

Star of Space 931

Chapter 931 I can only admit that I am unlucky

"Is there such a thing?" Ban Jue raised his eyebrows in surprise and asked.

They have also been walking on the mountain for some time, and they have not seen anything strange like this happen. Is it because they have not been in Baibind Mountain for a long time?

"It's true, don't believe it."

The Sixth Prince looked at them seriously and said.

"Including this king, there are only five people left. Therefore, when we are marching, we all hold on to the clothes of our companions. Otherwise, I am afraid that we are the only ones you will encounter. One person."

To show that what he said was true, he glanced at his companion.

The four guards nodded almost simultaneously without any hesitation.

"What the prince said is true, this place is really weird." One of them said.

After hearing what they said, everyone looked at me and I looked at you, but they didn't say anything.

"It seems that we have to pay more attention."

Lin Caisang threw the piece of wood in his hand into the fire and said.

But with so many people here, it's impossible for everyone to grab their companion's clothes and form a long line, right?

In this way, let alone when they are in danger, even walking will become extremely slow. By the time they reach the place where the purple mist is thickest, it will be the Year of the Monkey and the Horse, right?

"Let's do this, Commander Mo. The people on your side are divided into two teams. There are few people on King Mo's side, so they will form one team. We will advance in three groups. What do you think?"

She looked at Commander Mo and asked.

Commander Mo thought for a while and felt that this was the right thing to do. "What about you, girl? Do you want to follow..."

"She must be by my side."

Before Commander Mo could say the word "I", Ya Molian interrupted him.

How is it possible for Sonny to follow someone else?

"Well."

Commander Mo choked at his words and was speechless.

"That's okay. It's safer for me to follow King Mo."

It's hard for him to compete with King Mo for people. Besides, people are always following King Mo. He can't do it even if he wants to, so he can only admit that he is unlucky, right?

"Then do it this way."

Lin Caisang stretched her little hands and took out three relatively long silk threads from her small satchel and handed them to Ban Jue.

"Take a few people to peel off some cane skins, twist them into hemp ropes, and rub the white spider silk into them. Then we will grab these hemp ropes and move forward. Divide into three teams. Even if we disappear, we will not be affected. Everyone will disappear, and if there is danger, there will be people around, so it will be safer."

"Yes, girl."

Ban Jue nodded and took the white spider silk.

"Well... King Mo, can I and my four bodyguards go with you?" Seeing that they had made arrangements, the Sixth Prince couldn't help but interjected and asked.

There are only five of them here. If they leave Sui Zimo and his friends again, they will be divided up by the unknown monsters in Baibind Mountain.

Hearing this, Ya Molian and Lin Caisang looked at each other, and then nodded towards the Sixth Prince.

...

After resting for three hours, it was already getting dark.

Jiang Zuo took all the empty water bags and gave them to Lin Caisang to fill with water, then distributed them. At the same time, he also gave three water bags to the Sixth Prince and the others. At this moment, the Sixth Prince was simply indifferent to Ya Molian and the others. A thousand thanks are not enough to express how I feel at this moment.

After resting enough, everyone continued to set off.
