

Star of Space 939

Chapter 939 Confused on the face

I didn't smell the fragrance along the way, but I smelled it now.

Suddenly, she thought of a possibility, and her eyes dimmed instantly.

"No, everyone, hold your breath, take out the white cloth you prepared earlier, dip it in water and cover your mouth and nose!"

Without thinking, everyone who had many cooperation experiences followed Lin Caisang's words and covered their mouths and noses with wet cloths soaked in water as instructed.

"Is this poisonous incense?" Commander Mo stepped forward and asked.

"It must be the poisonous fragrance." Lin Caisang nodded.

The black hand behind this thing really makes them uncomfortable if they can't kill it. The python was taken away by her, and it actually produced poisonous incense. Does she think that she, the doctor, is fake?

"It seems that we are being targeted again, His Highness King Mo." She reluctantly lowered her red lips and said to Ya Molian.

"Not expected."

Yamo Lian's thin lips curled up slightly and she replied.

"Be careful. Besides the poisonous incense, there should be other things. That person can't only have this little thing." He reminded Lin Caisang.

Of course Lin Caisang knew, and she had already heard the sound of 'rustling', which was the sound of reptiles crawling on the ground. The direction of the sound was directly towards where they were standing.

"Wow, what is this?"

Some people standing on the periphery have already seen that thing.

"Spiders, they are spiders. There are so many spiders. Girl, can these things be trampled to death?" Someone asked Lin Caisang.

Hearing the sound, he raised his eyes and looked at Lin Caisang: "!!!"

At this moment, she was speechless and looked at the person who asked the question.

"If you think you can step on it to death, then just...step on it."

Wherever he looked, he could see that the spiders were all white, each one as big as a washbasin, and if all eight limbs were included, some of them would be about one and a half meters round.

"Girl, these can't be stepped on, right?" Commander Mo looked at the spiders and swallowed involuntarily.

The claws of these spiders are so sharp. If they step on them, they can pierce their soles by just lifting one of their spider legs, right? That's it, how to step on it?

"Take out all the bamboo pieces from before." Lin Caisang shouted to them without thinking about anything else.

"Bamboo pieces?"

Everyone's faces were confused at this moment.

After so many fights, and being swept twice by the snake's tail, the bamboo pieces in many people's hands had been thrown away long ago, and how could they still keep them until now.

Now those who have bamboo pieces in their hands can only banish a few of them.

However, thankfully, the Sixth Prince of Luoyun Kingdom is really good at picking up leaks. He had nothing in his hand before, but after the snake tail swept it, he actually had a bundle of bamboo in his hand. piece.

"No."

"The bamboo pieces are missing. I don't know where they were thrown."

Everyone began to panic, shouting and retreating, shrinking the encirclement smaller and smaller, so that they could almost step on the heels of their companions.

"Sonny, come here."

Ya Molian once again pulled Lin Caisang to her side.

"Jiang Zuo, Jiang Li, Ban Jue, Ban Wu, protect them as they move forward, and leave the rest to us." He looked at Ban Jue and the others. command.

Banishment: "..."

Palace Master, are you sure you want to do this?

Lin Caisang, who was protected by Ya Molian, had the same thoughts as Ban Jue at the moment.
