

Starchild 251

Chapter 251: Landing

After arriving in this world, Hua Huo always felt that something was wrong.

When they had just landed, Red Lotus, White Lotus and Hua Huo had encountered the undead bone dragon, who was probably the most terrible monster in this world, and they had to fight against this annoying bone dragon.

Finally, they got rid of the dragon and started to look for Yun Xi, but they could find no clue. They had found all the other Sword Palace disciples and still didn't know where Yun Xi was.

Not only that, after coming to this world, her "detection radar for rivals in love" kept warning her. It was an instinct learned from a protracted struggle in her past life and had never made a false alarm. Due to this, she could find the girls who wickedly tried to take away her Little Xi.

However, isn't the warning too frequent these days?

From ringing several times in a day to ringing dozens of times in a day, till now it kept warning her nonstop, it seemed as if her "detection radar" had broken.

Just like when she looked at the girls formed by mist, they all showed as red points on her "detection radar", which meant that they were all her rivals in love.

Are you kidding me?! It's an army! There are over a hundred thousand girls! (In fact, ten times more than that)

Even if my Little Xi became this world's emperor and had a big harem, he wouldn't have so many imperial concubines!

Apart from this, when she looked at the two masked men in front of her, she felt distressed from the bottom of her heart.

Why? Is it because the man on the left looks a bit like her Little Xi? No, he can't be my Little Xi. That man looks much older than Yun Xi, and my Little Xi wouldn't be so leisurely if he was surrounded by a group of beautiful girls.

She could notice that these mist girls often looked at this man with a soft look. Even when they were fighting, they still often stole a glance at him, but this man didn't notice this at all.

Who is this dandy? What's his relationship with these strange mist girls?

They are not some creations simply made by magics. They all have their special characters!

After realizing this, Hua Huo bellowed out to this miracle. In her heart, perhaps only the power of "god" could produce such an army.

No wonder that Shaya Longnis, the Sky Sword cared for the Water God so very much. The Water God can't be simple, perhaps it is much older and more mysterious than any of my guesses.

However, it had nothing to do with Hua Huo. Hua Huo only cared about the red masked man who was standing beside the silver masked man.

It's strange. Hua Huo thought that she had never seen this red masked man before, but when she looked at him, she felt hostility toward him... no, it's not just hostility. It's anger! It's an unexpected rage that is even beyond her understanding!

On Hua Huo's "detection radar", this man's red point was bigger than any of the mist girls. This man's sense of existence was so strong that it even made Hua Huo's eyes twitch.

Enemy! Enemy! Enemy!

Danger! Danger! Danger!

Hua Huo could feel the uneasiness in her heart. It was a warning from her bloodline. She probably had met the most terrible rival in her life.

"No! I can't take it any longer! Let me beat him down first!" Although there was no reason to explain her hostility, Hua Huo still decided to believe her instinct.

If I can't figure it out, let me beat him down first then think about it again!

Hua Huo's heavy sword churred, emitting a sound that could shake the heaven and the earth. Instantly, Hua Huo had locked onto Yun Que.

For a moment, they gazed at each other.

“You’re my enemy!” Hua Huo exclaimed her feelings with no disguise.

“I will protect him!” For this world, even though Yun Que still thought that “Yun Hai” was a scumbag, she wouldn’t hesitate to protect him.

“Take this!” Hua Huo held the heavy sword tightly, the heavy sword suddenly became blurred in her hands.

“Forestall!” Yun Que drew the black longbow. This artifact named “Black Moon” immediately emitted a frightening aura.

Compared to the time when she tried to assassinate Hua Huo, she had become much stronger, and her arrows was much more powerful and fatal.

Sixteen blood lights of arrow formed from her fingers whens he drew the black longbow fully.

The bowstring quivered, emitting an aura that wasn’t inferior to Hua Huo’s sword at all.

In the Mist Soul Army, Yun Que’s Dark Elf Mist Soul suddenly raised her head and looked at Hua Huo. She suddenly disappeared in the air.

For victory, I can become unscrupulous!

From the beginning, she wasn't planning to have a one on one fight. After all, she wasn't a Saber but an Archer.

Sixteen burning Spiral Arrows shot to Hua Huo from all directions.

Even if you were the sun, I will shoot you down from the sky!

Even if you were a star, I will break you up with my sword!

Two girls, two different wills, but their minds were both unshakable. Yun Xi sighed after realizing this.

How excellent are these two people! Even though their characters are different, they are similar in some sense.

"Boom! Boom! Boom!"

Sixteen explosions echoed between the sky and the earth. The fierce blast wave even caused a huge mushroom cloud in the air. The shock waves even spread to the sea, where was ten kilometres away.

It was an impact between two hero ranked powers. It was a symphony of two strong souls.

"Curse you!" Hua Huo heavily dropped from the sky to the battlefield like a meteorite, embracing her Sky Flying Bloodline's absolute power.

Chapter 252: The Crimson Hound

The earth was shaking. Countless cracks spread around from Hua Huo's landing place like spider webs, and the strong shock wave killed over ten thousand Mist Souls at once.

Of course, the Mist Souls were deathless as long as Yun Xi was still wearing the White Emperor Mask. No matter how powerful the shock wave was, it would be meaningless eventually.

It's neither painful nor disturbing to lose ten thousand Mist Souls.

Soon after, these Mist Souls had returned to the battlefield from the mist door behind Yun Xi.

Hua Huo frowned as she looked at these "suspect rivals in love".

She had noticed that these mist girls wouldn't die when she was in the sky, however, she still thought that it was a foul to return from the mist door as if nothing had happened.

The undead army had over a hundred thousand mist girls. It could even straightly destroy a kingdom as easy as blowing off dust. It seemed that the Water God's camp had also sent their strong combat power, the so-called Apostles.

It doesn't matter. She was never afraid of battle. No matter who her enemy was, her Sky Flying Bloodline wouldn't lose!

Even if there was an army of a hundred thousand people or even two hundred thousand people, she only needed to beat down their leader.

Without their “Emperor”, the army would be just a puddle of water.

I can take any enemy’s head from the protection of an army! Any hero ranked being had the confidence to announce this.

However, the hero rank didn’t mean infinite physical strength and combat capability. Theoretically, a hero ranked person was possible to be killed by a strong mortal army.

