

Star of Space 899

Chapter 899 Wasted.

No. 8

Ya Molian: "!!!"

Is this girl planning to live on Baibind Mountain for a few years? I actually bought so many things!

In fact, Lin Caisang hasn't said yet that she also bought a lot of salt and seasonings. Anyway, she spent a lot of money, and she has prepared everything she needs to prepare.

"I will stew a chicken for you every day from now on," Lin Caisang said.

After thinking about it, I felt something was wrong. I couldn't get tired of eating chicken every day, so I looked at them a few times and changed my tone.

"Well, you drink the chicken soup and let them eat the meat. It's the best of both worlds."

...

On this side, Ya Molian and Lin Caisang were eating delicious barbecue and drinking vegetable porridge and chicken soup. On the other side, Butler Xin's life was not easy. While he couldn't eat or drink well, he also She had to take care of Su Ri who was knocked unconscious.

Without Su Ri yelling and screaming there, although Butler Xin and his team had to work harder and had to take care of Su Ri who was knocked unconscious, it had to be said that the trip was still much faster.

On the third day of his trip to Baibind Mountain, Lin Caisang brought the custom-made items from the iron shop in Ye County, but he still put them in the space without taking them out for later use.

"Brother Mo Lian, come here and take a look at this."

It was another night, also in the wild, but no longer beside an official road, but on a real forest road.

"What's this?"

Ya Molian walked toward her and saw a bundle in her arms. She didn't know what was in it.

"Didn't I say I wanted to make you a shirt a few days ago? Did you forget?"

Lin Caisang raised her eyebrows. This dress took too much effort on her part. She almost lost a lot of her hair. It was too difficult to make, so she couldn't blame her.

"No, I finally made it last night. Why don't you go try to put it on? But don't dislike it, the clothes are white."

She pushed the bundle into his arms and said.

"have a look."

Ya Molian only uttered two words, but the smile on her face showed how happy she was at the moment.

The next moment, the baggage was unpacked, and the thousand-needle coat inside, because it was very thin and slippery, suddenly fell to the ground. Thanks to Yamolian's quick hands, she was able to fish the garment back out.

"This clothes..."

The palm of his hand touched the clothes, and he could immediately feel that this clothes was different.

"Has the ice silkworm turned into a cocoon?" He asked Lin Caisang with a side glance.

"It turned into a cocoon a long time ago, and now it has turned into an ice butterfly." Lin Caisang replied.

Hearing her words, Ya Molian frowned and looked at her with disapproval in her eyes.

"Silly girl, you should make yourself an ice silkworm suit. Making this suit for me is a waste."

There is no doubt that clothes made of ice silk can block the damage caused by sharp weapons. Does he still need ice silk clothes as a person with great kung fu?

On the other hand, this girl doesn't have any time to stay close to her, but she always wanders among all kinds of dangers. How can he rest assured?

"How can it be wasted? I specially made this dress for you. In addition to ice silk, there are other items. Guess what it is?" Lin Caisang raised an eyebrow and asked him.

"What?" Ya Molian naturally didn't want to guess and asked her directly.

"White spider silk is harder than ice silk." Lin Caisang said.

"White spider silk, isn't that the white pearl that is only found in Baibind Mountain?" Ya Molian lowered her eyes and glanced at the clothes in her hand.
