

Starchild 131

Chapter 131: Starwings

Various comprehensions, various scenes, and various colours were vivid in Yun Xi's mind. As if they were flowers that were blossoming in a garden, the threads between Yun Xi and the girls were indeed increasing his power steadily.

Even though Yun Xi hadn't entered any trial recently, he could still feel that his understanding about sword skills was growing, and his talent was also constantly getting stronger at the same time. The best evidence was that Crane Wings Twin Swords were making happy, tremulous sounds. One of the special properties of the twin swords was that they could become stronger as their owner's talent became stronger. When Yun Xi had just obtained the twin swords, he could barely control them to launch flying attacks within ten metres. Now, the range had increased to fifteen metres.

His sword flying ability had also increased. In the past, he couldn't hover above the ground higher than two metres, but now, he could fly about three metres above the ground. This had barely entered the realm of air battle.

The girls' growth advanced Yun Xi's growth, and Yun Xi's growth also advanced the girls' growth. They had formed a perfect, virtuous cycle. It wasn't a kind of inconspicuous growth, but like a seed under the soil, suddenly being exposed to the sun and growing comfortably and naturally.

"Mei'er, will it be better for all the girls if I share my seeds to as many girls as I can?"

The more Yun Xi used the seed system, the more love from the stars Yun Xi could feel. The system could not only improve his power but also improve his talent. That was too fantastic! Moreover, it wasn't only increasing his talent, but also included the girls' talents and powers!

“Yes. Master, you’d better share your seeds to all the good girls you will meet. For example, Mumu is a very good target. You did well at that time. Your seeds aren’t only good for yourself, but are also good for them.” Mei’er never felt bored carrying out the task the stars ordered her to do.

As long as Yun Xi was still at the mortal rank, he could share his seeds with about a hundred girls, and he had only used about forty seeds till now. There were still sixty quotas before Yun Xi reached the hero rank. If he didn’t use them, that would be a great loss.

“I must urge my master to find more promising girls and give out all the hundred seeds!” The star elf, Mei’er, secretly made this decision in her heart.

...

At the same time, in the hot spring, the girls were discussing a very important matter.

“Ne ne, since we hit it off with each other, why don’t we form a formal group?”

“Yes. We were all born in White Lotus Sword Domain, and gathered together from different places and became the best of friends. This must be destiny’s guidance.”

“It’s about time. No one here thinks that she can’t become a formal disciple of Sword Palace, right?”

Of course not. After sharing Yun Xi’s seeds, the girls were congenial to each other tastes, and their talents had also improved to an incredible extent. Even if they were not as good as Hua Yue and Xiao Cao, but they were sure that they would reach the hero rank someday. It sounded like unreasonable confidence, but they were so sure about that and not one of them had any doubt about that.

After being blessed by Mei's black hair, they had become different. Their lives had been changed after that day. Yun Xi thought that no one would realize his behavior of propagating his seeds, but he ignored the girls' instincts. They had vaguely realized that there must be some link between Mei and their changes from a long time ago. Hence, the girls gathered here and considered how could they repay the miracle Mei had given them.

"So, what can be a suitable name for our group?"

"Hua Yue is our leader and Xiao Cao is our deputy leader, so... how about 'Rose Knights'?" Ling Ling raised her hand. As one of Hua Yue's subordinates, she naturally supported her big sister.

"No, no, we are not nobles from Western God's Domain. Besides, there are already a lot of Rose Knights all over the god's domains!" The civilian girls shook their heads together.

"The Plantagenet Knights?" The noble girls asked. Due to Hua Yue, they were inclined to choose a western style name.

"No! Why are they all flowers? I think that 'Convallaria Knights' sounds better." Undoubtedly, this was a girl who biased towards Xiao Cao.

Hua Yue and Xiao Cao's supporters were split about half and half. Hua Yue's noble identity let her easily become their leader, even the civilian girls didn't have too many complaints about that. However, it didn't mean that they would let the noble girls decide their group's name all by themselves.

Flower or Grass? Both of them had their own ideas. They singularly quarrelled with each other.

“I think that Starwings will be a good name!” As they quarrelled, Mumu woke up. She offered them her proposal.

“Humm, it doesn’t sound bad.” The noble girls looked at each other, then nodded.

Since they couldn’t use traditional female group names such as “Rose”, “Plantagenet”, and “Iris”, then “Starwings”, which sounded neutral and dreamy, was also acceptable.

“Good girl, Mumu. You’re smart! I also think that ‘Starwings’ is a good name.”

“Well, look at the starry sky, I can image that someday we will finally sprout wings and fly amongst the stars. That’s romantic! I like it!”

“From now on, we are the ‘Starwings Female Knights’!”

Mumu’s charm was matchless. Besides, Starwings sounded romantic and poetic, conforming with the girls’ likes. They were all satisfied with this name.

“Therefore, from now on, I’m the leader of Starwings Female Knights! Everyone, be good to each other!”

As the Hua Family’s girl, it was a natural thing to form a small group. However, after being elected as the leader of Starwings Female Knights, Hua Yue still felt that a ball of flame was burning in her heart.

“I’m the deputy leader... well, not bad...” Xiao Cao looked at Hua Yue’s breasts and her own breasts, then finally nodded and accepted the difference.

She wasn’t suited to be the leader, which was a career that needed to spend a lot of time communicating and leading everyone. Her only mission was to practice her sword skills to the limit and defeat all the potential enemies of Starwings Female Knights.

If Hua Yue was the imperial crown of Starwings Female Knights symbolizing honor and glory, then Xiao Cao was the sword of Starwings Female Knights eliminating all their enemies, even if it meant that she would be bathed in blood. As for Mei, the reason for the birth of Starwings Female Knights, she was naturally the emperor of the imperial crown and the sword.

Starwings Female Knights finally formed. At that time, the girls didn’t know how far the “Starwings Female Knights” would go on, and how famous they would be in the future.

Chapter 132: Invasive Creatures

Yun Xi was standing at the top of the mountain and watching the whole island. The place where he and the girls were was just a very small area if comparing its size to the whole island’s size. Judging from the sun’s location, they should be in the eastern corner of the island within a radius of about ten kilometres.

The dormant volcano wasn’t the summit of the island. It was just a part of a group of volcanos. The largest volcano was about several kilometres in height at the center of the island. Although the island was in a tropical region, Yun Xi could see ice caps and white snow on the volcano.

“I never thought that it would be such a large island!” Yun Xi only saw a small part of the island, but the area he could see was already a thousand times larger than the small town he lived in in the past.

The island was located in the forbidden area of White Lotus Sword Domain. Apparently, there wouldn't be any aborigines. It was an uninhabited island that had never been developed, which meant that it was an impossible goal to leave the island only with his and the girls' power.

They'd better collect all the materials they could find from White Lotus's wreckage and the forest, to build a solid makeshift camp and wait for Sword Palace's rescuers. Maybe there was no one that could match the apostle even in the whole White Lotus Sword Domain, but there must be someone far stronger than the apostle in the Sky Sword God's Domain.