However, it was just a theory. No mortal army could trap any hero ranked beings. The hero ranked being didn’t need to fight recklessly with the army. As long as the hero ranked being decapitated the army’s commander, the army wouldn’t be a threat any longer.

Hua Huo knew what she should do exactly.

Yun Que also knew what she should do at this moment.

Only a hero ranked being could defeat another hero ranked being!

“Hu!” Hua Huo breathed. It was a breathing method Yun Xi had never seen.

Like a dragon was breathing, a circle of terrible aura surrounded Hua Huo’s body.

Compared to her, the hero ranked male fiery dragon’s “Dragon Aura” was nothing.

“Ha!”

Suddenly, the ground under Hua Huo’s feet exploded. Holding the heavy sword in her hands, Hua Huo used the skill called “Sky Flying Sword”.

She stepped forward with a circle of translucent halo after another circle spread around under her feet. Compared to her attack from the sky, Hua Huo was more unstoppable on the ground. With crushing force, her every step increased the frightening force of the translucent halos.

Most Mist Souls immediately evaporated when they touched the halos. Only a very few strong Mist Souls still stood in front of Hua Huo and tried to stop her.

They had no fear in their eyes, not to mention no thought of stepping back.

Even if they could only slightly slow down Hua Huo’s speed, they wouldn’t hesitate to achieve it even with their real flesh and blood.

Yun Xi looked at the redoubtable figure, realizing his childhood sweetheart’s strong power again.

She wasn’t the “Hua Huo” that he knew when she was in the small town. At this moment, she was an invincible swordsman!

If he hadn’t obtained the power from the stars, he probably would never see his childhood sweetheart’s other face.

Even though he had obtained the stars' power, he still hadn't caught up with his childhood sweetheart's pace.

Even though he was wearing the White Emperor Mask, its power couldn't be a match for Hua Huo's bloodline power.

At this moment, Hua Huo looks... so beautiful!

"How dare you!" In the face of Hua Huo's assault, Yun Que decided to bring in the whole Mist Soul Army to stop her.

At the same time, her left foot pressed forward and her right foot firmly nailed to the ground. She drew open the black longbow like a full moon.

A bloody arrow suddenly appeared on the bowstring with a frightening aura.

Compared to the gorgeous Red Lotus Arrows and the Spiral Arrows, this arrow didn't pursue to be accurate, but was much more powerful.

"Boom!" The sound of the bowstring's shaking echoed in the sky above the Mist Soul Army. It was a limit arrow with all Yun Que's energy! After shooting this arrow, she had no strength to protect herself.

"Ding!" Hua Huo brandished her heavy sword, a fierce hound like light exploded on the sword blade. It was Yun Que's arrow, the Arrow of Bloodthirsty Demon Hound!

Although Yun Que wasn't beloved by this world, she had also obtained the Water God's mask. With it, she had developed her own way of activating her bloodline power.

She wasn't the Emperor that was beloved by the god, and she didn't want to be the princess. She put on her own crown of blood and sin.

The bloody Arrow of Bloodthirsty Demon Hound was the materialization of her strong will!

Once she shot the arrow, it would keep hunting its enemy till either it killed its target, or was smashed to pieces!

The roaring crimson demon hound was her weapon she used to snipe her enemy!

I can kill anything, even if that thing is God!

Go ahead, my Arrow of Bloodthirsty Demon Hound!

As the demon hound roared, the two girls who had different fates started their earth shaking duel again!

Chapter 253: Continuous Attacks

Hua Huo broke the first, the second, the third Arrow of Bloodthirsty Demon Hound like breaking some dead branches from a tree. These arrows could even destroy a mountain, but caused no harm to Hua Huo.

However, Hua Huo's speed was indeed being slowed down, which made Yun Xi look at Yun Que in a new light. Yun Que could stop Hua Huo's assault with such fierce attacks, he was definitely the strongest archer Yun Xi had ever seen.

I'm not the only person who has learned something from this trial! Yun Xi thought in his heart.

Suddenly, the Dark Elf Mist Soul, who disappeared on the battlefield before, turned into a dark shadow and appeared behind Hua Huo. Her black sword pointed at Hua Huo's back.

Yun Xi hadn't seen how she had moved so stealthily behind Hua Huo. Obviously, she could eliminate her existence from Hua Huo's senses, which should be a special ability from her Dark Elf Bloodline.

"Ha!" Finally, Hua Huo was forced to stop.

The two hero ranked enemies' attacks were so tacit, which even surprised Hua Huo.

After she broke the fourth Arrow of Bloodthirsty Demon Hound, her body stiffened for less than one tenth of a second. Seizing this perfect opportunity, the assassin behind her launched her attack.

Hua Huo raised the heavy sword and smashed it into the ground. A silver sphere appeared and wrapped around Hua Huo's body, then exploded in the air. Countless lights gushed out and spread around Hua Huo, forcing the Dark Elf to step back and blew her into the sky.

Power! It is the most direct, purest violent power!

Maybe it was because no one could force Hua Huo to use her true power in the past, or that she could naturally master any weapon. At this moment, Hua Huo looked so different compared to her memories in Yun Xi's heart!

When she used the long sword, she was a nimble female swordsman.

When she used the heavy sword, she was an invincible god of war.

However, no matter which side she showed, she was still the Hua Huo Yun Xi loved.

The more time he stayed beside Hua Huo, the more charms he could see in her.

If possible, he could look at her all day.

"Ta!" Suddenly, After being blown up into the sky, the Dark Elf's body divided in the air.

One dark shadow, two, three dark shadows. Three avatars appeared.

The Dark Elf chose "sword", compared to Yun Que who was good at "archery", her tactic was totally different. She would pay anything for victory – this was Yun Que's belief, and the root of all her tactics. Therefore, she needed to learn all kinds of tactics, so that she could adapt herself to all battlefield environments.

“Archer” was her main career. Assassination, Reconnaissance, and Independent Action were the best tactical formation for her. However, she was also good at “sword”. An archer who doesn’t know close combat isn’t a good archer!

Because she could adapt herself to all complex situations, she could announce that she was a perfect archer!

When she used the “bow”, she was a super sniper who could launch an attack from over the horizon.

When she used the “sword”, she was a Dark Elf Shadowdancer who could use her Dark Elf Bloodline and her Dark Elf’s Swordplay smartly.

At the first, she couldn’t use her two abilities together, which meant that once she used the “bow”, she couldn’t use the “sword” at the same time – and vice versa. However, Yun Xi’s Mist Soul Army helped her perfectly solve this problem in an inconceivable manner.

