

## **Starchild 281**

### Chapter 281: Water God's Bride

“My Apostles, raise your heads. The emperor of a million brides, answer my question.”

The Water God, Hydra's voice echoed around all the corners in the world.

Yun Xi and Yun Que raised their heads. They knew that the prologue of the final battle had finally started.

“Who is the most beautiful bride in this world?”

The Water God, Hydra's question, was directly related to the fate of this world.

At the same time, it was also the question which Yun Xi and Yun Que were looking for but had no answer.

“Ha ha ha ha, is this what you want to know? To wait on such a boring thing? You and I are monsters, and you have degenerated!”

The Water God just ignored Shaya Longnis', the Sky Sword's derision. It continued asking, but it sounded more like a retrospect rather than a question.

“Who is beloved by this world? Who is the most unique person that obtained blessings from all beings and is willing to offer his life to fight for this world? Who worked hard day and night and likes this world with all his heart?”

“The god’s bride isn’t decided by the god, or being conferred upon by a mortal king. It should be the person who wants to do something for this world and never gives up.”

“Even if you are weak and don’t have sharp weapons, as long as you have a strong will to protect this world, this world will choose you and love you too.”

It’s not me... Yun Que shook her head. She never liked this world.

She had put everything on the balance of war, and was willing to do anything for victory. For a person like her, it is impossible to obtain this world’s blessing.

Therefore, even though it was too absurd and incredible, the so-called “bride”, the Water God’s most beloved person... could only be that “person” from the beginning!

Yun Que looked at “Yun Hai” up and down. So, is he the so called “bride”?

If so, it explained everything.

It wasn’t because he had great talent and luck. He was blessed by the god and the whole world simply because the Water God had chosen him as its bride!

Beside Yun Xi's ears, he heard the star system's beep sound, which meant that he had accomplished the final quest. It was a blessing from the world, it was a gift from the stars.

"The trial world's name: Water God's Fantasy Island."

"Your final quest: Water God's bride!"

"You have accomplished 100% of this quest. The footsteps of the world's changes are echoing between the heaven and the earth. Grasp the flower in your hand and confer the most beautiful bride to the god!"

"Putting on your princess dress, become the unique Water God's bride!"

"The Hidden Quest: God's Dream."

"The world will play the last melody for you, because you are the chosen one. Step on your stage and go fight against the Sky Sword!"

"The most beautiful bride, hold your sword and put on your princess dress and dance for the god!"

The god was looking at you and had remembered all your behaviors. Your tenderness, your hopefulness for this world... when you lose your heart to this world and start to think "What can I do for this world? I want to save the people in this world", you have accomplished the final quest.

When you accepted the one million brides and took the responsibility to save them all, you had become the Water God's most beautiful bride.

Yun Xi came into this world, accepted the trust from the people, integrated into and finally fell in love with this world. The whole process made him get closer and closer to the god, finally obtaining the god's love!

Yun Xi likes this world, which means that he loves the Water God.

Because the Water God is this world!

The Water God was longing for a change in this world, and Yun Xi changed this world.

What a long, long dream! And now, it's time to wake up, because the Water God had found its bride, the person who could wake it up.

"Impossible! Impossible! Impossible!" Shaya Longnis', the Sky Sword's tone changed. Her outlook was toppled.

"Why is he? No, you can't have him!"

Countless green shadows appeared behind Shaya Longnis' back. She was so shocked that she couldn't perfectly control her power and some leaked out.

Apparently, the Water God's choice was really a heavy blow to her.

“Shaya, nothing is impossible. It’s just because you don’t want to believe and accept it. Don’t hesitate, my cute Apostle, come here and become my bride. I will grant you the most beautiful dress, the most sacred blessing, and the most gorgeous stage! Right now, at this moment!”

The Water God’s voice sounded pleasant. The sea was spreading frightening waves. It was the sign of the reviving of the master of the sky, earth and sea.

