

Star of Space 98

Chapter 98 The Impossible Person

However, Capt. Wei didn't have nothing to do. He was busy with the corpse over there.

Seeing that the leader had suffered a loss, the other masked men looked at each other and chased Lin Caisang with their big knives. They could ignore the others. As long as they chopped the fat woman in front of them to death, they would get one. A lot of money.

This is definitely a good thing.

Lin Caisang ran for a few seconds and felt a big knife slashing towards her back. She bent her waist and the big knife missed her a few inches away from her back.

The next second, she decisively took out the silver needle bag she had obtained at Zhong's house, opened it, took out one, and shot it at the masked man closest to her.

No one came to save her, so she had to save herself. She couldn't just wait here to be hacked to death, right?

"ah!"

The masked man was pricked by a silver needle and screamed in pain.

"Damn, I shot it wrong." Lin Caisang cursed himself secretly, his accuracy was really bad.

He obviously wanted to shoot the dizzy point on his head, but it turned out to be a painful point. But she didn't blame her. Who told this man to turn around without any problems? It really was none of her business.

"Little girl, stand still for me, I will chop you to death!"

Another masked man shouted angrily when he saw another companion fell in Lin Caisang's hands.

Lin Caisang: "..."

You are about to chop me to death, but if I still stand and let you chop me, am I not a fool?

However, she didn't have time to think too much about this. Two big knives were already slashing at her. Up and down, she could hardly even imagine how to hide. These people really wanted her life.

She broke out in a cold sweat, and the sword was already in front of her. She was thinking about hiding in the Jinzhu space for a while, but unexpectedly...

Two big hands appeared in the sky, and they caught the hands of the two masked men. With a twist of their backhand, they threw the two men away, making two sounds of heavy objects falling to the ground.

Immediately afterwards, several muffled sounds were heard, and the masked men were all beaten so hard that they were piled on top of each other, making Lin Caisang dazzled.

"Are you OK?"

The next moment, a concerned voice sounded in his ears.

Lin Caisang looked up and saw a person who could not possibly appear here, but appeared next to her.

"Mo, Mo... Brother Mo Lian, how could you... know..."

Who will tell her what is going on, why Ya Mo Lian came here, and how happened to save her?

Didn't he come here specifically to find her?

"What's going on? Miss Liu!"

Not far away, Capt. Wei heard the noise and came over with several agents.

After hearing the sound, Lin Caisang reacted and quickly took out a brand new mask and handed it to Ya Molian.

"Put it on quickly, don't let anyone see your appearance."

She doesn't want her identity to be known to everyone because of Ya Mo Lian. You know, Ya Mo Lian walks around Qianlin County with prey and other things all day long. Wei Captou might see him sometime. Got past him.

Ya Molian took a deep look at her, took the mask and put it on her face like her.

"This is... what's going on, Miss Liu, are you okay?" Capt. Wei rushed over, glanced at Ya Molian, then frowned and looked at the masked men stacked on top of each other like Arhats, scared. Breaking into a cold sweat.

Are these people here to kill Miss Liu?

"It's nothing, it's just that some people don't want me to treat people in the town." Lin Caisang said lightly, walked over and pulled out his silver needle from the masked man who howled the loudest.
