### Chapter 241: Sailing Jellyfish's Robe

After "enjoying" the little rabbit, the new day had begun.

With the young Water God's priestesses' help, Yun Xi put on a long robe, which he had never seen before but he thought that it must be very valuable. After putting the green slime bracelet on his arm, Yun Xi looked at the mirror. He could barely recognize that "that man" in the mirror was himself.

This robe was made of a fantastic deep-sea creature's exuviation. It had light silver color, which looked to be a perfect fit with Yun Xi's White Emperor Mask.

The deep-sea creature was called "Sailing Jellyfish" and it was sacred in this world, because all sea demons, including Mermaids and Lamias, saw it as a symbol of the great Water God.

Sailing jellyfishes would moult their shells every other one thousand years. The Mermaids would collect their shells to make robes. Till now, there were only four complete Sailing Jellyfish's Robes in this world.

The first three robes were the Mermaid Queen's Rochet, the Lamia Queen's Campaign Gown, and the Caelian Queen's Priestess Robe. Although their styles and colours were different, their raw materials were the same.

At this moment, Yun Xi was wearing the fourth robe, the treasure made by a part of the rarest fantastic creature's shell.

After putting on the robe, Yun Xi could feel that his control of the moisture in the air had been enhanced by 30%, and the robe could automatically filter harmful substances in the air.

Moreover, it seemed that this old robe could even increase its owner's aura. The three High Priestesses' robes could make them look more attractive, and Yun Xi's robe could make him look more handsome and mature. At the very least, when Yun Xi looked at the man in the mirror, he had a feeling that he could trust "this man" with all his heart.

The Sailing Jellyfish's Robe and the White Emperor Mask were really a match made in heaven!

Yun Xi habitually rubbed the green slime bracelet on his arm, then stood in front of the mirror alone, waiting for the coming ceremony. He looked at his mirror image and murmured to himself, "Yun Xi, you should know you are not fighting for yourself. You are fighting for this world, for the girls who have faith in you."

"Maybe the thing you are going to do sounds ridiculous, and it's indeed ridiculous, but, there is a reason."

"Since you have chosen this way, you must hold on to the very end! You shouldn't be afraid of anything now!"

Yun Xi clenched his fists. At this moment, on his White Emperor Mask, there were already four special marks on four of the six sharp silver horns.

The first mark was from the mysterious dark elf, the commander of his Mist Soul Army, Black Moon.

The second mark was from the enthusiastic Lamia Queen, the Queen of All Sea Demons, one of the top-class hero ranked beings in this world.

The third mark was from the jealous Mermaid Queen, the Queen of the Mermaids, the best harp entertainer in this world.

The fourth mark was from the human High Priestess, the ruler of the City of Water, the holder of the Water God's Scepter, the Caelian Queen.

After obtaining the four brides, he ranked his fiancée's power, and even Yun Xi himself didn't know how strong he was now.

Every minute and every second, he could perceive that his Mist Soul Army was becoming stronger and stronger.

Why did the stars create this trial world? What could he obtain from this world?

He had a feeling that he would know the truth soon after today.

"Huff!" Yun Xi took a deep breath, then walked out of the door.

"The Apostle..." Lu Lu looked at Yun Xi with her gentle eyes.

"Yo, give me some bread! I won't let you go before you give me bread!" Ling Ling laughed. She still behaved so carefree.

“Are you ready? Oh my, how many brides do you want to have? You have called so many unmarried girls!” Mei Lan complained, but Yun Xi knew that it was her special way of showing her care.

Apart from the twin witches, Hua Huo, Hua Yue and Xiao Cao, all the girls of the Starwing Knights had gathered together here today.

Yun Xi understood that they should have joined the Sky Sword’s camp. In fact, if the Water God didn’t find him directly and chose him to be its Apostle, he should also be in the Sky Sword’s camp now.

Yun Xi had never imagined that someday, he would fight against his unbeatable childhood sweetheart: Hua Huo.

Unfortunately, from the beginning, he had no choice.

“I hope that Hua Huo will never know what has happened in this world.” Yun Xi prayed, although he knew that it was just an unrealistic fantasy.

He knew that Hua Huo would definitely go crazy if she knew what he had done.

And the thing he was going to do today, would make Hua Huo explode like an erupting volcano.

“Apostle, everything is ready.”

“Please convey your true love to them all!”

“You will be pleased no matter what kind of bride you want!”

The young priestesses still didn't know Yun Xi's plan. They looked at him with expectation.

Several of them were “Elizabethan”. In order to let them serve Yun Xi, their families had went out of their way to make an effort to help the cause.

In fact, all unmarried girls in this world had been tempted by Yun Xi's proposal ceremony.

To the people in this world, the Water God was their supreme lord, naturally, the Water God's Apostle was very special and worthy of mentioning.

“Thank you.” Looking at the priestesses, who had been selected to be his Mist Soul Army's future commanders by Yun Que, Yun Xi thanked them in a relaxed tone.

The last moment had finally begun.

Go ahead, Yun Xi!

Chapter 242: The Girls Who are Studying Hard

In Caelian.

The Caelian Queen, the Lamia Queen, the Mermaid Queen, their people, and the girls from all over the world, were gathering together on the square in front of the Water God temple.

For Yun Xi's plan, the Caelian Queen even ordered all the residents to pull all the buildings around the Water God temple, and finally built this special square. It was so large that it contained dozens of fountains and spread all the way to the seashore.

Beside the sacred fountains, humans, Lamias, Mermaids and all the girls of other races gathered together in groups based on their races. They chatted about this special ceremony with excitement.

This world never had a ceremony called "The Water God's Apostle's Proposal Plan", and probably would never have another again.

"Did you hear about it? The Apostle is a very excellent, handsome and mature man!"

"Yes, yes, I saw him once from a distance. His silver mask is very cool!"

The human girls gleefully talked about Yun Hai. Especially the girls who had seen the Apostle before, but everyone who hadn't, were feeling jealous.

Compared to them, the Lamias looked much more leisurely, because they had already known the result many days ago. Therefore, when they looked at the human girls' nervous expressions, they laughed in their hearts.

As for the topic they were talking about, it was slightly "adults only".

“Feya, we will teach you the knowledge of being a Lamia lady.”

“The first night with your lover is very important. You must do your best.”