“Well..., can I refuse it?” Yun Xi said haltingly. He finally realized that something was wrong.

I’m a man! How can I be a bride?

By the way, what is the Water God’s gender? It was still in question.

“Sorry, you can’t refuse me.”

Unlike the sacred aura Yun Xi felt before, after waking up from her long sleep, Hydra’s character was more active.

“As a lady, since I have met the bride I love, I must marry you! This is one of the most important of the creeds my predecessor had taught me!”

“The god’s wedding proposal can’t be withdrawn, so... accept my gift and feel the power from a real god!”

Chapter 282: Revive

Overwhelming great waves swept towards Yun Xi's Water God's Opera House and wrapped it tightly inside the water, making it look like a transparent deep sea pearl.

Between the sky and the earth, the origin, past and present of this world started to be portrayed in the air.

"Long, long ago, I was not this world's god but just an outsider." Hydra started to tell her story.

In the starry sky, a huge creature appeared, who was even much bigger than Mumu Salabert, the White Holy Dragon.

It had nine heads, and its body was so long that could even wrap around the whole world, and it was indeed wrapping around the world with its body in the scene.

Vaguely, Yun Xi recognized that the world was the prototype of the Island of Mist, but the world was more shabby without any vitality.

"This world is dying. All gods had died, and only the last immortal dragon was still struggling and groaning."

In that scene, the nine headed snake hesitated for a brief moment, finally opened its mouth and swallowed the dying world.

"I ate this world to share my life with it. My blood turned into rivers, moistened the ground and flowed into the sea."

After eating that world, the nine headed snake, Hydra, passed through a lot of god's domains and finally landed onto the remote White Lotus Sword Domain. It curled up on its body and quietly slept in the center of the Storm Eye.

Yun Xi and the Starwing Knights girls landed on one of Hydra's heads. After thousands of years, the head had lithified and became a island.

"The world revived because of me, and I was watching this world, this small garden in my body."

"The beings living in this garden had pleasure, anger, sorrow and joy, parting and reunion that I didn't understand, due to some reason I'm curious about."

"I learned a lot of things from them, and gradually, I forgot why I ate this world."

"At the first, it was just a game, but when I realized it, I had become a real god."

"Am I dreaming to be the god? Or am I the result of this world's dream?"

"During that long, long time, I gradually lost myself and fell into a deep sleep, till someone came to this world, and come to me."

"It was you. You are the person who changed this world and awakened me step by step."

“I was looking at all your movements in this world.”

“The Lamia Queen is my instinct. She stands for ‘reproduction’ and ‘evolution’.”

“The Mermaid Queen is my confusion. She stands for ‘pursuit of tragedy and betrayal’.”

“The Caelian Queen is my intellect and persistence. She stands for my will of ‘catching the treasure I have lost’.”

“The one million brides are my all. They stand for the whole world. When you proposed to them, it was equal to proposing to me.”

“Everything had been determined when you made your decision.”

Yun Xi finally understood why the process of the final quest kept going even though he didn’t go to look for brides for the Water God.

After he finished all the side quests and went to the last step of the final quest, the truth of this world was finally exposed.

The god’s dream... was him, who was guided by the stars and married the one million girls.

“The god is the symbol of this world.”

“I, am this world!”

Infinite waves swept through the whole world. One island after another turned into a transparent small water ball, held in the huge creatures mouth.

The Water God, Hydra finally revealed its true body!

“You finally come out, Hydra!” Looking at the monstrous creature, Shaya Longnis licked her lips with undisguised killing intent in her eyes.

“Shaya, I won’t give it to you. I caught it, so it’s mine!” The Water God raised its head with pride, looking at its bride with its nine heads.

“You are just a nine headed snake robber! This time, I will mince you!”

Apparently, Shaya Longnis wouldn’t give up on taking back the thing Hydra robbed from her before.

