Chapter 96 I have to guard against it

In the study room of the Gong family, Mr. Gong was furious at the moment. Eight female corpses had been found in the courtyard next to his evil son's yard. This was shocking for a business family like his and for Qianlin County. case.

Maybe their whole family will be sent to prison, and they will never be able to stand up again!

And all of this was caused by Lin Caisang. If she hadn't asked this and that, how could such a thing have happened? No one would have discovered the bones of those corpses.

"That's right, sir, that Mr. Liu is a troubled person. She treats her illness well, why does it make our family like this?" On the side, a middle-aged woman in luxurious clothes also agreed after listening to his words. .

"From what I've seen, that Mr. Liu did it on purpose. Master, could it be that the other families didn't want you to dominate the town and deliberately invited Mr. Liu to deal with you?"

"Tsk, hiss!"

After hearing what the woman said, Mr. Gong suddenly gasped and felt that it was reasonable.

Otherwise, why did Lin Caisang get into trouble with his Gong family? They had no grievances in the past and have been free of grievances recently. Maybe it was those old immortals who didn't like him and deliberately tried to trip him up!

"You mean, that woman did it on purpose?" He looked at the woman and asked.

"That's right, didn't she do it on purpose or something?"

When the woman heard that her master finally looked at her, she became even more excited, waving the handkerchief with a mean look on her face.

"Otherwise, why would she ask about our Gong family without asking anyone else's family? You must know that Dr. Liu is a strange face. If no one pointed out, how would she know about the Gong family, the Chen family, and the Li family?"

Master, this woman is definitely a scourge, we have to guard against it.

"this....."

Master Gong's face froze, feeling that this was exactly what he wanted.

Lin Caisang had deliberately targeted him when she arrived. It was obviously intentional. If he was still so stupid and didn't fight back, wouldn't he be at her mercy?

"Then what should I do?"

Unable to make up his mind for a moment, he asked the woman.

"How about we send a few people to take her..." The woman raised her hand, wiped her neck, and looked at Mr. Gong.

"hiss!"

Master Gong gasped, shook his head, and then shook his head.

"No, no, even though that woman is targeting me everywhere, she is the one who unveiled the notice. If she dies, who will save the people in the town?"

Of course, treating the people is secondary. The most important thing is that those in his family must also be treated. Apart from him, there are few intact people in the Gong family.

If he continues like this, are he going to have to watch everyone in his family die?

To put it bluntly, he doesn't care about the people in his family, but if someone at home is sick and he can't get out, what if he gets infected?

So nothing should happen to Lin Caisang.

"Master, you...I don't even know what to say about you. Do you really think that little girl can cure everyone in our town? Does she have that ability?"

The woman said again.

"I think that woman is just here to cause trouble. She doesn't understand medicine at all, and even if she does, she's only half-experienced. Don't you see how virtuous she is? Master."

"this....."

Master Gong's heart was swaying from side to side, and he didn't know what to do.

"Master, please stop hesitating. If you continue to hesitate, our family will be doomed. Now it's just the Third Young Master's matter that has been discovered. If you let Mr. Liu continue to act like this, then..."

Seeing that he was still hesitating, the woman added fuel to the fire. Halfway through her words, Mr. Liu understood everything.
