Chapter 866 Just... was poisoned again

Lin Caisang said.

"This... girl, as long as you can accept the emperor's will, the emperor will definitely reward you heavily."
Suyang said.

The implication is that since you have received benefits, you should do things as a matter of course. As for whether you are grateful or not, there is no need to mention it. After all, who dares to say in front of the emperor whose love the emperor is grateful for?

Another point, just now Lin Caisang mentioned the word "you defend the country"?

He secretly wondered, could it be that this girl was really not a member of the Wei Kingdom, so she didn't have the awe when facing the Emperor of the Wei Kingdom?

However, these are not within the scope of his consideration now. He does not care about anything else. What he wants to do is that his son can be safe and sound, detoxified, and then return safely.

"Does the Imperial Master think that a small reward would be enough for me to go to a place like Baibind Mountain?" Lin Caisang asked him with a chuckle.

Suyang: "..."

Why is it just a small reward? What he said was obviously a heavy reward.

However, considering that Lin Caisanguang took so much money and rare treasures from him, he must have a lot of good things on hand. Will she take notice of those rewards?

probably not.

"What does the girl think should be done?" he asked.

"How can I settle this after I say it? I'd better wait until we enter the palace and ask the emperor about it. Imperial Master, what do you think?" Lin Caisang asked him.

"Yes, the girl is right." What else could Suyang say?

Of course, we can only follow Lin Caisang's wishes and go to the palace first.

...

On this side, Su Yang and Lin Caisang were slowly preparing to enter the palace. On the other side, Eunuch Su suffered a big loss in the Imperial Prefect's Mansion. How could he not file a complaint in front of the emperor?

It's a pity that now, even if he wants to file a complaint, he doesn't know how to file a complaint.

He was illiterate, and now that he had lost the ability to speak, how could he complain. He could only lie down in front of the emperor and express his grievances with tears on his face.

"How is this going?"

When the emperor saw Eunuch Su like this, he was quite shocked. He looked at the two guards guarding the palace gate and the guard commander who helped Eunuch Su back.

"Back to the emperor, Eunuch Su was sent to the palace gate by the guards of the Imperial Prefecture. When the minister saw Eunuch Su, Eunuch Su was already speechless." The guard commander knelt on the ground and reported to the emperor. .

"How could this happen? Did the guards of the Imperial Prefect's Mansion say anything?" The emperor frowned, looked at Eunuch Su displeased, and asked the guard commander.

No matter what, Eunuch Su was still the person he sent to represent his face. He was bullied and sent back. His face was also beaten very painfully. In this round, he must pay it back.

"Back to the emperor, the guards of the Imperial Preceptor's Office said that Eunuch Su had been staring at the female doctor after seeing her. The Imperial Preceptor tried to persuade her a few times, but it was of no avail. The female doctor had already treated Eunuch Su. He was poisoned once, and he was blind at the time. Later, the imperial master begged for mercy, and the female doctor detoxified Eunuch Su. But later, Eunuch Su still refused to listen, and in the end, he did not know what he said to offend the woman. The doctor was...poisoned again."

The guard commander replied.

Eunuch Su, who looked higher than his head, finally suffered his retribution.