“If we want something, we need to obtain it with our hands. This is what we were taught, isn’t it?” Hydra leisurely ate the islands one by one and shook its giant body.

“Humph. I know what you are. Don’t pretend to be a god.” Shaya Longnis sneered and thumbed down towards Hydra, then stored away the green shadows behind her.

At the same time, Hydra spat out a green gem from its mouth, which was several times bigger than Yun Xi. The green gem flew to Yun Xi, then shrank and was engraved on Yun Xi’s forehead.

“Forever fourteen!”

Shaya Longnis’ body suddenly become a little bigger. It didn’t look obvious, the change was just like what happened to a girl who just grew up from 13 to 14 years old.

“One of nine avatar!” Yun Xi’s mask spread an aura again. The green gem had replaced the function of his heart, driving the blood and nervous system throughout his body.

They were the changes the two legend ranked beings conferred to the bodies they had chosen.

Neither the Sky Sword nor the Water God could battle in the Sky Sword God’s Domain without any restriction, because it would cause an unpredictable result. Mumu Salabert, the White Holy Dragon was the best example. She paid a heavy price for her impetuous behavior.

Therefore, they granted their powers to the bodies they chose, let them break a lance with each other.

Shaya Longnis, chose her Apostle, the Dark Shadow Spider Queen.

Hydra, the Water God, chose its bride Yun Xi.

Chapter 283: A Bigger Miracle

“Bang! Bang! Bang! Bang!” Strong heartbeats echoed between the sky and earth. It was the heartbeat of the young man who was wearing a silver mask that was engraved a green gem on it.

At the same time, it was the heartbeat of this world's.

I am the world!

At this moment, he was the Water God's avatar!

"Hiss! Hiss! Hiss! Hiss!" It was the sound of the rapidly growing hair, it was the sound of some weird thing. It was a sound that gave Yun Xi chills.

It was the green field that was spreading behind the Dark Shadow Spider Queen, who had become the Sky Sword's avatar at this moment. Countless green traces weaved a big net, swallowing all things in this world with greed.

The countdown of this world's destruction had started.

"What a pity world! How unlucky it was to be eaten by a greedy snake like you." Shaya Longnis, the Sky Sword attacked first. Her small, white hand brandished in the air as if it was a sword.

A strong blast wave shot out of the sky, slashing toward Yun Xi. Undoubtedly, it was the strongest attack Yun Xi had ever faced.

Even if it was a mountain chain in front of the blast wave, it would undoubtedly be crushed by it.

As an ordinary member of Sky Sword God's Domain, Yun Xi never imagined that he would be attacked by a Sky Sword someday.

"Do you really think so? I did eat this world, but to this world, it isn't an end. It's a brand new start!"

Countless blood colored ripples appeared on Yun Xi's White Emperor Mask, the world in his eyes was covered with a layer of blood color.

Hydra, the Water God fed this world with its flesh and blood, so that this world could survive after being absorbed by Hydra.

A drop of water, a piece of soil, a wisp of air... everything in this world was affected with Hydra's aura.

Its blood did stain the earth and flowed into the sea, finally eroding the whole world.

After losing its original gods, this world was doomed to come to its end. But thanks to Hydra, it was revived.

Whatever the reason, Hydra did replace the original gods of this world, becoming the supreme god of this born-again world.

It became the Water God!

This world recognized Hydra. At this moment, the blood colored ripples on Yun Xi's mask was the power from the power source of this world.

Yun Xi raised his head, looking at the prodigious blast wave.

He didn't draw back.

He stretched out his fist, punching at the blast wave!

At this moment, it wasn't his punch, it was the punch of the god, it was the punch of this world!

The Water God's world chose Hydra but not the intruder, Shaya Longnis.

Even though Hydra appeared also an outsider, it was already history. After feeding this world with its flesh and blood for thousands of years, the world had recognized it completely.