The legendary "Sky Sword" were a group of swordsmen that ruled all sword domains, and the master of Sky Sword God's Domain was the strongest swordsman in the whole Eastern God's Domain. The fact that White Lotus Sword Domain was invaded by an unknown apostle wasn't a small matter. Yun Xi thought that the rescuers should be already on their way now.

"Before the rescuers come here, we should make sure that we have enough food, water, and a safe place to live." Yun Xi listed all the troubles they may face. Finally, he cleared his head.

He and the girls would strive to survive on the island together. None of them knew how to live on an uninhabited island, and they didn't know if there was something dangerous on the island. Therefore, they must be very careful.

"Master, be careful! A large part of the sky is becoming instable!" Whilst Yun Xi was working on his "Desert Island Survival Plan", Mei'er suddenly warned him in a serious tone, "Invaders are intruding this airspace! Red alert! Red alert! They are not apostles! They are monsters from the void!"

Even if Mei'er didn't warn Yun Xi, he and all the girls on the island saw that the sky was breaking up like a layer of glass, suffusing with waves.

A large number of unknown monsters were staring at the island and the living beings on the island with their vicious eyes.

“Mei’er, how many are they?” Suddenly, he had to stop his desert island surviving plan and fight against intruders. The change was too drastic.

“Scanning... the space is repairing itself, but there are a fourth-ranked monster and a lot of its children squeezing into the airspace!” Mei’er’s voice sounded anxious.

“Hiss!” A humongous blue spider was squeezing into the world from the void. It was about ten metres long with countless dark shadow patterns on its back. Almost half of its sharp legs had broken, but it still emitted a gloomy and cold temperament.

Countless spider threads dropped down along its eight legs and were tightly wrapped around the island’s main peak. With that, it barely pulled itself out from the void crack in the air.

“It’s a dark shadow spider, a common hunter in the void. It’s good at spinning webs and hatching little spiders, having a burning desire to catch prey to feed to its descendants. It’s seriously injured now, but the chance of you winning is still not more than 10%.”

Mei’er searched her memory and told Yun Xi the spider’s information. It was one of the bottom feeders in the void and known for its strong reproductive capacity and patience when it hunted its prey.

In essence, dark shadow spiders didn’t need to eat blood and flesh. They could even live without food for dozens of years. The only purpose for them to hunt was to produce descendants.

“My chance of winning is not more than 10%? That’s really bad.”

Yun Xi watched the dark shadow spider. Maybe it was just a negligible existence in the void, but to him and the girls, it was a horrible monster that had the ability to eliminate them all.

“Be careful, master. It has noticed you!” Mei’er warned Yun Xi in an anxious tone.

“I know!” Yun Xi had seen its eight compound eyes, which were full of killing intention inside them.

To the dark shadow spider, it didn’t need a reason to kill, because it would never give up any chance to catch prey, especially when the prey was a black-haired, sweet human. In the dark shadow spider’s memory, humans were a kind of super delicious food.

I want to eat this human, hunting and hunting, then produce my descendants! The dark shadow spider’s instinct was telling it that it was time to kill.

“I can’t run away. The whole island has become the spider’s hunting ground.” Yun Xi took a deep breath with large drops of sweat dripping from his skin.

He felt nervous. After all, this was not a star’s trial. He was facing a bloodthirsty monster in the reality.

“Mei’er, tell me characteristics of its attacks!” Yun Xi started to run to the highest volcano at his full speed.

“Yes! Dark shadow spider is a creature that is good at lurking and spinning webs. Normally, dark shadow spiders will take a large amount of time to catch prey in the void, so they won’t eat their prey easily. Instead, they tend to stock prey and wait till the best spawning time. At that time, they will ovulate and fertilise themselves to produce clones. Oh, the spider is a hermaphrodite! Its super power is its dark shadow spider thread that has strong ductility and tenacity. It’s not easy to break free from its threads!”

As Yun Xi heard Mei'er's words, the dark shadow spider had descended onto the volcano and started to hunt. One spider thread after another formed a prodigious web. Taking the dark shadow spider as the center, the web had covered the whole area within a radius of ten kilometers.

"No! Hua Yue, Xiao Cao and the other girls are still there!" Yun Xi stepped on the twin swords, flying to the volcano.

"Arrr!"

"Yaaaa!!!"

"Noooooo!!!!!"

The girls emitted plaintive cries. They were bathing! None of them had expected that they would face such a sudden misfortune. They were wrapped up by the threads and dragged into to the sky.

"You said that the spider wouldn't kill its prey easily, did you?!" Looking at this scene, Yun Xi's heart was burning with anger.

If the spider ate them immediately... No, I won't let it do this!!!

"Before the spider starts to produce its descendants, it won't kill its prey. Master, be careful, it has locked on you!"

Chapter 133: Upgrade

“Whooooa! No!”

“Let go of me! Let go of me!”

“Help!”

The girls’ cries resounded throughout the sky. The Starwings Female Knights had just been formed, then immediately faced its first huge crisis.

“What? What’s this?!” Ling Ling’s arms and legs were wrapped in countless black threads. No matter how hard she tried, she still couldn’t get rid of these tough threads.

Her shoulders shivered. Her white, attractive arms were folded in front of her chest in shyness, but could only barely cover her full breasts. As for the beautiful curve between her her waist and ass, and her slender, white-gem-like legs... She had no way to cover up them.

The other members of Starwings Female Knights were also wrapped up in the web. Their gem-like breasts, smooth and snow-white skin, and trembling bodies were all exposed in front of Yun Xi’s eyes. Looking at so many girls’ naked bodies, Yun Xi could barely control his heartbeat.

Whaaaaat a damn spider!

The self-invited spider’s first hunt had caught thirty-five girls, almost all the members of Starwings Female Knights. Only Hua Yue, Xiao Cao escaped from the spider, oh, and Mumu, she was hiding in a place that even Yun Xi couldn’t find.

As one of the three strongest members of the Starwings Female Knights, Yun Xi immediately guessed Hua Yue and Xiao Cao's plan.

"Hua Yue, Xiao Cao!"

Yun Xi didn't need to say anymore words. In the face of the dark shadow spider from the void, the three people made the same choice.

Fighting!

Yun Xi took the lead. He ran to the spider from the front to draw the Dark Shadow Spider's attention. His Crane Wings Twin Swords flew in the air, making the void monster feel a little threatened. Well, if it was a human, then the twin sword was like a pair of poisonous wasps. That was how the dark shadow spider felt.

"Hiss!" It expertly put the captured prey aside, spinning its web again. Compared to the web it had just spun, this time, its web was more elaborate and it had almost no loopholes.

"Master, be careful! Don't be wrapped in the web!"

"I know!" Yun Xi looked at the web deeply with his eyes. His chance of winning was less than 10%. If he didn't pay his whole attention to the spider, his chance of survival would be very slim. However, he wasn't going to give up as long as there was still a flash of hope. He could clearly feel the girls' fear and anxiety via the seeds between them.

“Whooooo. It’s horrible. Am I going to die?”