“The Apostle is protected by the great Water God’s power, so you don’t need to worry about his body. The only thing you need to consider is how to enjoy your first night.” Although the Lamias were just some armchair strategists who had no practical experience, it wouldn’t stop them from teaching poor young Feya what she should do during her first night.

“Oh! Oh! Oh!” Feya blushed. Her tail wagged, espousing her excited heart.

I’m finally learning the special wooing of us Lamias! So this is the secret, this is what I should do!

“Feya, come here, this is the textbook.” Looking around and making sure that no one else was looking at this place, the oldest Lamia put a book into Feya’s hands.

“The Shameless Demon and One-thousand Princesses” was the textbook’s name. Looking at this precious prohibited book, Feya realized that her sisters finally considered her as an adult.

In the past, when she found this book, her sisters stopped her and told her “You are too young to read it”.

After opening the first page of this prohibited book, Feya had been shocked by the erotic illustration and the exciting description. A brand new world was slowly opening in front of her.

Is this the adult's world? It's so exciting and tempting!

...

Amongst the Mermaids, a similar thing was happening.

"Those Lamias are serious!"

"Be quick, be quick, who has our prohibited precious book? We Mermaids can't lose to those brainless Lamias!"

"It's our destiny to steal a Lamias' lover!" The Mermaids had a natural sense of competition with the Lamias. Although their Queens were friends, they didn't mind trying to hamper the Lamias.

"I found it! I found it! Be careful, it's a very rare book!"

"Hum, 'The Shameless Demon and His Sisters' Secret Garden'. Yes, this is it!"

"I heard that there were more books of the Demon Series. These illustrations are great! They must be a artistic master's masterpieces!"

"Even in the whole world, there are not too many books of this series. Little girls, come here and study!" The Mermaids said with enthusiasm. Hearing their conversation, even the girls of other sea demon races also stealthily looked at the book.

Their races weren't as privileged as the Lamia Race and the Mermaid Race. Most of their partners weren't even intellectual, because only very few sea demons could gain intelligence and know how to turn into human form.

Based on their living areas, the sea demons in shallow seas would become Mermaid's subordinates and the sea demons in deep seas would become Lamia's subordinates.

They also found a similar book in their race's treasure cave.

Just like the Lamia's book and the Mermaid's book, it was also a real original book from a real drawing master.

"Is this the method of how humans copulate?"

"That posture... is embarrassing!"

"Will we do the same thing every night after we marry the Apostle? But, my race can produce descendants simply by exchanging each other's genes!"

The sea demon girls talked with each other and passed around for perusal the book called "The Shameless Demon and Monster Girls' Game".

It seemed that all the races in this world had a book of the Demon Series.

They were prohibited books, but also excellent beginner books.

At any rate, from the girls' red faces and pounding hearts, these books were very effective.

After a while, a special aura spread around the girls in the square.

Chapter 243: A Million Brides

Time moved forward, second by second, and would never stop for any reason.

The moment of fate had finally arrived.

With the silver mask on his face and the sacred robe on his body, Yun Xi was clustered about by the three High Priestesses as he stepped on the stage of his life.

When he appeared on the stage, which was specially built for this ceremony, he caused a sensation to ripple throughout the city.

For most people, this was the first time they saw a real Apostle with their naked eyes. Even in all history, this Apostle would be one of the highest ranking of the Water God's servants.

Especially the young priestesses from the temples all over the world. When they saw Yun Xi's silver mask, they couldn't help but put their palms together and prayed devoutly.

“Oh, is he the legendary Apostle? He is young!”

“But he looks so mature! Does such a great Apostle really need to look for brides himself?”

“If the girls who want to marry him lined up, the queue could probably crowd the streets to overflowing!”

Most people hadn't known of Yun Xi's true plan. They just chattered with each other and looked at the Apostle in surprise.

Even though they had seen the Apostle's portrait on the notice board before, many people still thought that the portrait was “for reference only”. Since this Apostle even went to look for brides personally, his true appearance must be very “special”.

Of course, it wasn't a big deal. Since he was the great Water God's Apostle, his appearance would be the smallest novelty in their minds.

The Apostles in the past were all elders, who never cared about secular affairs. Therefore, this Apostle was very special, and they would do everything to butter him up.

For this moment, the one million bride candidates on the square were all the most excellent girls in this world. In order to respond to his wish, they came to this city from all over the world.

Humans, Lamias, Mermaids, and all the other races had all chosen their most beautiful unmarried girls. As the most predominant race, humans had almost sent all unmarried girls to the city.

No one there was forced to be here. All these girls came prepared to fight for the right of becoming the Apostle's brides.

There were a million girls in this city. No matter how many girls the Apostle would marry, there would be no doubt that most girls would come back home empty-handed. Therefore, the competition would undoubtedly be very fierce.

This was the foremost thought in most people's hearts.

However, they were ready for it!

Come on, no matter what dire condition they would face, none of them would give up!

What's the best bride in the Apostle's heart like?

The Apostle likes a girl who is good at cooking, martial arts, divine spells, or...

No matter what kind of girls the Apostle likes, I won't lose to anyone!

The girls all had so much confidence in their hearts.

...

On the stage, Yun Xi took a deep breath.

Today, there were a million girls here. Although it was just Yun Que's ridiculous plan at the first, he didn't think that it could happen. Nevertheless, it was really allowed in this world, and reached this point, by going step by step.

Now, he would perform the most important step in the whole plan.

"Thank you, thank you for coming, thank you for listening to my words."

"I say to you today, my friends. That, I have a dream, a very special, even a strange dream."

"Today is a special day for me." Yun Xi stretched out his hands. The green slime bracelet turned into a green light and circled around on his fingertip.

"I am looking for my bride, and I will sign a contract of "never being separated" with her."

"From today on, I will love her and take care of her. Where she goes, I go. If I leave, she leaves. I will love her, comfort her, respect her, protect her as my own. For better for worse, for richer for poorer, in sickness and in health, to love, honor, and cherish, till death do us part, we will never be separated."

"As long as the sun will still rise, I will offer you the warmest home."

"If possible, can you all agree to my proposal?"

“The girls who are listening to my words, please make your choice!”

A continuous mist spread around from Yun Xi’s White Emperor Mask. At the same time, from the fountains and from the streams, there was also a continuous mist rising into the air.

This was an unprecedented proposal in this world’s history. One to one million!

