

Starchild 181

Chapter 181: Ling Ling Agreed

After a while, Ling Ling made her decision.

“I know! I know! I’ll marry you. Anyway, you don’t look like a bad guy. Can I eat it now?” Ling Ling’s expression looked as if she was saying “I won’t give it to anyone!”.

She tightly grasped the golden loaf in her hands and took a big bite. The sweet smell of cream and flour instantly spread inside her mouth. To the people within this world, their daily food was simply some boiled rice and vegetables, the first bite of bread was irresistible to them.

“Awwoo!” Ling Ling smiled happily. She seemed to have fallen into a nice fantasy.

It... It’s too delicious!

If I can eat this food every day after I marry this man, it looks good to me.

Mama said that I should choose someone who can make me feel happy, and I must take the man’s heart once I make my choice.

A good lady should believe in the man who had caught her heart!

“It’s yummy!” Ling Ling’s eyes glowed as she gazed at Yun Xi, as if she was trying to find out his true appearance hiding behind the mask.

Yun Xi let out a sigh of relief after seeing Ling Ling's burning eyes.

The bread was effective! Although he shouldn't say it, but Ling Ling was the simplest one amongst all the Starwings Knight girls.

She was easy to be tempted by toothsome food, and wasn't good at thinking. Maybe this was the reason why she was Hua Yue's bestie. After all, people all like to make friends with these kinds of people.

"Give me one more!" After gulping the expensive fourth-ranked butter bread, Ling Ling gazed at Yun Xi with longing, as if she was a golden dog who had been starved for several days.

"Don't worry, there are still a lot. As long as you like my bread, I will make them for you everyday." Yun Xi put nine butter loaves into Ling Ling's arms, looking at her with a smile on his face.

According to the traditional ceremony, as long as she accepted his gift and didn't accept other people's gifts after that, she would become his fiancée.

"You are tempting me, aren't you? I have a feeling that you're familiar, and this isn't the first time we have met." Ling Ling looked cheerful as she looked at the butter loaves in her arms.

Maybe this was the so-called "fate". She met the right man at the right time and at the right place.

Why did he know that she couldn't refuse sweet foods?

“Yeah, perhaps I often made bread for you in our past lives.” Yun Xi teased. How could Ling Ling know that he had known everything about her?

“Sigh, I’m out.”

“Ling Ling is too cunning! I came here first!”

“Ling Ling is fastidious about food. I want to know how it tastes.”

Other girls sighed after seeing Yun Xi put the bread into Ling Ling’s arms. A lot of girls looked regretful. Ling Ling wasn’t the only girl who was tempted by Yun Xi’s mysterious gifts. However, she was the most careless one, so she accepted Yun Xi’s proposal without thinking.

“Ling Ling, congratulations! You are the second now.” Lu Lu ran towards Ling Ling, holding her hands with excitement.

“Lu Lu? Oh, since you are here, can this man be...” Ling Ling covered her mouth after seeing Lu Lu.

Lu Lu was one of the most excellent girls in this area, naturally Ling Ling had known who she had married. After all, this was one of the hottest topics in the nearby villages.

So, he is the legendary Water God’s apostle?

“Puff...” Yun Xi wiped the sweat on his forehead away. When he proposed to Ling Ling, he wasn’t as calm as other people thought.

Fortunately, his bread proved a sufficient lure. Plus Ling Ling subconsciously had a good feeling about him, so he could succeed.

As expected, the number of his fiancées had increased to “two” in his star system. At the same time, a gust of new power was overlapped into his body, making him feel the power from Ling Ling clearly. Compared to Lu Lu’s power, Ling Ling’s power was hotter. Lu Lu’s power was like a refreshing orchid, and Ling Ling’s power was like an enthusiastic rose.

Yun Xi had a feeling he was like a gardener who was collecting flowers. Now, there were already two flowers in his garden. As a gardener, he must take care of these flowers mightily, and collect more and more flowers at the same time.

The garden’s power is his power!

“Hello... can I eat your bread?” As Ling Ling smiled like an idiot, finally a girl plucked up her courage and spoke to Yun Xi.

“Mei Lan...” Yun Xi looked up. He recognized that this girl was Mei Lan, Xiao Cao’s assistant, Ling Ling’s rival in Starwings Knight. Unlike Ling Ling who was born in a noble family, Mei Lan was one of the core people of Xiao Cao’s camp. Xiao Cao didn’t mind if she could lead a camp. She only wanted to practice her sword. However, the other civilian girls naturally formed a camp, taking her as the core.

Mei Lan was Xiao Cao’s camp’s actual superintendent. Under her help, Xiao Cao became the Starwings Knight vice-leader, forming a camp to stand up to the noble girls’ camp as an equal. At other times, Mei Lan was always very calm and acted like a strategist. But now, she acted as if she was a little girl whose toy was just stolen. She pouted with an unconvinced look on her face.

In fact, Yun Xi had notice that she was the first girl who had found him and come to him. Although she had lost her memory and believed that she was a native, her leadership was still great. If she hadn't been born into a declined noble family, she wouldn't be inferior to Hua Yue.

Chapter 182: Mei Lan's Jealousness

Other than Lu Lu, most of the twelve bride candidates were under Mei Lan's leadership in the real world. This fact matched Yun Xi's impression of Mei Lan. She naturally knew how to unite everyone as one.

If it wasn't because Hua Yue's status was too high and she herself was the strongest female swordsman in the Starwings Knight, Mei Lan would stand a chance to challenge Hua Yue's leadership.

After all, she was able to be ranked third on the rating list of the Starwings Knight girls. And the person who fought for the third place with her wasn't anyone else but Ling Ling, who looked silly but had great sword skill talent.

To Mei Lan, even though Ling Ling was naive, innocent, and callow, she was also a girl who didn't play by the rules. Ling Ling was the most thorough rival in her eyes. Even though they had come to Water God's world and had lost their memories, this point hadn't been changed. As soon as she had first seen Yun Xi's bread, Mei Lan had had a feeling that it was something unique in this world.

Without any reason, or it was because of her instinct as a smart girl, she was the first person who figured out that "bread" was a kind of food.

Then, they became "incredible foods" in her heart.

And later, they became “incredible foods that can even change the world”.

She was the only person who had realized how special Yun Xi’s bread was before obtaining any actual information.