“No! I still want to do many things! We just formed Starwings Female Knights, how can I die here now!”

“I don’t want to die! I don’t want to die! I don’t want to die!”

“Somebody help me!”

Yun Xi clenched his fists. For the first time, he used his seeds’ connecting ability to comfort the girls. He had never done it before, but he naturally understood how to do it.

“No, you won’t die. I will protect you!”

His voice was firm and strong. That was his voice echoing within their souls. That was an oath Yun Xi made to the Starwings Female Knights.

No one would die!

“You all trust me, so I will believe in your trust! Give me your talents and powers! I won’t give up on any of you! This time, let me save everyone! If only a miracle can defeat the monster, then I will become that miracle!”

His voice directly echoed in all the captured girls’ hearts. Yun Xi was talking to them via their souls, telling the girls his heartfelt thinking. Hearing his voice, powers started to emerge from the bottom of the girls’ hearts. As if they were a group of lost lambs that were hearing an angel’s voice, they saw his

appearance with their eyes, then their hearts naturally felt peaceful; they heard his footsteps with their ears, then their bodies naturally relaxed; they touched his soul of light, then they were naturally relieved.

Their hope still exists! Mei hadn't given up on them! She is fighting for them, rushing to the monster for them!

The threads among the girls were becoming clearer and clearer. The more dangerous the current situation was, the more solid the friendship amongst the girls would become.

Their hope was only as great as their despair. The girls prayed for their miracle, Mei. Their wishes continuously turned into countless true powers, enchanting Yun Xi's body via the invisible threads.

Power! A new power was emerging in Yun Xi's body!

"Language and cognition, behavior and appearance, soul and body!"

The girls' pure wishes turned into powers and crossed the starry sky, turning into a mirror that could achieve all their wishes.

Breaking the barrier!

As if it was just a piece of paper being torn, the barrier between the second rank and the third rank instantly disappeared inside Yun Xi's body. Instantly, Yun Xi understood that his threads weren't just some ornaments. They were true yokes between him and the girls. The seeds in their souls were linked by these threads, transferring him incredible powers to create a miracle for them!

This was a system the stars specially made for him. It was his unique power!

The great sword maid's black uniform was emitting a pleasurable and exciting smell. The Killing Princess's power was gradually being awakened by Yun Xi's heart.

Yes. Since I have to fight, then I should have no hesitation!

At this moment, he only wanted to see his enemy's death!

"Break!" Yun Xi stepped on the flying male sword, holding the female sword in one of his hands.

The things which he couldn't do in the past, the realm which he could only look up to in the past, was becoming closer and familiar. He successfully launched the sword skill which Hua Huo had once shown in a previous battle.

Flying Swallow Sixteen Fold Attack!

The sharp sword turned into a flying swallow, cutting off the overwhelming spider threads.

Speed up, speed up, and speed up! This was Yun Xi's Flying Swallow Sword. It wasn't as nimble as Hua Huo's sword, wasn't as heavy as Hua Yue's sword, and wasn't as instinctual as an animal, like Xiao Cao's sword.

He just made it faster, faster, and faster, till the limit of his speed. He broke through all the barriers in front of him and flew straight to the summit of the volcano, where the void intruder was.

“Hiss?” The dark shadow spider’s compound eyes stared at Yun Xi. For the first time, it became a little serious.

In its eyes, Yun Xi had just been upgraded from a poisonous wasp to a killer bee now.

Chapter 134: Spread

Faster! Be faster!

Like the wind and the thunder, he wouldn’t stop! He wouldn’t step back! The gap between the mortal rank and the hero rank was wide. Yun Xi had to risk everything on his luck to fight for the smallest chance of winning.

His heart was beating fast, and his blood was flowing backwards due to nervousness. For the first time in Yun Xi’s life, he was going to challenge a hero-ranked enemy with only his own strength.

It wasn’t a dream or a trial, but a real, life-and-death battle. If he died, he wouldn’t be revived! Even though he had died hundreds of times in star’s trials, he still had only one life in the real world.

To challenge a fourth-ranked monster as a third-ranked swordsman... Yun Xi never dared to imagine this in his past life.

Then, why did he feel so excited in his heart?

Stepping on the male sword, the information about the dark shadow spider was flowing into Yun Xi's mind. Its body was big, over ten metres long. Half of its eight legs had been broken, which would greatly reduce its movement speed in battle. Its hero-ranked super power was its black threads, which could block the area within a radius of ten kilometres and lock on all the targets within the range.

As a hero-ranked living being, the dark shadow spider's strength, attack, and defence, were all above Yun Xi's. If the dark shadow spider was still at its peak state, Mei'er wouldn't tell Yun Xi that his chance of winning was 10%, but 0%! Its broken legs were Yun Xi's only chance of winning.

Even though it was a hero-ranked living being, when it faced the void crack, it wouldn't be any tougher than paper, unless it became a legendary creature like the eighth-ranked White Holy Dragon, then it would have the ability to break the void.

The dark shadow spider had barely pulled itself from the void into this world relying on its threads. As the price, half of its legs had been broken. Its movement speed had suffered a deadly blow.

Speed! This was Yun Xi's only advantage!

"Hiss!" The dark shadow spider opened its cold compound eyes, locking onto Yun Xi who was rapidly flying in the air with his twin swords.

Indeed. Its greatest weak point was its movement speed. However, its attack range was about ten kilometres. With its inexhaustible black spider threads, its weak point had been perfectly covered.

Originally, dark shadow spiders weren't famous for their movement speed. They were hunters, who usually made traps and waited for their prey to fall into their web, then launched a fatal strike.

The black spider threads immediately turned into ashes after they were cut off by Yun Xi's Crane Wings Twin Swords. But at the same time, the dark shadow spider immediately emitted more spider threads. These black spider threads could instantly extend dozens of kilometres. They were retractable and controlled by the dark shadow spider's mind.

It was rare to find prey in the void. Therefore, once the dark shadow found prey, it could be very patient. It could even spin a web for ten years, then silently wait for the prey to be caught in its web.

With the creepy spinning sounds, the dark shadow spider's web had finally been formed. If one looked down from the sky, one would see that the black web had covered the whole area within a radius of thirty kilometres.

Yun Xi was at the center of that web. The web was like an elaborate trap, not giving the prey the tiniest chance to escape. This was the dark shadow spider's dangerous hunting habit.

Yun Xi's Flying Swallow Sixteen Fold Attack had really taught it a lesson. This time, all the threads of the spider's web were made with over ten black spider threads. The web's intensity was so high that it could even make all mortal-ranked people feel desperate.

Fortunately, Yun Xi's twin swords weren't normal. Even if comparing Crane Wings Twin Swords to all hero-ranked weapons, they were at the top classed and entitled to become a pair of artifacts.

"Flying Swallow Sixteen Fold Attack!"

Sixteen after images of sword crisscrossed in the air. Every attack was cut on the same point.

