

Star of Space 839

Chapter 839 You have to agree even if you don't agree

'You can combine what is recorded in ancient books and weave the white spider silk into cloth, just as the ice silkworm has broken out of its cocoon and turned into a butterfly. You can also collect the ice silkworm cocoon and combine the two. 'audience'

Jade Mirror said.

"The ice silkworm has become a butterfly?"

Hearing this, Lin Caisang raised an eyebrow.

I have been too busy recently to take care of the ice silkworms.

Fortunately, this is the Golden Pearl Space. Even if the ice butterfly breaks out of its cocoon, it is still in the space and cannot go anywhere else.

"I gonna go see."

With that said, she was about to go to the pasture space to take a look, but as soon as she moved her steps, she came back.

"Brother Yujing, please tell me, where is that ancient book?"

She had to hurry up and make use of the white spider silk. Perhaps, while she didn't have to go to Shaohua City in the past few days, she could stay in seclusion for a few days and weave a cloth mixed with white spider silk and ice silk.

Then you can make a suit of clothes for Brother Mo Lian.

As soon as she finished speaking, a jade book fell into her hand. She lowered her head and looked at it. She went to the pasture space with satisfaction to find her ice cocoon.

...

There was a loud 'bang' sound.

Entering from outside the mansion, as soon as he entered the mansion, Suyang raised his hand and punched the wooden pillar beside him.

The wooden pillar cracked with the sound, frightening Butler Xin who followed him through the door.

"Sir, what's wrong with you?" Butler Xin asked quickly.

Wasn't his family summoned to the palace by the emperor? Why are you so angry when you come back?

"What a Suizi Mo, what a King Mo. He has managed to pry the corner of the wall onto the head of his own master. It is really unreasonable!" Gang Gang said in a sinister tone.

When he entered the palace just now, when he saw the emperor, he directly asked him for the female doctor. He didn't allow him to refute at all. He even thought of the reason for his refusal.

He was just a national counselor of Weiguo. He couldn't really disobey the emperor's order for his son, so he could only grit his teeth and nod in agreement.

However, he couldn't bear the thought of having his son take his sick body to a place as far away as Baibind Mountain.

"Sir, what are you..."

"Steward Xin, please go down and prepare everything for the young master. After the female doctor arrives later, he will send the young master to Prince Mo's Mansion and go with Prince Mo... to Baibind Mountain!"

Suyang interrupted Butler Xin's question and ordered.

"What?!"

Butler Xin was shocked when he heard his master's words.

"Sir, you know that the poison in the young master's body has just started to show signs of improvement. How can he travel all the way at this time?"

Doesn't this cost his son's life? Going to Baibind Mountain is such a dangerous place. Who knows? How could he let his son go? Your Excellency just entered the palace. Could it be that this was the emperor's intention?

But why would the emperor do this? Even if no one can be found to save King Lin, his son should not be involved.

"Why don't our teachers know this?"

Su Yang glared at Butler Xin hatefully, his eyes turning scarlet at this time.

"This is the emperor's order for the female doctor to accompany King Mo to the top of the White Blind Mountain. The day is the critical moment for detoxification, so we can only go with the female doctor."

He wanted to refuse, but how could the son of a minister be as important as the emperor's legitimate son?

"The emperor's will? But that girl didn't... If she didn't agree, the emperor wouldn't be able to force her, right?" Butler Xin murmured.

"She has to agree even if she doesn't agree."

Su Yang glared at Butler Xin again.

Chapter 840 Stop her, do you want to die?

He could tell that the emperor had made up his mind this time to let the female doctor follow King Mo to Baibind Mountain. If she didn't agree, who knew what the emperor would do?

But what he didn't understand was why Sui Zimo suddenly proposed that the female doctor in his mansion go to Baibind Mountain with him?

It's not like there aren't many people around Sui Zimo who have great medical skills, not to mention that the person who treats his son's poison is a woman! Could it be that Sui Zimo wanted to use the female doctor as his own?

If that's the case, then things become complicated. Doesn't the emperor think about the meaning of Sui Zimo's actions?

Thinking of this, Suyang sneered and shook his head.

The emperor only had Sui Zilin's idiot son in mind at the moment. How could he think of anything else?

Even if he told the emperor his suspicions, he would only think that he was being careless and that he wanted to resist the order for the sake of his son.

Even so, he had nothing more to say.

"Go get ready."

He said to Butler Xin.

"Sir, this matter... must not be done. King Mo is cruel and murderous. If the young master goes with him, I'm afraid... Sir, you have to consider the safety of the young master."

Butler Xin persuaded his master.

King Mo was probably thrown out to fend for himself at a young age because of the words of his elders. Now that King Mo has gained power, how can you send the young master to King Mo?

Not to mention whether King Mo is really cruel and murderous, just to avenge the past, King Mo will not let the young master live easy, right?

Hearing this, Su Yang took a deep breath.

How could he not think of this? But what can he do? Even if the emperor suppresses his words, how can he resist even if he wants to?

After all, he is a minister, and he has only relied on the emperor's favor and trust over the years to achieve his current status.

"When the time comes, you go with the young master and protect the young master's safety."

After saying this, he strode into the house.

...

Two days later, in the Golden Pearl Space, Lin Caisang organized all the ice silk into silk threads and put them together with the white spider silk.

But also because of this sorting, she understood one thing. Whether it is ice silk or white spider silk, it cannot be woven into cloth first and then made into clothes.

Because she only needed to cut the threads of the ice silkworm silk, she had to break a pair of scissors and sharpen them several times before she could make the ice silkworm cocoons into silk threads.

If the two kinds of silk threads were woven into cloth first, she really didn't know what knife to use to cut the cloth and sew it into clothes. Therefore, the only way she thought of was to directly weave the silk threads into clothes. .

So early in the morning, she appeared outside the gate of Prince Mo's Mansion in Shaohua City, and walked directly inside without letting the guards know.

When a guard saw this, he wanted to step forward to stop him, but was held back by another guard.

"what are you up to?"

"Didn't you see? This little girl is going to break into the palace?" The guard who was grabbed asked the other person.

Was he the only one who saw it? impossible?

"Are you stupid? That's the girl the prince brought back last time. If you stop her, do you want to die?" Another guard said to him angrily.

At that time, he watched his prince holding the girl's hand and leading her into Prince Mo's Mansion. Now she was just wearing ordinary clothes. Don't you recognize this stupid boy?
