

Star of Space 84

Chapter 84 Go farther away

But this is the mountainous area in Sangsang's name, and she is the rich star in the village. If the Ya clan leader jumps out, he can't afford the risk of being spit on by everyone, so he doesn't dare to say anything.

As for what was said in secret, they pretended not to have heard it.

"Anyway, Sangsang, there's nothing wrong with asking Brother Mo Lian to help. Grandpa probably thought of this and didn't object." He said to Lin Caisang sincerely.

Lin Caisang: "!!!"

They have introduced trouble into the house, will they be less involved in the future? Brother Changfeng, can you stop being so naive?

But what could she say? Nothing can be said! Do you want to tell everyone in the world that Ya Molian is a big-tailed wolf and will probably eat them all? She has no evidence either!

"Forget it, I can only do this for now." She sighed softly and curled her lips.

After all, she shouldn't have accepted the mission, giving Ya Molian an opportunity to attack her family, but their family still regarded Ya Molian as a god!

What's more, there is a Ya Clan leader there, don't look back and cause some trouble!

...

After the meal, Lin Caisang definitely didn't look good on Ya Molian, because he was in an unusually bad mood. Even when asked by Lin Lu and others, he could only answer "um, ah, oh".

Finally, when Ya Molian left, she had already made up her mind, and then she told everyone about something.

"Grandma, grandma, we have almost dug out the medicinal materials in the mountains nearby. I want to go a little further to have a look." She said solemnly.

"Further away? You want to enter the inner forest, but that's not possible." Lin Lu was the first to object.

Her Sangsang family must not go to such a dangerous place in Neilin. There are many jackals, tigers and leopards there, and Sangsang is a girl's family. What should she do if something happens to her later?

"It's not the inner forest, it's the mountains over the town." Lin Caisang said.

It's not like she hasn't been in Neilin before. The medicinal materials dug up these days are all from Neilin, but she can't tell Grandma and the others this.

"The inner forest is dangerous and I don't dare to go there. But I heard that there are many mountains over there in the town. It's not dangerous there. I want to give it a try."

"this....."

Lin Lu looked at Lin Laogan and wanted to ask his opinion.

Of course, according to her wishes, she still didn't want Sangsang to go. After all, it was a girl's house.

"Sang Sang, why don't you let Changhong accompany you?" Lin Laogan suggested.

"No need, elder brother has to watch at home. Grandpa, I can do it alone. It only takes three days to go there and back. I'll go check the situation first. If there are really many medicinal materials, let me Brother, come with me."

Lin Caisang told Lin Laogong what he had already thought of.

After accepting the task, she went to check the situation first. If it was not a serious infectious disease, then she would come back to live at home every day. Anyway, she would just walk a few steps into the space.

But if it doesn't work, then her eldest brother will have to take the blame.

"Sang Sang, you have never been so far away." Lin Baiyi said worriedly.

We have to go outside the town. What if we get lost and can't come back? That's three days, not three hours.

"Uncle Third, there is a first time for everything, so I will try it." Lin Caisang said with a smile.

Anyway, she had booked this trip, and it was a thousand taels of gold. She had to fill her pocket a little more, and she couldn't just throw it away and her pocket would become dry, right?