This wasn't a property from Hua Huo's Flying Swallow Sword, but a special ability from Xiao Cao's Mortal's Sword. After practicing her sword skill for a million times, Xiao Cao finally learned her perfect Mortal's Sword, which was as stable as a stalk of grass at any time.

The reinforced spider web was ripped off by Yun Xi's attack again. This time, Yun Xi was only about a kilometer away from the summit of the volcano, where the dark shadow spider was.

To the dark shadow spider, Yun Xi's danger class rose again. He had become a giant killer bee in its eyes. To the dark shadow spider, it was unable to move freely and was going to lay eggs. Yun Xi's lightning speed was really a big problem for it now.

"Hiss!" The dark shadow spider made a weird sound again. It slowly opened its mouth, emitting out a large quantity of black fluids from its mouth.

It's coming! Yun Xi could feel that the next three seconds would decide the battle's result.

The first second!

Black fluids gushed out from the dark shadow spider's mouth, then divided into four sections, spreading in the air. Each divided section was like a mirror, clearly reflecting Yun Xi's figure, which meant that the dark shadow spider had put all its attention to its only threat: Yun Xi.

Four ribbons formed by countless mirror surfaces crisscrossed and floated besides the dark shadow like four snakes. Once the black threads around them were touched by the four ribbons, they were immediately absorbed by them.

After absorbing thousands of black threads, the ribbons turned a frightening dark black in the air and continuously emitted dissonant, horrible sounds.

"I can't dodge them..." Yun Xi observed the four ribbons and made a decision in his heart.

This must be the dark shadow spider's strongest skill, its trump card just like the male fiery dragon's Dragon's Breath.

As a third-ranked swordsman, he had forced the fourth-ranked dark shadow spider to use its strongest skill. It was already an amazing achievement that he could be proud of. However, Yun Xi didn't want any achievement, he wanted to win!

The second second, high-speed shock waves, which could even be seen by the naked eyes, appeared beside the four black ribbons, which had covered half of the island. Around and around, they spread as if they were stones that were breaking the surface of water.

"Crane Wings Twin Swords, flying!" Yun Xi held the twin swords in both his hands.

He launched his fastest, strongest attack towards the dark shadow spider. As if he was a shooting star, in the girls' worried eyes, Yun Xi chose to face the difficulty.

Chapter 135: Flying Yun Xi

The third second.

In the first one tenth of the third second, four huge black ribbons floated and crisscrossed in the air, forming a weird shape that looked like a large eye. This was one of the dark shadow spider's strongest abilities: Dark Shadow Evil Eye, a nightmare spun by itself.

Looking at Yun Xi, the dark shadow spider grinned. It laughed at the little bug's overconfident behavior. Its gigantic Evil Eye stared at Yun Xi, staring at his skin, black hair, and flappy maid's uniform.

In the third one tenth of the third second, in the blink of an eye, a weird curse easily cut through Yun Xi's body.

"Hiss!" A heartbreaking scene appeared in front of the girls. Yun Xi's maid's black uniform was pierced through by countless black light points. He was thrown out and flew in the air like a tattered paper doll.

His strength, blood, and soul were all annihilated by the Dark Shadow Evil Eye. This skill was the dark shadow spider's super power and its trump card. To a mortal whose life and soul wasn't stronger than the dark shadow spider, this was an inescapable, unstoppable, deathly blow.

"How dare you!"

"Go to hell!"

At the instant Yun Xi was hit, Hua Yue's White Gold Crossed Sword and Xiao Cao's black iron sword cut the air, smashing on the dark shadow spider's broken legs from both its sides. With Yun Xi's cover, Hua Yue and Xiao Cao finally launched their attacks. However, their attacks only made a few slight wounds on the dark shadow spider's body.

Not everyone could cross the wide gap between the mortal rank and the hero rank like Hua Huo. Even though the dark shadow spider was badly hurt, its shell was still far harder than steel. In fact, the dark shadow spider had noticed Hua Yue and Xiao Cao when they sneaked up on it. It just ignored them. After all, compared to Yun Xi, they were just a pair of honey bees.

In the middle of the third second, as the dark shadow spider triumphantly looked at Yun Xi's body dropping to the ground, Crane Wings Twin Swords suddenly emitted rays of cold lights.

"Blow up!" Yun Xi used his last Green Hippo's Seed to recover his physical strength.

When the dark shadow spider's Evil Eye had stared at Yun Xi, he was almost killed – if he hadn't used the Green Hippo's Seed, which he had hidden in his body just in case. The Evil Eye Curse only plundered all of Yun Xi's physical strength. His blood had almost frozen at that time. However, that was just the curse's side effect.

The most powerful part of the dark shadow spider's Evil Eye was directly released into Yun Xi's soul. The black Evil Eye put one piece of dead information after another in Yun Xi's body within one tenth of a second, making him fall from the sky, making his whole body scattered and disunited.

Pouring kerosene on his body and burning him to ashes.

Tying him up on the cross, hanging him in the air, and making him die under the sun.

Tying him up and fixing him in concrete, then sink him in the water till he was drowned.

Hanging him to death.

Throwing him into a snowfield and making him die of cold and hypoxia.

Chopping him into pieces with swords.

The dark shadow spider had made eighteen death methods to torture Yun Xi, to make him fall into the worst nightmares it wove.

To most living beings, a near-death experience would become the worst nightmare of their life. Most people couldn't even hold on till the end of the dark shadow spider's first deathly nightmare. Their blood froze, and their lives were taken away. It was hard to recognize which part was reality and which part a dream, and if they failed to distinguish the parts, they would die in the reality and the nightmare at the same time.

Once people's brains were fooled into thinking that they had died, then they would really die in the real world! However, the dark shadow spider wouldn't have expected that although Yun Xi hadn't had any death experience in reality, but its deadly nightmares were just a piece of cake to him, for he had died in the star's trails countless times.

Dying eighteen times? That pain wasn't even more painful than what the green hippo had done to him. The damage the dark shadow spider's Evil Eye had caused Yun Xi was actually zero, because he was already used to such since a long time ago.

Only the Dark Shadow Evil Eye's side effect, which froze Yun Xi's blood and drained his life, forced Yun Xi to use his last Green Hippo's Seed, so that he could restore his energy at the last possible instant.

All these things happened just in a second. Wandering between life and death, a new door suddenly opened up to Yun Xi in his mind.

Quicksilver Motion reached perfection.

Flying Swallow Sword reached perfection.

Both of the two skills had reached perfection at the same time. They overlapped together, opening the door leading to the God's Sword Skill for Yun Xi. Nothing could be better than a real life-and-death battle to force a person to release their full potential.

The girls' expectation and prayer. The Killing Princess's Legacy was activated in the blood. Hua Huo, Hua Yue, Xiao Cao, and all the other girls' seeds released their powers for him, to help him reach an unattainable realm.

"Sky Flying Sword!" Yun Xi put one foot on the male sword. Transparent waves emerged around him.

Yun Xi didn't have the Sky Flying Bloodline, so he couldn't fly in the air like Hua Huo. However, with the Crane Wings Twin Swords' help and his boiling blood power, he finally created his own Sky Flying Sword.

