

Star of Space 970

Chapter 970 I'm almost staring at the flowers.

"No, it's too fast, it's too late." Lin Caisang shook his head.

She saw the scene pass under her nose with her own eyes. What's more, if she hadn't seen Butler Xin, she wouldn't have reacted at all.

And Butler Xin can't just stand there all the time, he will leave too, right?

"What if... what should we use to fix the two scenes?" Ya Molian hesitated and asked.

"fix?"

Everyone looked at him when they heard this, thinking that his method was really crazy.

How to fix it?

"Yes, this is a good method."

Hearing his words, Lin Caisang's eyes lit up.

"Just like we used footprints to get in before, as long as we put the same thing on both ends, it should be able to fix the two sides, and it won't change anymore, right?"

she asked.

Everyone: "..."

Is this just their unilateral idea? It's not certain whether it can be realized?

"Girl, you also said that it should be done. What if it doesn't work?" someone asked.

"Is it okay? You'll know if you try it," said the Sixth Prince of Luoyun Kingdom.

No matter whether it works or not, they always have to give it a try. If they don't even try, won't they never have the possibility of going out?

"King Mo, girls, tell me, what should we do?"

Hearing this, Lin Caisang took a deep breath and looked sideways at Ya Molian.

She still had to let him get the big idea. At this time, she really couldn't make up her mind. If she had to give it a try, someone would have to give it a try, but whose life is not a living life?

"Your Majesty, let me go down." Someone stood up and was a guard beside the great prince of Luoyun Kingdom.

"It's better for me to go, Master."

Someone beside Ya Molian also stood up.

Yamolian: "..."

He said to give it a try, and said that the scenes on both sides should be fixed, but he did not say that people must be used!

"Exiled Jue, you and Exiled Wu go chop down a tree pole." He ordered the two of them.

Everyone: "..."

It must be because they have seen too many people around them die these days that they feel that they have to risk their own lives to take risks. They forget that for such a test, they can use other people's things instead.

"yes."

Ban Jue responded and went to chop down trees with Ban Wu and a few guards.

After a while, the tree was cut down, neither thick nor thin, just enough for one person to carry it.

"Put it right on."

No matter what the scenery on the opposite side was like now, Ya Molian directly ordered someone to put the tree pole over. After that, Lin Caisang sat there again, took out a piece of rice paper and drew the scenery.

"Wait, then."

Once you see if there is any change, you will know whether this method is effective and feasible.

...

After a long, long time, everyone felt that they were staring at the scenery, almost staring out of the flowers, but they didn't see any changes in it, it had always looked the same.

"King Mo, it's almost time, right?"

The great prince of Luoyun Kingdom came over and asked Ya Molian.

"Why don't we try to remove the tree pole? The changes in the scenery before were not that fast. It has been almost six hours."

After hearing his words, Ya Molian felt the same way.

Turning his head, he looked at Ban Jue and Ban Wu. The two understood and immediately pulled the tree pole back.

The next moment, everyone felt that several different scenery passed by quickly, and soon changed into another different scenery. The speed was almost like a movie.