No matter that Hydra was thousands of years ago, at this time, it was undoubtedly the only supreme god of this world, the god of millions of beings, the Water God!

Only a very few humans surrendered to the outsider, Shaya Longnis. To the whole world, they were so negligible that they wouldn't even be counted as dust.

After Shaya Longnis descended into this world, this world immediately stood to Hydra's side and poured its power into Yun Xi's body.

The green gem on the mask was Hydra's Life Gem. With it, Yun Xi could use the power source of this world. Unlike the Dark Shadow Spider Queen, he still had 100% of his self-consciousness.

"Boom!"

The blast wave and the fist punch, collided in the air. A huge mushroom cloud, which was probably ten kilometers tall, rose to the sky from the ground.

The whole world trembled under the heavy blow. The batholith under the sea started to collapse, endless magma erupted from the ground, tidal waves, tornadoes and black typhoons appeared in groups. It seemed that no being could survive under these circumstances.

"Build for me, my one million brides. Build the towers to protect this world!" Yun Xi yelled.

This wasn't the end he wished for.

Even if no one thought that this world could survive, he still wanted to change the end result!

The power from the source of this world couldn't distinguish good or evil, right or wrong. It chose Yun Xi simply due to Hydra's will.

"Build the four World Towers!"

Information about the World Towers slowly flowed into Yun Xi's mind. It was the legacy of the stars, it was a Wonder of the Starchild.

The Eastward World Tower:

“Are you dreaming of it? The old paradise, the place you were longing for.”

“Can your heart become pure in this place?”

“Time has stopped for you. Please keep your promise, by looking for the thing you left here.”

“In the flowing of time and space, please stop and listen to the sounds from this place.”

“Therefore, we will build this tower to stop time. This is the Eastward World Tower, where the sun rises day after day.”

The Southern World Tower:

“The dream in the past, the sea in your memory, we will reproduce them here.”

“Can this world make you happy?”

“If you need to rest, please go here.”

“Time is flowing forward, and the world has changed, but there is still someone waiting for you.”

“Therefore, we will build this tower to let you watch the sea. This is the Southern World Tower, the place of dream and promise.”

The Western World Tower:

“The scene at sunset is the most beautiful scene. This is the place where you can see the sunset.”

“We are waiting, and will wait till time has lost its meaning. Do you still remember the promise of that time?”

“New lives have been born in the sea of gems. They will become the new children of this world, and won’t remember any sadness from the past.”

“The sunset isn’t the end, but the start of everything.”

“Therefore, we will build this tower to let you watch the sunset. This is the Western World Tower, the place where the sun falls.”

The Northern World Tower:

“The song of ice and fire is playing at this place. This is the end of the world, at the end of the sea.”

“This is the darkness’ home, and the place where the bright lights were born. Half of this place is fire and half of this place is water, the flow will never stop.”

“If you can’t see stars, we will create stars, giving birth to new lives on the earth.”

“This this the source of life, the place where everything starts.”

“Therefore, we will build the tower to create the future, waiting for your return. This is the Northern World Tower, where you can find lights from the darkness.”

Chapter 284: For the World

One million Mist Souls divided into four teams while holding white bricks in their hands, building four beautiful white towers at the four corners of the world with a speed unimaginable.

The World Towers were the cardinal points of the world, and the iconic buildings of god’s garden, which meant that only god could build this building.

The first World Tower stood tall and upright on the east coast of the Water God’s world, the place the sun rises. Countless star-spangled runes were engraved on the white tower, protecting this world gently and steadily.

The second World Tower stood tall and upright in the southern desert of the Water God’s world. The tower body reared high into the sky, reflecting the warm sunlights.

The third World Tower stood tall and upright on the western boundary, where the sun sets.

The last World Tower stood tall and upright on the ice covered ground. White ice crystals floated in the air and danced around the tall tower.

The four World Towers combined together, protecting the Water God's world from being destroyed. The countdown of this world was stopped, and the world rules stopped collapsing.