No matter whether it was the tempting smell, perfect golden color or artwork-like surfaces, Yun Xi’s bread was just like a treasure in a fairy tale, full of fatal attraction to Mei Lan.

Her heart was touched.

Because she knew how amazing Yun Xi’s bread was, so she was more eager for them than anyone. For the first time in her life, she had an impulsion of “I want it at any cost!”.

However, her self-respect stopped her from surrendering to “such a simple food” so easily. It was wrong!

I must be calm! I should exactly figure out what food this is first, then inquire from this man about its price and calculate how much money I can pay. Mei Lan thought in her heart.

If I only want to have one “bread”, I think I can even higggle with this man. Isn’t it?

It won’t cause any problem if I just take a look at this bread. Also, it won’t be strange if I just ask this man his gifts’ origin and use.

Other people were still wondering if these golden things were food, and Mei Lan had realized how fantastic this food was. Nobody could be smarter than her. She would undoubtedly be the first.

So, first, I should be cautious and placid...

Then, Ling Ling agreed to the man's proposal before she had had a chance to do anything. Ling Ling didn't hesitate and directly took a loaf in her hand. She didn't even get suspicious when she did that. She acted like a hungry little dog who had just found its master. She directly ran to the man and stole Mei Lan's treasure.

Hey, don't you know a lady should be restrained?! Why could you do it without thinking? Aren't you a lady? Aren't you a noble... wait, why do I think that she is a noble girl?

No, this isn't important!

The most important thing is that she has stolen my treasure!

Besides, is it really so delicious? What is with your contented expression? And what is with your blushing face? It can't be a love potion!

Based on her understanding about Ling Ling, it must be very delicious, which corresponded to her previous judgement.

Delicious, yummy, nice, good to eat... Looking at Ling Ling's happy face, Mei Lan was sure about it.

How annoying! Why her? She's just an idiot, why is her instinct so sharp?

I'm the one who found this magical food first! It was me! Ling Ling came to this place simply because she found out that I was here!

At first, I thought that you could be my friend, Ling Ling. Too bad, you have become my enemy now. You're my enemy who has stolen my treasure!

Even if you are going to die, I won't go to save you! I've decided to break with you once and for all. I will remember today's humiliation forever!

Finally, Mei Lan couldn't stand it and walked to Yun Xi's table.

I still have an opportunity. The man who has this food hasn't left.

Even though Ling Ling had stolen all my treasures, but at least, there is still a hope.

Never give up until the last moment.

I, Mei Lan, won't surrender so easily!

"Eh... Mei Lan, you also want it?"

Compared to Ling Ling who was a natural socializer, Yun Xi didn't know too much about Mei Lan. She was a rare smart girl whose mind was far more mature than her age.

However, Mei Lan looked different today. Her eyes were red, as if she had just cried because her most important treasure was stolen. Her eyes looked desperate when she looked at Yun Xi, as if she had suffered a huge psychological blow.

"Yes, can you give me one, great Water God's apostle? I think that you are the only person who can get this food. Am I right?"

Unlike Ling Ling, Mei Lan had known Yun Xi's identity from the beginning. After all, his silver mask was too special. Even though his clothes were simple and provincial, his temperament was still tempting to young girls. Even if he didn't put anything on his table, he would still be noticed by many girls.

When he arrived at this square, he had become the focus in the girls' eyes. He just hadn't realized it.

"Ha ha, as expected, I can't hide from your eyes."

Yun Xi smiled in embarrassment. He didn't purposely hide his identity. It was simply because no one would expect that an apostle would come to this ceremony.

In this world, Water God's apostles were exalted. If he said it, he wouldn't need to join this ceremony and many nobles would scramble to marry off their daughters to him.

Chapter 183: The Second Fallen One

No one had expected that a great Water God's apostle would come to this remote village and participate in the ceremony. However, Mei Lan had guessed right. She knew who this man was clearly, and only people like him could take out such fantastic food without hesitation.

At the first glance, Mei Lan had had a strong urge to eat this golden food. She wanted to prove her instinct and judgment. Mei Lan had had thousands of ideas about this fantastic food which could even change the world. She had never felt so good.

But now, they had all gone! Ling Ling messed all her plans and longings.

She is a humanoid demon. She is simply a shameless idiot! Her head is empty and the nutrition she had absorbed was all gathered in her beasts.

What a nasty creature! She didn't know the baseline of being human!

I will never forgive you. Never!

You have just stolen and eaten my treasure! I will remember this. I will never forget today's humiliation and gaffe.

"Give you, Mei Lan. Let's eat together." When Mei Lan was going to express her anger, a snow-white small hand suddenly appeared in front of her eyes holding a golden loaf of bread.

"You..." Mei Lan inanely gazed at Ling Ling, who was eating her bread with a bright smile.

It was such a precious food... how could she want to share it with me? What is she thinking?

“Cough... Sorry, I misunderstood you, Ling Ling. You are indeed a human. Be confident in yourself.”

Mei Lan looked at Ling Ling in a different light.

“What do you think I am? I always think that I’m a human and have never lost confidence in myself!”

Ling Ling looked at Mei Lan with a “What are you talking about” expression on her face.

“Well, in fact, I still have a lot of bread.” Yun Xi immediately took out some bread from his store.

“Gee? You still have bread?” Ling Ling’s eyes brightened up.

“You still have bread?” Mei Lan was shocked. He still had a lot of this kind of amazing food?

It’s impossible!

Mei Lan didn’t know how this food was made, but she could feel the special qualities it contained. This was why she thought that this food could change the world. It must be expensive. According to Mei Lan’s calculation, she thought even all the wealth in the twelve villages couldn’t buy the ten loaves at all.

This was why she lost her cool after Ling Ling took away all the bread on Yun Xi's table. She didn't think that this food could be made easily. (If Yun Que was here, she would agree with Mei Lan's idea without prior consultation)

However, it was actually very easy to make this food. What a hero-ranked baker could do was far beyond a mortal's imagination. As long as Yun Xi had made a sample, he could continuously make the same bread without raw materials. Moreover, he could even store them in his storage and make them become more delicious and effective as time went by.

To Yun Xi, nothing would become a problem when he was making bread. He had reached the hero rank, which meant that he could already control the energy between heaven and earth.

