

Star of Space 811

Chapter 811 Is it really that good?

After listening to Lin Caisang's words, Old Master Zhou took a deep breath and turned to glare at Zhou's mother.

"Why don't you leave quickly? Isn't it embarrassing enough?"

After saying that, he left the Lin family yard and took his servants away.

Zhou's mother glanced at Lin Caisang hatefully and followed Old Master Zhou away.

"Old Master, why did it become like this this week?" Uncle Jin couldn't help but murmured after everyone had left.

When she was in Yacun, Mrs. Zhou was a very face-conscious person, but she didn't expect that, even at a very old age, she would end up risking all her face for the sake of her grandson.

This Zhou Liang is really unfilial.

"Maybe he has always been like this, but he just hid it deeply enough before." Patriarch Lin said.

"Sang Sang, if the Zhou family comes to make trouble again this week, you don't need to be polite to them, just walk out the door. We, the people of Yacun, can't let others bully us."

He warned Lin Caisang.

"I know." Lin Caisang responded.

This was really the first time she had seen someone like the Zhou family.

Although there was Liu Baixiao before, no matter how Liu Baixiao's family was, they were only arrogant for a while in front of the family, because Liu Baixiao knew clearly in his heart that Lin Laogen was his father, so he dared to be arrogant, and he felt that he had that arrogance capital.

But the Zhou family is different. They are not related to their family, and they have already had an unpleasant incident because of the divorce.

This time, she was really unexpected that Old Master Zhou would come to ask for a slap in the face. She thought Mrs. Zhou was the only one who came to her door.

Sure enough, this family would do anything for that scumbag Zhou Liang.

"Grandpa Patriarch, what did you say just now? Let's continue talking in the room."

"Okay, okay, let's go into the house." Patriarch Lin nodded repeatedly.

...

Time passed very quickly, and soon it was time for Lin Caisang to go to the Imperial Master's Mansion in Shaohua City to see the roaring ghosts. This time, Lin Caisang did not bring Sui Ziyou with him, but went alone.

It's not because I don't want to take it with me, but because I can't take it out and was blocked by the Golden Pearl Order.

"Everything is ready, let's get started." She said calmly to Butler Xin.

The next moment, several guards pulled Su Ri out.

"No, I don't want to go. That bitch did it on purpose. Can't you see? She is an assassin. Someone else sent someone to assassinate me!" After the last cooking session, Su Ri saw the big wooden barrel and reacted that way. Call it intense.

While yelling and cursing, he was about to run away.

Several guards took action together and pulled him back. They didn't even give him a chance to breathe. They directly lifted him and put him into the already cool wooden barrel. Then he closed the lid and only exposed his head. Come.

"ah!"

Almost immediately, screams pierced the sky and began to sound.

"Tsk."

Lin Caisang frowned slightly.

She had already taken precautions in advance and stuffed cotton in her ears, but she still couldn't block the screams that could shatter a person's heart. Could it be that her medicine was really that effective?

"Steward Xin, you just watch from here, I'll go for a walk outside." She stood up and said to Butler Xin.

Anyway, as long as he entered the barrel, it would be impossible for Su Ri to toss any more. The pain in his body would make it impossible for him to escape, and the rest would be enough for him to enjoy himself in his mouth.
