

Star of Space 932

Chapter 932 Not an ordinary person

During this period, they rescued several different groups of people and found out some things.

It turns out that there is a vortex where the purple mist is the thickest. I don't know where it leads, but as long as people get close, they feel like they will be sucked in.

Among the people they rescued, a group of people escaped from the purple whirlpool.

"In other words, the purple mist floated out from the purple whirlpool and did not originally belong to Baibind Mountain?" Jiang Zuo asked, looking at the group of people who escaped from the purple whirlpool.

"Yes, yes."

The leader of the gang looked at them and nodded desperately.

"I advise you people to leave quickly. That place is too scary. Who knows where you will be sucked?"

Facing an unknown situation and not knowing whether they will die or live next, everyone will feel terrible and want to escape, and the group of people who escaped have this mentality at the moment.

"Then did you see anyone else next to the whirlpool?" Jiang Zuo asked.

"There are so many people," the leader said.

"Those people are not afraid of death. Seeing how scary the whirlpool is, they still want to fight for their lives and rush forward. Are they not looking for death? I won't play with them anymore. They are all a bunch of lunatics.

I advise you to go with us. In the purple whirlpool, I saw many monsters coming out of there. The same monsters that attacked us before and wanted to eat us walked out one by one. It's so terrible.

"Master."

Jiang Zuo looked at Ya Molian.

It seemed that the monsters that attacked them along the way really came from Qianhuan Continent.

And that purple whirlpool, if their estimate was correct, should be the entrance to Qianhuan Continent, which means that King Lin is very likely to be in that place.

"Keep going."

Ya Molian didn't say anything else, just gave a faint instruction.

"What, you still want to go?"

The leader was simply shocked when he heard what he said.

"Are you crazy too? That place is really not for people to go to. The monsters on White Blind Mountain can eat everyone, let alone the whirlpool. Who knows what monsters are waiting?"

I don't care if you want to go, I won't go with you anyway, we will part ways here. "

After listening to the leader's words, Lin Caisang took a look at them and looked at Ban Jue.

"Exiled Jue, give them some of the dry food in our hands." She ordered.

"Yes, girl."

After banishing Jue, he went to distribute some of the dry food in everyone's hands and gave it to the leader and the few people he brought.

"Thank you, thank you girl."

After the leader thanked him with gratitude, he led Xiang people away.

"Girl, you just let them go?" Jiang Zuo asked, looking at the retreating figures of several people.

This is Baibind Mountain. Can these people make it out if they walk like this? Don't want to be eaten up by the monsters on those mountains after just a few steps, right?

"They are not ordinary people."

Ya Molian also looked at their backs and spoke to Jiang Zuo.

"What? Not an ordinary person, who is that person?" Jiang Zuo was confused.

"Everyone has curiosity. What is behind the whirlpool? No one knows." Lin Caisang raised his eyes, glanced at Jiang Zuo, and continued to look at the backs of those people.