Speed up!

Speed up!

Once he started, he couldn't stop, and wasn't ready to stop!

Stepping on one of Crane Wings Twin Swords, Yun Xi turned into a flash of lighting, hovering in the sky. With his full strength, he flew to the dark shadow spider, who was in a debilitating condition after casting its Dark Shadow Evil Eye.

One transparent halo after another emerged in the air. They displayed deadly rhythms, announcing the dark shadow spider's death. Crane Wings Twin Swords crossed in the air. As if they were a pair of poison stingers, they penetrated into the dark shadow spider's compound eyes, splashing its blood in the air.

"Oh, so the spider had black blood." Yun Xi thought in his heart. He had used up his energy. He felt a fit of dizziness, finally couldn't keep flying and heavily fell to the ground.

"Mei!"

"Mei!"

"No, Mei!"

Oh, white, and white, and white.

Yun Xi toppled down onto the summit of the volcano, seeing a lot of warm, snow-white, alluring, and cute bodies.

One, two, three... thirty-eight. They were all here. Not one less.

That was really, really good.

Chapter 136: The Scent of Milk

Yun Xi smelt a very pleasant scent. It was sweet, soft, and smelt like milk. Unlike Ye Li's milky odor, it was more mature and richer.

He tried to open his eyes, but failed to do this simple action.

Oh, right. Yun Xi remembered. He overdrew his strength, finally releasing the God's Sword Skill, Sky Flying Sword, which he had always failed to learn in the past. With Sky Flying Sword and the Crane Wings Twin Swords' attack power, he finally tore through the dark shadow spider's steel shell, giving it a deadly blow.

What happened after that? Had the dark shadow spider died? Had the girls been saved? Where was it now?

"Master, are you awake?" Mei'er's voice echoed in Yun Xi's mind, finally making him recover a bit from his condition.

"Mei'er, what happened to my body?" Yun Xi asked his star elf in confusion.

"Nothing. You are just too weak after overtaxing your strength. You will recover after about 24 hours. Master, you had depleted all of your energy! Unfortunately, the dark shadow spider abandoned its old body. It split itself into a new body and escaped away with its core. Otherwise, you could use its seed to recover yourself." Mei'er told Yun Xi the result in an apologetic tone.

“However, its old body has been destroyed. It should have already downgraded from the hero rank and ran to the deep side of the island. It won’t be a threat temporarily. After all, there is nothing that it can use to recover itself.”

Sigh. As he had expected, it wasn’t that easy to defeat a hero-ranked being.

However, this was still a good result that Yun Xi could accept. After that, Yun Xi felt his body being lifted up. He could feel a reassuring, soft and resilient cushion on his back.

“Ah...” He heard a familiar voice. It was Hua Yue.

“No, she doesn’t open her mouth. In that case, I can’t feed her anything.” Yun Xi could feel Hua Yue’s anxiety from her voice.

“No problem, my fair lady. I know how to solve this problem. You can feed her with your mouth.” Yun Xi heard Ling Ling’s voice from his back. It seemed that they were looking after him.

“Hum... Well... I... It seems that I have to do that...”

Was it an illusion? Yun Xi felt that Hua Yue’s voice sounded very happy.

“Cheer up! You can do that!”

Yun Xi felt that the milky smell was getting closer and closer. After a while, he felt the girl’s warm lips touched his mouth with the warm milk.

Despite Yun Xi not being able to open his eyes, he still knew what Hua Yue was doing. With the warm milk, her small tongue stirred in Yun Xi's mouth, sending the milk down Yun Xi's throat.

"Bang!" Yun Xi's body was still fatigued. Only his heart was pounding faster and faster.

The thread between their seeds was rapidly becoming tighter. Yun Xi could also feel Hua Yue's pounding heart.

Excitement, agitation, tenderness, expectation, and addiction. Various emotions flowed into Yun Xi's heart through the thread. The thread was giving a sweet, curative, instrumental performance.

"Cough..." Yun Xi felt that the his drained seed was being activated by Hua Yue's emotions.

He slowly opened his eyes, looking at Hua Yue's pink-white face. She was so nervous that she closed her eyes tighter, so she didn't see that Yun Xi had been awakened.

Hua Yue let out a sigh of relief after pouring all the milk into Yun Xi's mouth. Although Yun Xi just fainted, but his pale face and feeble breathing really scared her.

"Sorry, if we were stronger at that time..." Hua Yue muttered. She swallowed another sip of milk, trying to feed Yun Xi again.

Then, she saw Yun Xi's wide-opened black eyes and his shy look.

“Whoa!!!”

Hua Yue instantly blushed. Her face turned from a red apple into a red sun, emitting an attractive temperament. For the first time, Yun Xi saw her shy look. She behaved as if she was a kitten who was found secretly eating. It was too cute. Especially when the white milk was still dripping from her mouth. That gave him an indescribable allure.

“What’s the matter?” Ling Ling was behind Yun Xi, so she didn’t see that Yun Xi had opened his eyes. She still instigated Hua Yue, “Don’t be shy. This is just a necessary feeding behavior.”

“Hum...” Due to the milk in her mouth, Hua Yue couldn’t say anything, but looking at Yun Xi’s feeble appearance, she showed a determined look on her face.

Ling Ling’s suggestion was effective! Therefore, she needed to continue, even though she had never done this before. Hua Yue got up her nerve and kissed Yun Xi again. She sent the warm milk and her tongue into his mouth at the same time again.

“Gu... Gu...” Yun Xi was forced to swallow the milk. He felt that his exhausted body did obtain a bit of new strength from that.

“Oh... Oh! The female element is effective! Master, let her feed you! In that case, your recovery time can be greatly reduced!” Mei’er looked at this scene with a contented look.

Compared to the milk, Hua Yue’s female element was better medicine for Yun Xi’s recovery!

Why do I feel that I'm an abnormal negative character... I'm an upright gentleman! Yun Xi retorted his star elf in his mind.

"Ok, is that enough? Mei?" After feeding Yun Xi the milk for ten times, Hua Yue's face was hotter.

"If you feel it is enough, blink your eyes once; if you don't feel it is enough, blink your eyes twice."

Yun Xi strenuously blinked one of his eyes once, signalling her that he didn't need her to feed him again.

Even if she did nothing, his body could recover itself after a dozen of hours. However, Yun Xi forgot that his body was still uncontrollable now. After the first blink, he uncontrollably blinked again...

One, two... two blinks. Hua Yue felt nervous.

Was the sequela of the battle too serious?

"Not enough? Well, let me feed you some more..."

The next an hour, Yun Xi's body and Hua Yue's body were full of the scent of milk.

Chapter 137: Dark Shadow Gems

Thanks to Hua Yue's feeding and her girl element, Yun Xi's physical strength finally recovered to an extent that he could open his mouth.

“Enough... Hua Yue...” If Yun Xi didn’t hear it for himself, he wouldn’t believe that the deep, attractive voice was his own voice.

What the hell was the Great Sword Maid’s Legacy?!

