

Star of Space 936

Chapter 936 My mind is blank

A whole bunch of scrap metal!

Not to mention the Sixth Prince, in fact, none of the swords in their hands were intact, all of them had suffered.

"Sonny, hide."

Ya Molian looked at the python in front of her, then at Lin Caisang, gritted her teeth, and pushed her away.

His words about hiding couldn't be more obvious. He asked Lin Caisang to hide in the Golden Pearl Space. Facing such a behemoth, no one was sure that he could escape alive.

"Brother Melian, it's coming for us." Lin Caisang said.

That's right, which snake can have such a keen sense of smell and be able to smell the breath of people in the cave. It can be seen that this snake either knew about them early on, or... was manipulated by someone to attack them.

"I know!"

Ya Mo Lian naturally knows, but regardless of whether he came for them or not, the current situation is that either he will be killed, or they will be completely annihilated in the belly of this snake!

Of the two options, he naturally wanted to choose one.

"Use poison. I've made a lot of medicines to deal with poisonous snakes before."

Now, without caring whether he would be discovered, Lin Caisang took out all the poisons in the Jinzhu space, and all the medicine bottles and bags fell on the ground.

"Exiled Jue, you all come here and take it. Spread everything you can on that guy!"

"good."

As soon as Ban Jue said "good", he felt something was swept in front of him, and the next moment, his whole person was thrown away.

It turned out that the snake's tail swept over again.

"careful!"

Ya Molian quickly protected Lin Caisang behind her.

But he himself was swept away by the snake's tail, and the two of them fell down the slope not far away.

"Sonny, poof!"

He stood up suddenly and was about to check if Lin Caisang was injured, but his throat felt sweet and he spit out a mouthful of blood.

"Brother Melian!"

Seeing him like this, Lin Caisang, who was well protected, felt anxious and quickly reached out to help him.

"How are you? Does it matter?"

This was a useless question, but at this moment, except for these words, there was nothing in her mind, it was completely blank.

"Leave me alone and leave quickly."

Ya Molian pushed her and asked her to leave again.

"How could I leave?"

Lin Caisang gritted her teeth. If she left at this time, would she still be considered a human being?

She knew that as long as they were here, Yamolian would not leave easily. Looking up, she looked at the others, and they were all swept away. Some were vomiting blood, some were unconscious, and no one was in a coma. A complete human being.

At this time, when the python saw those people, it moved its huge head and swam towards the unconscious people. The purpose was obviously to eat them.

"hateful!"

Pushing Ya Molian aside, she looked at the python.

The world is so big and magical. When faced with creatures that are stronger than them, they really have no room to fight back. And the other party only needs a sweep to end them all here.

But is this really the case?

"Brother Molian, wait for me here."

She didn't believe that that person was evil. There was no way to deal with this python. Just because others didn't have it, it didn't mean that she didn't have it either.

"Aren't you very strong? Then let me see who is the strongest among us!"

As she spoke, she stretched out her hand, pulled the golden bead hanging around her neck, held it tightly in her hand, and rushed towards the python.
