

Star of Space 99

Chapter 99 Come back with me

"Tsk, these dogs!"

Captain Wei clicked his tongue and curse words came out of his mouth.

"Come here, take them all away, and let me find out where these people come from!"

As soon as he finished speaking, the masked men who were still wailing were quickly taken away. Only then did he turn around and look at Lin Caisang.

"Miss Liu, are you okay?"

"It's okay. Fortunately, my friend came as scheduled. Otherwise, I, a weak woman, would really die in the hands of those desperadoes." Lin Caisang glanced at Yamolian and calmly faced Wei The head catcher said.

In fact, the little Jiujiu in my heart has already been rubbed out. I have thought of a hundred reasons, but I still can't figure out how Yamo Lian knew she was here?

He actually came here to look for her. Is he really that capable?

"Is this young master your friend?" Wei Captou looked at the silent Ya Molian, a little surprised. ㄇ

These two people are really mysterious. They don't know where they came from. The gates of Hongling Town are obviously closed. How did they get in?

"Um."

Lin Caisang responded simply.

"Captain Wei, please find a place for me. I'm covered in poison powder and need to be cleaned up."

"What?"

Capt. Wei was startled by her words. Then he saw the white layer of poisonous powder on her clothes and nodded quickly.

...

"Come back with me, this is not the place you should stay."

When Lin Caisang dropped the towel and opened the door of the inn, she saw Ya Molian leaning on the pillar staring at her coldly, with some anger in her words.

"go back?"

Lin Caisang raised his eyebrows and blinked.

"Are you sure you want me to leave behind so many patients? This is the life of a town."

Besides, I don't care about human life or death, she has accepted the mission. If the mission fails, she will be punished, okay?

Although I don't know what the specific punishment is, being punished by Jinzhu Space is probably a very serious punishment, not to mention that she received a high-level mission, not a medium or low-level mission.

Of course, you can't tell Ya Molian about this.

"Xiao Sangzi, things here are not as simple as you think." Seeing that she was not afraid, Ya Molian spoke again.

"How complicated can that be?" Lin Caisang was even more disapproving.

Those masked people didn't look like professionals. They must be someone who didn't like her and wanted to deal with her. And she had already guessed who that person was. She just ignored such villains.

"Little Sangzi!"

Ya Molian was really pissed off by her. She had never seen someone so disobedient and always rushing into danger.

"I don't know how good your medical skills are, but you can see that you are in danger."

"This little danger is nothing. Just let Chief Wei send two people to protect me someday." Lin Caisang said.

"you!"

Ya Molian took a deep breath, there was really nothing he could do to her.

"You promised Grandpa Lin that they would go back in three days. Do you think things here can be solved in three days?" he asked.

Let alone three days, it is estimated that thirty days will not work. The water in Hongling Town is a bit deep. If the disease is cured this time, it will come back again next time. Could it be that this girl will live here forever?

Hearing this, Lin Caisang fell silent.

Things here really can't be solved in three days, especially when Ya Molian comes. She can't even go home in three days to report that she's safe, and it's impossible to enter the Jinzhu Space.

Maybe, after things here are over, we will have to walk home with Ya Molian...