Magic, divine spell, taoist spell, battle qi... hero-ranked combat careers were incredibly strong. However, hero-ranked non-combat careers were strong too, just in a different form. Impress, mediate, create object from nothing, exclusive storage... nothing was impossible.

Mei Lan wouldn't be able to figure out Yun Xi's special abilities if she only based her guessing on common sense. So, when Yun Xi took out more bread and put them on the table, Mei Lan was stunned.

Unlike other village girls, Mei Lan clearly knew how special these golden loaves of bread were. They were ten times more expensive than all the other things in this ceremony!

"Do you want to eat this?" Yun Xi casually took up a loaf and handed over it to Mei Lan.

Mei Lan hesitated. At this moment, many thoughts were hovering in her head.

What was the change this golden food would bring to this world?

How would her life be changed if she accepted it?

If she accepted the apostle's gift, would she become happy?

Smart people always think too much. Yun Xi waited for a while but Mei Lan hadn't accepted the bread. He even thought that his proposal had failed.

"Take it!" Finally, Ling Ling helped Mei Lan make the decision.

She took the bread from Yun Xi's hand and put it in Mei Lan's hand.

"It's yummy! You will regret if you miss this opportunity, Mei Lan."

Mei Lan saw the light suddenly after hearing Ling Ling's words.

It was true. She couldn't miss this. It was about her fate. Unlike all her choices in her past life, this time, she was standing at the crossroads of her fate.

If she accepted the bread, it meant that she had accepted the apostle's proposal and touched the string that could change the world.

If she gave up and declined the bread, it meant that she had given up a chance to change the world and her endless possibilities.

So, she had to make a choice. Mei Lan looked at the man who wore a silver mask.

She had imagined what Water God's apostle looked like in her past life many times, but this time, it was her first opportunity to observe an apostle so closely.

Why? Isn't this our first meeting? Why do I feel wistful?

Perhaps this was her fate.

She had made her choice subconsciously, hadn't she?

"I'm Mei Lan. Please take care of me from now on, great apostle."

She was the smartest girl in the Starwings Knight. When she accepted his proposal, her shy expression made Yun Xi's heart palpitate with excitement.

He had his third fiancée!

Chapter 184: The Situation is Out of Control

The first step is always the hardest. After Mei Lan accepted his bread, everything went smoothly.

"Give me one!"

“Please give me one!”

“Well... I also want a loaf of bread.”

Looking at the cute girls who were asking for his bread, Yun Xi had a feeling that he wasn't in a ceremony but a merchant who was selling his goods to hungry schoolgirls.

Don't they know the meaning of taking his bread?

No. They knew it. This was why their faces were blushing. However, they couldn't refuse his bread, the fantastic food that had never appeared in Water God's world before. They could do nothing but expose their true hearts.

After a while, Yun Xi had sent out the second row of the loaves of bread he just took out from his storage. Aside from Lu Lu, Ling Ling, and Mei Lan, other Starwings Knight girls were enjoying his bread with happiness. Looking at their smiling faces, Yun Xi was at a loss.

Subconsciously, Yun Xi put the third row of the loaves of bread on the table, then they were immediately snatched up by the girls. By now, the twelve Starwings Knight girls had all signed contracts with Yun Xi, which was only at the cost of three rows of bread.

The number in his Side Quest Four had increased to twelve. Success came as a surprise, which even made Yun Xi feel confused. In fact, his trouble had just begun.

“Well... do you still have more bread?”

“We also want to eat them!”

“What does bread taste like? Why do they look so happy?”

More and more girls came and surrounded Yun Xi. They weren't members of Yun Xi's Starwings Knight but the real natives from Water God's world. Compared to the Starwings Knight girls, they were shier and more reserved. However, when they saw the happiness on the faces of these Starwings Knight girls, they couldn't help but wonder.

“Sorry, the bread I prepared for proposing has all been eaten. However, if you just want to eat bread, I still have some.”

Yun Xi immediately shook his head. He had no intention of marrying these indigenous girls.

In fact, if it wasn't because of Side Quest Four, he didn't want to do this at all. He wanted to be an upright gentleman!

“Now, it will be the time to witness the miracle.” Yun Xi smiled.

Since he didn't need to force himself to propose to anyone from now on, he thought that he could display his hero-ranked ability as a trick to amuse these girls.

“Praise the sun, for granting us light. Praise the earth, for granting us food!”

“Pa!” Yun Xi snapped. A loaf of sweet, hot butter bread suddenly appeared in the air.

It wasn't a fourth-ranked golden butter loaf. A fourth-ranked golden butter loaf would take a lot of Yun Xi's energy to make. This was just a common, third-ranked loaf of bread which couldn't improve vitality or moisturize skin.

Yun Xi could only make a hundred fourth-ranked bread in a day. However, it was easy for him to make a thousand third-ranked loaves of bread. If he only wanted to make the most common white bread, he could even make up to ten thousand loaves in a day! This was his special hero-ranked ability!

If he had sufficient raw materials, he could even support an army all by himself! No combat career could do this.

“Come and eat them. You're all welcome!” Yun Xi had a superficial knowledge of the ceremony. He casually gave these loaves of bread to the girls.

“They are not as good as the bread I made before, but they are delicious too! Don't worry, they are just some presents on our first meeting.”

Yun Xi smiled brightly. He put a pile of loaves of bread before these girls who had waited for a long time. The girls looked at each other. They were not members of Yun Xi's Starwings Knight, and they didn't subconsciously feel an affinity towards Yun Xi. To them, “accept Yun Xi's gift” meant a lot.

Finally, a girl made her decision.

“I’ll go first. Can you give me a loaf of bread?” A noble girl gently lifted her skirt and bowed to Yun Xi, then took away a loaf of bread.

Her behavior was like a domino effect, immediately setting off a chain reaction.

The girls had already been tempted by the smell of Yun Xi’s bread. They succumbed to their desire one after another. Just like Mei Lan had guessed, the people in this old world had never seen this fantastic golden food before, they couldn’t resist the temptation.

The bread made by the hero-ranked baker, Yun Xi, was undoubtedly a great temptation to them.

“Master’s actions look smooth. It’s great.” Lu Lu looked at them and smiled from the bottom of her heart.

Therefore, she would have a lot of partners.

