

Star of Space 924

Chapter 924 Follow me

It makes some sense, but the most important thing is that I don't know how to banish it.

"I applied a poison to the top of the bamboo piece. As long as the stork is injured, it will be poisoned and fall down even if it doesn't die. It will be much easier to kill it then," she said.

"What? Poisonous?"

When everyone holding the long bamboo pieces heard this, they couldn't help but shake their bodies.

When did they add the poison? They secretly cut the bamboo, and then there were piles of bamboo slices cut by people. They didn't even see how she touched these long bamboo slices.

Has it actually been poisoned?

Sure enough, you can't afford to offend anyone who knows how to poison. It's too scary.

"Don't worry, I won't make fun of your lives."

Lin Caisang looked at how timid they all were, almost throwing away the long bamboo pieces in their hands, and curled her red lips.

"As long as your wounds don't touch these poisons, nothing will happen to you. Even if you touch the wounds, you will fall down and suffer a little pain at most. You can still be saved by then, and none of you will die.

Of course, if I can't take advantage of the stork's tusks and long thorns, it won't be up to me whether I die or not. "

"We may not encounter fierce storks, right?" Everyone said, looking at me and me at you.

It's quiet outside. Presumably those storks have left, right? Even if they go out now, they may not be so unlucky and run into those monsters, right?

"There are not only ferocious storks but also other magical beasts. You think there are only such small ferocious storks on Baibind Mountain, but there are many large magical beasts." Lin Caisang said.

"Is there any monster bigger than this?"

After hearing this, everyone was simply stunned.

"Your Highness King Mo, Prince Lin and the others should be walking in the direction with the thickest purple light. We are also walking in the same direction, so we can't go wrong." Lin Caisang ignored the others and looked at Ya Molian, said.

"Um."

Yamolian nodded.

"You follow me."

He said something and pulled Lin Caisang directly behind him. Ban Jue and Ban Wu stood directly behind Lin Caisang, showing their attitude of protecting her.

There is no other way. She really doesn't know any kung fu and can only play tricks. Once she encounters a tough situation, her tricks will no longer work.

The group of people came outside the cave again, and sure enough, Meng Zhe's figure was no longer there.

"Master, girl, these stork footprints are all going in the same direction, over there." Jiang Li squatted on the ground, looking at the footprints as big as one of his hands, and looked up Ya Molian and Lin Caisang said.

"It looks like there's someone over there."

Lin Caisang looked in that direction and spoke quietly.

"Could it be His Royal Highness Linwang and the others?"

When he heard someone, Commander Mo's eyes suddenly lit up.

At this moment, he wished that King Lin would appear in front of him immediately, so that they could quickly find a way to leave this ghost place.

"Do you think it's that easy to find someone?"

Jiang Zuo rolled his eyes at him and looked at him with contempt.

"Sir, I went to inquire about the village under Baiyunxia before. Since the purple light appeared on Baiyun Mountain, many groups of people have come in one after another. The last group may have come to save people, and they were ten years ahead of us. God, maybe those storks are looking for them."

He said to his palace master.

"No matter who it is, there is nothing wrong with going and taking a look." Lin Caisang spoke up for Yamo Lian.
