

Star of Space 861

Chapter 861 What's wrong? What's wrong?

Moreover, the celebrities around the emperor naturally tended to fawn over each other, not to mention that Lin Caisang and his family had no conflicts and would not become members of two factions just to compete for the emperor's favor.

"Girl, my master is waiting for you in the main hall. For the young master, leave it to the younger one."

He glanced at the prescription list for purchasing medicinal materials that Lin Caisang had given him when he came into the house, and said to her.

"The Imperial Preceptor is here today? Isn't he very busy? I haven't seen him twice before. I thought that the Imperial Preceptor's position in Weiguo is very important." Lin Caisang's voice was filled with surprise. , asked.

Butler Xin: "..."

How should he respond to this? His master is of course an important person.

But at this moment, in the eyes of the emperor, the status of his family is definitely not as good as that of the female doctor in front of him. Who told her that she was the one named by King Mo himself and wanted to go to Baibland Mountain with King Mo?

Even if you don't have time anymore, you still have to make time.

What's more, in the first two times, it wasn't that his adults didn't want to come over and look at their son, but...

After all, he is his son. Seeing him suffer so much, can a father not feel distressed? If he had said something he shouldn't have said because of a momentary heartache and angered the girl in front of him, his family would probably not even have a place to cry.

"My master is busy, but he still has to personally handle the affairs of the young master. The first two times were unlucky, and he happened to be admitted to the palace by the emperor. He could only say this to Lin Caisang.

"That's it."

Lin Caisang also looked understanding.

"That being the case, Steward Laoxin will lead the way. It just so happens that I also have something to say to the Imperial Master, about Mr. Su."

"Girl, please come this way." Butler Xin immediately took her to the main hall.

There, there was not only the Imperial Preceptor Suyang, but also the father-in-law who came here specially from the palace. The most powerful person around the emperor knew that Lin Caisang would come to treat Suri today, so he was sent to the Imperial Preceptor's residence early in the morning. Waiting on it.

...

After serving tea, snacks, fruits, etc., Butler Xin went to the backyard to busy with Su Ri's affairs. In the main hall, only Lin Caimulberry, Su Yang and the father-in-law were left.

"National Preceptor, this is..."

Lin Caisang looked at Su Yang and raised her eyebrows lightly at him. The corner of her eye was focused on the father-in-law who was looking at her calmly.

"Oh, girl, this is Eunuch Su who is in the palace. The celebrity next to the emperor is Eunuch Su. This is the female doctor who treats my family's children." Suyang heard her question and quickly introduced him. road.

"It turns out to be Eunuch Su."

Lin Caisang lowered his head slightly, with an almost invisible smile on his face.

Just such a smile made the hairs on Su Yang's whole body stand on end, and he couldn't help but cough lightly.

"cough!"

However, it was no use. Eunuch Su continued to look at Lin Caisang as if he hadn't heard anything. His eyes were as if the person he was looking at at the moment was just a piece of goods, and he wanted to estimate the price first.

"Eunuch Su..."

Seeing that the slight coughing reminder was useless, Su Yang stiffened his mouth and called Eunuch Su, wanting to remind him not to offend the bottle Buddha in front of him.

However, before he could say anything, he heard Eunuch Su scream and raised his hands to cover his eyes.

"What happened?"
