

Star of Space 978

Chapter 978 Already expired

Seeing Su Ri fall down in front of him, Lin Caisang was completely confused at the moment.

"New Year's Eve is coming!"

Ya Molian raised her foot and kicked Sui Zi Linyi out.

"Sonny, he..."

Lin Caisang watched Sui Zilin being kicked out, and then heard Ya Molian's voice, and then he realized what he had done. He hurriedly took out the antidote he had prepared long ago from his small satchel, ran to Su Ri's side, and headed towards Su Ri. Put it into his mouth.

If Su Ri could cure the poison before she died, then she would not have failed her mission.

only.....

It was too late. Before the antidote in her hand was handed to Su Ri's mouth, she felt a chill all over her body and a voice rang in her head.

'This mission failed and the punishment will begin in a quarter of an hour. '

Damn it, her mission still failed, because of this bold and ignorant Suizilin, she actually failed her mission!

"I kill you!"

With scarlet eyes, she looked at Sui Zilin who was almost kicked to pieces not far away. At this moment, she was really thinking about killing someone.

If the mission failed due to her own reasons, then she wouldn't have to say anything, but it wasn't the case now. It was because the year was approaching and this bastard actually dared to kill Su Ri in front of so many people.

Su Ri is the son of a national master. He really has no brains at all.

In particular, even though Su Ri had provoked everyone, he never provoked Guo Suizilin, not at all!

"Young Master, Young Master, you...Miss, please save my Young Master, save him...Miss, what's wrong with you?" Butler Xin didn't realize until then, rushed over, and squatted down next to Su Ri.

He wanted to beg Lin Caisang, but when he looked at Lin Caisang, he was stunned.

Because he saw Lin Caisang's face and hair were covered with frost. Even though Shaohua City is very cold now, it could never be so cold that even a person's body would be covered with a thick layer of cold. Frosty.

"It's too late, he has already expired."

Lin Caisang took a deep breath and stood up stiffly.

One step, two steps, she tried hard to lift her leg and move towards Yamolian, but she couldn't lift it.

"mulberry....."

Ya Molian quickly came to her side and wanted to reach out to support her, but she raised her hand to stop him.

"Do not touch me."

Now her whole body was as cold as ice, and Yamolian was originally afraid of the cold because of the poison in her body. At this time, she couldn't let him touch her.

"I failed my mission and will return to the bamboo house. You tell Suyang that I will return his things to him when the time comes. As for Suizilin..."

"I will check, and I will definitely find out." Ya Molian said.

He knew better than anyone else that no matter how stupid Sui Zilin was, he couldn't stab Su Ri for no reason. Otherwise, there would be so many opportunities for him to stab Sui Zilin along the way. How could it be possible that Shaohua would be stabbed at that time? Only start outside the city?

"good."

Lin Caisang's red lips were stiff and she was speechless, but she still turned around and walked in a secluded direction.

The speed was very fast, slow enough for everyone to see clearly, but no one chased her, because anyone with a discerning eye could see that she was very abnormal at this moment!

"Exile Jue, tie up Suizilin to this king!"

Ya Molian pinched her eyes tightly, stared at Sui Zilin with scarlet eyes, and ordered.

"yes!"

Ban Jue accepted the order, walked over and tied the person up.

"Sui Zimo, how dare you? This king is Prince Lin. If you dare to attack me, my father will not let you go!"