“Strange. He could marry a lot of girls in a much simpler manner. Why did he use these priceless things as gifts?” Mei Lan nibbled her bread and wondered in her heart.

He was a Water God’s apostle. He could marry a lot of girls easily. As long as he came to big cities and spread his intention, countless nobles and rich men would marry their daughters off to him.

Why did he want to come to this remote village and present these precious treasures to us?

“Yummy... yummy... awoo! We don’t need to think too much. I would be satisfied as long as I can eat this delicious food every day.” Ling Ling babbled as she swallowed her bread.

“No. There must be something we don’t know. What’s his intention?” Mei Lan pondered. She sensed danger from Yun Xi’s unusual behavior.

“No... it’s too bad...” Yun Xi was sweating profusely at this time.

I had told them that these loaves of bread were not engagement gifts and I just invited them to eat them!

Why are the number of my fiances continuing to increase?

This situation is out of control!

Chapter 185: Water Mist Field

What happened?

Twelve, thirteen, fourteen... After Yun Xi presented his bread, the number of his fiances was continuously increasing. After he realized that, it was already too late.

A hundred and seven. This was the last number after the bread on Yun Xi’s table had all been taken away.

Why didn't the number keep increasing? Because it had reached the limit. No, it wasn't Yun Xi's limit but the number of the girls in this ceremony.

"Oh my god! Who is this guy?"

"No! I just bought a bottle of perfume with all my property!"

"Gosh! This man has so many treasures! Why would he like to come to the ceremony in this remote village?"

"Don't make fun of us! Why would such an honored man like you come to a place like this?"

All the young men around Yun Xi whined, trying to kill him with their eyes. However, they just stared at him. No one dared to do anything. Strong people obtain everything. Strong people take all. It was the natural rule of the world.

In Water God's world, strong people naturally obtained wealth, status, and honour, because there were horrible monsters hiding in the mist and ordinary people needed their protection. Ordinary people instinctively worshipped strong people.

Yun Xi was such a man. No one would think that he was an ordinary person after he took out such fantastic food.

If "the first row of golden butter loaves of bread were prepared in advance", then how would one explain the second and third row of loaves of bread? Moreover, everyone had seen Yun Xi creating bread from nothing. It could explain this mysterious masked man's true power.

He must be a hero-ranked person. The silver mask man wasn't at the same level with them.

After Yun Xi displayed that he could make food from nothing, the native girls finally decided to accept Yun Xi's gifts with excitement. Why? Because to them, Yun Xi's behavior wasn't just "share my food with them" as Yun Xi thought, but a rite.

Yun Xi underestimated the meaning of hero-ranked people in this world. He underestimated the temptation of his bread to these girls too. No girl who had taken bread from Yun Xi thought that it was just a present out of kindness. Such a priceless treasure shouldn't be presented with no cost. Yun Xi's self-righteous idea wasn't in keeping with the rules in this world.

"Accept Yun Xi's bread" was equivalent to "accept Yun Xi's proposal". No one treated it was a joke, especially after Yun Xi exposed his hero-ranked power, no one thought that they would regret it.

Strong people couldn't be suspected or defied. You could refuse to accept their gift, and it was your choice to do so. Normally, hero-ranked people wouldn't force ordinary people to do something for them. However, once you made a choice and accepted the hero-ranked person's gift, there was no turning back. It was a common rule in Water God's world. In this old world, "honesty" and "morality" even overrode the law. Everyone in this world agreed with it.

In White Lotus Sword Domain, "sharing some loaves of bread with others" was just an insignificant thing, but this was Water God's world. Yun Xi mistakenly assumed that it wasn't significant in this world too. After Yun Xi realized what a mistake he had made, it was already too late.

"No! It shouldn't be!"

Yun Xi put on a long face. Looking at the girls who had started to chat about what clothes and jewelry they should wear at their wedding ceremony, Yun Xi felt that his outlook had crashed. He had just wanted to propose to the eleven Starwings Knight girls. At first, he encountered little twists and turns, but he solved them smoothly.

Ling Ling felt his enthusiasm and helped him complete his plan.

Everything would be perfect if only this and nothing more. If he knew that the situation would get out of his control, he wouldn't present his bread to these girls.

Yun Xi, you're dead. I have a hundred and seven fiancées now? Oh my god, what should I do? How can I be an upright gentleman from now on? This is too bad!

...

Power was continuously being poured into Yun Xi's body. The power from the Starwings Knight girls and the native girls had all overlapped within his body, making him feel that he was going to explode.

If it wasn't because of the cold feeling from his Water God's Mask, which significantly relieved the hot feeling in his body, he would have gone mad.

Yun Xi could clearly feel the endless potential contained in his flesh and blood, which he had vaguely felt in his first limit practice but it hadn't been as clear as it was now.

Yun Xi's power rose suddenly and sharply after obtaining the power from his one hundred and seven fiancées. The range of the mist he could control had increased to ten miles, which had actually become his field.

“Gee? This feeling...” Yun Xi was exploring his ten miles Water Mist Field when suddenly, he noticed a black spot in his Water Mist Field.

He focused his attention onto the black spot, and gradually, the black spot became a clear figure. It was a black-haired woman who was bathing under a waterfall at the source of the stream beside the village.

She stood in the water, letting the pure water wash her perfect body.

Her skin was snow white and slightly red, as translucent as crystal.

Her slender body was graceful and exquisite, as flawless as a beautiful gem.

Her breasts were towering and heaving, as lofty as two towers.

Her legs were perfect and slender, which gave Yun Xi a feeling that they shouldn't appear in a mortal's world. Plus her slender, soft, pink feet, her beauty was seductive and breathtaking.

Chapter 186: Dangerous Encounter

It's her!

Yun Xi immediately realized who the woman under the waterfall was. Yun Xi looked at her knee-long black hair, enchanting face, perfect slender legs and soft feet. She just stood there, but could naturally catch his eyes. Unlike the immature Starwings Knight girls, even a glance from her would let any man descend into madness.

She was the only Water God's bride candidate in Yun Que's scrolls that wasn't a member of Yun Xi's Starwings Knight.

No! I should stop snooping!

Yun Xi's nose almost started to bleed. He covered his nose and quickly looked away. If he had continued to look, he would have seen some weird things that were popping out from the waterfall. They were green gem slimes, which looked different from ordinary green slimes. Their bodies were much greener and they had crystal-like cores in their bodies.

