

Star of Space 925

Chapter 925 What a way to seek death

Yes, no matter who is in front of you, you always have to try your luck. What if it is that idiot Sui Zilin? Although this possibility is slim, we cannot let go of any possibility.

"Let's go."

Yamollian pulled her and took the lead in the direction of the stork's footprints.

"What...what do you mean, we still have to chase the stork?" Commander Mo was dumbfounded as he watched them all leave one by one.

Those are man-eating monsters. If they don't run for their lives when they see them, they actually follow their footsteps? How can there be such a thing?

"Girl... girl, didn't we agree before, didn't we go to the place with the strongest purple energy?" He quickly chased after him and asked Lin Caisang, who was surrounded by Ya Molian and Ban Jue Wu. .

"Aren't you looking for your Royal Highness, Prince Lin?"

Lin Caisang just glanced at him and continued to look forward.

"Of course I have to look for it, but..."

"Don't come with this girl. But as long as you see traces of someone, you must go over and have a look. If you don't want to go over, that's fine." Lin Caisang interrupted him and said.

"Can....."

"Commander Mo, do you know how much you want to die?" Lin Caisang interrupted him again when he saw that he wanted to speak.

"ah?"

Commander Mo opened his mouth, not understanding the meaning of her words at all.

"Girl, what do you mean by this?"

"I just want you to shut up. Don't you know that in dangerous places, the more talkative people are, the sooner they will die?" Lin Caisang said sharply.

He really didn't know how much she wanted to reach out and slap this talkative man into the ground at this moment. She was already tense physically and mentally on the White Blind Mountain, but this man kept talking. And it's all nonsense!

"Get away, don't bother me!"

Finally, unable to bear it any longer, she roared at him.

Commander Mo shrank his neck when she shouted and could only step aside.

"His Royal Highness King Mo, I actually think that we should go to the place with the strongest purple energy as soon as possible. Since... he wants us to come to Baibind Mountain, he must be waiting for us at the place with the strongest purple energy. King Lin also It should be there."

She looked at Ya Molian's back and reminded.

In other words, those people from Jiulian Palace were also in the place where the purple energy was the strongest, so there was no need for them to move around.

However, the way she looked at Ya Molian before, it was clear that she wanted to keep looking for someone, and she didn't understand why she was doing this. Is there something she didn't know about?

"We still need to find a group of people." Finally, Ya Molian lowered her voice and said.

"What?"

Lin Caisang thought he didn't hear clearly.

We still need to find a group of people. In other words, when they come to Baibind Mountain, they are not only looking for King Lin and the people who came from Jiulian Palace before, but they are also looking for three groups of people? Who is the other group of people?

"The emperor of Shuyue Kingdom has some friendship with me. He also sent a group of people to Baibind Mountain before. This time he heard that I was coming to rescue King Lin, so he sent people specially to ask for help."

Ya Molian continued.

"So, if I can find people from the Shuyue Kingdom, I would also like to take them back. However, these people have no direct contact with me after all, so it will take some trouble to find them, and I don't know whether they are dead or alive. "

He said honestly.

"Whether it's troublesome or not, I'll look for it wherever you ask. Anyway, there's enough food." After thinking about it, Lin Caisang said.
