Chapter 921 A poisonous little thing

"Let's not mention Qianhuan Continent. Let's talk about this place first. There are many monsters here, many, but there are also many, many caves like this. The King Lin we are looking for is probably hiding in some cave. , I don't know if I'll be hungry enough to do it.

she said.

"Well... King Lin won't be... eaten by those monsters outside..." right?

Commander Mo didn't dare to finish a sentence. He couldn't speculate on King Lin's life and death, and it wasn't like he didn't want the head on his neck.

"Don't worry, King Lin is definitely alive." Lin Caisang said with a smile on his red lips.

To lure them to Baibind Mountain, there must be a living bait. If King Lin is completely dead, they know they don't have the person they are looking for. If they don't fall into the trap of the person behind it, Yes, what should I do?

"How did you know?" Commander Mo asked.

"Commander Mo, if you shouldn't ask, don't ask."

Ban Wu raised his hand, patted Commander Mo's shoulder, and squeezed it tightly with his fingers.

"Just like the secrets you just mentioned that are related to the royal family, we will not spread them indiscriminately. Do you understand?"

Commander Mo: "..."

Do you think he wants to tell the secrets he overheard? It's not just to be able to leave this hellish place alive!

...

After a while, Ban Jue came back with a few people. Everyone's body was covered with a little bit of blood, and the smell of blood was also very strong.

"Sir, girl, those storks are really hard to kill, but there are some small animals on Baibind Mountain that are quite easy to hunt." Watching several people pile the prey aside, they faced their palace master and said the mistress.

But at this moment, Lin Caisang frowned and raised his hand to cover his mouth and nose.

"Exiled, throw these things out."

She looked at the prey that was abandoned by several people and said.

"Why?"

Ban Jue asked, not knowing why.

They hunted it with great difficulty, why did they throw it out? It's a pity, okay?

"Is the blood on your body also from these animals?" Lin Caisang asked instead without answering his question.

"No, these belong to the stork. A few of us worked together to kill a lone stork, but the thing was covered in thorns, so we didn't take it back. We only took these small prey."

Exiled Jue replied.

Although they don't know what these small prey are called.

"so....."

Lin Caisang looked at the small prey in Ban Jue's mouth, and then looked at Ban Jue.

"Did you throw away the stork meat that could be used to eat, but instead brought these little poisonous things?" she said quietly.

Although she wouldn't eat the meat of a ferocious stork, a beast that likes human flesh, she couldn't bear these poisonous ones, could she?

"What? Poisonous?!"

When several people heard this, they immediately moved away from the little things that had no breathing.

"Throw it out quickly, throw it out."

When Commander Mo heard that it was poisonous, he quickly shouted.

"If you don't go help and get those damn things out, people will be poisoned to death!"

After a period of movement, all the poisonous small prey in the cave were cleared out and thrown far away. They were expelled and returned angrily.

Because I found that I had worked very hard, but I didn't bring back anything to eat.

This White Blind Mountain is indeed poisonous. The ones that appear to be edible are poisonous, and the ones that appear to be inedible... are actually inedible. Who told them to grow up eating human flesh?