As his Water Mist Field spread in the air, Yun Xi had a mental bond with all the girls on the square. There was a fine, transparent thread of mist amongst all the girls and himself.

They were the strings made by Yun Xi’s White Emperor Mask, which would change the whole world forever.

Listening to Yun Xi’s marriage proposal, the three High Priestesses looked at each other and smiled. The Lamia Queen stepped forward first.

The High Priestesses were the strongest beings in this world, apart from this, they also had the best singing voices.

The Lamia Queen faced the public and started singing her song of love.

The song was about a princess meeting a prince, and its name was “Dark Princess”!

“I wandered in the darkness... I once dreamed, of a whisper...”

“Now, I see the road. Is that my fate? At the very least, at this moment, let me open my arms for you...”

“This fantastic dream, my downtrodden wings, I will lower my head in the darkness, awaiting your coming.”

“My tears wash my hands, my lips quiver in the darkness.”

“Come to me! Look at me! Treat me as the finest princess in all the universe, my prince!”

“Though I be covered with cuts and bruises, I will never betray our love.”

“As long as I can stay beside you, darkness and sadness could even become warm.”

“This searing yearning will witness our love.”

“Our love will turn into light, ignite the darkness and achieve immortality!”

The princess was imprisoned on the tall tower day after day and year after year. She waited for a miracle. In the dark flames, she was finally saved by the prince from the endless cycle of time. This was the Lamia Queen’s love song for Yun Xi.

The Lamias and other girls of deep sea races raised their hands.

The threads amongst them and Yun Xi shook and turned into one beautiful crystal ring after another. They were the tokens of their love, they were these girls' answers.

"The next is my turn." The Mermaid Queen also stepped forward and began to sing.

Compared to the Lamia Queen's song, the rhythm of her song was more sad, which was a perfect fit for the Mermaids' romantic aura.

The song was called "The Lost Petal".

"My lover flew away from my hands along with the wind. It rolled in the air and flew to the sky, disappearing from my sight."

"The tree was engraved by the facts of our lost future. The spring has changed the world, the death of fall is coming."

"The flowers in full bloom are much more beautiful than the wind. Even if their petals have been destroyed, even if they have been forgotten, I will still follow the traces, looking for the fragments of my yearning."

"I collect the petals carefully, waiting for the next spring."

"My lover, when will you come from my dream and hug me again?"

“Answer me if you can hear my song.”

“Come back to me if you can feel my heartache.”

“My lover, I will always be waiting for you.”

It was a song of a broken hearted girl. That was sad, but with hope, filled with uneasy expectations. More than thirty percent of the girls cried after listening to its rhythm.

Then, they raised their hands. Those girls who had hesitated before, finally gave Yun Xi their answers.

One hundred thousand, two hundred thousand, three hundred thousand... the number of his brides was increasing rapidly, in Yun Xi's Starchild Love System. While the last and the most venerable Queen, the best known Caelian Queen came on the stage, the atmosphere reached its highest point.

The Caelian Queen was just a human, naturally, her voice couldn't be as charming as the Lamia Queen's or the Mermaid Queen's, because as sea demons, their voices could go beyond the limit of mankind's hearing.

Therefore, she must be more empathetic and keep her focus on the song, so that she could touch people's hearts with her voice like the other two Queens.

Her song was called “The Rhythm of Love”.

“My past dreams wandered in the night’s arms, my cute lover, help me look for my road. If this is our fate, let’s go on our way.”

“In my eyes, you are the sunlight through the leaves. You bring me courage and smiles, I can feel the transcendent love in your body. I smile under the sky, because you are with me. My song is the token of my love, and I believe that you can hear my feelings across time and space.”

“Happiness, sadness, worry, they are the rhythms of love. Any time, any place, my song will be with you. I was born for you, I’m singing for you. The rhythm is flowing in my heart, listen to it, my love!”

Five hundred thousand, six hundred thousand, seven hundred thousand!

In the sound of the Caelian Queen’s singing, a great amount of power flocked into Yun Xi’s body. He could clearly feel the terrible energy waves through the mask on his face.

Finally, the harvest time had begun.

He had created this miracle with his own hands!

With the three High Priestesses’ help, Yun Xi reached an achievement that perhaps no one had ever achieved in the whole universe.

A million brides!

As being surrounded in the countless mist, one beautiful girl after another raised their hands with expectations in their hearts.

“I really am a... liar.” Feeling the powers that were flowing into his body, Yun Xi didn’t look happy, but mocked himself.

Yun Que’s plan had a drawback that it would take Yun Xi too much time if he proposed to the girls one by one. Therefore, they finally decided to let Yun Xi propose to the one million girls on the square together. In order to accomplish this, they had paid with a great deal of effort.

And now, they finally got their efforts rewarded!

This was Yun Que’s Expansion Plan of A Million Brides! Especially tailored for Yun Xi!

Chapter 244: You Will Be the Emperor

This day had become the most fantastic day in this world’s history.

In front of the old Water God temple, countless fountains sent water columns skyward from underground. Voluminous mist spread throughout the city, making it the City of Mist.

In the Water Mist Field, a million beautiful girls were making their answer.

“I’m willing to take this honour. I’m willing to be your bride. Thank you for choosing me. I will be your power in return for your love. I swear to the great Water God, I will be the Apostle’s wife forever!”

The girls' voices echoed through the sky, hovering around the old City of Water like a million beautiful melodies.

One white hand after another raised in the air with expectation and longing in these girls' hearts.

One crystal ring after another appeared on these beautiful girls' fingers.

They were the proofs of their oaths, and the signs of their accomplished marriage contracts.

They accepted Yun Xi without reservation. When even Yun Xi himself didn't believe that he would succeed, their trusts, made this plan come true.

There were over a million girls who had arrived at this city, and there were only dozens of girls who refused his proposals.

Yun Xi could sense a very weird aura from these girls' bodies. As they disappeared suddenly and mysteriously, Yun Xi understood who they were.

Shaya Longnis', the Sky Sword's coming had reached the last phase. Her will could even interfere with the reality now.

The girls who just disappeared suddenly should be the slimes who had transformed into their human forms!

Apart from these “girls”, all girls on the square said “I’m willing to marry you!” to Yun Xi.

Their faith in the Water God and the three High Priestesses’ songs impressed them. The girls in the Water God’s world were all innocent and cute. None of them doubted whether Yun Xi was lying.