Her Dark Elf Mist Soul inherited her “swordplay technique”, maybe it had something to do with her condition when she signed the contract with Yun Xi. When she fought together with her Mist Soul, she could feel the perfect tacit understanding between them. As the commander of the Mist Soul Army, the Dark Elf could understand all her intentions, and found suitable opportunities to support her.

She didn’t decide to stop Hua Huo with her continuous attacks suddenly, but had made this tactic from the beginning when Hua Huo was still in the sky. Yun Que didn’t believe in “instinct” and “luck”. She believed that all things in this world needed to follow some certain rules. As long as she could find and understand the rules, she would be able to defeat all enemies.

She preferred to rely on her thoroughly tempered combat capability rather than to trust on her combat instinct, and this was how her two special abilities built.

Special Ability One: Eagle's Eye, which was also called "clairvoyance", she could lock on her enemy from four kilometers away with her longbow.

Special Ability Two: Mind's Eye, a kind of insight she learned from strenuous practice. With it, she could analyze the battlefield situation calmly among disadvantages, and found all advantages for victory.

As a Phantom Archer, she learned many special abilities based on the two core abilities, such as Independent Action, Master Sniper, Spiral Arrow, Double Arrow, Tracing Arrow, and Red Lotus Arrow.

As a dark elf, her Dark Elf Bloodline conferred her a lot of innate abilities such as Shadow Stealth, Multiple Avatars, and Air Interdiction.

She would never rely her fate on "luck" which was impossible to calculate!

Only a perfect calculation and plan could bring her victory, if she found that she couldn't win a battle, she would retreat and wait for her enemy's negligence.

Unfortunately, she couldn't retreat on this battlefield. They had only one choice after stepping on the Island of Mist.

As the Water God's Apostles, she and he had obtained the whole world's support. They must win! They must defeat all enemies before Shaya Longnis, the Sky Sword actually descends into this world!

Chapter 254: The Sword Is Broken

I must win!

Only the people who live in peace would say “I want to enjoy the battle and don’t mind the end result”. On a real battlefield, victory could only be bought by unscrupulous tactics and a great amount of sacrifice.

It wasn’t surprising to know that a battle’s result could be determined by an insignificant detail. Therefore, the less mistakes she made, the more likely she would be able to win the battle.

No pain, no gain. It was an immortal rule for both the mortal and hero ranked beings.

With this belief in her heart, so that she was able to get to this point, Yun Que’s hands were already stained with blood.

She could snipe her enemies from kilometers away, and could also assassinate her target in the shadows. If necessary, she could also pretend to be an ordinary person to take action.

Everything was for victory.

Seven shadow avatars surrounded Hua Huo, and they all had the same aura like Yun Que’s. It wasn’t her Mist Soul’s property, but an instinctive ability from her Dark Elf Bloodline.

All dark elves could control the dark shadow power naturally. Yun Que’s special innate ability was to divide several avatars of herself and switch her true body amongst her avatars.

Her avatars were bogus, but also real. The boundary between “reality” and “counterfeit” was blurred at this point. She had mastered it a long time ago, but only after she reached the hero rank, she could actually use this innate ability properly.

“Ga!” In Yun Que’s hand, the longbow’s bowstring quivered. She just shot the fifth arrow.

Wind speed, moving path, and all the things on the battlefield had turned into data streams, flowing into Yun Que’s eyes.

She had performed her “Mind’s Eye” to the limit.

She didn’t rely on her instinct but followed her hard calculations, forcing Hua Huo to enter her trap.

It wasn’t assassination. It was an undisguised assault!

She used her complex calculations and her Eagle’s Eye to observe the situation, then used her Mind’s Eye to find out her enemy’s weak point. This was her core strategy which was based on her three abilities.

In order to support the great amount of calculations, she had almost overloaded her brain. A drop of blood dripped down from the corner of her eyes, which represented that she had used the power in her Water God’s Mask to the limit.

“Bang!” It didn’t sound like an arrow but sounded like a cannonball exploding. Yun Que shot her strongest arrow.

“Hum?” Hua Huo raised the heavy sword to block this attack. With a deafening sound, she was forced to take a step back.

“Pang!” With another loud sound, Hua Huo took two steps back. The heavy sword emitted a plaintive whine in her hands.

It was due to the qualitative gap between their weapons. Yun Que knew that her strength and explosive force were inferior to Hua Huo’s, then her best advantage was her weapons.

Hua Huo’s weapon wasn’t a god weapon nor even a spirit weapon. It was just a hard two-handed heavy sword.

Yun Que had the Water God’s Mask, which was undoubtedly a god weapon, and her Black Moon Sword and Black Moon Bow were all artifacts. Therefore, her weapons were far better than Hua Huo’s.

If Hua Huo’s heavy sword was an artifact, Yun Que wouldn’t fight so recklessly with her. She would order the whole Mist Soul Army to stop Hua Huo and retreat together with Yun Xi.

Of course, if it really happened, it wouldn’t be “escape”, it would just be a “strategic shift”!

After all, the way to win battle was to exert advantages and dig out the opponent’s disadvantages.

Since Yun Que had known that her weapons were better, then she would naturally exert all she had for this advantage.

Her Black Moon Bow and her Dark Elf Mist Soul's Black Moon Sword were the two weights that could change the balance of power on the battlefield!

"Shuffle!" When Hua Huo took the third step back, her balance was slightly shaken. Seizing this opportunity, the seven dark shadow avatars moved. They attacked Hua Huo from seven different directions.

After blocking Yun Que's Arrow of Bloodthirsty Demon Hound several times, there were already several noticeable cracks appearing on Hua Huo's heavy sword.

Although it was a fully refined weapon, the heavy sword was still a mortal ranked weapon. With its huge size and weight, Hua Huo could defeat common hero ranked enemies, but it finally exposed its fatal defect under Yun Que's attacks.

"Ding! Ding! Ding!" Within a second, the Dark Elf's Black Moon Sword had cut on the heavy sword over a hundred times as its attacks were all focusing on the cracks on the sword blade.

Yun Que's tactic was so relentless and ruthless. Once she found her enemy's weak point, she would attack that weak point with all her strength.

Finally, in the Dark Elf's third round of attack, Hua Huo's sword was broken. The heavy sword blade was divided into two pieces. The huge sword tip dropped to the ground with a heavy thud.

