

Star of Space 986

Chapter 986 Continue to harm you

"That's enough, Queen, you are not strict in raising your children. Go back to your palace and reflect on your mistakes!" Seeing that she was still about to have an attack, the emperor said directly.

The Queen pursed her lips. No matter how angry she was, she could only endure it for a while.

"Concubine, please retire."

After glaring at Ya Molian again, she turned around and left the imperial study.

"Father, if nothing happens, I will leave." Ya Molian said, and turned around and left without waiting for the emperor to say anything.

Suyang looked at the emperor, then at Commander Mo, and left without saying a word.

...

Outside the palace wall.

The solemn carriage chased Ya Molian's carriage until they reached a short distance outside the palace wall before the two carriages stopped.

"What's the matter with the Imperial Master chasing this king?" Ya Molian opened the curtain and asked.

"Prince Mo, I dare to ask you, does the child's matter really have nothing to do with you?" Su Yang was not polite and asked Ya Molian directly.

"I have said before that if I want to deal with Su Ri, I can choose any place. There is no need to wait outside Shaohua City. It is still in the public eye. I am not in the mood to get into trouble."

Yamollian said.

"What's more, why would I kill such a stupid person? Wouldn't it be better to leave him to continue to harm you in the Imperial Preceptor's Mansion?"

Suyang: "..."

Although he knew that what Ya Molian said was true, Prince Mo, the underlying meaning of your words really made him not know what to say.

Even if his son was in trouble, Ya Molian couldn't say it so straightforwardly in front of him as his father, right?

Just when he was about to be solemn and deep in thought, he heard Ya Molian speak again.

"I had a very pleasant conversation with the female doctor. I heard that the female doctor is very interested in Su Ri's poison. Even if it is to win over her, I will not do anything to Su Ri."

he said.

When it comes to Lin Caisang, Su Yang has something to ask Ya Molian again.

"Prince Mo, I heard from the housekeeper in my house that the female doctor finally spoke to you. I wonder, what did she say to you?" he asked.

"It's nothing. She probably suffered internal injuries due to the reverse flow of her energy and blood in a moment of excitement after seeing that Su Ri had no hope of treatment. I just asked her."

Ya Molian explained.

"However, she asked me to give you a message for her. When she recovers from her injuries, she will return all the rewards from the National Preceptor's Office. After all, she has not cured Mr. Suri's poison."

he said.

Hearing this, Su Yang took a deep breath.

She regretted that she had agreed to the emperor's request and asked Lin Caisang to go to Baibind Mountain to rescue Sui Zilin, but now, he actually caught up with his son.

His life at the end of his life was basically bought with his son's life.

"I understand, I'll take my leave."

Suyang opened the car curtain and ordered the driver to leave.

"Palace Master, where are we going?" Banjue asked his palace master outside the carriage.

"Has anyone been caught?"

Ya Molian sat in the carriage and asked in a deep voice.

"The news came from Ban Wu that they have been caught, but they are very tough and refuse to say anything!" Ban Jue replied.

The people caught were the two guards who had been traveling with him in Suizilin's carriage these days.

At that time, taking advantage of the chaos after Su Ri's death, the two men took the opportunity to run away. Fortunately, Ban Wu responded in time and led them to chase him. Otherwise, this matter would have been considered to be Sui Zilin's deliberate killing of Su Ri. .