“Mei! Oh, great!” Hearing Yun Xi’s voice, Hua Yue’s face brightened up, as if she was soaking in the sun.

Her golden hair hung down on Yun Xi’s face. He could even see the tears in her beautiful eyes.

“I’m sorry to have worried you.” In that moment of life and death, they understood each other’s minds.

For the girls who were captured by the dark shadow spider, Yun Xi risked his life to challenge the hero-ranked monster. For Yun Xi who protected them regardless of danger, the girls also transferred all their powers to protect him.

After the dark shadow spider’s attack, Mei had become even more important in all the girls’ hearts. When Yun Xi had released his Sky Flying Sword, flying to the seemingly unbeatable dark shadow spider, all the Starwings Female Knights had cried.

After defeating the dark shadow spider, Yun Xi toppled down to the ground. This scene made all the girls feel worried and cry their hearts out. Fortunately, they finally made sure that Yun Xi just fainted due to exhaustion. They finally smiled through tears. The links amongst them were becoming tighter due to the crisis they faced together.

Yun Xi could feel that the threads between him and the girls were becoming tighter and brighter. At the same time, a lot of girls had broken past their limits during the crisis. Especially when they saw Yun Xi toppling down to the ground, ten girls had upgraded to the second rank at the same time.

Now, the Starwings Female Knights had two three-ranked members, a dozen of second-ranked members, and the remaining girls were all at the first-rank. Even in the whole god domains, it could be regarded as a super strong knight group now.

“Is everyone ok?”

“Don’t worry, Mei. You saved everyone.”

“That’s fine.”

Yun Xi barely opened his mouth. He felt that none of his body parts were in good condition. His muscles were torn due to overexertion. Especially his feet, the most important parts required to release Sky Flying Sword, had almost lost feeling.

The secret of Sky Flying Sword was to control the air waves under the feet. This was a God’s Sword Skill that could let the user fly in the air. Strictly speaking, Yun Xi’s Sky Flying Sword was incomplete. He didn’t have as much energy as Hua Huo, so he couldn’t fly in the sky all by himself.

His Sky Flying Sword was a simulation of Hua Huo’s Sky Flying Sword, based on his Flying Swallow Sword and Quicksilver Motion. With the Crane Wings Twin Swords’ flying ability, he was able to step in the air. It looked very similar to Hua Huo’s Sky Flying Sword, but lacked both explosiveness and dexterity. Sky Flying Sword (incomplete), one could call Yun Xi’s strongest sword skill that way. After all, God’s Sword Skills weren’t something mortals could learn.

Half a month ago, Yun Xi wasn't even a first-ranked swordsman. It was already a miracle for him to master the incomplete Sky Flying Sword. Even though it was incomplete, it was still a God's Sword Skill. It had raised Yun Xi's battle power to the hero rank within a few seconds so that he could defeat the dark shadow spider.

If one didn't have hero-ranked power, they would not defeat a hero-ranked monster (Hua Huo was an exception). One must pay something to control the god sword as a mortal. Yun Xi created the embryonic form of his god sword within three seconds. Even though he had eaten the Green Hippo's Seed, he was still exhausted after the battle.

After saying a few words, Yun Xi had to close his eyes and fell into deep sleep again. When he opened his eyes again, it was already evening. The scent of milk still lingered in his mouth and on his lips, however, he sensed something different from Hua Yue's scent.

They were... Xiao Cao, Ling Ling, and... and a lot of other girls. Yun Xi tried to move his body, then strenuously stood up.

"Very well. I can move now." Yun Xi exercised his arms and legs, letting out a sigh of relief.

Looking up, Yun Xi found that he was in a cave. Probably being worried about being attacked by the dark shadow spider again, the girls had moved their camp into the cave, which was easy to defend but hard to attack.

Bright lights illuminated the originally dim cave. It seemed that the girls had collected a lot of goods and materials from White Lotus whilst he was sleeping. As the strongest weapon of the whole White Lotus Sword Domain, White Lotus really carried various goods and materials. From temporary tents to various foods, vegetables, and weapons. Even though they had just collected a few items, it was sufficient for them to build a camp.

"Mei, are you awake?" Xiao Cao carried her black iron sword, stepping into the cave from outside.

The distance between her footsteps were all the same, as if she had measured them with a ruler. Not only her footsteps, her breathing and the rhythm of her heartbeat were also as calm as an old well. Her spiritual state was already beyond mortals' imagination. Obviously, the battle between the dark shadow spider and Yun Xi had stimulated Xiao Cao and Hua Yue. They grew fast through battle.

"Hua Yue went to hunt the spider, and I had just killed several of the spider's avatars, too. We will avenge you!" Xiao Cao casually threw several black gems to Yun Xi, but her eyes were full of pride, as if she was saying, "Praise me! Praise me!"

"This is..." Yun Xi looked at the black gems, feeling some scent of deep darkness from them.

"Hua Yue says that they are dark shadow gems. They are the spider's life essences. Oh, the biggest gems were taken from the wounds you caused to the spider," Xiao Cao said. She sat beside Yun Xi and gazed at him, as if she was a puppy that was waiting for its master's praise.

"Xiao Cao, you did well!" Yun Xi smiled and gently stroked her hair.

"Hum hum, I will do my best. Mei... Don't die!"

Chapter 138: For Bread! Rated Battle!

Seven days later, a small fort was built in the middle area of the island, in front of the cave on the highest volcano. The fort wall was made of sharpened wooden pikes. There were sharp black thistles and thorns filled in the gaps, and unknown flowers blooming on the pikes.

As the saying goes, “A sparrow may be small, but it has all the vital organs”. The fort the Starwings Female Knights built in seven days had three layers for the defense system, besides, they also drilled a deep well, which perfectly solved their water issues.

For the first time on the island, human civilization started to be built. This day, in the center of the small fort, the girls were having a daily match: Battle for the Butter Bread! In some sense, it was also a rated battle amongst the girls. The prize was Mei’s butter bread, which could effectively replenish their energy.

As the baker, Yun Xi didn’t need to take part in their battle, and because Mumu was too young, she could get butter bread without fighting. As for the other girls? They had to fight each other to strive for their butter bread.

Yun Xi would make about fifty rolls of butter bread everyday, and the girls would decide the distribution based on battle rating. Normally, the leader, Hua Yue, and the deputy leader, Xiao Cao, would seize the first place and the second place, and the other girls strived for the places from the third to the tenth.

In Yun Xi’s eyes, it was just a game-like battle, but to the girls, it was their favorite recreational activity on the boring island.

On the seventh day, almost all the girls had upgraded to the second rank.

“For butter bread!”

“For my tongue!”

“For our cute Mei!”

The girls shouted slogans, bursting with enthusiasm and great potential. The barrier between the first rank and the second rank had been unable to stop them.

Even in the countries of Western God's Domain, a Knight group whose members were all at the second rank could be regarded as a strong force. It was hard to believe that Starwings Female Knights was formed by a group of girls, who hadn't even started their study lives in Sword Palace!