"Gee... this power..." This time, even the master of this world, Hydra also looked at Yun Xi in surprise. Its nine heads watched Yun Xi creating the miracle.

Although Yun Xi had obtained his source of power from this world..., how could a mortal know how to make this wonder that only existed in the age of mythology?

Apparently, the four World Towers belong to the realm of gods!

"You... what are you??" Shaya Longnis was also shocked. She had only heard about the World Tower in ancient mythology, but never really saw any of them.

"Probably... I'm just an unlucky man..." Yun Xi also didn't know that his one million brides could build the four World Towers.

Originally, he thought that the Water God's Opera House was the strongest wonder he could build.

He knew nothing about the four World Towers and the runes that were engraved on the towers.

If he didn't see the one million Mist Souls make the four towers with his own eyes, he wouldn't believe that they were the product of his labour.

"Humph. It doesn't matter whatever you are." Shaya Longnis took a glance at the green slime bracelet on Yun Xi's arm, her face slightly blushed under the mask. "You won't be able to change the fate of this world! I will turn this world into the biggest tragedy!"

Yun Xi raised his head, looking at the legendary Sky Sword, the being who had the title he longed and adored in the past.

The world won't move around anyone. Therefore, people have to make decisions even if they don't want to.

To be a Sky Sword's enemy is equal to being "the world's enemy" in the minds of the people of Sky Sword God's Domain. Yun Xi knew it clearly.

But for this world that he wanted to protect, for the warm world where lived his one million brides, he chose to challenge the Sky Sword!

Just realizing this point, his breathing had accelerated and his heartbeat became faster than any other time.

"If... if this is your wish..." Yun Xi habitually rubbed and pinched the green slime gem bracelet on his arm. He said, "If so, I will defeat you."

“Ha ha ha ha, pretentious human, you know nothing about the real power! You think after obtaining the power from Hydra and the source of this world, you are already entitled to say this to me? Let me teach you what ‘Sky Sword’ means!”

Shaya Longnis raised the corners of her lips. She wasn’t irritated, but felt interested as if she just saw a very interesting thing.

“Really?” Yun Xi adjusted his mood. Shaya Longnis is a Sky Sword. No matter how arrogant she was, he wouldn’t take her for granted.

He was just a hero ranked... well, a hero ranked Baker. Indeed, he wasn’t entitled to announce that he would defeat a Sky Sword.

However, he wasn’t alone.

Even though the White Emperor Mask just conferred him the fake power of the emperor, he still had infinite possibilities.

Shaya Longnis wouldn’t know that she wasn’t going to fight against “Yun Xi”, but the rules of the stars.

Yun Xi took a glance at the quest list in his system. He had accomplished all quests, apart from one quest:

To love, Starchild!

Life is too short, just enjoy it! Propose to as many girls as possible! After obtaining their marriage contracts, you can have the girls' power. You are never alone!

Due to this quest, Yun Xi met Lu Lu, the Starwing Knights girls, then came to the Caelian City and married one million girls there.

Now, this quest was also the source giving him the guts to challenge Shaya Longnis.

One a legend ranked power can fight against another legend ranked power.

Who can pose a threat to Shaya Longnis in the Water God's world?

Yes, I'm the person!

Combining all the quests together, Yun Xi understood why the stars sent him into this world and assigned these strange quests to him.

The secret was exposed.

Everything was for this moment.

The stars wanted to see this happen!

“Hydra!” Yun Xi took a deep breath. He knew the words he was going to say would change this world.

The change started from this second, this instant!

When water flows, a channel is formed. The stars carefully prepared this ceremony for Yun Xi, and now, comes the time to accomplish it.

The stars didn’t force Yun Xi, but guided him in silence. Finally, he came to this stage himself, and would determine this world’s future with his own free will.

“Hydra, the Water God, are you willing to marry me?”