After gushing out from the waterfall, those green gem slimes scrambled to attach themselves on the black-haired woman's skin and instantly turned into green lights, integrating into her body.

Shaya Longnis the Sky Sword was increasing the speed of her third stage.

"Hiss!" After Yun Xi averted his eyes, the dark shadow queen stretched herself under the waterfall. She frowned as she touched her slender legs awkwardly.

After a while, she had put on her black spider web robe and wore a gorgeous spider-style headdress, like a queen of darkness. She slowly walked on the path leading to the village. Now, she was only about a kilometre away from the village. With every step that she took, there would be green slimes jumping onto her from the bushes or stream, integrating into her body.

When she appeared at the entrance of the village, all the men looked at her and were amazed. Compared to the figure Yun Xi saw through his Water Mist Field, her true body was more seductive. Her eyes were cold and void, but it made her become more mysterious, making people want to conquer and obtain her. Her perfect body shape, slender legs, and full breasts contained fatal attractions to men.

“Water God’s... apostle...” The dark shadow spider queen licked her lips. She didn’t mind the people’s eyes and walked straight to the square where Yun Xi was.

When she walked, the people around her all fell into silence. Her charm hadn’t only enthralled men, but also fascinated females. They could barely believe that such a beautiful woman really existed in this world.

“No... she is coming...” Yun Xi had a guilty conscience. Naturally, he had already noticed her.

She isn’t looking for me! She isn’t looking for me! We are not involved. It was just a misunderstanding! She shouldn’t have noticed me!

Yun Xi sweated profusely. He stood up and was ready to run away.

He had a foreboding that this black-haired woman wasn’t easy to deal with. She wasn’t at the same level with the Starwings Knight girls and the innocent native girls.

Unfortunately, his strong sense of foreboding came true. The dark shadow spider queen ignored everyone else in the village and directly walked up to Yun Xi. As a hunter in the dark void, the dark shadow spider queen naturally knew how to find its prey. In the whole village, there was only one hero-ranked human. He was as bright as the sun in the sky and could never hide himself.

“I found you... it’s you...” The dark shadow spider queen walked to Yun Xi’s table and lowered her head, gazing at Yun Xi who was at a loss now.

“Y-yes? What can I do for you?” Yun Xi nervously gazed at the dark shadow spider queen.

Why? They just looked at each other but Yun Xi felt extreme strain.

“Peng!”

“Peng!”

“Peng!”

His heart pounded wildly, but he was sure that he just saw the black-haired woman eye to eye for the first time!

“You are the man who was looking at me, aren’t you?” The dark shadow spider queen exposed Yun Xi’s disguise without mercy.

He was the only hero-ranked person here. It couldn’t be anyone else who was peeping at her just now. Besides, she sensed a trace of mist around Yun Xi, which put her on guard just now. She was a top-class hunter in the void. She wouldn’t mistake it.

“Sorry... I didn’t mean to...” Yun Xi had to raise his arms in surrender. He had realized that his disguise was useless.

“Water Mist... are you a Water God’s apostle?” The dark shadow spider queen hid her murderous intent and asked. However, her eyes were still empty and vacant.

In fact, she wasn't using her eyes to observe the world. All spiders had bad eyesight because they didn't need eyes to see things in the dark void.

She used her "web" to hunt. Not only the web made by her darkshadow thread, but also included her "web of sense". At this moment, the dark shadow spider queen had locked onto her only enemy in the village, Yun Xi, in her web of sense.

"Peng! Peng! Peng!" Yun Xi's heart beat faster. He swore that he had never felt so nervous in the face of any woman.

Why? Why couldn't he stop his heart from pounding when he looked at the mysterious black-haired woman?

This was just their first meeting!

"Well... do you want to eat bread?" Yun Xi suddenly had an idea. He took out a fourth-ranked butter loaf of bread, which he was prepared for proposing to the Starwings Knight girls.

"Food?" The dark shadow spider queen paused for a short while.

Darkshadow spider race always suffered hunger in the void. They wouldn't waste a bit of food at any time. Moreover, Yun Xi's bread wasn't some common food, but a fourth-ranked butter loaf, which could significantly replenish one's energy and vitality.

If Yun Xi hadn't taken out the bread but something else, the dark shadow spider queen would have captured Yun Xi and taken him away.

Chapter 187: The Queen's Satisfaction

The Dark Shadow Spider Queen pinched the fourth-ranked butter bread and sniffed. Her instincts told her that it was a good thing which she had never seen in the void.

After she transformed into human form and walked around in this world, she had seen hundreds of types of foods. Even so, the bread was also the most perfect food she had seen. A loaf of bread could replenish one tenth of her energy.

Don't think that one tenth is negligible. When it was still in the void, it always slept through the period of food shortage. Only when the dark shadow web it had weaved felt the trace of turbulence flow in the void, it would wake up.

Even so, most of the time, the prey it caught couldn't even provide more than half of the energy this bread could provide her, which meant that as the king of Dark Shadow Spider race and the top-class hunter in the void, most of the time in its life, it experienced extreme hunger.

When the energy couldn't even support them to sleep, Dark Shadow Spiders would gather together and hunt each other, so that the whole race could continue to survive in the void.

After eating all other Dark Shadow Spiders, it became the king of spiders, the strongest spider of its race.

In the void, the most common rule was "the survival of the strongest".

However, “all other spiders have been eaten” also meant that the Dark Shadow Spider race had reached the point of extinction. If it couldn’t find sufficient food when the next void turbulence appeared, the whole Dark Shadow Spider race would vanish from the universe.

Fortunately, because the White Holy Dragon broke the void, it saw glimmers of hope. Taking this opportunity, it arrived at the sunny, vibrant White Lotus Sword Domain.

Then, misfortune happened. It was defeated by a group of “little bugs” and lost half of its body, becoming the Dark Shadow Spider Queen.

With a devout look on her face, the Dark Shadow Spider queen carefully put the hot bread in her mouth and nibbled this priceless food.

Her white teeth chewed, then swept every crumb of the bread in her mouth with her smooth tongue. She was so careful that she didn’t even leave a drop of cream on the corner of her mouth.

