

Star of Space 929

Chapter 929 Can I drink that?

"No matter what their losses are, since we met them, let them go with us." Lin Caisang glanced at Ya Molian, then looked at those people and said.

"Just give Luoyun Country some face and make a good relationship."

Jiang Zuo: "..."

Mistress, go ahead and make your own plans. Why are you so good at doing this?

But I have to say that what his mistress said was right to their liking. The master of his palace was having a hard time in the Wei Kingdom. If he could get help from the princes of other countries, it would be a big help.

"yes."

He responded.

"Jiang Zuo, go and check our water usage and bring all the used water bags to me." Lin Caisang ordered him again.

Hearing this, Jiang Zuo glanced at her.

"what do you mean....."

His Ziyou has always been with his mistress, and he can vaguely guess that her mistress has something that can save her life.

Otherwise, how could his mistress take out so many things from the small satchel around her waist every day these days? She should have finished them by now, right?

"There are a lot of poisons in Bai blind mountain. It's better not to drink the water here. From now on, you can bring the used water bag to me every three days. Only you know about it."

Lin Caisang ordered him.

"Yes, girl." Jiang Zuo responded.

"Water is a problem."

After Jiang Zuo left, Ya Molian spoke quietly.

"It's no trouble. I have plenty here." Lin Caisang chuckled at him and replied.

On the other side, they drank rice soup, ate dry food cakes, and looked at the rice brought by Commander Mo and the others. They were really embarrassed to eat any more, so they stopped eating, and under the leadership of Exiled Jue, they went to change the rice in the distance. Clean clothes.

Ban Jue originally wanted them to clean the dirt on their faces with water, but a few people refused.

I just wiped my face with a damp cloth soaked in water, saying that I could save some water.

"Although there is water on Baiblind Mountain, people who drink the water either have stomachaches or can't sleep. It's really scary." The leading man had already sat in front of the fire, facing Ya Molian and Lin Caisang. said.

"Then what have you been drinking for so many days?"

Commander Mo was the one who forced his way over and sat diagonally opposite the man.

"My men climbed to the top of the tree, picked some fresh leaves, and pounded the juice to drink." The man said.

Hearing his words, the hairs on everyone's bodies stood up. They actually drank the juice of young leaves. It was really terrible for people to reach such a desperate end.

"Can I drink it?"

Jiang Zuo secretly rubbed his arms and asked while swallowing.

"I can drink it, why can't I drink it?"

As long as it allows them to survive, there is nothing they can't eat or drink, and it doesn't have to be poisonous.

"When all the water in your hands is finished, you will know whether you can drink it." He said.

Jiang Zuo: "..."

He snorted in his heart, as long as his mistress was here, they would never be short of water!

"You guys, you can save a little. No matter how much dry food you bring, you won't be able to survive here for many days. Just like this rice, it's a waste. It's enough to make rice soup and drink it." After a while, of course, it is impossible to make rice soup with water, but rice soup can also be made with tree sap."

Seeing that everyone was silent, the man spoke again.

Everyone: "..."
