

Star of Space 926

Chapter 926 I've been walking for too long and I'm hungry.

Even if it's not enough, with her here, it's enough to bring the food directly from Ye County. In short, even if he stays on Baibind Mountain for a year, nothing will happen.

"It's just that I don't understand. Shuyue is just a small country. How dare Emperor Shuyue compete with countries like Liang and Wei to come to Baibind Mountain?" she asked.

If the emperor of a big country knew that a small country like Shuyue dared to compete with them for treasures, he could directly send troops to destroy Shuyue.

"Not only Shuyue Kingdom, but other small countries also sent people here." Ya Molian explained.

"It's just that according to Emperor Shu Yue, he was deceived and sent people to Baibind Mountain. He has been regretting and worrying about it since then. He didn't dare to tell the matter outside, so he could only send people secretly. Ask me for help.

"Indeed."

Lin Caisang nodded.

If something like this were known to an ambitious person like Emperor Wei, they would be able to send troops based on this excuse alone.

"Baibind Mountain is actually not big, just look around more," she said.

"Um."

Yamolian responded.

...

However, talking about the small Baibind Mountain, a group of people followed the traces of the stork, but except for the footprints, they didn't see anything else, let alone a person.

Two hours passed like this, and the sky had already gotten extremely dark, and it was almost early morning.

'Gulu, gulu.'

At this time, someone's belly growled unsatisfactorily.

Ya Molian, who was walking in front of her, paused and turned to look at her. She raised her head in embarrassment and curled her lips.

"I've been walking for too long and I'm hungry."

"Exile Jue, let everyone rest where they are." Ya Molian immediately ordered.

"Phew, I can finally sit down."

After hearing King Mo's words, Commander Mo felt relieved and sat down directly on the ground.

"I don't know what's going on in this place. Every step I take feels so heavy. I've never been so tired from fighting. It's really strange."

I have to say that what Commander Mo said is the truth. Every step he took in Baibind Mountain, it was as if something was pulling on his feet, trying to make him take root in the same place and make him unable to walk anymore. .

Therefore, Lin Caisang had only been walking for two hours when he felt his stomach growling with hunger.

"Chief, are you okay? I'm going to collect some firewood for cooking." The guard next to him said obediently when he saw his leader sitting down.

"etc."

When Commander Mo saw that he was about to leave alone, he immediately called out to him.

"Take two more people there, don't get separated."

This time he learned his lesson and couldn't scatter people one by one. More people must act together.

"Yes, leader." The guard responded.

"Just pick some up around here. Don't go too far. If you can't find them by then, I will ask you for help!" Commander Mo said again.

On the other side, Jiang Zuo and the others listened to his words and couldn't help rolling their eyes at him. If the person can't be found, who is this guy going to take, himself?

"Master, my subordinates also went to pick up some firewood." Ban Jue said.

"No, just eat some dry food and rest for a while." Lin Caisang spoke before Yamolian could answer.

"It's better to pick up some firewood and come back."

Ya Molian disagreed with Lin Caisang's words and gave orders to banished Jue.