The Dark Shadow Spider queen had been starved for many, many years. For the first time, she had tasted how wonderful human’s food was. The slimes she ate before were just like sawdust compared to the bread.

When her body absorbed those green slimes, she felt nothing. Those slimes were absorbed by her body like water and if she hadn’t eaten Yun Xi’s bread, she would have thought that it was a matter of course because “eating” was just a behavior of supporting life.

But now, she knew she was wrong. Totally wrong.

Perhaps because her body was in human form, her sense of smell, taste and vision were all like real human. The wonderful taste of Yun Xi's bread had just opened a door for her, leading her to a brand new world.

At the same time, her true body could feel the same happiness too.

Yun Xi was a hero-ranked baker. His bread could replenish all hero-ranked beings' energy and vitality, no matter what race the being was. Which meant that no matter it was the Dark Shadow Spider queen's human form or her spider form, both of her forms were very satisfied with Yun Xi's bread.

She even had an illusion that she had never lived before she ate the bread.

"Does it taste good?" Looking at the Dark Shadow Spider queen's happy face, Yun Xi let out a sigh of relief.

His heartbeat had returned to normal, which meant that his nervousness had disappeared.

As expected, "food" was the simplest way to communicate between people. It seemed that the black-haired beauty was very satisfied with his bread.

It is really good that I have become a fourth-ranked baker before I came here!

"Delicious... tastes good... I'm satisfied..." The Dark Shadow Spider queen's voice sounded hoarse, because she wasn't used to speak in her human form.

Even so, her voice sounded indescribably tempting, as if she was an abyss that was luring humans.

“You... are special...” After eating the first loaf of bread, the Dark Shadow Spider queen stretched out her hand to Yun Xi again.

“You want more?” Yun Xi embarrassedly looked at the Dark Shadow Spider queen, who was too close to him. Her white breasts made him feel dizzy.

“Yes... if you don’t give me... I will eat you...” Obviously, the Dark Shadow Spider queen wasn’t used to human language. She directly threatened Yun Xi.

“Ah ha ha, don’t worry. I’ll give you,” Yun Xi blushed looking at the dark shadow spider queen’s deep, beautiful eyes.

Did she just flirt with me? She was too straight!

As expected, she was different from the Starwings Knight girls. She was a proactive, sexy woman.

“This is the second. If you want more, I still have more,” Yun Xi took out another loaf of bread from his storage.

“How much of this food do you have?” The dark shadow spider queen was very concerned about this point.

After all, the quality and number of food was directly related to the race’s survival and future.

“Well, about sixty loaves of bread,” Yun Xi didn’t know the reason, but he naturally felt that this black-haired beauty was different from any woman he had seen.

Probably it was because of her age. Her charm was totally different from his childhood sweethearts, Hua Huo, Milei and Ye Li.

Her each and every move could make Yun Xi’s heart pound faster. No man in the world could refuse her temptation even though they knew it was just like “a flying moth darting into the fire”.

“How much of this food can you make every day?” The Dark Shadow Spider queen nibbled the bread and estimated her current state.

After becoming Shaya Longnis, the Sky Sword’s subordinate, she could eat as many slimes as she liked. Even so, those slimes still hadn’t helped her recover to her perfect condition.

Incidentally, she had just met a green hippo not long ago, who had become a good meal for her. Unfortunately, the green hippo’s meat was too rough, not delicious at all.

Of course, she didn’t realize it till she had eaten Yun Xi’s bread. Before then, there were only two things in this world: the things she could eat and the things she couldn’t eat. Nothing was about “deliciousness”.

Chapter 188: The Queen’s Threat

After eating Yun Xi’s bread, the Dark Shadow Spider queen finally understood that there were two types of food in this world: the food that could simply be used to replenish her energy and Yun Xi’s bread.

Compared to all the food she had eaten, Yun Xi's bread was unique and fantastic.

If one evaluated food's quality with number, then a green slime was 1, a green hippo was 10, and Yun Xi's bread was 999!

Which meant that a loaf of Yun Xi's bread was equivalent to a hundred green hippos!

No! I shouldn't calculate it like that! The Dark Shadow Spider queen shook her head.

Even a thousand... no, ten thousand green hippos couldn't be equivalent to a loaf of Yun Xi's bread!

The Dark Shadow Spider queen couldn't find anything that was more precious than Yun Xi's bread in this world. As a person who could make this food, undoubtedly, Yun Xi had become special in the Dark Shadow Spider queen's eyes.

How much of this food could Yun Xi make every day? His answer would decide her attitude to him.

"About... a hundred," Yun Xi didn't think that he needed to hide it. Of course, it was because he knew too little about common fourth-ranked cook's upper limit.

"A hundred?!" Obviously, this number was much higher than the Dark Shadow Spider queen's imagination. Even though she knew very little about this world, she still knew what this meant.

If there was a fantastic creature who had the same ability in the dark void, the creature would undoubtedly be seized by the strongest overlord in the void. Common races like the Dark Shadow Spider race wouldn't even be allowed to see "this treasure" with their eyes.

God's domain worlds were no wonder full of miracles.

If she hadn't lost half of its body, probably it would have produced many, many offspring, making the whole Dark Shadow Spider race prosper again.

"Water God's... apostle..." The Dark Shadow Spider queen's eyes became firm. She licked her lips.

I have decided! I will capture you!

"You must... become... my thing!" In front of the Starwings Knight girls, the native villagers, and Yun Xi, the Dark Shadow Spider queen announced.

This was a sign which meant that she had prepared to hunt. In the past, she used soul-stirring sound wave to announce it, and now, she used her mouth to announce it.

"Whoa! This big sister is proposing to him!"

"He is a Water God's apostle! She knows it and still propose to him. She has guts."

"A woman propose to a man proactively? It's rare. Who is this beauty?"

After hearing her announcement, the people around her was first shocked and then showed an “as expected” expression on their faces.

In this world, strong people were respected. They had natural advantage on everything.

“A woman proposes to a man” only meant one thing: the woman thought that she was stronger than the man, so that she had the confidence to say it.

Yun Xi had exposed his hero-ranked power. After seeing this and having accepted his gift, the black-haired woman still proposed to him proactively. The only reason that could explain it was “she is a hero-ranked person too”. Maybe she was even stronger than Yun Xi, so that she didn’t fear to propose to him.