“In order to save this world, I have to deceive them. Then, am I wrong or is it this world’s fault?”

Yun Xi looked puzzled. He thought that he understood the stars’ quests better.

Love is wonderful and sweet. He never doubted his love to Hua Huo.

However, his understanding about this world and “love” had been changed.

Loves were different.

There was “everlasting love of couples” in this universe.

There was “loyal love to the god” in this universe.

There was “jealous and uneasy love” in this universe.

“Love” wasn’t a single property. It could be rendered as all kinds of emotions.

“Marriage” wasn’t one-to-one in this world just like the custom in the Sky Sword God’s Domain. Instead, it was one-to-many.

He had married a million brides in this world. If even such a “love” was allowed in this world, then what couldn’t be accepted?

It seemed that the stars were using this method to teach him what “you should accept all kinds of love” means.

However, the “love” in the eyes of the stars was too different from the love in human’s eyes!

Marry a million girls? It’s just ridiculous!

Yun Xi felt as if he was dreaming when this unprecedented miracle came true.

“Well, well, from now on, you will take responsibility for us Lamias. Of course, as their Queen, you should care for me more, but it doesn’t mean you can be ‘bad’ to the rest of your wives!”

The Lamia Queen looked cheerful. After losing the sailing jellyfishes over a century ago, finally, the Lamia Race embraced hope again.

“The Lamias are too pushy, but I’m different. Don’t forget to look for me when you are free!” The Mermaid Queen teased.

“The aura is strange, but not bad, isn’t it?”

The Caelian Queen coughed. Obviously, she had noticed the strange aura between the Lamia Queen and the Mermaid Queen.

“From now on, we will put the fate of this world in your hands. You have been accepted by the three Queens and have the White Emperor Mask. Starting from today, you will become the Emperor of the entire World!”

“What?!” Yun Xi was dumbfounded.

“You have married a million girls! If you aren’t the Emperor, then who can be the Emperor?” The Lamia Queen stood to Yun Xi’s right.

“Yes, if you aren’t the Emperor, it would be very strange!” Not giving the slightest concession, the Mermaid Queen stood to Yun Xi’s left.

“As the leader of mankind and the Caelian Queen, I witness the birth of the Emperor of the World!”

The Caelian Queen walked to Yun Xi. She half knelt and kissed Yun Xi’s hand.

“As the leader of the deep sea demons and the Lamia Queen, I witness the birth of the Emperor of the World!”

The Lamia Queen also lowered her head and kissed Yun Xi's hand.

"As the leader of the shallow sea demons and the Mermaid Queen, I witness the birth of the Emperor of the World!"

Finally, the Mermaid Queen also knelt and offered her blessing to Yun Xi.

The Bell of Blessing resounded across the skies!

Chapter 245: The Broken Hearted Boys

When the unprecedented "White Emperor" was born, on a hill outside of Caelian, the Dark Shadow Spider Queen was looking at the sacred city from a distance.

"He is awesome. He deserves to be my thing!" The slimes the Dark Shadow Spider Queen control had increased to ten times more than before. Apart from these common green slimes, she also had dozens of high class slimes, who just escaped from the city.

These high class slimes looked like humans. Because there were a lot of girls of deep sea races in this city, so they successfully sneaked into the ceremony like fish in troubled waters.

Unfortunately, their identities were exposed, because their intelligence was too low. They didn't know how to respond to Yun Xi's proposal. Seeing this, the Dark Shadow Spider Queen had to order them to retreat.

“He can even successfully propose to a million girls! I want him more!” The Dark Shadow Spider Queen licked her lips with a burning desire.

“That man” could make yummy food from nothing and had excellent governability. Although she just took a glimpse to Yun Xi through the slimes’ eyes, she could still sense the sweet smell of his body.

“Humph. He is just a phony publicity seeker. Such a salacious man isn’t worth a hill of beans!” Childe Yun He said in a contemptuous tone, however, the burning emotion called “jealousy” in his eyes had exposed what he was really thinking.

“I won’t obtain the things I want with blandishments. I will rob all things with my strength!”

Childe Yun He ground his teeth.

“Even if he has succeeded marrying the one million girls, then what? Can he really possess them all? Eventually, he is just a fribble, a liar!”

“Yes, even if he has a million brides, they can do no help for him!”

Yes, I have obtained the evil god Tlahuizcalpantecuhtli’s power. How will I be inferior to such a liar!

Once I accomplish the blood sacrifice to the evil god, I can trample him as easy as stepping on an ant!

“It’s too ridiculous to marry a million girls!” In the Sky Sword’s camp, the young boys complained.

“There must a hole in this guy’s head. How can he himself satisfy a million brides? What the hell is he doing?!”

Some people got exasperated.

“Ooo ooo ooo, I like that priestess. She also accepted that man’s proposal. She must’ve been hoodwinked!”

Some people were utterly disheartened.

“Burn! Burn! Burn! Kill! Kill! Kill!”

Some people went crazy with jealousy. They had held torches and sickles in their hands.

Before the battle between the two camps started, the young boys of the Sky Sword’s camp had had a common goal.

Catch that pervert called “White Emperor” and cut him into a thousand pieces!

From the bread making ability he had showed in the small village, this man couldn’t be a native but a person from another world, just like them all!

Because this world didn’t have a food called “bread”, not even the making method!

When they arrived at this world, they were placed on an island with monsters everywhere. They were hungry and thirsty, fortunately, Childe Yun He summoned the evil god Tlahuizcalpantecuhtli and led them so they could leave the island. Otherwise, they would all have starved to death!

As for this man! He first arrived at this world and then immediately became the god's Apostle. He was respected everywhere. Even when he said "I want to marry a million girls", the whole of this world still revolved around him!

What had they experienced in this world? Death trials!

Tall Bird, Blood Eye Crow, Red Hound, Blue Hound, Deerclop... They would never know what kind of monster would rush out from the mist and take away their lives.

Even if they died, they would revive in a random place on the island. The countless deaths and rebirths had tortured them in hell.

Finally, when Childe Yun He told them that they could escape from this painful cycle of mortality once they believed in the evil god Tlahuizcalpantecuhtli, they all accepted it.

After that, they joined the evil god's camp and escaped from the deadly island, then they cooperated with the Sky Sword's camp and finally became the Dark Shadow Spider Queen's collaborators.

Remembering the miserable experience they had suffered, and the handsome treatment the "White Emperor" had enjoyed, these young boys only wanted to cry.