"Gee?" Yun Xi looked at Yun Que in surprise. For the first time, he saw that Hua Huo was backed into such a disadvantageous corner.

When Yun Que saw the heavy sword breaking, even though she was always calm, she still couldn't help but show a proud smile on her face.

The turning point of the battle had appeared!

"Not bad." There were flames burning inside Hua Huo's eyes. Even the bone dragon didn't achieve such an achievement. She was fired up!

She had to admit that when it referred to "control power" and "degree of accuracy", the brainless bone dragon was far inferior to this archer in red.

Till now, the strongest archer she had met was the mysterious assassin in the Sword Palace Entrance Exam. However, this archer in red was far lol

stronger and more aggressive.

Do you think you have won? I will let you realize your mistake, because what is broken can be reforged!!

"Reforge, my sword!" Hua Huo held the broken sword and put her finger on the sword blade. Instantly, her blood flowed out from the wound on her finger and spread along the broken blade.

After staining with Hua Huo's blood, a fantastic change was happening to the sword. Originally, it was just a heavy, thick mortal weapon, but now, it was transforming in a frightening direction.

One, two, three. Three bloodstains appeared on the broken blade. Bloody sharp edges spread out of the broken blade, making the broken sword look more mysterious and terrifying.

“What?!” Holding the Black Moon Bow, Yun Que’s hand was shaking.

What is happening? What has she done to the broken sword?!

Chapter 255: Reforge the Sword

“Shuffle!” Hua Huo’s small hand touched the sword blade. Without any spell or charm, the broken sword emitted bright lights. Not long ago, it was still a mortal weapon, but now, it had become an artifact after absorbing Hua Huo’s blood!

The bloody lines on the sword not only repaired the cracks but also conferred the sword a brand new shape, making it regain a new life. Bloody lights spread along the broken sword and formed a transparent sword blade along the cracks, offering the battle scarred sword a broken beauty.

Yun Que looked at the broken sword through her Water God’s Mask. In her eyes, the bloody lights on the broken sword blade were so strong that they could even ignite the whole world.

“A new secret skill? As expected, she is strong!” Yun Xi had once learned Hua Huo’s Bloodline Secret Skills from her seed. Therefore, he was surprised, but he wasn’t as dumbfounded as Yun Que.

My childhood sweetheart really has a lot of secrets!

“Don’t be ridiculous! You don’t understand what this secret skill means!” Yun Que gave a contemptuous glance at Yun Xi.

Can it only be described as “strong”? It’s like she is cheating!

It’s a secret skill that can make a mortal weapon become an artifact!

How can this be possible?! Even if she is a super strong hero ranked female swordsman, it should be impossible for her to do this! It should be a legend ranked secret skill, how can she be able to use this?!

The girl named Hua Huo could make a mortal weapon become an artifact with her blood... Just how strong is her bloodline?!

At the least, it was beyond Yun Que’s insight. Was she the person the Ten Leaves Alliance arranged to have assassinated? What a bad joke!

The more amazing fact was that, Hua Huo hadn’t reached the hero rank yet! Even if a mortal offered his life as a sacrifice, it wasn’t possible for a mortal to reinforce his weapon to this degree. What a frightening secret skill!

The birth of any artifact would require tens of thousands of strong beings’ blood. For example, if taking the green hippo as a standard, ten thousand green hippos’ blood would only sharpen a common artifact.

No matter where you were, if you wanted to forge an artifact, then you needed to wait for the perfect moment, geographical convenience and pray for good luck. Not all hero ranked beings could have an artifact.

Yun Que's Black Moon Bow and Black Moon Sword were born from her sins and persistence. After crossing countless battlefields and being stained with endless blood, she finally caught the slight opportunity and obtained her own artifacts. Compared to her effort, Hua Huo could easily obtain an artifact by dripping her blood on the broken sword. It was like cheating!

She can't be human!

Yun Que's Water God's Mask detected nearly infinite energy inside of Hua Huo's blood. When Hua Huo put her blood on the broken sword, the sword could only absorb a small part of the energy in her blood, and most energy returned into her body naturally. Compared to Hua Huo's Bloodline, Yun Que felt like her Dark Elf Bloodline was totally worthless.

"Don't disappoint me, because I'm already fired up!" To Hua Huo, this was the first time she used this secret skill.

Her tone sounded excited. When she had been in the small town, no one could force her to use this secret skill. Even the undead bone dragon on the Island of Mist wasn't strong enough to let her use it, because it was too brainless.

This archer in red was the strongest enemy Hua Huo had ever met after leaving the small town. Just now, Hua Huo's every move and plan of attack had all been predicted by the archer in red, which was undoubtedly a rare experience for her. Therefore, Hua Huo thought that it was time to show off what she had learned!

My Sky Flying Bloodline doesn't have any weak points! Even though I have only a broken sword in my hand, I can make it an artifact!

Of course, the effect of her blood was temporary. The energy from her blood would fade away and the sword would break again at a later time, however, Hua Huo had the confidence to defeat the enemies before that happened!

“Shuffle!” Yun Que raised her eyebrows, but wasn’t being provoked.

Compared to Hua Huo who enjoyed a peaceful life in the small town when she was young, Yun Que’s childhood was much poorer and bloodier. Her experience in the past had taught her that “calm” was the only path that could lead her to victory. Fear and anxiety would interfere with her choice. At that moment, she imaged that her body was the purest and most perfect weapon.

Steel is my body, and fire is my blood. I have gone through over a thousand battlefields, and have never been defeated. I will abandon all emotions and put all my heart into the battle.

Calculate the enemy’s information again! The advantages and disadvantages, the environment of the battlefield, the things I can use... my win rate isn’t zero!

I still have an advantage over her, because I’m not fighting alone! This is a battlefield, not an arena and I’m not taking part in a duel of one on one. On the battlefield, only the person who is still alive can become the winner!

“Change of tactic, Yun Hai, let’s fight together,” Yun Que said as she drew her black longbow again.

“Oh, I see.” Yun Xi took a deep breath. He had never thought that he would fight against Hua Huo one day.

However, that is how life goes on.

“What are you whispering about?” Hua Huo was in a bad mood.

She didn't know why she felt irritable when she saw the two people whispering shoulder to shoulder. A strand of hair raised on her head and pointed at the two people's direction, as if it was warning its master that something bad was happening. Compared to Yun Que, Hua Huo's battle plan was much simpler and cruder.

