idea in her mind.

In fact, if someone can cover for her, she doesn't have to go home. After all, Grandma is also very busy. Her own fields need to be cultivated, and she also has 300 acres of mountainous land over there.

However, she doesn't want others to know about her golden bead space, not even her family members.

"Don't answer it yet, wait until I find more medicinal materials." She said to the jade mirror.

In other words, let's wait until she thinks of a better reason to stay away from home for a few days.

She has been busy for most of the day and needs to quickly find some medicinal materials and then go home, otherwise Grandma should send her brothers and sisters out to find her.

...

It was already dark, and when Lin Caisang returned home carrying most of the basket of medicinal materials and saw the man sitting at her table, she was dumbfounded.

"Brother Melian?"

Damn, why is this dangerous man at her house?

"Hey, Sangsang is back?"

When Lin Laogong saw his granddaughter back, his face was immediately filled with smiles.

"Are you hungry? It's time to wash your hands and eat."