We are all outsiders to this world, why are you the only one who can be treated with kindness?

If this world is a trial, then we must be experiencing the “Hell Mode” and the White Emperor is experiencing the “Easy Mode”... no, he is like playing the Easy Mode with a Cheat!

Even now they could also vaguely hear the girls’ laugh from a distance.

“Oh, what a beautiful ring! Am I not dreaming?” A young priestess looked at her hand in surprise and pinched her hand. Incidentally, she was one of the young boy’s dreamlover.

“No, I can’t feel pain from my hand! Am I really dreaming? No, let me pinch my hand again.”

“Of course you don’t feel pain! You are pinching my hand!” The young priestess’ partner complained.

...

“No, I want to die!”

“I have never been so angry in my life!”

“I will take revenge on him! I will sell myself to the great evil god Tlahuizcalpantecuhtli! I will take my dreamlover back!”

On the hill, the young boys cried and cursed their unlucky fate, wailed like ghosts and howled like wolves!

#### Chapter 246: Embark on the Road

The next three days, the people of the whole city sank to immerse up and down in the atmosphere of the merriment.

After accepting Yun Xi's proposal, the girls from all over the world started to decorate the old City of Water with all their enthusiasm.

Because there were really too many brides, the betrothal gifts were so many that they could even fill dozens of palaces.

These girls laughed and sang the songs they learned from the three High Priestesses, expressing their joyful feeling.

Looking at these girls from the top of the tall bell tower, Yun Xi showed a thoughtful expression on his face.

This moment, he was thinking about the truth of the universe and the theory of everything.

"Come on, stop pretending. I know you have already grinned from ear to ear in your heart. But I tell you, really, don't do anything to them!" Yun Que sneered in a cold tone. She stared at Yun Xi as if she was looking at a pile of garbage. "They are all good girls. It's too pity to let them fall into your hands."

“Yes. I don’t deserve to have them. I’m already very satisfied to have their Mist Souls.” Yun Xi shrugged his shoulders. He didn’t sit idle all day in the past three days. Instead, he studied how to command his Mist Soul Army with all his heart and soul.

With the help from the three High Priestesses and Yun Que, he finally figured out something.

“I’m really curious about you. Although I’m the one who suggested you to do it, this plan shouldn’t’ve been accomplished so perfectly. Who are you? Why can you do this?” Yun Que questioned Yun Xi with confusion in her eyes.

The more she knew the man who called himself “Yun Hai”, the more surprising features she could find in him.

She did propose the Expansion Plan of A Million Brides, however, she didn’t really think that the number of Yun Xi’s brides could reach “one million”.

Is he really a human? Even if he is a god, it’s hard to believe that he can achieve such a miracle!

What charm does he have? How could he capture a million young girls’ hearts so easily?

This was so ridiculous. She had no theory to explain it!

As an elite assassin of the Ten Leaves Alliance, she had seen too many things and experienced too many battles. However, she still hadn’t saw anyone who was similar to this “Yun Hai”.

“Probably it’s because there is a great will that is blessing me...” Yun Xi referred to the stars. After all, all the things that had happened were parts of the stars’ plan.

He was the only person who knew that this world was just a trial for himself.

“Humph. It’s difficult to understand why the Water God likes you so much.” Of course, Yun Que didn’t know the existence of the stars. She thought that the “great will” Yun Xi said before meant the Water God.

“About this, I don’t understand either.” Yun Xi also felt strange about this.

Why would the Water God find him immediately after he left the bonfire? Why would the Water God confer him the White Emperor Mask without hesitation?

Everything started from that moment. At the beginning, he planned to join the Sky Sword’s camp and fight together with his childhood sweetheart, Hua Huo, but now, he had stepped on this “Road of No Return”.

“Whatever, but you shouldn’t have any more contact with these girls. Now, it’s time to leave this city, it’s time to save this world!” Yun Que stood upright with strong determination in her eyes.

Everything she did was for this moment.

She didn’t mind being called “unscrupulous” and “ruthless”, because she had judged it with the balance of her justice.

Compared to finding the most excellent bride for the Water God, the “Expansion Plan of A Million Brides” was more effective.

Now, Shaya Longnis’, the Sky Sword’s coming had reached its last phase, and she had also found out where the Sky Sword’s base camp was.

The Island of Mist. It was the scariest place in this world. Even the three High Priestesses were prohibited to go to there.

At the same time, it was also the most chaotic area in this world, where was easy to summon living beings into this world from outside worlds.

According to what she had known from the Lamias and the Mermaids, they had seen a lot of living beings suddenly appearing on the island.

Although they were also from other worlds, they had chosen the Sky Sword’s camp, and the Island of Mist had become the location of the Sky Sword’s camp.

“Yes, I will fight for them. I want to do something for these girls who believe in me.” Yun Xi slowly stood up and looked at the city together with Yun Que.

“Since I have given them my promise, I must protect them and create a beautiful homeworld for them.”

Yun Que looked at Yun Xi in surprise.

Maybe this man isn't totally helpless. However, it won't change the fact that he is still too salacious!

"Let's go. Maybe I can attend your wedding when we come back. It must be very pleasing to marry a million girls, don't you think so?" Yun Que teased.

Yun Xi gave her a quizzical look.

"Why do your words make me have an ominous presentiment?"

As white mist rose from the ground, Yun Xi and Yun Que embarked on their road.

The next, they would face the strongest being in the Sky Sword God's Domain!

...

In the Water God temple, the three High Priestesses watched Yun Xi and Yun Que on the mirrored surface of the Sea Demon's Mirror.

"I'm worried about them. Why don't we go with them?" The Lamia Queen looked anxious.

"Yes, as his bride, I should fight shoulder to shoulder with him at this moment!" The Mermaid Queen said with a bad feeling in her heart. She could feel a special atmosphere between Yun Xi and Yun Que.

“Don’t doubt his choice. It’s a forbidden area to us all. Besides, we have offered him our powers, so we should trust him. We should believe that he can return in peace and live happily with us forever after that!”

The Caelian Queen shook the Water God’s Scepter with a tender look.

On the tall tower, the bell rang again, blessing for the two Apostles!

Chapter 247: The Frightening Army

After leaving the Caelian City, Yun Xi and Yun Que flew all day and all night and finally arrived at the forbidden zone, where the Caelian Queen was severely injured and returned with disappointment.

