

## Star of Space 940

Chapter 940 I was careless

Everyone else moved forward, but she and Brother Melian took the back seat. Wasn't this decision a little too hasty?

"ink..... "

"listen to me.

Before she could ask a question, she heard Ya Molian's voice ringing in her ears.

Lin Caisang immediately shut her mouth, knowing that Ya Molian must have his own ideas when doing things. Since he has decided, she will follow him.

After a while, when big spiders from all directions were attacking the two of them, Lin Caisang, who was in a hurry, suddenly heard a neighbor say something in his ear.

"Don't you want the white spider silk? Just take it all."

"ah?"

Lin Caisang looked at the big spiders attacking her in confusion.

"These are...white spiders?"

She thought that the white spiders with such fine white spider silk must be very small, but she didn't expect that they were so big. She was thinking, why should she accompany him to sit behind him? , doesn't this guy feel sorry for her?

But it turns out that's what happened.

"This white spider is poisonous!"

When she first saw those white spiders, she had already seen that none of these things were easy to mess with.

"If they weren't poisonous, that person wouldn't have released them." Ya Molian said, much calmer than her.

"Too."

Lin Caisang nodded.

"Then, come on, take as much as you want from me."

After saying that, he stretched out his hand to pull off the golden beads around his neck, but was held down by Ya Molian.

"Just put the white spider away, and don't take it off again. That person should be watching you and me in the dark." He warned aloud.

Before he was swept unconscious by the snake's tail, he watched the little girl tear something off his neck. He thought, it must be that thing, right?

But this thing must never be known to a third person!

Hearing his words, Lin Caisang was also stunned.

"you mean....."

While I was busy trying to collect these white spiders into the golden bead space, I forgot to think about it.

The person behind the scenes brought out these white spiders. Firstly, he wanted to deal with them. Secondly, he wanted to defraud the golden bead space on her body, right?

It seems that her previous incident of taking the python into the Golden Pearl Space aroused the suspicion of the person behind the scenes.

"I was careless."

With that said, she put her hands down and began to collect the white spiders into the golden bead space.

...

Among the densely packed white spiders, after two hours, none of them disappeared, because the people in front were all walking forward, no one looked back, and no one knew, but the other side had been observing Ya Molian and Lin Cai. The people behind the scenes are different.

Watching the white spiders disappear one by one, not even a body was seen again, he couldn't help but wonder what was on that smelly girl.

He knew that that stinky girl was a female doctor, and she was also a habitual poisoner.

"Could it be that some kind of poisonous powder was used?" He took a deep breath and guessed.

But what kind of poisonous powder can make so many white spiders disappear without leaving even a drop of blood?

The same thing happened to his previous python. Not even a single snake scale was seen again. It was really weird. It was so weird that he wanted to capture that smelly girl to his side and study it carefully!

"Little girl, that's interesting!"

If this continues, he doesn't want to kill this little girl.
