

Star of Space 976

Chapter 976 Wants to commit suicide by taking poison!

With that said, he reached out and took the third prince, and the two of them left.

Ban Jue and Ban Wu directly placed their swords on the cloaked man's neck.

"Tell me, why do you have to go against my palace master!"

This cloaked man is definitely a scourge, but he is not the deepest hidden big fish. But if they want to know who that big fish is, they can only attack this person and ask something!

"snort."

The cloaked man snorted coldly.

Looking up, he looked at Ya Molian.

"Sui Zimo, if you want to get the answer you want from me, I will tell you in a dream that without me, someone more powerful will come to deal with you. When the time comes, you will have wings. Don't try to escape again!"

After all, he is just a little minion beside his master. If he dies, he will die. If this mission fails, even if he escapes from Ya Molian's hands, he will only die if he goes back.

Even if you don't go back, you still have to die.

So, what's the difference between dying early and dying late? He didn't say anything and could save more people after his death. If Ya Molian learned about his master from his mouth, then the people around him, They all have to die!

So what if he dies?

"hehe."

"He wants to commit suicide by taking poison!" Lin Caisang shouted with a sharp look in his eyes.

But it was too late. The cloaked man closed his eyes and fell to the ground dead.

"Hey, I really admire him."

They didn't force him, but this man died so quickly that they didn't even have time to take precautions.

"Even if you don't die, you can't ask anything." Ya Molian said calmly.

Of course, the people behind the scenes had already taken precautions against the people who could be sent here. How could they possibly learn any secrets from the cloaked man's mouth?

Therefore, even if they really wanted to find out something from the cloaked man's mouth, it would be impossible.

"It's really an advantage for him to die like this." Ban Jue said.

They suffered so many crimes on Baibind Mountain, probably all because of this man. Now he died happily.

"No, I wanted to keep it and torture it." Ban Wuye said.

Even though I knew I couldn't ask anything, but letting this man die so easily, I really couldn't bear to swallow the bad breath in my heart.

"Burn the body directly."

Ya Molian gave instructions and took Lin Caisang back there.

"Now, the people who should clean up have been cleaned up. Next, it is time to prepare. We are going out." Lin Caisang looked at the scene that had just changed and took out the weapon he had used to shoot the cloaked man. The arrow was handed to Ya Molian.

"Girl, you made this thing really exquisitely." The third prince of Luoyun Kingdom looked at the thing in Ya Molian's hand and couldn't help but praise it.

This bow and arrow is not like a bow and arrow, but it can shoot such a long distance. Moreover, the launcher can actually hide such a long silk thread to connect the sharp arrow.

"It was originally used for climbing the mountain wall, but it was useless along the way. In the end, it was used when leaving Baiblind Mountain." Lin Caisang curled his lips and said.

But this was considered to be a good use of the money. At least her hard work was not in vain. It was not bad, and the money she had wasted was not in vain.

"King Mo, Jiang Zuo and Jiang Li should still be waiting outside. As soon as they are there, just shoot the arrow out." She said to Ya Molian.