“The mist is thick. Is this the source of all Mist Tides in this world?” Looking at the huge wall of mist from hundreds of metres away, Yun Que could sense a huge evil intention inside it.

Unlike the common mist all over the Water God’s world, the mist here was cold and suffocating.

She could imagine what a disaster it would become if the mist here spread around this world.

From the countless records about Mist Tide, Yun Xi had seen countless names on the bloody death list. The people who had survived the Mist Tides could even be counted by bending the fingers. Especially males, there was barely no man who had survived any Mist Tide.

“The mist here is strange.”

As the White Emperor Mask's owner, Yun Xi could control all mists in this world. Naturally, he sensed something unusual in the mist.

The mist not only contained the Water God's smell. There was something else inside it.

From the very first day Yun Xi came to this world, he could feel the Water God's love for this world.

There were sweet spring waters and delicious fruits all over this world. The land so was fertile, where anyone could feed the population ten times or more.

If there wasn't any Mist Tide in this world, the Water God's world could be more beautiful and peaceful.

"I have a bad feeling. Maybe we are still too slow." Yun Que's sharp eyes were looking at some strange creatures who were wandering around on the edge of the mist.

These creatures had green bodies. No, it wasn't the crystal green of the common slimes', but a much darker, mud like green. Apart from this, their bodies were also too huge that they couldn't hide in the mist.

"Are they giant slimes?" These strange green slimes were all as big as a small hill. The smallest giant slime was about ten metres tall, and the biggest giant slime was over thirty metres tall. The most important thing was: they were eating each other and becoming much bigger!

Yun Xi could imagine what would happen if they left the Island of Mist.

They were not as harmless as the common green slimes. Their huge bodies would become a big moving disaster to the people in this world.

“Let’s fight.” Yun Que drew her black long bow.

They had done everything they could do, and now, it was time to fight!

Only the victor could obtain the future.

This world didn’t need two god like beings!

Between the Water God and the Sky Sword, only one of them could become this world’s master!

“Open the door. My brides, come to this world!” Yun Xi stretched out his hand and waved in the air.

A mist door appeared and opened behind him.

A well-organized Mist Soul Army walked out of the mist door behind Yun Xi. The Mist Souls floated in the air, above the limitless sea surface.

4/5 of them were humans and 1/5 of them were sea demons. They were all Yun Xi’s brides.

The totally number of Yun Xi's Mist Soul Brides was 1,001,370. They were the last result of Yun Que's Expansion Plan of A Million Brides.

In the front of Shaya Longnis', the Sky Sword's Slime Army, only Yun Xi's Mist Soul Army had the possibility to defeat them all!

"Attack the enemies!" Yun Que took a glance at the Dark Elf in the center of the Mist Soul Army, then moved her eyes back and drew the longbow in her hand.

Countless Red Lotus Arrows shot to the giant slimes from Yun Que's longbow.

"..." The Dark Elf Mist Soul raised the black sword in her hand and commanded other Mist Souls in silence.

She didn't need to speak, because Mist Souls had a special mental bond amongst each other. This was a perfect army that all commanding officers had dreamed of.

"Boom! Boom! Boom! Boom!" With earth shaking explosion, the Mist Soul Army pressed forward with indomitable will.

They wouldn't die and wouldn't feel afraid. Even if their partners' bodies had been torn into pieces in the explosion or were squashed by the giant slimes, their hearts wouldn't shake.

On the contrary, their attacks could actually hit on the giant slimes' bodies. Swords, arrows, magices and divine spells, they all caused true damage to these giant slimes.

After shooting an arrow, Yun Que had found that she didn't need to attack anymore, because the Mist Soul Army had overwhelmed the giant slimes.

They were faster than lightning and more nimble than the leaves in the wind. Yun Que couldn't describe how strong this army was, because even the Ten Leaves Alliance didn't have such a super army.

As the first line of defence of the Sky Sword's camp, the giant slimes couldn't even hold on fifteen minutes. Before that, they had all been slaughtered and only left a pile of green cores on the ground.

Under the Dark Elf's control, the Mist Soul Army exposed a terrifying force.

Their swords could cut open the sea and the sky.

Their spells could summon hails, lightning and storms.

The Mist Soul Army was formed by a million girls, which meant that the army could use almost all attacking methods these girls knew and their bloodline powers.

When these girls' powers were gathered together and controlled by a great commander, the Dark Elf, their actual power was even stronger than Yun Que had guessed!

"This battle is over." Yun Xi stepped on the island and picked up one green core after another from the ground.

The green bracelet on Yun Xi's arm looked very interested in the green cores. It immediately absorbed these green cores all.

"Your Mist Soul Army is really a horrible monster!", Yun Que said.

Although this army was created by herself, and her Mist Soul was even this army's commander, Yun Que still thought that its power was much too strong and that it shouldn't be able to appear in this world.

Chapter 248: The Third Phase

The giant slime flock, which could destroy a kingdom easily, was killed of by Yun Xi's Mist Soul Army within fifteen minutes.

Even if it was the Ten Leaves Alliance's elite army, without hero ranked warriors' assistance, they would need to pay a heavy price to defeat these tough enemies.

But now, the Mist Soul Army slaughtered these giant slimes like breaking a dead branch from a tree. Till now, Yun Xi had only put ten thousand Mist Souls into the battlefield, and most Mist Souls were still staying behind the mist door.

"It's so lucky that we are in the same camp." Yun Que sorted out her feelings.

Is my Mist Soul really the supreme commander of this strong army? It's like a dream!

"It's because we have an excellent commander. I'm not good at commanding the army and it was all the Dark Elf Mist Soul's credit. Thank you for your recommendation." Yun Xi looked at the Dark Elf Mist Soul with a sheepish look.

The Dark Elf was standing in the front row of all Mist Souls. Because she wouldn't die, she didn't need to be protected by the army. Instead, she led the charge as a vanguard.

Yun Xi could see that she was familiar with battle. Under her leadership, the Mist Soul Army was about two times stronger than when he commanded the army. Before she used her hero ranked ability, the Mist Soul Army had wiped out all the giant slimes quickly.

Yun Que's recommendation was remarkable. The Dark Elf named "Black Moon" was born to be a war leader!

However, when Yun Xi looked at the Dark Elf, he could feel her loneliness.