I will crush all enemies in front of me! I don't care about their races or identities, because my Sky Flying Bloodline can defeat anyone in front of me!

She had never doubted her power, because she was really strong. She didn't enter the hero rank because she had undone a restriction in her body. Her true fighting capability wasn't something that could be explained with common sense.

The stronger her enemy was, the stronger she would become! Her fighting capability could be enhanced faster than anybody's imagination when she was in a fight!

Chapter 256: The White Emperor's Power

Compared to Yun Que, Yun Xi really knew how strong his childhood sweetheart was. Even though he had obtained Hua Huo's seed, he had never seen Hua Huo in such high spirits. Her heavy sword had broken, but after reforging it, its aura had become much more frightening.

It looked as if she had been fired up. The flames of her soul were so bright, even her breath was so hot it was burning. Even though Hua Huo was still a few kilometers away from them, Yun Xi and Yun Que could still feel their bodies break out with "gooseflesh". This was how strong Yun Xi's childhood sweetheart, Hua Huo was.

Yun Xi took a deep breath. Naturally, he wouldn't use sword skills like the Flying Swallow Sword in front of Hua Huo, which would undoubtedly expose his true identity. Similarly, he couldn't use any of the weapons he had used in front of Hua Huo, neither the Crane Wings Twin Swords nor the Killing Princess' Demon Sword.

However, if he couldn't use his sword, how could he fight against Hua Huo? The answer was obvious. He could only use the power he obtained in this world, the power from a million brides, the strong fake Power of the Emperor.

Why had he come to this world? Why did he have to fight against his first love?

For saving this world.

For the girls who believed in him and were willing to become a part of his brides.

The girls of the Starwing Knights, the three Water God's High Priestesses, the one million girls who came to the Caelian City and responded to his irrational request... they all trusted him and lent their power to him, making him the real "White Emperor".

While he was here, he gradually came to like this world and the local residents. He wasn't just following the Water God's quests, but actually wanted to do something to help this world. The tenderness this world had offered him, had changed him.

Like what the three High Priestesses had said, I'm responsible for this world. Therefore, I must bring hope to them!

"Since I'm the last hope to save this world, then I will change this world's fate with my own hands. Since this world is longing for reform, then I will bring new changes for them!"

Countless mist gathered together behind Yun Xi from all directions, forming a giant mist door. One ice blade after another emerged from the mist door. They were the Mist Souls who responded to Yun Xi's will and transformed into weapons.

It was Yun Xi's unique Mist Soul Armory!

"Fire, ice blades!"

If Yun Que's attack was a precise, deadly blow, then Yun Xi's attack was a long range bombardment. Only with the support from the one million brides, Yun Xi could make such a splendid attack. He admitted that his control over his power was inferior to Yun Que's, however, with the Mist Souls' help, the "amount" of his attack could be thousands of times stronger than Yun Que's.

Tens of thousands of cold ice blades shot at Hua Huo from Yun Xi's back like a storm.

I can't lock on the target? It doesn't matter, because I can offset this weak point with attack range and frequency!

If anyone wanted to defeat Yun Xi, it would also mean having to defeat his one million brides at the same time!

"What?!" Even Hua Huo hadn't seen such a reckless exaggerated attack.

At first glance, they were just some newbie's imprudent attacks because the speed and direction of all the ice blades weren't very perfect. However, there were tens of thousands of ice blades, which made his weaknesses not a weakness any longer. The overwhelming number had offset all weaknesses, which was really surprising to know that they were made by a human.

Hua Huo couldn't imagine any hero ranked being that could have such a great amount of power like Yun Xi. If a mortal's power was like a stream and a hero ranked person's power was like a river, then the amount of Yun Xi's power was like an ocean, was totally beyond the limit of the hero rank.

This was Yun Xi's special property as this world's White Emperor. The White Emperor would never be alone!

He was an army of one, he was the Mist Soul Army!

The Mist Soul Army was a part of him and he was also an avatar of the Mist Soul Army.

At this hour, he had just learned how to release the true power of the Mist Soul Army, then he showed a frightening power which was even stronger than Hua Huo's.

"Yes, this is it! You are strong, you are stronger than my greatest expectation and imagination!" Yun Que knew it better than anyone.

She had known that this scumbag was the strongest being in this world since a long time ago. After all, he had one million brides' power!

"Even if your enemy is strong, you don't need to worry about anyone as long as you can release your true power. Don't worry, I won't let any enemy get close to you, I will protect you at all costs, because you are the unique emperor!"

Yun Xi sighed.

I have to fight against my childhood sweetheart. Is this my fate after putting on the White Emperor Mask?

“I understand. After all, it’s a battle of my own choosing.”

Chapter 257: Fierce Fighting

“Ding! Ding! Ding!”

Transparent ice blades had covered half of the battlefield as more and more ice blades kept shooting out of the mist door behind Yun Xi.

Hua Huo brandished the reforged broken sword, blocking all the ice blades easily. Countless ice fragments exploded on the battlefield, creating a Freezing Field with an extremely cold temperature.

“Bang!”

Every time when Hua Huo blocked the ice blades, which also meant that she couldn’t block other attacks at the same time. Yun Que would always shoot an Arrow of Bloodthirsty Demon Hound to her. At the same time, her Mist Soul would also appeared beside Hua Huo and launch an assassination attack.

Danger! Danger! Danger! For the first time, Hua Huo’s attack was suppressed.

If it wasn’t because the broken sword could emit a devastating light beam at the critical moment, Hua Huo probably couldn’t hold on one minute.

The person who caused her dilemma was Yun Xi. He had to attack his childhood sweetheart for victory.

Based on his understanding about Hua Huo and with the help of his White Emperor Mask, Yun Xi chose the best tactic to stop Hua Huo.

He had Hua Huo's Seed in his body, naturally, he understood that once Hua Huo got close to him, the battle would be finished. Him and Yun Que couldn't win against Hua Huo in close combat.

Once Hua Huo used her true power, even if they were as strong as a dragon, they would still be killed by her in one hit. Therefore, they must stop Hua Huo to dictate the tempo of the battle.

It was impossible to win against Hua Huo with a sword! In Yun Xi's mind, the only sword skill that was a match for Hua Huo's Sky Flying Sword was Yun Hai's Sword Master sword skill: Yun Hai's Quadrant Sword.