“Master has great charm! Even such a beauty has been captivated by him!” Lu Lu looked at the Dark Shadow Spider queen enviously. She secretly compared their body shapes and felt ashamed of herself.

Wu wu wu, why the gap between two people was so wide?!

“She is right. The apostle has unlimited potential. Even though she is stronger today... it’s just temporary. The apostle will change this world!” Basing on the information she had obtained and her instinct, Mei Lan made a judgement.

“I think... doesn’t she like the food named ‘bread’ too much?” Ling Ling looked at the Dark Shadow Spider queen and murmured, which was very close to the truth.

Maybe it was because she and the Dark Shadow Spider queen were somewhat similar.

"I... become your thing?" Yun Xi felt that his heart beat faster.

"Yes, become my unique treasure that nobody can take away. You are eligible." After transforming into its human form, the Dark Shadow Spider queen had never said so many words like this time.

Her hoarse sounded more seductive under this circumstances, as if she was sweeping a net that never allowed any prey to escape away from it.

"Ha ha... you're sure you don't want to reconsider?" Yun Xi's mouth parched and his tongue scorched.

Why? He looked at the black-haired beauty who was approaching him and his heart couldn't stop from pounding.

He had never had the same feeling, but he felt familiar with it.

"You have no choice," The Dark Shadow Spider queen's eyes became dangerous.

Yes. Even though she had left the cold, empty dark void, she still wanted to capture Yun Xi, who could produce high-quality foods.

This food named "bread" had changed her view to the definition of food.

She couldn't imagine how would she survive if she couldn't eat bread again.

“Revenge” and “obtaining all good things in the world” were the Dark Shadow Spider queen’s two instincts, which were only slightly inferior to her instinct of producing offspring.

After losing her male part, she could never have any offspring. Therefore, they had become the two strongest desires of her.

As long as she could eat high-quality foods, she would become stronger and stronger, and would finally be able to find the girl who “killed” its male part and tear her into pieces.

“You... don’t push hard on me.” Although Yun Xi had had a hundred and seven fiancées, he still didn’t know how to deal with this black-haired beauty.

Perhaps it was because she was too proactive and left no room for him.

Since his childhood, he had never met such a overwhelming, queen-like beauty. The small village he was born in wouldn’t have such a queen-like beauty.

“Choose! Become my thing or to be eaten by me!”

The Dark Shadow Spider queen directly gave Yun Xi two choices.

In fact, he had no choice.

Chapter 189: In the Deep Dark Cave

“Eat...”

“She is bold! Where will she start? From feet?”

“No. Generally, it starts from the lips.”

The married women listened the Dark Shadow Spider queen’s confession with a sort of knowing smile on their faces.

The unmarried girls blushed, secretly looking at the Dark Shadow Spider queen, who was looking hard at Yun Xi and waiting for his answer.

“Whoa! I envy her. If I have her body and charm, I will do the same thing,” Lu Lu murmured. She felt more self-abased as she looked at the Dark Shadow Spider queen that drove Yun Xi up the wall.

‘She is so leisured and seductive. Perhaps I can never learn these in my life’, Lu Lu thought in her heart. ‘What should I eat so that I can have the same slender legs and full breasts like her?!’

“Dragon Blood Alliance! Dragon Blood Alliance! Dragon Blood Alliance!”

Almost at the same time, these strange words suddenly appeared in these Starwings Knight girls’ hearts (except the “only girl” who didn’t need to worry about this).

It was a scream from their souls. It was the last hope of countless unfortunate girls in countless god's domains. It was the source of the multi-headed dragon's unhappy life. It was all because its dragon blood could be used for "breast enlargement".

"If possible, I will chose the first option," Yun Xi looked at the Dark Shadow Spider queen, not knowing whether to cry or to laugh.

He didn't know how to deal with this kind of females. She was too proactive.

But... why? He hadn't received any prompt from his system, and the number of his fianceses also hadn't increased.

Is there anything wrong?

"It's a smart choice. I will take care of you. Come with me," the Dark Shadow Spider queen said. She raised her head and threw out her chest with satisfaction, announcing her victory to everyone.

"What? Come with you?" Yun Xi looked at the Dark Shadow Spider queen in confusion.

What was she saying?

"Since you have become my thing, then of course you should leave with me. You don't have a choice."

The Dark Shadow Spider queen caught Yun Xi's hand and looked at him up and down, then frowned.

“Wait! I haven’t...” Before Yun Xi finished his words, the Dark Shadow Spider queen had pulled him up and used her ability, “Mass Teleport”.

Other people only saw a dark shadow appeared in the air, then the Dark Shadow Spider queen and Yun Xi disappeared.

From the beginning, “capture the Water God’s apostle” was the spider queen’s goal. Shaya Longnis, the Sky Sword didn’t say that the apostle must be alive, and to her character, she believed that “the only good prey is dead prey”. However, she hadn’t expected that this prey was a magical human who could make fantastic foods. It would be a great waste if she killed him.

Therefore, she decided to let this apostle become her thing and let him make delicious bread for her everyday.

“Ah! The apostle and the woman just disappeared!” Lu Lu exclaimed. She worried about Yun Xi’s security.

“Ha ha ha ha, of course, they will disappear.”

“She had said that she would eat him. Of course she would take him to her ‘sweet home’ and ‘eat’ him bit by bit.”

“Little girl, you are still too young. Don’t ask about that,” The married women covered their mouths as their expressions were saying “Little girl doesn’t need to know what will happen”.

“Really? Is that so?” After being reminded, Lu Lu finally realized it.

Whoooooooh, I’m still immature. I don’t understand what happened at all. How would she “eat” him?

“Don’t worry, the apostle will return very soon. You can prepare some potions that can be used to replenish energy... although I don’t think he needs them,” Mei Lan said with disdain and looked at the position where Yun Xi just disappeared.

They were a man and a woman. What will happen between them? It’s easy to guess.

Unfortunately, she didn’t have other choice. After accepting the apostle’s proposal, she could never regret.

Besides, she wasn’t going to regret.

She was a smart girl. She wouldn’t regret for her choice.

However, she just couldn’t stop the words “Dragon Blood Alliance” from appearing in her mind. What did it mean?

“Awwoo! It’s yummy!”

Ling Ling was still intoxicated with the delicious bread, showing a silly smile on her face.

