

Star of Space 837

Chapter 837 How presumptuous!

"If he is really willing to give you everything, please give me a message to my father. This trip to Baibind Mountain is extremely dangerous. I need someone with good medical skills. I heard that the Imperial Prefecture is recruiting a famous doctor. , if she can go to Baibind Mountain with me, I may consider it.

he said.

"What?!"

Concubine Lian almost jumped up from her chair in shock when she heard his words.

Imperial Master Suyang still has some weight in front of the emperor. Now that the female doctor is detoxifying Suyang's son, how can she leave so easily?

Isn't this Ya Molian embarrassing the emperor?

"Mo'er, I'm afraid this matter won't be easy.

"Then let the concubine go back to the palace, and I will escort the concubine out of the palace." Ya Molian stood up and was about to send the concubine Lian away.

Seeing this, Concubine Lian quickly raised her hand and motioned for him to sit down first.

"Wait a minute, Mo'er, this matter involves a lot. We still allow my mother and concubine to go and talk to your father and tell the emperor a few words before we can get any results. Do you have any other requests? Mother and concubine, please bring the words to the emperor for you. "

"The requirements are there."

Ya Molian turned around, her eyes full of calculation.

...

"He is simply presumptuous in asking for the female doctor in the Imperial Prefect's Mansion!"

In the Imperial Study Room, Concubine Lian was brought over by the father-in-law beside the emperor as soon as she returned to the palace. After a simple salute, Concubine Lian told the emperor all the people and things Ya Molian wanted.

Everything else is fine. Ya Molian can just take whatever is in the treasury.

But the female doctor in the Imperial Prefect's Mansion...

"Your Majesty, I heard that the female doctor has great medical skills. There are many dangers in Baibind Mountain. If we can bring the female doctor with us, we will have an extra guarantee to rescue King Lin. There is nothing wrong with it."

"It's okay?"

Nothing bad!

The emperor's face was dark and he looked at Concubine Lian with cold eyes.

When Suyang mentioned the female doctor, she seemed to be an outsider. How could such a person accept her for his own use just as he said? What's more, let her go into danger and go to a place like Baibind Mountain?

"Do you think that female doctor is so easy to bribe? Huh?"

"Your Majesty, since the female doctor was able to unveil the list and save Su Ri, it proves that she is also a secular person and likes those secular things. You can let her choose a few treasures at will from the treasury. I think, She must be willing to go to Baibind Mountain with King Mo."

Concubine Lian advised.

"this....."

The emperor felt that Concubine Lian's words were reasonable. Who doesn't love gold, silver and jewelry?

However, thinking about it doesn't work.

"It's difficult to deal with the Imperial Master's side." He shook his head.

The female doctor was treating Su Ri's poison. How could she leave? Su Yang would definitely not agree.

Although he is the emperor and has the final say in everything about Weiguo, the national preceptor Suyang is an important minister in the court, and he cannot do it if he does not take it easy on the people he relies on.

"Your Majesty, you should think more about King Lin. He is still on Baibind Mountain at the moment."
Concubine Lian said.

"As for the son of the national master, I just heard on the street that he has been alive and kicking after two treatment sessions. At worst, we will let him go to Baibind Mountain with King Mo. When King Mo and the others enter the mountain, Just let Su Ri wait at the foot of the mountain. What do you think?"

she suggested.

It doesn't take much time just to go up the mountain to save someone, right?

"this....."

The emperor hesitated for a moment and felt that this suggestion was not a bad idea, so he nodded.
