

Star of Space 948

Chapter 948: Being tricked into coming here

Unlike Lin Caisang, who took away good things when he saw them. Although the treasury was not almost emptied, it was still a heavy loss.

"Furthermore, Your Highness Lin Wang, have you seen that the mask on that girl's face has never been taken off even in front of the emperor? This is because she does not take the royal family of the Wei Kingdom seriously at all. Such a bold person, How many can there be in the world?

If you can't mess with such a person, then don't mess with her. After all, she can really say what she says and can do it. If she really doesn't take you out when the time comes... then she is a subordinate, and there is no one. Way to force it with her. "

"Aren't you just a stinky girl, what's so great about her?"

Sui Zilin glanced sideways, glanced at Lin Caisang inside the cave, and muttered.

But I have to say that after listening to Commander Mo's words, he felt much more at ease. After all, he still had to leave this ghost place. As for how to deal with that stinky girl and Sui Zimo, when he returned to Shaohua City, just slowly think of ways to deal with it.

"Your Highness, Prince Lin, that girl is really powerful."

Commander Mo still didn't believe him when he saw him. He was afraid that he would cause some trouble again, so he reminded him again.

"You know how much the Imperial Master treasures his son, right? Just Suri, he was tortured by that girl a few days ago and cried to the sky, but the Imperial Master didn't even dare to say a word, and he had to be right That girl greets you with such a nice face, you can tell how powerful she is."

"Is that idiot Suri still alive?" Sui Zilin rolled his eyes.

"It doesn't matter whether Su Ri dies or not. The key is His Royal Highness Lin Wang. If you want to leave Baibind Mountain, you have to rely on that girl and King Mo. So no matter what happens these days, just be patient for a while, okay?"

Commander Mo asked him carefully.

Hearing this, Sui Zilin took a deep breath and glared at the backs of Lin Caisang and Ya Molian.

"Forget it, I don't want to be on the same level as those who are not in the same league. Commander Mo, go and get some more meat for me," he said.

"Yes, yes, I will go and get it now."

Seeing that he had finally stopped, Commander Mo quickly responded.

But as soon as he took two steps back, he stopped again and looked at Suizilin.

"His Royal Highness Lin Wang, that girl also found this meat on Baibind Mountain. Not much can be shared by each person. You should eat sparingly. Don't eat it all today and you will be hungry later."

He warned again.

"I know, I know, hurry up and get it for me." Sui Zilin said casually.

It's so troublesome to eat meat. What's the big deal? When he leaves this hellish place, he can eat as much meat as he wants. Someone will obediently bring it to him. When the time comes, he will let Ya Molian and that smelly girl stand beside him. In front of me, watch him eat!

snort!

...

Everyone was probably full, so a few important people gathered around and sat down.

"So, many of you were deceived into coming here?" Listening to their words, Lin Caisang had confirmed his suspicion.

That's right, each of these people were deceived into coming here, and this so-called deception is really not worth mentioning at all.

"Girl, what do you mean by this?"

When Commander Mo heard what Lin Caisang said, he couldn't help but raise his own questions.

Didn't they all say that they had heard about the purple mist on the White Blind Mountain and knew that treasures would appear when the purple mist appeared, so they hurriedly went up the mountain to find out what was going on. How did they get tricked into going up the mountain? Woolen cloth?