...

On the other side, Yun Xi was facing his biggest crisis after arriving at Water God's world.

He was in a cave, in completely darkness. The only dim light was from the green slime gem on his wrist.

"Hiss!" Yun Xi couldn't see what it was, but his clothes was instantly ripped off by something.

"Tell me, what's the organ you use to produce 'that food'?" The Dark Shadow Spider queen's voice sounded seductive. She was performing Dark Shadow Spider Race's special mind-affecting magic.

"Organ? No, there is no such thing..." Yun Xi felt both funny and annoying. He thought that the mysterious black-haired woman wanted to do something "special" to him, so she brought him here.

She was really unusual.

Would any ordinary woman bring a man to a deep, dark cave and take off the man's clothes after proposing to the man?

She was too proactive!

"It's impossible!" The Dark Shadow Spider queen refused to accept it. Even in the dark void, "equivalent exchange" was a basic rule of all things. There must be an "organ"!

She couldn't understand Yun Xi's hero-ranked special ability. After all, there was no "hero-ranked baker" in the void, and she didn't think that any hero-ranked being could create object from nothing. Moreover, Yun Xi's ability was to create a hundred loaves of bread in a day! It was far beyond her imagination.

It was too illogical. It was in violation to "the law of conservation of mass"!

Chapter 190: Silence and Hotness

Void creatures had their special ecological system in the void.

Different void race had different, special body structure, which was based on the character of their race.

For example, Dark Shadow Spider had a special organ named "Dark Shadow Spinneret", which could make Dark Shadow Spider Silk and form an unexceptionable spider web, and this special organ was the core to support the Dark Shadow Spider Race to survive in the void.

Most void creatures wouldn't be killed even if their hearts had been pierced through. However, if their "special organ" was broken, it wouldn't heal itself and naturally, they would be eliminated in the void.

Therefore, the Dark Shadow Spider queen firmly believed that Yun Xi was making the bread by using his "special organ".

In her view, he made these high-quality foods at the cost of his life force. This was the only reason that could explain his ability.

A loaf of bread was just as big as a palm, but could actually recover one tenth of her energy. Even if it meant ten times conversion dissipation behind it, it was still worth it.

Besides, Yun Xi could make a hundred loaves of bread in a day. His efficiency made the spider queen feel jealousy.

Therefore, she must find out what the “special organ” was that Yun Xi used to produce the fantastic golden butter loaf of bread.

What was it? After tearing off Yun Xi’s clothes, the Dark Shadow Spider queen didn’t immediately find the “special organ”, which must contain tremendous amounts of energy.

She leaned on Yun Xi’s chest, touching Yun Xi’s skin with her hands.

Yun Xi panted as his heart beat faster and faster.

In the dark cave, there was only the dim light from Yun Xi’s green slime gem. They were so close that Yun Xi could smell the fragrance of the Dark Shadow Spider queen’s hair. He blushed.

“Where is it?” The Dark Shadow Spider queen touched Yun Xi’s body with curiosity. She lowered her head and softly touched Yun Xi’s body with her tongue, just like what she did every time when she was going to kill her prey.

“Oh!” Yun Xi groaned. He was at a loss what to do.

What is happening?

Just now, he was still enjoying the ceremony together with Lu Lu and Ling Ling at the square.

In the twinkling of an eye, he had come to this deep, dark cave and was being licked by this mysterious black-haired woman!

He felt that his body was confined by some unknown, special power. He could do nothing but only see the black-haired woman tearing off his clothes and licking his body.

“Hmm... en... en.. uh...” The Dark Shadow Spider queen hadn’t done this before. She also didn’t know what she should do next.

If it was in the past, she would have eaten that prey after tasting him. But now, she just subconsciously licked his body, bit by bit.

This place? No. After kissing Yun Xi’s neck, the Dark Shadow Spider queen shook her head.

She moved her head down. His heart? No. It isn’t. Further down. His belly? She could feel a wave of strange heat flux there, but the answer was still “no”.

So... is it this thing? Looking at the “censored body part”, the Dark Shadow Spider queen guessed. She hadn’t learned human morality, naturally, she didn’t know how stimulating it would be to Yun Xi.

“No! Not there!” Yun Xi panicked. His skin shivered.

Because his body was confined, his skin was more sensitive than usual. He could barely resist this wonderful feeling, although he knew it was wrong.

“Have I found it?” The Dark Shadow Spider queen resisted her urge to eat it, but softly licked it with her tongue.

The places that had been licked by her tongue diffused a strange, seductive fragrance. It was a special toxin, which the Dark Shadow Spider queen used to anesthetize her prey. When she had just arrived at the uninhabited island and caught the Starwings Knight girls, she was using it to anesthetize them.

In Yun Xi’s senses, he could clearly feel the soft touch that was softly moving up and down on his “censored body part”.

The stimulation was too strong. Yun Xi felt as if a ball of flame was burning in his body.

“Hum. I found it!” The Dark Shadow Spider queen thought that she had found the truth, and Yun Xi enjoyed more wonderful treatment.

The smooth, wonderful touch swept through his whole body. The Dark Shadow Spider queen put out her tongue, licking his body bit by bit, not even missing the smallest part.

“Uhh.. uh...” The action continued.

Her soft tongue touched his face, shoulders, chest, belly and...

“Ooo... no...” Yun Xi couldn’t bear it any longer. His body couldn’t move, but his consciousness was even more sensitive. The Dark Shadow Spider queen’s tongue was like the sweetest and most painful punishment to him.

The touch stimulated his brain, making him want to become a beast, but he couldn’t move. He couldn’t do anything. Nothing would be more frustrating and annoying than that.

Unfortunately, the Dark Shadow Spider queen didn’t know male body at all. She still licked, just like what she always did to her prey in the past.

But in Yun Xi’s view, his whole body was being kissed by a black-haired beauty. Naturally, he couldn’t stop his “censored body part” from erecting.

He exceeded the threshold, and the Dark Shadow Spider queen found that something was filled in her mouth.

“Strange. It’s not this taste. Why? Don’t you use this organ to make ‘that food’?” The Dark Shadow Spider queen asked. She cocked her head, gazing at Yun Xi with her innocent eyes.

At this moment, Yun Xi only felt extreme embarrassment.
