

Star of Space 829

Chapter 829 Must be found!

"Don't be sad, Queen Mother. The Emperor will figure it out sooner or later. On the side, the old nanny saw this and persuaded her.

"If the Ai family had known earlier that the emperor summoned Mo'er back to let Mo'er go to Baibind Mountain, the Ai family would never have agreed. Where does he want to put the Ai family?"

The Queen Mother said quietly.

"The emperor is also worried about King Lin's safety." The old nanny said.

"Lin Wang's safety is in danger. He has to commit suicide himself. Can he blame others?"

The Queen Mother looked cold and was not polite at all. She cursed that she had to hook up with another son for the sake of a son who wanted to die. She really didn't know what the emperor was thinking.

"Have you found that thing?" she asked the old woman coldly.

"Not yet, the emperor has put the things in a hidden place. I have sent people to look for them many times, but all failed. Queen Mother, there is a saying that I don't know whether to say or not."

The old nanny looked at the Queen Mother and said softly.

"When did you and the Ai family become so estranged? Don't talk about it, just talk about it." The Queen Mother glanced at her lightly and said.

This nanny was the maid who had been waiting for her before she entered the palace. After so many years, it can be said that she is the one she has the most contact with. There is nothing else to say.

"Queen Mother, this old slave suspects that the Emperor may not have that thing on his body." said the old nanny.

If there was that thing, how could it not be found for so long? Her people had worked hard on the emperor's side, but they were like looking for a needle in a haystack, without any clues.

She thought that the only possibility was that the emperor was just lying when he said there was such a thing.

"Um."

When the Queen Mother heard her words, she narrowed her eyes. After a long time, she took a deep breath and exhaled heavily.

"Whether you have this thing or not, just keep looking."

Whether or not that thing exists is just a guess. If it does exist, she must find it!

"Yes, I will order people to continue the investigation." The old nanny responded.

...

In other words, the emperor did not get support from the Queen Mother and could only leave in anger.

But how could it be possible for him to give up? He had no choice but to turn around and go to Bibo Palace, where his unfilial son Suizi Mo's mother lived.

In Bibo Palace, Concubine Lian was really shocked when she learned that the emperor was coming.

"Why did the emperor come suddenly?"

She frowned, and before the emperor arrived, she had to think about why the emperor suddenly came to her palace.

Ever since she gave birth to that evil son, the emperor had come to her palace only a handful of times. Even if she later gave birth to a prince for him, he was always unpopular with him.

Therefore, in these years, she would try her best to do things for the emperor, even poisoning her own son for the sake of the emperor.

There was no way around it. In the harem, there was always some way to save one's life. Her eldest son was no longer useful, so it was better to use this useless son to pave the way for her younger son.

"Your Majesty, I heard that the Emperor went to the Queen Mother's Palace just now." The nun on the side quickly reminded.

"Um?"

Concubine Lian's eyes were slightly cold.

When I heard that the emperor went to the Queen Mother's Palace, I knew why.

Ever since Sui Zimo returned to Shaohua City, even her place had been unusually cold. She guessed that he must have known about her poisoning.

However, even if everyone in the palace disliked Sui Zimo, Sui Zimo still could not be cruel to the Queen Mother, because before Sui Zimo was five years old, he could only survive by relying on the Queen Mother's protection.