Oh, he said the magical words! He said the words that would change this world!

“Of course, my cute bride. In the name of Hydra, the Water God, I’m willing to be your partner!”

“For better for worse, for richer for poorer, in sickness and in health, to love, honor, and cherish! I will be with you forever!”

Chapter 285: Furious Yun Xi

“It’s too early to say this, but I believe that we can walk hand in hand, creating a future that belongs to us both. Therefore, I make this oath here: I will bless you all my life, I will love you, my most beautiful bride forever.”

Hydra said so. Yun Xi could feel that a seed was growing and sprouting rapidly in his body, then pushed open his body, turning into a terrible power spreading in the air.

To love, Starchild!

No matter how horrible an experience you have faced in the past, and what a painful memory there is in your mind, "love" itself won't be wrong.

Love is sweet and wonderful. It's a behavior that can fill the world with happiness.

Even in the stars' old memories, love was still the most memorable scene.

Due to love, someone drew open the holy sword to save his lover.

Due to love, someone gave up his kingdom, traveling in distant parts.

The melody of love is a forever sung amongst the stars!

Therefore, learn how to love! Even if she was a supreme god, don't feel afraid to convey your feeling!

Even if this wasn't a real world and this wasn't really happening.

“Bang!” Earsplitting sounds of heartbeats came from Yun Xi’s chest. It was similar to Hydra’s heartbeat which could even shake a world, which should never be a human’s heartbeat.

“Hum? This aura...” Shaya Longnis squinted, looking at Yun Xi and the Hydra’s shadow behind Yun Xi with a strange look.

“Oh... this... is...” Hydra was also shocked, because it smelled its own odor from its bride, Yun Xi!

“Bang!”

“Bang!”

“Bang!”

Like Hydra’s huge amount of life force appeared after it woke up from thousands of years sleep, Yun Xi’s aura could also make the world tremble at this moment.

“Hiss!” The White Emperor Mask twisted as a crimson snake tail stretched out from the back of the mask, rolling up tempestuous waves to the sky.

It was just a start.

Quickly, the second, the third... a total of nine crimson snake tails stretched out from the back of Yun Xi’s mask, staining everything around him with a blood color.

In the legend, the nightmare monster of Western God's Domain, the undead nine headed snake, Hydra had infinite blood that could stain the earth and cover the sea.

Its nine heads, each an independent life. It was meaningless to just chop down one of its head, because it could grow a new head within a few seconds.

As long as Hydra's nine heads weren't chopped down at the same time, it was undying. It was one of the strongest immortal fantasy creatures in mythology.

However, not all nine headed snake had such a strong undying body. All nine headed snakes were the descendants of the Earth Goddess, but only the strongest one could inherit this godlike talent from its bloodline.

Once upon a time, a Hydra was killed by a demigod, but its poisonous blood also killed the demigod who had experienced the legendary twelve labours.

Hydra, it wasn't a name. It was the highest title of the Nine Headed Snake Race. Only the strongest nine headed snake could call itself "Hydra".

The Water God was such a Hydra, who had reached its race's end of evolution . It was a fantasy creature, but also a real god.

The blood in its body was the real "ichor"!

At this time, the nine crimson snake tails on Yun Xi's White Emperor Mask was the Water God's God Mark, the confirmation of controlling all beings' blood.

"Arrrghhh!" Yun Xi pressed on his mask yelling crazily.

The Water God's power was too powerful for him now!

He shouldn't be able to touch this power at this time. If he was a common hero ranked being, 1% of the energy that was rampaging in his body now was sufficient to make him explode.

However, due to the power of the stars, the Water God, Hydra's power, was completely reflected into Yun Xi's body.

It was a legend ranked power!

The legend rank was totally different to the hero rank.

Moreover, it was a legend ranked power from a god who had lived such a long, long time in the universe.

If a mortal's power was like a drop of water, and a hero ranked power was like a river, then the legend ranked power was like an endless sea that was being poured into Yun Xi's body.

