

Star of Space 979

Chapter 979 The mission failed

Sui Zi had his arms cut off behind his back when he was about to be excommunicated, but he still kept shouting that he just killed a minister's son, what's the big deal, he could just pay more money.

Commander Mo watched Sui Zilin being tied up, but he could only swallow secretly and dare not say anything.

Because they all watched Su Ri being stabbed to death by Sui Zilin. If Sui Zilin was allowed to ride in a carriage and swagger into Shaohua City at this time, then the Imperial Master Suyang would definitely fall out with the emperor.

If the emperor and the imperial master fall out, the consequences are not something that they, the ministers, can afford.

No matter how much he wanted to save Sui Zilin, he wouldn't dare to save him. What's more, he didn't want to save such a fool who could kill people in front of so many people, so he just let Sui Zilin suffer more.

"Master, Master."

Butler Xin knelt there, looking at Su Ri's body with tears on his face.

Before leaving the Imperial Prefect's Mansion, he repeatedly promised the Lord that he would protect the young master's safety and would not let Prince Mo touch a single hair of the young master.

Who knew that the one who would touch his young master was not Prince Mo, but Prince Lin, Sui Zi Lin!

How was he supposed to explain this to the Imperial Master? And that year was coming. He really deserved it. Where did his young master offend him? Why did he do it so cruelly?

"Steward Xin, pick up your young master... let's go back to your lord to seek justice. Jiang Li came to his side and said something to him.

No one had expected this scene now. The most hateful thing is that Su Ri killed him as soon as he could, and it happened to implicate his mistress. How could his palace master spare Sui Zilin this time? !

Now his master and the imperial master can work together to deal with Suizilin in an honest and fair manner!

When Butler Xin heard what he said, he raised his eyes bitterly and looked at Sui Zilin who had been tied up but was still shouting. If he hadn't been just a servant, he would have definitely found Sui Zilin. Desperately!

"Wait, wait!"

He must tell his elders exactly what happened and let his elders uphold justice for the young master!

...

As soon as she entered the Golden Pearl Space, Sui Ziyu came up to her. Seeing Lin Caisang's terrifying look, she was really frightened.

"Sister-in-law, how could you do this? Where have you been?"

She couldn't help but swallow, looking at Lin Caisang who looked like he was fished out of the snow.

"It's okay, the mission just failed."

Lin Caisang wanted to raise his hand, but found that his stiff arms could not be raised, and only his mouth made any sound.

"mission failed?"

Sui Ziyu was confused for a moment, but he quickly came to his senses.

"Su Ri is dead? This is impossible, sister-in-law, your medical skills are so good, how could it be possible for Su Ri...sister-in-law, sister-in-law?"

Before she finished speaking, she felt her eyes flashing. Lin Caisang, who was standing in front of her, suddenly disappeared.

...

In a place covered with ice and snow, there are many jade books densely covered on the ground, as if one or two pieces can be crushed by just stepping on them, making people feel like they have nowhere to step.

At this moment, Lin Caisang was standing in this place. The stiffness in his body was gone, but it was still so cold that it made people shiver.

"This is where you will be punished for mission failure?"

'You can read the jade book you want to read here, and Jinzhu will record the time and speed for you. When you have learned a certain amount, you can go out and collect the mission points as usual. '
