

Star of Space 912

Chapter 912 That's impossible!

"What's the matter?" Lin Caisang turned around and looked at the man.

"Girl, you are from the Imperial Prefect's Office and were sent to Baibland Mountain by the Emperor. You should be with us." The leader looked at Lin Caisang, swallowed, and reminded.

This Baibland Mountain was really weird. He was afraid that if they got inside, they would not be able to get out, so he had better get Lin Caisang to his side first.

"laugh."

Lin Caisang sneered, as if he had heard a big joke.

"Don't say that the emperor didn't ask me to protect you. Even if the emperor did, so what? Who I want to protect is my own business. I can do whatever I want.

Furthermore, you just betrayed your companions, and you still want me to stay by your side, so what? Do you want this girl to be your shield when you are in danger? Haha, then we have to see if you have that ability.

How shameless you are, you dare to instigate this to me. Have you forgotten that the reason why I agreed to take this trip to Baibland Mountain is because Prince Mo asked me to go with him.

Even if Prince Mo proposed it, what does that have to do with you? "

"you--"

The leader didn't expect her to say that.

Just now, he thought that they were sent by the emperor after all, and this female doctor always wanted to save some face for them.

But she didn't expect that she really didn't save any face for them or the emperor.

"Girl, no matter what, we have to go up the mountain together, right?"

"What is it? If you are willing, we can go up the mountain separately. I have no objection. The leader can take the first step. As for what you just said, you want me to stay with you, that is impossible! "

Lin Caisang glanced at the direction of the blood river again, and a sarcastic smile appeared on his slightly pale lips.

"That person must have been with the leader for many years, right? A subordinate of many years can be betrayed like this, regardless of life or death. I have only known the leader for a few days, and I don't want to lose my life here."

After saying that, she took the lead and left.

"Do your own thing!"

After Yamolian gave the leader a cold warning, she also left together.

"you....."

The leader was really angry as he watched the two people leave.

But besides getting angry, what else can he do? One of them is Prince Mo, and the other is a female doctor who can use poison. He can't mess with either of them now.

"Just wait. When King Lin is rescued, you will have something to look at."

Staring at the backs of the two men, he gritted his teeth and said.

...

Two hours passed quickly.

Ya Molian ordered people to distribute all the food that could be taken away on the carriage to Exiled Jue and his party.

"Don't hold it with your hands, carry it on your back, or wrap it around your waist. In short, both hands must be free." Lin Caisang said as he looked at everyone holding something in their hands.

"Did you see the river of blood before? There is so much blood, whether it is human or animal, we must prevent ourselves from being attacked by wild beasts as soon as we enter the White Blind Mountain."

After listening to her words, everyone put the things on their backs and tied the things around their waists. With both hands free, they held the swords in their hands, always on guard against wild beasts approaching them. .

Ready for battle.
