

Star of Space 960

Chapter 960: In the future... there will be a chance

"Okay, girl.

In response to the banishment, people have already begun to gather together and make distribution.

...

On the other side, the cloaked man didn't think about this at first. He just felt that he was injured and was no match for Ya Molian and Lin Caisang.

Moreover, Lin Caisang was a habitual poisoner, and he couldn't deal with it even more when he was injured. The poisonous powder would flow along the blood, and he would be poisoned faster. Therefore, he wanted to find a place to remove his injury first, and then come back. deal with them.

However, after he treated his wounds and put on his clothes again, he finally remembered, why did he go so far?

Even if he stayed in the whirlpool farthest away from Ya Molian and the others, what could those people do to him?

Therefore, he rushed over immediately, but when he arrived, it was already too late. Ya Molian had already led the people away from the whirlpool and was heading down the mountain.

Even though he was so angry that his whole body felt bad, and his wounds hurt even more!

"Sui Zimo, you are so cunning! Do you think you can leave Baibind Mountain like this? You underestimate this place too much! Humph!"

If this was really a place where you could come and leave whenever you wanted, would he still bother so much to get Sui Zimo to this place? When he puts in all the effort, is it just to get himself hurt?

"Since you want to play, I will accompany you to have fun!"

...

On this side, Yamo Lian led a group of people to walk down the Baibind Mountain, but just like he had walked before, after walking for two days, he was still in a place with very strong purple air. Moreover, he could clearly feel that compared to before, There are more and more monsters here.

"How come there are so many monsters? Are they all driven to us?" He couldn't help but say something as he was killing monsters. At this moment, everyone in their group was more or less. It's injured.

It had to be said that he knew the truth. These monsters were driven here by the cloaked men.

The cloaked man has no way to deal with Ya Molian and Lin Caisang, but he still has a way to drive the monsters here.

"Stop talking and keep killing. I don't believe that we can't finish killing these things!" Ban Wu said, and slashed at the monster that was attacking him with one sword.

After a while, everyone was able to breathe. After continuing to drive for an hour, they picked out all the non-poisonous monsters that had been killed and began to clean them up and prepare for barbecue.

"Big brother and third brother, it is actually beneficial to kill so many monsters, otherwise, we would have to live by chewing tree bark." The sixth prince smiled and spoke to his two royal brothers.

Watching the guards cleaning up the monsters, he could smell the aroma of barbecue.

"I just know how to eat." The great prince glanced at him.

"Isn't it better to have something to eat?" the Sixth Prince asked him.

In this place, it would be nice to have something to eat. If they didn't even have this, they would really starve to death.

"Your Highness King Mo, the cloaked man is pestering you so hard and wants you to go to Qianhuan Continent so much that I even want to go to Qianhuan Continent to find out what's going on."

Lin Caisang was sitting next to Ya Molian. The two of them were under a tree, a little far away from everyone.

"There may be a chance... in the future."

Ya Molian smiled and raised his hand to touch her head.

"Do you really have such a plan?" Lin Caisang was surprised when he heard his words.
