

Star of Space 819

Chapter 819 Aren't your family members anxious?

When Jiang Zuo and Jiang Li saw the man from the jade shop driving a carriage with the piece of Thousand Needle Jade that had been neglected for many years, they were completely shocked.

"Are our Palace Master crazy? What's the use of buying such a piece of Thousand Needles Jade? It will look good in the yard?" Jiang Zuo felt that the Palace Master was not crazy, he was going crazy.

What is the use of buying this thing? It is a joke wherever it is placed. What use can it be? Isn't this a helpless reminder to others that the master of his palace spent money to buy a piece of scrap jade?

"Jiang Li, what happened to our palace master?"

"You ask me, who should I ask?"

Jiang Li glared at Jiang Zuo angrily and replied.

Anyway, he knew that his palace master never did anything unreasonable. Since this piece of Thousand Needle Jade could be favored by his palace master, it must be useful.

"call."

Jiang Zuo sighed heavily.

"Come on, please move inside."

Ladu has been brought here, what else can we do, we can only move it to the palace!

"Two gentlemen, Lord Mo, you can just leave this piece of jade at the door. Don't move it inside." Just as Jiang Zuo was calling the guards guarding the door to come and move it, he heard someone bringing Thousand Needles Jade. The waiter spoke.

Jiang Zuo: "..."

Couldn't he move the things in so that his palace master would be less embarrassed? He actually wanted to leave it outside. What on earth was his palace master thinking?

"I...I don't know what to say, Jiang Li, you just have to figure it out."

Jiang Li shook his head funnyly at Jiang Zuo's retreating back. No matter what the palace master wanted to do, as the palace master's subordinates, they naturally couldn't have any objections. Unconditional obedience was what they should do.

"Just put it there."

He pointed to a corner and said to those who gave away Thousand Needles Jade.

"Hey, okay."

The waiter responded and directed several people to move the Thousand Needles Jade to the place pointed by Jiang Li.

"What's going on here?"

Ban Jue walked out of the house and was about to do something when he saw a few men moving Thousand Needle Jade into the corner and asked Jiang Li who was standing aside.

"I don't know what the palace master is thinking. He bought a piece of Thousand Needles Jade and refused to move it into the palace." Jiang Li said.

In fact, he didn't know what the Thousand Needles Jade was used for. Could it be used as food? His palace master is not afraid that his own teeth will break!

"Oh, maybe the mistress likes it."

After hearing this, Ban Jue just responded lightly and muttered something.

How could his palace master buy something as strange as the Thousand Needles Jade? The only possibility is that his mistress took a fancy to the Thousand Needles Jade, so the palace master bought it.

"What did you say?"

Jiang Li was stunned for a moment when he heard his muttering, but he quickly came to his senses.

"Exiled Jue, did you just say... mistress?"

Isn't the mistress in Yacun? How did she come here? Could it be that if the master of the palace steps forward, the mistress will follow?

However, if the mistress comes out like this, won't the family be anxious?

"Don't be surprised, the female doctor in the Imperial Prefect's Office is the mistress." Ban Jue said to Jiang Li.

"Don't tell anyone else about this, especially Jiang Zuo."

Thinking about it, he reminded Jiang Li again that he had found out before that the mistress came with someone. He guessed that that person should be Princess Ziyou.

If Jiang Zuo knew that Princess Ziyou had also arrived in Shaohua City, he didn't know what he would do.