"Nothing praiseworthy, because great command capability can be learned through practice. There are many excellent commanders in the universe, however, your Mist Soul Army is unique." Looking at her own projection, the lonely Dark Elf in the Mist Soul Army, Yun Que smiled bitterly.

As an assassin, why did she have such a great command capability? The reason was cruel.

For her mission, for her justice, she had stepped onto countless battlefields and had stained her hands with blood a long time ago.

Her justice wasn't without a price. For victory, she had made cruel choices many times and had given up many people who believed in her.

Everything was for victory, because only the victor could obtain the future.

“Let’s keep moving. I have a feeling that this battle will be very cruel.” Before they stepped on the island, they had encountered so many giant slimes. This fact made Yun Que have a very bad feeling in her heart.

Shaya Longnis’, the Sky Sword’s erosion of this world was faster and deeper than her imagination.

The information she had collected in the Caelian City was probably just a small portion of the Sky Sword’s actual power.

“I have the same feeling. Many smells in the mist don’t belong to this world.” Yun Xi sniffed, feeling a vague tingling sensation through his White Emperor Mask.

“Bang!”

“Bang!”

“Bang!”

Quickly, their bad feelings came true. With a spate of explosive sounds, something happened.

One slime after another gushed out of the ground and the water, flocking to Yun Xi and Yun Que.

Poison Slime, Marsh Slime, Ice Slime, Metal Slime, Lava Slime, Rock Slime, Giant Slime, Silver Slime... Yun Que had mentioned that there would be all kinds of slimes appearing in the second phase of the Sky Sword's coming. Now, they all appeared and rushed to them from the mist.

There was a special network amongst all the slimes. When the giant slimes were killed off, the slimes in the mist immediately knew it and made their response.

"Let's continue our fight!" Yun Que drew her black longbow with blood mark in her eyes.

"Open up, the Door of Mist Souls!" Yun Xi summoned the mist door again. Instantly, one row of Mist Souls after another walked out of the door and onto the battlefield.

...

In the deepest side of the Island of Mist, the Dark Shadow Spider Queen was sitting on her Dark Shadow Throne. Her naked toes lightly touched the big net in front of her.

Most of the area on the island had been covered in this big net, becoming the Dark Shadow Spider Queen's territory.

This was the Queen's favorite tactic: capturing her prey in the net, then let them choke to death in despair!

"74%..." With the power from the Sky Sword, this net was a hundred times bigger than all the nets she could weave before.

“75%...” Countless slimes were invading into the largest forbidden area in this world, the Island of Mist. The progress meant that they had occupied 3/4 of the space on this island, which also stood for the progress of the Sky Sword’s coming.

What Yun Xi and Yun Que had known was far away from the truth. Even before they entered the Caelian City, the first Golden Slime King had been born. Soon after, the second, the third... Every Golden Slime King was like a node. They built a coordinate system, guiding the Sky Sword’s avatar the way to this world.

This world was covered with the Water God’s power. As a Sky Sword, Shaya Longnis was one of the strongest beings in the Sky Sword God’s Domain. Even so, it wasn’t easy for her to descend into this world. She must be guided by suitable nodes and the coordinate system, so that she would be able to squeeze into this world through a sufficiently large spatial channel.

Now, Shaya Longnis’, the Sky Sword’s coming had started the countdown.

As a void creature, the Dark Shadow Spider Queen could naturally find the weakest spatial point of any world. The Island of Mist was the best landing place she chose for the Sky Sword.

Chapter 249: Hua Huo Arrives at the Battlefield!

This was the weakest spatial point in the Water God’s world, and was also the source of the Mist Tide that people feared.

The monsters from the Mist Tide were living on this island. They moved along the Mist Tide and hunted the creatures who were carelessly involved into the mist. When the Mist Tide faded away, they would return to the Island of Mist themselves.

The people in this world didn’t understand the principle behind it, neither the Dark Shadow Spider Queen, but she didn’t mind it.

She only took this place as the Sky Sword's landing place and the nest of her Phase Spiders.

After the first Golden Slime Queen was born, she ordered all special slimes to go to this island once they were born. As a result, slimes had almost occupied half of the space on the island.

The people who hadn't seen Shaya Longnis, the Sky Sword could never imagine how strong her true power was.

This world's moving disaster, the brutal monsters in the Mist Tide, had almost all been killed off by these slimes.

Those special monsters who had once driven the young boys up the wall had all become the slimes' food.

Apart from the central area, where the strongest bone dragon inhabited, the Island of Mist had become the base camp of the Sky Sword.

When Yun Xi and Yun Que went to this place, it was like two sheep went into a tiger's mouth.

...

In the wilds, on the Island of Mist, a cruel battle had entered its hottest stage.

“Boom! Boom!”

One Red Lotus Arrow after another exploded amongst the slimes, clearing a wide area in the range of dozens of metres. But soon, more and more slimes had gushed out from the mist and filled the vacancy again.

These slimes could be regarded as the Slime Army’s hero units. They were not harmless low-grade monsters anymore. Instead, they all had special abilities.

Poison Slime could spit venom.

Ice Slime was protected by a halo of ice.

Giant Slime bodies were already a heavy weapon.

Lava Slime body temperature was so high that it could even melt the ground, not to mention that they could detonate themselves!

If they weren’t facing the Mist Soul Army, but any other army, these slimes would already have won this battle.

In a way, the Mist Soul Army was the only force in this world that could defeat the Slime Army.

No matter how many slimes they would face, these Mist Souls would strike back with no mercy. No flame, ice blast and explosion could do harm to them, so they could fight their way through the slime crowd easily.

The slimes all dropped cores on the ground after they were killed by the Mist Souls. Yun Xi controlled the mist to take the cores back and let the green slime bracelet on his arm absorb them.

This was already the third area of the Island of Mist.

On the first two areas, Yun Xi and Yun Que had killed over a hundred thousand slimes and cleared out dozens of slime nests. However, this was just the beginning.

As if they just opened a box that should never be opened, more and more slimes rushed to them from the mist with no signs of stopping.

If it wasn't Yun Xi's Mist Soul Army, but the three High Priestesses, they would have been overwhelmed by the endless slimes by now.

"I didn't expect that it'd be so tiring!" Yun Que breathing hard put down the bow and adjusted her breath. Her hands were limp and painful at this moment. She needed to take a rest.

How many slimes have Yun Hai and I killed?

