

Star of Space 895

Chapter 895 What exactly is there?

"Can you find out who that person is?" she asked.

"not easy."

Yamolian shook his head.

Of course, if you really want to check it, you can find it out. It's just a matter of time and how to check it.

But if he really had to do this, he thought, the price would be very high.

Although he also wanted to know what kind of hand was controlling everything behind the emperor's back, he still had to take his time on this matter. He thought that this matter really couldn't be rushed.

"If it's not easy, then investigate slowly. You will always know the truth." Lin Caisang thought the same way.

"Have you got the antidote?" she asked.

In fact, you can ignore it, the antidote must be obtained, which is very crucial for her to develop the antidote.

"Um."

Yamolian nodded.

As she raised her hand, there was already a porcelain bottle in her palm, which was handed to her.

Lin Caisang took the porcelain bottle into his hands, opened the lid of the porcelain bottle and poured out the pills inside. He looked quite surprised when he saw that there were five pills.

"so many?"

She raised her eyebrows and looked at Ya Molian.

"All I asked for from him was five pills, but I never thought..." Ya Molian curled her lips.

"I didn't expect that he actually gave you five pills without even bargaining, right?" Lin Caisang continued what he said.

"From this point, we can see that the purpose of this trip to Baibind Mountain is not simple. It seems that it is not the emperor who wants you to go there, but the hand behind him that wants you to go to Baibind Mountain."

she said.

"I don't know what is in that place?"

"You'll know when you go there," Ya Molian said.

...

It was quite quiet all the way to Baibind Mountain, and nothing happened.

Originally, whether King Mo was traveling or those who did not want King Lin to come back, they would all want to make this journey a little more difficult for Ya Mo Lian.

But this time, for the first time, nothing happened. The biggest difficulty for their group was the addition of Su Ri.

He was knocked unconscious by Su Yang before and was taken away. When he woke up and staggered in the carriage, it was already dark. Seeing that he was in the carriage, Su Ri didn't even think about it. To rush out.

"ah!"

Butler Xin was sitting outside the carriage when he was hit by Su Ri's round body and fell off the carriage.

And the carriage was moving, so it was impossible for the people who fell off the carriage not to be injured. When the coachman saw this, he immediately stopped the carriage and went to help Butler Xin up.

"Butler, are you okay?"

"it's okay no problem."

Butler Xin shook his head helplessly, feeling that this mission was really the most difficult one he had ever taken on.

This Mr. Suri...

"No, why don't you hurry up and chase the young master back!"

Thinking of Su Ri, his face turned green, because Su Ri had already jumped off the carriage and ran away while he fell and everyone ignored him.

As soon as the guards of the Imperial Prefect's Mansion heard what Butler Xin said, they hurriedly chased after him and dragged Mr. Suri back, who was already out of breath after running a few steps.

"Xin, please let me go. Who asked you to bring me out? I want to kill you bastards. You and that bitch are in the same group. They worked together to deceive me. If you want me There is no chance for the young master's life!"

Su Ri was dragged from left to right by the guards, still yelling and cursing.
