

Star of Space 952

Chapter 952 Deliberately wants us to die

It's not like the leaves and bark cannot be eaten, just keep eating them.

"It is credible to banish a few of them. Give the things to them and let them take them, then say they are the ones who kept it. Others will not be able to say anything bad."

That way, even if there was suspicion, the suspicion would be to banish them, or maybe it would be him, and the suspicion would no longer be on Sonner.

"Well, that's it."

After listening to his words, Lin Caisang also nodded.

...

After resting for more than an hour, everyone was ready.

Before that, Yamolian and Lin Caisang did several tests under the whirlpool and found that the whirlpool would not feel the presence of people if they moved within a mile outside the cave.

After that, Ya Molian used Qing Gong to run under the whirlpool again. With her subsequent Qing Gong, she was able to run out of the whirlpool and reach the opposite side before the suction force of the vortex reached its maximum.

But I have to admit, not everyone has Ya Mo Lian's Qing Gong, especially Lin Caisang, who has no other skills except running. What can I do?

"How about we climb up this mountain and walk from the back of the mountain?" someone suggested.

If they are asked to take risks and go under that whirlpool, no one has the courage and perseverance.

"no."

The great prince immediately rejected his words.

"No one knows what is behind the mountain. We all came from all directions. We must have entered the mountain from different places in Baibind Mountain, but in the end we all reached the other side of the whirlpool, and then passed by The whirlpool ran into this cave.

This shows that no matter how we go, if we want to go down the mountain, we can only go down from the opposite side. "

He analyzed and raised his hand to point in the direction of the vortex.

"How is this possible? Isn't Baibind Mountain a mountain? Isn't it the same direction to go down the mountain?" Another person heard what the prince said and thought it was too ridiculous and shook his head.

"What you said is just a coincidence. We got lost while walking and came from the same direction. It's not impossible. Why do we have to run to the bottom of the whirlpool to die?

Are you deliberately trying to get us to die? "

"That's right, what's wrong with walking from the back of the mountain? You can definitely go down the mountain. There are such good roads, why do you have to choose a dead end? Everyone thinks, right?"

Another person jumped out and accused the great prince, and also tried to get everyone to come out and accuse him.

"The eldest prince of Luoyun Kingdom, do you really have no good intentions towards us and wish that we all died here without being able to go back?"

"My lord, everyone knows that you are good at martial arts. Just like Lord Mo, it is extremely easy to run out of this place. But we are different. If we can't run out by then, we will have to be trapped." Get sucked into the whirlpool and die!"

Several people couldn't keep their temper and began to accuse the great prince of Luoyun Kingdom.

"He is from the Luoyun Kingdom. Naturally, he doesn't want to see us people go back alive, so that he can eliminate a few more serious problems for the Luoyun Kingdom. Great Prince, you are really well-intentioned."

Someone laughed sinisterly and looked at the great prince with color in their eyes.

"What nonsense are you talking about? My eldest brother is definitely not such a person. You simply don't understand..."

The Sixth Prince couldn't see those people slandering his eldest brother, so he wanted to argue with them, but the First Prince stopped him and didn't let him continue.
