

Star of Space 993

Chapter 993 Stay longer

"Tsk, I've been away from home for almost two months, and I don't know what's going on at home. I can still wear thin clothes when I go out, but now I'm wearing a coat.

Yes, think about it, she has been away from home for almost two months.

"Everything is fine at home." Ya Molian said.

"After arriving here, Jiang Li went to the village to inquire about it. The rice on Menghuang Mountain has been harvested. The village has also selected the mountain land and started digging ponds. Changfeng is now Jieyuan. Now your family It's so lively."

"What?!"

Hearing his words, Lin Caisang was stunned.

Jie Yuan, if this were put into modern times, that would be the provincial champion in each province. Did Brother Changfeng actually get the first place in the county? That house must be very lively, and the stone on the threshold must have been stepped on, right?

It's just that it's lively, and there are a lot of people coming to make trouble, right?

"This is such a happy event. After this meal, I have to go back quickly.

She said happily, and then began to add vegetables to Ya Molian, adding all the vegetables on the table into his bowl.

"Brother Mo Lian, you eat too, eat quickly. By the way, will you go back later? Or go back to Shaohua City directly? You came back from there suddenly, there must be a lot of things that you haven't explained yet, right?"

she asked.

"It's okay. I'm free to come and go. I'll stay here for a few more days." Ya Molian raised her hand, patted her head lightly and said.

He was not worried about leaving her alone here. He would stay a little longer and deal with all the people here who needed to be dealt with, and it would not be too late to go back.

"oh."

Lin Caisang nodded.

...

Yacun.

The threshold stone of the Lin family these days is indeed, as Lin Caisang expected, almost broken.

Those relatives who had not come to visit for eight hundred years suddenly appeared in the Lin family's yard without knowing where they came from. Anyway, there was an endless stream of people giving gifts from morning to night.

But there is one thing that Lin Laojie and Lu Qiubo did very well. Anyone who brings gifts will return the gifts intact when they come to have a cup of tea. They will never charge a copper penny.

Because Yang Lin was getting heavier and heavier with the child, he either hid in the room or went to the deserted mountain where no one could be seen at all.

The same goes for Lin Baiyi. He follows his wife wherever she goes. He doesn't care about the people who come and go at home, and he won't cause any trouble for his son.

However, sometimes it doesn't mean that if they don't cause trouble, trouble will not come to their door.

On this day, several uninvited guests came to the Lin family. When he saw the visitors, Lu Qiubo's complexion suddenly turned bad, and he almost came out with a broom and kicked the people out.

But no matter how uncomfortable I feel, I can't do anything to chase away guests, and this person is still...

"Changfeng, don't be stunned. Let's welcome your grandparents in." Looking at his stunned grandson standing in the yard, Lin Laogong, who was sitting in a wheelchair, sighed and said to him.

"Old lady, go tell the clan that our family won't entertain any guests today."

After explaining to Lin Changfeng, he looked at Lu Qiubo, called her over, and whispered a few words in her ear in a low voice.

Today, just by knowing these people from the Yang family, they have to show off their own martial arts skills. They don't dare to entertain any other guests.

Moreover, he didn't want to lose his old face.