Now, the girls who were fighting for the third place and the fourth place were Ling Ling and Mei Lan from the two camps of Starwings Female Knights. Ling Ling was born in a decadent noble family. She was one of Hua Yue's subordinates. Mei Lan was born in a civilian family. She was one of Xiao Cao's loyal fans. Both of them were Hua Yue and Xiao Cao's assistants. Amongst all the girls, their powers were only slightly inferior to Hua Yue and Xiao Cao.

Ling Ling's sword skill was a fencing named "Flower Fencing". It was a dueling sword skill from the royals in Western God's Domain. Unlike Hua Yue's Holy Crossed Sword, it required high skill to learn it, and was a sword skill suited to aristocratic ladies. Her sword had a round handguard and a slender, long blade. It abandoned its "slash" ability but increased its "stab" ability to the limit.

Compared to Ling Ling's sword, Mei Lan's sword was much more ordinary. As a civilian, she didn't have the money to buy an expensive, soft sword like Ling Ling's, but was using a standard military sword. Her sword skill also biased towards actual combat, straight and narrow.

The two girls were having a fierce fight. Ling Ling's sword skill was slightly better. Her soft sword often attacked Mei Lan from unexpected angles. As for Mei Lan, her sword skill had inherited a part of Xiao Cao's combat skill, not very excellent, but also flawless.

"The dark shadow spider should have died." Under the stage, Hua Yue put the last dark shadow gem in Yun Xi's hand.

“Yes. We found no traces of the spider in the forest,” Xiao Cao said in a confident tone.

In order to avenge Mei, Xiao Cao and Hua Yue cooperated with each other and cleaned out the whole forest. They had killed almost all the spiders in the forest and had collected over ten dark shadow gems. Even if there were still a few little spiders in the forest, they wouldn't be a threat anymore.

“Thank you.” Yun Xi took the dark shadow gem and pinched it.

“Ding!” The dark gem turned into powder, then was absorbed by Yun Xi's maid uniform.

Yun Xi accidentally found out that the Killing Princess's maid's uniform could absorb these dark shadow gems. When Xiao Cao had handed over the dark shadow gem to him, he had felt that the maid's uniform suddenly had a special desire to swallow it. He naturally understood that the maid's uniform could eat the dark shadow gem to strengthen itself. After feeding all the dark shadow gems to the maid's uniform, Yun Xi found that the uniform became more gorgeous. Even the ribbons on the skirt's corner had become glossier.

These magic clothes he had inherited from the unknown Killing Princess was eager for these dark-type gems.

“Mei, your maid's uniform is becoming more beautiful!” Xiao Cao looked at Yun Xi with her sparkling eyes.

After that, Xiao Cao had decided to kill as many dark shadow spiders as she could to collect more dark shadow gems for Yun Xi.

“It’s said that the Killing Princess abhorred dark creatures, so the legend is true!” Hua Yue stroked the maid’s uniform and remembered the legend.

Yun Xi embarrassedly looked at the two girls beside him and the girls who were fighting for his butter bread on the stage.

Was it his illusion? Why did he feel that after the dark shadow spider’s attack, the girls had become more intimate with him?

“Mei, can you make more bread?” The girls finally let Mumu wear white socks and shoes. She pulled the corner of Yun Xi’s clothes, looking at him with a pathetic look.

“Little girls shouldn’t eat too much. You will become fat.” Yun Xi pinched Mumu’s mouth and wondered in his heart, “Mumu is so thin, why does she eat more than Hua Yue? Judging from their bodies, it should be Hua Yue who needs more nutrition.”

Chapter 139: Eye of the Storm

Across the forest and a part of the swamp the girls hadn’t been before, in the deepest point of the volcano cave, a large spider nest was formed. A dark shadow spider that was about three metres long and had four eyes, was hanging upside down from a large web, looking at the prey captured by its avatars with a dissatisfied look.

Judging from the various sizes of prey, its avatars had done very well. They had even captured a python which was over seventeen metres long. The python was one of the top predators that were at the top of the food chain on the island. It never thought that someday whilst sleeping, it would be caught in spider threads and fail to move an inch, and see several small spiders dragging it into a dark cave underground. It had suffered numerous privations along the way.

“Hiss!” With a cruel hiss, the spider’s sharp leg stabbed into the python’s head, starting to draw its brains and body fluid. After a few seconds, the python had become only a piece of snake skin. In addition to the python’s skin, there were also several ferocious beasts’ bodies on the large spider web. Most of them were only remains of their skins and furs.

After absorbing the python’s flesh and blood, the dark shadow spider’s body became a little larger. Looking at itself, the spider expressed a resentful look. Yun Xi’s sword really hurt it. He had not only eliminated its core, the body part that released its supernatural power, but he had also had broken its life element.

As a hermaphrodite, it had to abandon its “male” part and barely let its “female” part escape into the forest, but it was still hunted by Xiao Cao and Hua Yue. Finally, its “female” part also sustained a fatal injury. It was forced to split again, into a new body which only had 25% of its original power. It then ran to the most remote area on the island.

If it wasn’t a void creature and its body was totally different from common animals within White Lotus Sword Domain, it would have died under Yun Xi’s attack. Now, it had only a weak new body and three avatars. Its combat power had reduced to 10% of its original power – even after it had eaten almost all the large creatures it could find around the cave.

“Revenge!”

“Kill!”

“Enemy!”

Remembering who had made it lose half of its body, the dark shadow spider opened its mouth, screeching as if it had gone mad. Once a dark shadow spider lost its “male” part, it couldn’t produce offspring again. It was doomed to live completely alone after losing its male part.

Its hate was irreconcilable! Its angry scream echoed within the cave, around and around, for a long time.

...

The tenth day after White Lotus dropped from the sky, Hua Yue, Xiao Cao, and Yun Xi sat together with a serious look.

“Something is wrong. According to my calculation, rescuers should have come...” Hua Yue said, sharing her worry with Xiao Cao and Yun Xi.

“The sword domain should have known that something had happened to White Lotus. Ten days have passed. That was enough time for them to report the accident to the Sky Sword God’s Domain master. However, we still haven’t seen any rescuers. Maybe the situation is worse than we imagined.”

Yun Xi and Xiao Cao looked at each other. They were just civilians. Naturally, they didn’t know this. Although they were trapped on the island, but they had the materials from White Lotus and the tropical island was fertile, the pressure of their survival had been reduced after building the temporary camp. The materials they had collected would help them survive on the island for at least three months.

“So, what’s the reason that makes the rescuers unable to come here?” Yun Xi asked.

He also felt something was wrong because the seeds told him that Hua Huo and the twin witches’ location hadn’t changed at all from the beginning. They could fly! Theoretically, they should have found

this island by following traces of White Lotus's debris. However, their seeds hadn't moved from the first day they fell from the sky.

"I have two guesses. The first, they sent rescuers but they are all being stopped by 'that thing'. Maybe they are fighting in the sky as we speak."

Speaking about "that thing", Hua Yue shook her head. If that was the truth, they shouldn't expect any rescue. After all, an eighth-ranked monster was far beyond ordinary people's range. The rescuers wouldn't have any chance to defeat it.