Probably the number is already over half a million. If converted their weight to human's body weight, the number should be over a million!

However, even after killing so many slimes, there are still more and more slimes gushing out of the mist.

How many slimes are in the mist? How can it be possible? They shouldn't have obtained sufficient nutrients to proliferate!

"You don't need to push yourself." Compared to Yun Que, Yun Xi was more leisurely.

"No. Letting down of my guard will mean that I'm close to death." Yun Que shook her head. "We are on the battlefield. Anything is possible and can happen on the battlefield. Maybe a strong monster will come and reverse the war situation..." Before Yun Que finished her words, she suddenly noticed that Yun Xi's body shook, with an emotion called "fear" in his eyes.

"You... are right. She... is coming..." Yun Xi's voice sounded nervous. For the first time, he looked really worried in front of Yun Que.

"She? Who is she?" Yun Que's instinct was as strong as Yun Xi's. She hadn't noticed that the "monster" was approaching.

"I knew I would see her sooner or later, but... oh, as expected, she is in the Sky Sword's camp..." Yun Xi took a deep breath, gazing at the sky.

"It's her!" After a little while, Yun Que also noticed the small black point in the sky. Her pupils contracted.

She would never forget this figure. She was defeated by this girl's sword, so she had to experience that "nightmare" again.

Stepping on one translucent halo after another in the air, one of the strongest trump cards, Yun Xi's childhood sweetheart, was rushing to them from the sky.

A strand of hair was rotating on her head, as if it was a small detecting device that was being disturbed.

With a violent rage, Yun Xi's first love, Hua Huo, was rushing to them from the Sky Sword's camp!

Chapter 250: I Will Protect You

Yun Xi didn't know what his childhood sweetheart had encountered in this world, however, he knew that Hua Huo's fighting will was as bright and burning as the sun.

When Hua Huo killed the male fiery dragon and fought against the twin witches, her power had shocked Yun Xi.

At this moment, Hua Huo's aura was even more terrible compared to that time.

The translucent halos under her feet looked as if she had even trampled out cracks in the air. Her every step shook the sky heavily.

It was a power that Yun Xi hadn't touched, the true power of the Sky Flying Sword.

"Are you scared?" For the first time, Yun Hai looked so uneasy in front of Yun Que.

“Yes. She is dangerous.” Yun Xi softly touched the green slime bracelet on his arm.

He wasn't afraid of Hua Huo's power. In fact, after obtaining the power of a million brides, Yun Xi's power was definitely stronger than Hua Huo's power.

However, he couldn't do anything to her. He couldn't hurt her. She was his first love, the most wonderful and purest memory in his heart.

For a long time, Yun Xi thought that he would only love Hua Huo during his life. Even if he couldn't stay beside her forever, because she would undoubtedly become brighter and brighter, he wouldn't forget his love for Hua Huo.

The time he spent together with Hua Huo was always happy and simple, and Yun Xi often inadvertently forgot about the great gap between them.

In the past, he had once imagined a day, where he would marry Hua Huo, holding her hand at the wedding.

Yun Xi thought that Hua Huo also liked him. No, not like him as her lover, but liked him as her playmate. However, he believed that if he had enough time, he had confidence that she would fall in love with him.

Unfortunately, Hua Huo wouldn't stay in that small town or even in the Sky Sword God's Domain.

Her talent was beyond what normal mortals could understand. No one would consider her as a common girl.

She was like the bright queen of summer and the golden sun in the sky, in the meanwhile Yun Xi was like a common cloud in the air.

The cloud could be beside the sun, but as the sun kept rising, they would eventually become separated from each other.

Because Yun Xi had understood this fact a long time ago, he could make his decision early.

I love Hua Huo. I like the way she appears when she is running and brandishing her sword, I like her spirit of never regret and never retreat.

In his eyes, she was the best lover in all the universe, however, he was just a common baker. He didn't deserve such a fantastic lover.

The sun and the cloud can't stay together. The time that belonged to the two of them would be very short.

Yun Xi loved Hua Huo very much, so he knew when he should give up and leave her.

As a mortal, he would become old, ill and eventually die. they wouldn't have a future.

"To me, she is the last enemy that I can defeat," Yun Xi sighed with a distressed look. Originally, they should've fought shoulder to shoulder in this world! The stars gave him a quest called "The Girl Fights Against the Evil Dragon", which meant that he should have the chance to cooperate with her in this world!

“I understand. She is indeed a tough enemy for you.” Yun Que thought that she knew what “Yun Hai” was thinking. She had experienced Hua Huo’s strong power personally. To Yun Hai who wasn’t good at close combat, she was indeed tough.

The Mist Soul Army was the strongest army Yun Que had ever known, but it also had a weak point, Yun Xi, who wasn’t used to controlling his new power. This wasn’t an uncorrectable point, but to fix it, he needed time. Once Yun Xi learned how to control his Mist Soul Army, it wouldn’t be a weak point, but would become his strongest point.

Having an army whose soldiers had no fear, wouldn’t die and were always faithful, it was a miracle that Yun Que had never imagined.

She wouldn’t let this miracle disappear.

“Don’t worry, I will protect you. You won’t die.” Looking at the strong enemy coming from the sky, Yun Que said in a firm tone.

In order to save this world, she must save “Yun Hai” first, saving this man who could bring hope for this world.

She had made many choices for victory, and her choice now was to protect the Emperor of the Mist Soul Army at all costs!

Her Mist Soul in the Mist Soul Army was just an avatar. Compared to her avatar, her real power was much stronger.

She had the only thing the White Emperor Mask couldn't copy for her Mist Soul, because it was another Water God's Mask.

"Archer of Battlefield!" Blood started to accelerate inside her body. Her mask was becoming more and more red, with bloody lines spread on it.

"Listen, watch my battle carefully. Maybe you still don't understand it, but the battle between strong people isn't as simple as you think."

She could hear the thunderous sound from the sky. It was the sound made by Hua Huo's "aura field".

Hua Huo wasn't at the hero rank, but her power could make any hero ranked being feel frightened. Because now in this manner, she was announcing her coming!

"Why? Why!" Hua Huo ground her teeth.

Anger, anger, anger! She didn't know the reason why, but she felt very angry!

In front of her, there were two strangers. She didn't feel any familiarity from their appearances and auras, however, when she found that the two people were standing together, she felt very irritated.

Little Xi! Where are you?!
