

Star of Space 915

Chapter 915 It's really going to be over

He pulled back hard and finally pulled the person back.

"Phew, I was scared to death."

It wasn't until he stood steadily next to Ya Molian that Lin Caisang let out a heavy breath, raised his free hand and patted his chest.

"This place is really extraordinary."

The two footprints were so close, and she thought she was safe, but she didn't expect that the two people would be pulled into different places.

"Are you okay? Are you injured?"

Ya Molian looked her up and down and asked.

At this moment, he also had lingering fears, and he was still scared when he thought about it.

"fine."

Lin Caisang shook his head quickly.

"Brother Mo Lian, help them later," she said.

If a group of people were assigned to different places, it would take too much time to gather them together. But now, they don't have that much time to find different people in different places.

"Um."

Yamolian nodded.

Soon, Jiang Li and Jiang Zuo came over. Just as Lin Caisang expected, if Yamolian hadn't reacted quickly and helped Jiang Li hold Jiang Zuo's hand, Jiang Zuo would have ended up there. went.

"how so."

Jiang Zuo, who was standing firm, looked pale at the moment.

"Mother, luckily you found a way, otherwise we would really be doomed."

At this moment, he felt lucky. After all, the four of them were still together and had not been thrown to different places.

"Stop talking so much, remember to help me later." Lin Caisang said to Jiang Zuo.

But as soon as he said the words, he felt something was wrong, so he quickly added another sentence.

"No, you'd better stand by my side. Don't cause trouble for your master and Jiang Li. What if the person who comes back is sucked away instead of being pulled back by you? Things will be serious."

Jiang Zuo: "..."

Mistress, do you really think your subordinates are that useless?

Even if it's useless, you can't say that in front of your subordinates. I don't want to lose face, right?

"All right."

He touched his nose and stood next to Lin Caisang automatically.

Next, pairs of people walked in, and all the people on the right were pulled back without exception.

In addition to banning Jue, Wu, Jiang Zuo and Jiang Li, there are eight people brought by Yamo Lian. After they all come over, Mo will be the one to lead them.

However, because of Commander Mo's arrogance and self-righteousness, their losses were still very heavy.

Not to mention the two people who were ordered by Commander Mo not to step on the footprints, but the two people who came together without holding hands could only be seen on the left, and the one on the right...

Sorry, you can cool off wherever you like.

"Prince Mo, girl, what on earth is going on?!"

Seeing that less than half of the people on his side had already disappeared just after they entered Baibind Mountain, Commander Mo was completely confused at this moment. Moreover, with his head burning, he blamed all the faults on Yamo Lian and his party. .

"Didn't I warn you before coming in? Don't Commander!" Ya Molian asked him coldly.

"I....."

Commander Mo is now a mute eating yellow lotus. He cannot express the pain.

"Then you and the girl should remind me again. If I had known it was so dangerous, I wouldn't have lost so many people." He gritted his teeth and said to them.

"Ha, that's ridiculous!"

Lin Caisang smiled sarcastically.