Legend ranked beings couldn't enter small worlds with their true bodies, because their existence itself was already sufficient to cause disasters in small worlds, like the disaster White Holy Dragon brought to

White Lotus Sword Domain. At this moment, Yun Xi was like an expanding balloon, all the blood and nerves in his body were filled with the Water God's power.

"Boom!" A blood colored light emitted from Yun Xi's fingertip. Compared to Shaya Longnis' blast wave, the blood colored light was rough and ridiculously powerful, but for the first time, the Sky Sword drew back three steps and drew three lines in the air with her fingers.

Three earthshaking blast waves flew to the blood colored light and crashed into it instantly.

Undoubtedly, even though the Sky Sword just possessed the spider queen's body as its avatar, Yun Xi's skill of controlling powers still couldn't be compared to the Sky Sword's.

Fortunately, the Water God was also not good at controlling its power.

Hydra had nine snake tails and nearly infinite strength. Its tactic was to always overwhelm its enemy with its absolute strength!

It had already become an instinct engraved in its bloodline, and now, it also infected Yun Xi, who just obtained nine Hydra's tails.

If one blood colored light wasn't enough, then how about a hundred blood colored lights?

The nine snake tails on Yun Xi's mask moved.

A hundred blood colored lights crossed in the air, turning the place where Shaya Longnis was standing into a realm of blood lights.

Hydra's blood could even have poisoned a demigod. Now, Yun Xi released a hundred blood curses at once!

Even more frightening was that it was just a start.

The nine crimson snake tails fiercely hissed in the air. Yun Xi had Hydra's power, but couldn't control the power as easily as Hydra. He could only simply release the infinite power of blood contained in his blood.

One thousand, two thousand, three thousand!

The nine crimson snake tails cheered. After becoming the Water God, they had never been so unscrupulous!

The infinite power of blood turned into huge waves, billows and the sea of blood, launching a crazy attack towards the intruder, Shaya Longnis!

Chapter 286: Shaya's Recipes

"Boom! Boom! Boom! Boom!" The whole world was trembling. If it wasn't for Yun Xi's four World Towers, this world would've been torn into countless pieces under his furious attacks of blood colored lights.

Attack! Attack! Attack!

Yun Xi didn't have any idea of "defense" in his mind.

Yes, this was Hydra's tactic before it became a god, launching a life and death battle at its enemy with its infinite life force.

Even a dragon couldn't defeat Hydra in a protracted battle!

As a descendant of the Earth Goddess, Hydra was the strongest and the most ferocious nine headed monster!

It never considered what its enemy was. Once it attacked, it wouldn't stop till it won!

"Oh, oh, oh, oh... he really is worthy to be my bride!" Hydra looked at Yun Xi's furious attacks with a happy look.

Yun Xi had released Hydra's power of blood in his body. He didn't need any tactic at this moment, and he didn't have such a thing in his mind at this moment.

Cover everything!

Smash everything!

Swallow everything!

Fierce, crazy, unscrupulous, and violent... this was Hydra's real character!

Even though it had become a god and wouldn't fight as it used to, but looking at Yun Xi's current appearance, Hydra still couldn't help but smile.

Hum, as a lady fantasy creature, this is my style of battle and love!

He is really a perfect bride! So wonderful!

Keep dancing my bride. Showing your most gorgeous posture of dancing, beating the Sky Sword till she showed her original shape!

Endless sea of blood rolled up and swept through the sky and earth, drowning the Sky Sword from the sky to the water. Yun Xi controlled his nine snake tails, blocking the space around the Sky Sword.

The nine snake tails' battle instinct had all been activated. They hissed and danced in the air, emitting a power that could smash a world.

As Hydra's power of blood revived, a second green gem appeared on Yun Xi's White Emperor Mask.

"Two of nine avatar..." Hydra looked at Yun Xi feeling confused.