Only a godlike sword skill can compete with another godlike sword skill!

However, Yun Xi hadn't learned Yun Hai's Quadrant Skill, therefore, the tactic he used now was the only method that he could use to defeat Hua Huo.

He would cooperate with Yun Que, stopping Hua Huo approaching him, so that she wouldn't have any chance to use her sword skill.

His incredible energy from the one million brides was the only way to beat back Hua Huo from a distance!

Therefore, he opened the mist door and let the ice blades fly.

“Ding! Ding! Ding!”

No matter how many ice blades Hua Huo had broken, there would always be more and more ice blades shooting at her. Undoubtedly, Yun Xi had the strongest range attack ability in the entire Water God’s world.

In Yun Que’s eyes, Yun Xi’s behavior was like throwing a mountainous counterweight on the balance of this battle.

For the first time, Yun Que saw the light of winning this battle.

It was also the first experience to Hua Huo to be forced into a disadvantage. It was quite incredible since she could always beat down her enemies with great ease.

In Hua Huo’s heart, this silver masked man was the first person who had the same great talent like her.

However, why don’t I feel hostility from him?

Why?

We are enemies. We should fight at full tilt, but why can’t I feel killing intention from his attacks?

Compared to him, the archer in red was more competent. I can feel his sharp, undisguised killing intent coming from the bottom of his heart.

“Are you... looking down on me? Do you think I don’t deserve your full attack?” A strange smile appeared on the corner of Hua Huo’s mouth.

I had never thought that I would be shown mercy by my enemy someday.

I’m underestimated!

Little Xi, if you know it, will you laugh at me?

It looks like I should be more serious.

“No, too bad...” Looking at Hua Huo’s eyes, Yun Xi immediately realized that something was wrong.

Hua Huo rarely showed such a smile on her face. She was a sunny girl and was always friendly to everyone.

In Yun Xi’s memory, she only showed such a smile a few times when she was extremely angry.

The most vivid memory in Yun Xi's mind was when his sword skill teacher tried to teach him something in her room, Hua Huo suddenly broke into the room. At that time, she showed a similar smile on her face.

Holding the broken sword, which was covered with bloody lights now, Hua Huo moved a step forward.

"Boom!" Bright lights exploded from the broken sword and formed a round of blood colored shield around her body.

Yun Xi's ice blades hit on the shield and exploded, but caused no damage to the shield.

"She is coming!" Yun Que looked at Hua Huo through her Water God's Mask. In her eyes, Hua Huo's aura was like a giant light column, connecting heaven and earth.

"One!" Hua Huo took a step forward, striding over a hundred metres.

It wasn't like the "Quicksilver Motion" Yun Xi had learned. Hua Huo wasn't simply increasing her speed, but actually strode over a hundred metres in a step.

Stop Hua Huo by using range attacks – Yun Xi's tactic wasn't wrong, but was too naive.

Sky Flying Sword meant the will of hovering in the sky freely. It was impossible for the ice blades to stop Hua Huo!

“Shuffle! Shuffle! Shuffle!” Yun Que marked Hua Huo’s path in her vision. After all, Hua Huo wasn’t trying to hide her intention at all.

She was going in a straight line, the simplest route! And at the destination of her route, it was the core of the Mist Soul Army, their Emperor, Yun Xi!

“Shuffle! Shuffle! Shuffle!” Yun Que shot sixteen arrows. Since she had known Hua Huo’s route, it wasn’t possible for the arrows to miss.

“Two!” Hua Huo didn’t even look at the sixteen arrows and let them explode on the blood colored shield. She walked the second step toward Yun Xi with a determined look.

Compared to the first step, the second step crossed a longer distance, and the transparent halo under her feet was bigger.

Accelerating! Accelerating! Accelerating!

It was a sword skill Yun Xi didn’t know and couldn’t understand. Even as Hua Huo was surrounded by an army of one million, she still looked as if she was walking in the back yard of her house.

In front of her Sky Flying Sword, all beings are equal.

Once she used the Sky Flying Sword, she would never retreat!

“I didn’t imagine that it was possible!” Yun Que ground her teeth. Her body suddenly emitted a similar aura like Hua Huo, because she had used the secret skill from her Water God’s Mask: Multiple Competences Enhancing!

Chapter 258: At the End of Fantasy

Yun Que’s blood flowed in her body like surging wind waves.

Unlike Yun Xi, her Water God’s Mask could only let her control her blood, but it didn’t mean she was weak.

Life itself contained the strongest potential.

Even if the most common people could burst with incredible strength when they were facing a life-or-death crisis or their emotions were stimulated.

Such as, in order to save her child from a fallen house, a mother could lift a stone that was several times heavier than her body weight.

Or, when a man is chased by a beast, his speed could be beyond human physical limits.

In the final analysis, they just dug out their final potential, so that they could do that. However, mortals couldn’t control this power. The people who temporarily obtained this power all died of heart failure after breaking out of the crisis.

They were overdrawing their life force and releasing it all at one instant.

No pain, no gain, this is an immutable rule of the universe.

Yun Que's Multiple Competences Enhancing could increase her speed, strength and explosive force, greatly raising her fighting capacity in an instant.

An ordinary person's heart rate was sixty beats per minute, however, Yun Que's heart rate had increased to two hundred beats per minute and was still rising.

"Not enough... be faster..." Even though the Water God's Mask could automatically adjust her physiological state, her face still turned red due to her fast and strong heartbeat.

"Bang! Bang! Bang!" As the blood flowing in her vessels, Yun Que's heartbeat was becoming louder and clearer.

The heart was the core of a human body. Naturally, her heart rate was so fast, that her blood would also flow at a high speed.

Yun Que's visual field was gradually covered by red color. Her eyes had become bloodshot.

"Three!" Hua Huo took the third step. Her speed and impact force were becoming stronger and stronger as her footsteps echoed between the sky and the heaven.

Whatever it was Yun Xi's ice blade, Yun Que's Trace Arrow, or the Dark Elf Mist Soul's Multiple Assassination, none of them could stop Hua Huo from stepping forward.

“Since my demon hound can’t stop you, I will stop you with my own blood!” Yun Que put her finger tip on the bowstring. Just like Hua Huo used her blood to make her broken sword become an artifact, Yun Que’s blood wasn’t as strong as hers, but it could also enhance her Black Moon Bow.

This was the only thing Yun Que could do that her Mist Soul couldn’t do, because her Mist Soul didn’t have blood in her body.

