

Star of Space 968

Chapter 968 It's enough to have food and drink.

"Girl, I'm coming."

Ban Jue took the elixir from her hand into his own, opened Sui Zilin's mouth, threw the pill into his mouth, then took a water bag and poured it into his mouth. .

"Cough, cough!"

Sui Zilin choked on his saliva and had to swallow the pills.

"You bastards, bastards, I will not let you go. Just wait. When I return to Weiguo, I will definitely tell my father the crimes of you people, and let you be a None of them can eat and carry..."

Before he finished speaking, his head turned to the side and he fainted.

"Commander Mo, I'm sorry to trouble you, but I have to carry him on my back from now on." Seeing that he was finally stable, Lin Caisang looked at Commander Mo and said.

Commander Mo showed an apologetic smile to her and walked to Sui Zilin's side.

At this time, the Sixth Prince of Luoyun Kingdom had also lifted his feet. Commander Mo directly lifted Sui Zilin's collar and, with the help of two guards, lifted him onto his back.

"King Mo, girl, where are we going next?"

He looked up at Lin Caisang and asked.

"I don't know, let's take a look first." Lin Caisang shook his head.

She walked to Ya Molian and looked up at him. When they were dealing with Sui Zilin just now, her brother Molian had been paying attention to the place where the blood river disappeared.

"King Mo, what tricks might you see?"

She thought, he must have seen something, right?

"If I'm not mistaken, the scenery on the other side of the blood river that just disappeared has changed once and is different from before." Ya Molian continued to stare at this place and said.

"You mean, where the blood river disappears, the scenery outside will change?" Lin Caisang was surprised.

But in his expectation, it would be strange if the scenery never changed. In that case, they would most likely be trapped on Baibind Mountain and not be able to get out.

As long as the scenery is changing, they can always find a way out.

"Um."

Yamolian nodded.

"Let's take a rest here. Let's eat something to replenish our strength. We will observe this place again. We will definitely be able to find the exit. But there is one thing. I hope that everyone will not wait too long. Then he becomes frustrated and rushes around without thinking."

He looked at the others and warned.

"This is natural."

The great prince of Luoyun Kingdom responded.

"How long have we been trapped in Baibind Mountain? Even if we wait here for three to five days, it doesn't matter. Rather than rushing around and dying inexplicably, it's better to wait here." Another person also said.

"I don't care about the others, as long as I can have a mouth to eat and drink, that's enough."

Everyone agreed one after another.

"Relegate Jue, banish Wu, and share the food with everyone." Ya Molian ordered.

"Yes, Master." The two of them responded.

Everyone sat down in a circle at the place where the blood river disappeared, while Ya Molian and Lin Caisang sat side by side, facing the direction where the blood river disappeared, and they were ready to escape from this changing scenery. Find some patterns.

"The scenery on Baibind Mountain is very different from the outside. The vegetation on Baibind Mountain has absorbed too much blood, and its color has turned reddish. However, the vegetation outside is the same as usual. , this is still easy to distinguish."