Why did such a monster appear in White Lotus Sword Domain? It's too strange!

"The second guess is that we are not at our original location. Maybe this island is far away from the place where we encountered the monster!" Hua Yue lifted her second finger.

This was her main guess. According to the position of the sunset and the sea breeze's direction of movement, Hua Yue calculated and drew an inconceivable conclusion. This island wasn't on White Lotus's airline, but at a place that was ten thousand kilometres away.

In the whole of White Lotus Sword Domain, none of the noble families had been to this place, and no one knew what was in this place as if it was a natural forbidden area since the dawn of White Lotus Sword Domain.

In legends, there were countless terrible dark currents in the sky and in the sea in this area, and anytime and anywhere, this area would have devastating storms. Even if it was a floating ship like White Lotus, once it was caught in any of the storms, it wouldn't have any chance to fly away.

This corresponded to the tropical storm happened ten days ago. Hua Yue remembered that when the storm appeared, the sky and earth were covered with darkness. She remembered her fear when she saw the storm sweep through the sky. Even a hero-ranked person wouldn't be able to do anything in the face of such a terrible natural disaster. If the storm hadn't suddenly disappeared just like it had suddenly emerged, she couldn't imagine what a dire situation the girls on the island would have faced.

"Storm Sea... Probably this is where we are. This island should be in the middle of the Storm Sea," Hua Yue said and sketched a map on the ground.

It was a weird map which looked like a giant monster's single eye. From generation to generation, the noble families of White Lotus Sword Domain always warned their descendants not to come to this area: Eye of the Storm!

Chapter 140: The Tale of the Storm

"Eye of the Storm!"

"How can it be possible?!"

Yun Xi and Xiao Cao wore a surprised look after they heard that taboo name.

The demon's sea. The abyss in hell. The place no one returns from.

It was the most mysterious area in the middle of White Lotus Sword Domain. Even ordinary people had also heard its existence.

Eye of the Storm. It was said that if you looked down from the sky, only this area was covered in darkness. It was an area of the sea that was covered by countless storms.

Many hero-ranked beings had tried to explore this area of the sea in the past, but most of them had lost their way before they had ventured deep into this area. This area had swallowed a lot of people's lives.

Many people believed that there was a terrible monster living within this area and that mortals should never come to this area. This was the most frightening forbidden area in the whole White Lotus Sword Domain. Even the ship, White Lotus, also specifically kept a distance from this area in the past, because no one could predict when the overwhelming black storm would come.

"No one can return from the Eye of the Storm", was an old saying spread within White Lotus Sword Domain. It accurately described the weird area's properties.

Were they in that legendary forbidden area?

"Remember the hero-ranked adventure team I talked about before? They were eliminated within the surrounding region of Eye of the Storm. Unfortunately, we have gone deeper than they did, probably in the middle area." Hua Yue didn't want to acknowledge it, but that was the most likely truth.

After all, who would think that White Lotus would fly off the airline route and crash in the most dangerous area in the whole Sword Domain?

This was a real dead zone that may have indescribable monsters! Maybe the monster who could even swallow the hero-ranked adventure team was on this seemingly common island!

"In legends, White Lotus's secret treasure is in the Eye of the Storm..." Hua Yue murmured.

She remembered an unsubstantiated old tale. White Lotus Sword Domain was just a common lower-level sword domain, but it had a rare “secret treasure”. No one knew what the secret treasure was. Someone said that it was a matchless weapon, another said that it was a supreme sword skill, and yet another said that it was a flag that could dominate all beings.

The only thing that could be confirmed was that the secret treasure did exist, because there was a trace of the secret treasure’s shadow in Sword Palace. It was said that only when the Sword Domain was in danger, would the master of White Lotus Sword Domain use it.

As for what the real secret treasure was... no one knew. People only knew that once upon a long long time, when Sky Sword God’s Domain was just born in the void, the secret treasure had appeared in White Lotus Sword Domain. After it released its earth-shaking power, it disappeared with not the least trace to be found.

It was said that someone realized the rules of the world after seeing the secret treasure’s shadow in Sword Palace, and finally became a “Sky Sword”. It was said that when the “Sky Sword” was still a mortal, he was born in White Lotus Sword Domain and left his legacy in the sword domain. He was Yun Hai. Before he became a Sky Sword, people called him “Yun Hai, the Sword Master”. He was the only Sky Sword who was born in a lower-level sword domain.

Due to this, every time Sword Palace began to organise their entrance test, there were always a lot of geniuses across the star bridge, coming to take part in their test from various sword domains. Their goal was the secret treasure’s shadow in Sword Palace.

At the same time, every few years, some hero-ranked people would form a team to explore the most terrible forbidden area in White Lotus Sword Domain: the Eye of the Storm.

Their goal was very specific: come to search for the legendary secret treasure, because all the other areas in White Lotus Sword Domain had been searched. Only the Eye of the Storm hadn’t been thoroughly searched.

Year in and year out, one group after another came to the Eye of the Storm, but most of them couldn't even get through the surrounding region. A few people entered the inner area, but none of them returned.

Theoretically, legend-ranked beings couldn't enter White Lotus Sword Domain unless they wanted to destroy it. In that case, the strongest person that could go to explore the Eye of the Storm was still at the hero rank.

After many hero-ranked adventure team were eliminated in the Eye of the Storm, almost no one dared to challenge this dead zone again. The Eye of the Storm was the only forbidden area in White Lotus Sword Domain.

"If this island is in the deepest area of the Eye of the Storm, unless the master of Sky Sword God's Domain comes to change the Sword Domain's rules to allow legend-ranked people to enter this area, we'd better give up to waiting for rescue..." Hua Yue analysed with a depressed look.

She felt too hopeless, so she only told Yun Xi and Xiao Cao this cruel news.

"Are you sure that we are in the Eye of the Storm?" Yun Xi took a deep breath. His eyes didn't look depressed, but became more bright.

"Yes..." Hua Yue looked at "Mei" and was enchanted with his determined look.

What a pair of beautiful eyes!

In her black pupils, it was comforting enthusiasm and confidence, as if being trapped in the Eye of the Storm was just a miniature disaster in her eyes. Even though she was facing the Eye of the Storm, the dead zone which had swallowed one hero-ranked being after another, her eyes were still saying that she would never give up!

“In that case, I think that we should make a long-term plan.” Yun Xi had to prepare for their future after knowing what cruel situations they would be facing.

Of course he wouldn't give up nor did he feel desperate. Compared to being hunted by the White Holy Dragon sent by his four overlord ex-girlfriends, what was the Eye of the Storm? It was nothing. If he couldn't even escape from this place, how would he escape from his ex-girlfriends and their apostles?

He must become stronger and stronger!

Since it was very likely that the terrible monster who could even eliminate a hero-ranked adventure team was on the island, then he would get touch with it in his next star trial.

In his next star trial, he would find out what the most frightening thing in the Eye of the Storm was and face it!