Staining with Yun Que’s blood, the Black Moon Bow emitted a bright, florid light. An arrow formed by blood automatically appeared on the bowstring and loaded on the Black Moon Bow, Yun Que’s artifact.

This time, it wasn’t a fierce demon hound but was a strange hummingbird with blood-red wings.

The hummingbird couldn’t lock on its target automatically, but its penetrating force had been greatly reinforced to the limit that Yun Que could reach. This was the second demon arrow Yun Que had learned – the Arrow of Blood Hummingbird.

Focusing all attack forces on one point. The hummingbird’s blood-red wings could increase its speed to an incredible degree in the blink of an eye.

“Buzz!” The Arrow of Blood Hummingbird’s attacking trajectory was instantly fixed on one point. Because it had abandoned all other properties and only focused on increasing its penetrating force, its trajectory couldn’t be changed after being shot.

The arrow’s trajectory was overlapped with Hua Huo’s moving trace.

The arrow was directly locking on Hua Huo's heart.

"Chi!" Unlike the Arrow of Bloodthirsty Demon Hound, the Arrow of Blood Hummingbird only made an imperceptible sound when it left the bow.

A bloodline flashed through the space between Yun Xi and Hua Huo.

"Ta!" Hua Huo was still moving ahead, however, her speed reduced for a moment.

At that moment, Yun Que's Arrow of Blood Hummingbird directly pierced through Hua Huo's blood colored shield.

Unfortunately, the arrow still couldn't stop Hua Huo. After piercing through the shield, it was immediately blown away by Hua Huo's sword.

Yun Que could clearly see that the arrow's speed was greatly reduced after piercing through the shield.

No! Its speed is still not enough!

To ordinary hero ranked people, this arrow could take away their lives in an instant, but to Hua Huo, it could only cause her a bit of trouble.

There was a wide gap between their powers.

I can't win against her one on one!

Fortunately, I'm not fighting alone.

"Do whatever you can to slow down her speed, otherwise, we both will die here!" Yun Que said as she sacrificed her blood again. This time, she put three Arrows of Blood Hummingbird on the Black Moon Bow.

Even though she could control her blood, her blood wasn't infinite. If they couldn't defeat Hua Huo before her blood drained, they would all be killed.

"I know." Yun Xi's eyes were covered with a layer of mist.

He had gradually learned how to use his White Emperor Mask on the battlefield.

As expected, only a real, tough battle can force myself to break through and let me use my real potential!

Fighting against his childhood sweetheart was stressful enough to Yun Xi. He must think over and over again, trying his best to find out his invincible childhood sweetheart's weakness.

The plan of "stopping her in a distance by using ice blades" had failed.

It looked as if Hua Huo didn't have any weakness. She was a perfect female swordsman, a weapon master who wouldn't be bound by any existing tactic.

Both of the sky and the earth were her battle. Schemes and intrigues were meaningless in front of her.

Only the power at the same level with Hua Huo's can stop her!

Do I have that power?

"I have! I have that power!"

"I can turn my imagination into reality. I can create anything with the infinite mist!"

"Since I have obtained such an unreal power, then I shouldn't be bound by my common sense."

Yun Xi slowly closed his eyes. One by one, countless ice crystals emerged out of the mist door behind him.

Chapter 259: Crafting Mode

Imagine! Imagine myself as the most powerful, with the one million brides' hope and power behind me. Imagine what my existence as the "White Emperor" should be!

With the endless power of mist, Black Moon, the Lamia Queen, the Mermaid Queen, the Caelian Queen's help, to what extent can I reach?

I won't be bound by my common sense, I can do everything, turning the impossible dream into reality!
In this world, I'm unique and the most powerful person! I'm the White Emperor!

Hua Huo was the strongest swordsman Yun Xi had ever known. Therefore, if he wanted to win against Hua Huo, he had to become the perfect "White Emperor".

"I have the blessings from my million brides." Yun Xi slowly raised his head and opened his eyes.

Under the silver mask, there were countless swirls of mist inside his eyes.

"My girls believe in me, so I believe in them too. If this is my fate, then I won't escape from it. For my million brides, are forging the strongest shield for me!"

Hundreds of millions of silver ice crystals flew out of the mist door behind Yun Xi. It was the miracle formed by the million brides' will, a power that could turn anything into reality. Without warning, a crystal diamond wall suddenly appeared in front of Hua Huo and blocked her way. The center of the diamond wall was incredibly thick and the ice around it was still proliferating.

Diamond wall was the strongest fortress that could absorb the strongest brunt. Responding to Yun Xi's hope, the will of his million brides naturally formed this ice fortress for him. More over, it wasn't a single ice wall. More and more ice walls appeared and interconnected together at an incredible speed.

They were forming a castle!

Hua Huo used her Sky Flying Bloodline to reforge her broken sword, an artifact. Yun Xi summoned his million brides' power, forming an Eternal Ice Castle. Arguably, due to Hua Huo's enormous pressure, Yun

Xi was forced to forget his common sense and really understand how to control his million brides' power.

The Mist Soul Army wasn't just an army. Amongst the million brides, there were incomparable singers, excellent artisans, talented weapons makers, and proficient floriculturists. A million brides meant millions of possibilities, they comprised almost all of the careers in the Water God's world.

At this moment, Yun Xi was using the "Crafting Mode", which was a miracle that even Hua Huo couldn't obtain. The ice blades were what Yun Xi's brides had formed for him. After realizing that the ice blades couldn't stop Hua Huo, Yun Xi changed his tactic. The ice fortress wasn't like the endless ice blades, it couldn't attack, but it was the strongest shield Yun Xi and his million brides could imagine.

"What?" Yun Que was shocked.

"Yun Hai" had learned how to use his million brides' power? Undoubtedly, the ice fortress is a strategic weapon! As expected, he is this world's hope!

"Boom!" Hua Huo bumped into the first ice wall. Instantly, countless cracks appeared on the ten metres tall wall and just after a few seconds, the ice wall had collapsed. However, there were still dozens of ice walls in front of Hua Huo, and they were still becoming thicker and firmer.

After entering the "Crafting Mode", Yun Xi could create anything that existed in his mind. At the same time, the experiences from his million brides also helped him modify his imagination so that his desires could come true without breaking the rules of this world.

