

Star of Space 903

Chapter 903 What's not peaceful is the way back

"Get these things ready, and the rest is none of your business.

After saying that, she glanced at the other people who were not part of the Imperial Master's Mansion, and then turned back to Ya Molian.

"Steward, why don't you tell her directly? With her following King Mo all the way, it will be really difficult for us to explain to the Imperial Master after we go back." Seeing Lin Caisang leaving, a guard came forward and asked Xin Said the butler.

"roll!"

Butler Xin glanced at him and said one word directly.

They haven't understood what Lin Caisang said just now. She doesn't need to care about whether she is a national teacher or not. And she also knows that there are the emperor's spies around her. The reason why she is so close to King Mo is to tell others , she is not afraid of anything!

"This female doctor seems to want to stand on King Mo's side. On the other side, those people sent by the emperor looked at Lin Caisang's attitude, and their expressions were not very good.

After all, they came from the Imperial Prefect's Mansion. Even if they wanted to intervene under the emperor's order, they could not interfere openly with who Lin Caisang wanted to go with.

However, seeing Lin Caisang eating and walking together with the people from Prince Mo's Mansion, they were really angry.

Prince Mo's Mansion! Sui Zimo!

What is so great about this man? A prince who can never become a ruler, a man who is destined to be stepped on. Why is Lin Caisang willing to associate with King Mo?

As for them, they were sent by the emperor, so they represented the emperor. Is Lin Caisang blind? Let their group not fawn over and insist on following King Mo's people.

What's the use of trying to please King Mo?

"Chief, should we get rid of her..."?

A guard looked at Lin Caisang's back with pity and asked the leader beside him.

"Shut up!"

The leader glanced at him fiercely.

"King Lin is still on Baibind Mountain!"

He also wanted to get rid of Lin Caisang, a future problem, to prevent her from becoming a sharp arrow in King Mo's hand, which would be detrimental to the emperor, the queen and King Lin, but now was not the time.

"Save her life first. Once King Lin is rescued, she will not be able to return to Shaohua City alive." He said.

"Yes, leader, I understand." The man nodded.

...

"It seems that this road is not so peaceful."

On Ya Molian's side, Lin Caisang took out a bottle of honey, put it aside, asked Ban Wu to brush the barbecue with a brush, and continued to speak to Ya Molian.

Feeling those scorching eyes on her back, as if they were about to shoot hundreds of holes in her body, it was funny to think about it. Whoever she was sitting with, did she still have to look at their expressions?

"What's not peaceful is the way back." Ya Molian said.

"hehe."

Lin Caisang smiled, feeling that he really told the truth.

Yes, they haven't entered Baibind Mountain yet, and they have to rely on her for many things. Even if those people want to make plans for her, they don't dare.

But if they really rescue King Lin, those people will have nothing to worry about. They will definitely try their best to attack her. There is no other way, who can let her and her brother Mo Lian, it is really... How about getting too close?

"Master, girl, the meat slices are roasted, you can eat first."

Jiang Li put all the meat skewers in his hand on a plate and handed them to the two of them.
