

Star of Space 908

Chapter 908 You deserve to die!

"Girl, please stay in the courtyard at the edge of the village. Ye Yan)" he said.

"That's fine."

Lin Caisang nodded after thinking for a while.

"Here, here are these two prescriptions for you. Use the medicine on the first prescription for the first or second time, and use the medicinal materials on the second prescription for the third and fourth time. If we haven't come back after a month, then Continue to take the medicine on the second prescription, do you understand?"

She handed two prescriptions to Butler Xin and explained.

"I understand, little one." Butler Xin nodded.

I just treated the young master last night, and these two prescriptions can last for more than a month.

But even so, he is still worried. Where is Baibind Mountain? Can there be one round trip in a month?

That place has always been known as a place that you can never return to. How many people want to earn a reputation on Baibind Mountain and come back, but they never come back?

"Girl, you have to be careful, the little one is waiting for you to come back in the village.

"Um."

Lin Caisang nodded, and without a moment's hesitation, he followed Ya Molian and his party up the mountain.

...

In less than an hour, a group of fifty people had arrived at the real foot of Baibind Mountain. After getting off the carriage, they planned to abandon the carriage and horses.

Standing beside the carriage, Ya Molian raised his hand, and everyone stopped and looked at him.

"Palace Master."

Ban Jue came over immediately.

"Let everyone rest where they are for two hours and set off after lunch." Ya Molian ordered.

"Yes, Palace Master."

Ban Jue responded and went out to spread the message.

"Rest? Why do you need to rest? Can't you go up the mountain first and then eat?" When the leader sent by the emperor heard that Ya Molian wanted to rest before he went up the mountain, he couldn't help but question Ban Jue.

"What the prince means is that no one knows what dangers there are on Baibind Mountain. Eat first before going up the mountain. At least you have a guarantee." Ban Jue said.

In fact, what he wanted to say was that these people sent by the emperor went to Baibind Mountain to help them. They were all a burden, and they would definitely not have the time to pay attention to these people.

After eating this meal, you are in danger, at least you won't starve to death!

"What's going on with King Mo? Can't you eat without a meal? We are here to rescue King Lin, not here to enjoy ourselves." The leader was very polite to him when he saw that he was relegated, thinking that he was afraid of him. The voice was louder and the words were even more irritating.

"I'm just taking a break and having a meal. It won't take long." Ban Jue glanced at him lightly and said.

"Why won't it waste time?"

The leader questioned the ban without mercy, feeling that King Mo was simply stalling for time.

"Have you not wasted too much time on this journey? We have reached the foot of the mountain and we still need to rest. Why is King Mo so busy? Can't he go up the mountain first? You know, King Lin didn't know what he encountered on the mountain. Danger, if we go late..."

"He deserves to die!"

A cold voice interrupted the leader's words.

He glanced sideways and met a pair of cold eyes, making him take a step back.

"Aunt... girl, you..."

"What's wrong? Leader Mo, do you want to part ways with us and take your subordinates to Baibind Mountain to find out what's going on?" Lin Caisang looked at him and asked.

"This... girl, the emperor ordered his subordinates to follow His Highness King Mo. I must not take the first step." He swallowed and his voice could not be lower.