Just like Hua Huo's unmatched impacting force, Yun Xi's creative power was also infinite! This wasn't a one on one fight. It was a fight of a million against one!

“Boom!”

“Boom!”

“Boom!”

After being covered by the blood colored shield, Hua Huo was still moving forward, but her impacting force wasn't invincible in front of Yun Xi's ice fortress.

“What a fantastic power! I had never imagined such a tactic.” Yun Que held the Black Moon Bow and waited for a suitable opportunity.

Hua Huo looked annoyed by being blocked by the endless ice walls.

What the hell is this? The enemy summoned an ice castle to stop me? He's too cunning. He must be cheating!

“Because I'm not fighting alone.” Yun Xi reinforced the ice castle and calculated Hua Huo's speed.

For the first time, Yun Xi suppressed his childhood sweetheart with his wisdom and imagination. As a swordsman, Hua Huo was perfect, but it didn't mean that she could conquer a city! No matter how many ice walls she had shattered, Yun Xi could always build more and more walls around her before she moved. Finally, he successfully trapped Hua Huo in the huge ice castle.

If one looked down from the sky, one could see over a million Mist Souls moving between the mist door and the ice castle, working together to build the ice castle larger and larger. At first, the ice castle was just a prototype formed by dozens of ice walls. Under his million brides' efforts, it was finally shaped into a giant white ice lotus.

Compared to the ice lotus, Hua Huo's figure was negligible

"Right now!" A cold light flashed through Yun Xi's eyes.

He waved his hand in the air. The next moment, the gaps amongst the ice lotus' petals were filled with endless silver particles. It turned into a giant ice mountain and sealed Hua Huo inside it.

Chapter 260: Seal Hua Huo

"Ok, she is temporarily sealed. Let's leave." Yun Xi wiped away the sweat on his forehead. He held Yun Que's hand and motioned her to leave the battlefield with him.

"Don't you want to keep fighting? With your ice castle, we still stand a chance," Yun Que said and looked at Yun Xi meaningfully.

"It's not like what you would say. You should know we can't defeat her now..." Yun Xi was surprised at Yun Que.

They had sealed Hua Huo, but hadn't defeated her. It was still too difficult to defeat her at this moment. Yun Xi knew his childhood sweetheart better than anyone.

"Ka!" An ear piercing cracking noise came from the ice mountain, giving Yun Xi a shiver. As expected, even such a strong seal could only seal Hua Huo temporarily.

“Reinforce! Reinforce!” Yun Xi ordered one tenth of the Mist Souls to stay on the battlefield and keep reinforcing the ice mountain. After that, he immediately held Yun Que’s hand and left the battlefield.

It was really a lot of pressure to fight against Hua Huo. I’d better go deep into the Sky Sword’s camp before she breaks the ice mountain.

“You’re gradually becoming mature.” Yun Que discharged her Multiple Competences Enhancing, then looked at Yun Xi in a meaningful way. “However, you are still too tender hearted towards females. We had a chance to kill her just now.”

“No, we had no opportunity,” Yun Xi shook his head and answered decidedly, “You should have found no matter how strong the attack she was facing, she could always become stronger. Even if you shot the three Arrows of Blood Hummingbird at her, you wouldn’t defeat her, because she wouldn’t be defeated by such an attack.”

Yun Que frowned. She carefully remembered the battle and had to admit that “Yun Hai” was right.

There really are geniuses who can make “impossibility” into a “possibility” in this world. Hua Huo and “Yun Hai” are the same types of geniuses. How powerful are his imagination and instinct? Why could he conjure up such an unconventional tactic?

At least, Yun Que knew that she couldn’t do it, because she couldn’t imagine how to incorporate a nonexistent phenomenon into her tactical formation. Hua Huo’s “Sky Flying Sword” and Yun Xi’s “Crafting Mode” had all fed her sight. She realized that super geniuses really existed in this world. Vaguely, she also understood why the Water God showed concern and solicitude for Yun Hai instead of her.

Because the Water God wishes the world to be changed!

She could do the best under the known conditions, catching all the subtle possibilities. She could make everything better, however, she didn't have the inspiration to change this world. She was good at collecting information, developing tactics, and concentrating advantages to defeat her enemy, but, she had no control over accidents and variables, because she had never expected a "miracle".

In her view, when a person had to pray for a miracle, it meant that the person had had no choice at that time. Essentially, a "miracle" was an aggregation of countless little probabilities, which also meant that it was unreliable. Before Yun Que met Hua Huo and Yun Xi, she never put "miracle" into her tactical system. Now, she understood that there were really humans who could create "miracles" with their own power and imagination.

The things that were "impossible" to her was "very likely to happen" to them. Hua Huo's offensive power was overwhelming. She could hover in the sky before entering the hero rank. "Yun Hai" was supported by a whole world. He could use his million brides' power to create an ice castle from nothing.

"Miracle" was just an untouchable fantasy to ordinary people, but to them, it was a part of their lives.

How enviable they are!

Yun Que had to admit that "Yun Hai" was a super genius, except for his only shortcoming: lust for women. He was a hero ranked Baker, the Water God's beloved Apostle, the White Emperor, and the husband of one million girls.

If possible, I should accept him... NO! Yun Que shook her head. Her heart still refused to accept him.

She couldn't bear his excessive lechery! Even though she had stained her hands with blood, she still couldn't accept a shameless salacious man from the bottom of her heart! He had only left a very few "good impressions" in Yun Que's heart after she saw his "Crafting Mode".

Of course, the "good impression" was still negligible. She was just interested in his great battle talent.

Apart from this, she had no favorable impression towards him at all, because she hated men who were disrespectful to women!

...

"Boom! Boom! Boom!" Bloody lights turned into earth shaking impacting waves.

Hua Huo was bombarding the ice walls like crazy. Every time she brandished her sword, dozens of ice walls would be broken. However, there were over one hundred thousand Mist Souls that were repairing the ice mountain. Their work had completely offset the damage Hua Huo's attacks had made. Hua Huo was completely sealed in the center of the ice mountain and couldn't find any chance to escape from it.

Hua Huo felt as if she was punching a ball of cotton. Her strength was totally useless in front of the ice mountain. The silver masked man seemed very familiar with her combat characteristics. He avoided fighting her face to face, instead, he sealed her in the ice mountain.

"Who is that man? Why does he know me so well?!"

Hua Huo brandished her blood colored sword in anger. She had to admit that she was at a disadvantage this time.