Why? I didn't grant Yun Xi that power, yet he still opened "that mode", the mode he shouldn't be able to open at this time.

"Forever fifteen years old!" Being drowned into the sea of blood, Shaya Longnis finally couldn't retain her composure.

It wasn't her style to be beaten by someone and not strike back.

Since "he" had broken the "boundary" and used that power that had exceeded the "limit", she wouldn't restrict her power either.

Her arms and legs became slightly longer again and her hair become more crystal. Shaya Longnis' human form became one year older than before.

Do not look down upon this "one year", it was a promotion to a great realm! From 13 to 14 years old, a girl was still an ignorant adolescent. But from 14 to 15 years old, it meant that the girl had stridden across a "boundary".

A sword appeared in Shaya Longnis' hand.

Sky Sword was the highest title in Sky Sword God's Domain. It wasn't just because they were powerful, but also because all Sky Sword's had a sword that was qualified to be called "Sky Sword".

Otherwise, no matter how strong they were, they couldn't be called a "Sky Sword".

Concretely speaking, the sword in Shaya's hand wasn't the real Sky Sword. It was just a prototype.

The sword blade was made of countless green beads, and the sword handle was a jellyfish with a lot of tentacles, emitting a weird and distorted aura when Yun Xi looked at it carefully.

"Take this!" Shaya Longnis drew her sword and brandished it toward Yun Xi.

"Ka!" The three snake tails on the left of Yun Xi's face blocked the sword automatically, then were torn and shattered, turning into countless blood colored particles in the air.

Yun Xi's mind didn't even notice the sword's attack. The snake tails just reacted and blocked the sword instinctively.

"Hum? You only have the power from Hydra?" Shaya Longnis quickly found out the truth.

Yun Xi was already qualified to fight against her, and had just obtained the "qualification" to fight her. If he had to only rely on Hydra's combat instinct, he wouldn't have any possibility of defeating her.

Hydra could revive countless times, but the Sky Sword wasn't inferior to Hydra. Shaya Longnis had a similar talent.

Hydra swallowed a world and waited for thousands of years, absorbed this world bit by bit and became the only supreme god in this world.

Shaya Longnis didn't think that she could be as patient as Hydra. After all, slime and nine headed snake were two different races. She could swallow and absorb her enemy at a very fast speed.

"Three headed dragon! Simulation!" A golden dragon's projection appeared behind Shaya Longnis' mask. It wasn't a common dragon but a mutated three headed golden dragon.

The three headed golden dragon's power wasn't inferior to Shaya Longnis, but was badly hurt in a battle with another horrible monster. Seizing the opportunity, Shaya Longnis swallowed it and simulated 100% of its form.

"It's Quito... you always said you wanted to eat it, and you finally ate it..." Hydra looked at the three headed golden dragon simulation in surprise.

"Humph. I have said, I can eat anything I want to eat. Even if it was a dragon!" Shaya Longnis' eyes looked dangerous. To her who had eaten her lover, it was a natural thing to let the thing she likes become a part of herself.

As the strongest slime, she gradually became picky after tasting more and more things.

After becoming adult, she didn't often eat things, unless it was the enemy she wanted to eliminate or the person she loved.

The former was the three headed golden dragon, who once disdained her and beat her up.

The latter was the human girl, Shaya Longnis, who the original slime liked but couldn't obtain her love.

It was ridiculous to judge a non-human like her with the moralities of humans. She never cared about other people's views, and always lived arbitrarily.

Now, she felt the impulse to eat something again.

Chapter 287: Intertwine

The Slime Race was a weak race that inhabited innumerable god's domains. Most slimes were at the bottom of the food chain of their world.

Even the golden slime king, the top class slime in hundreds of millions of slimes, was just a hero unit that has high physical and spell resistance. Compared to other creatures at the same rank, they were very shoddy.

Till a special, special slime unit appeared, then the situation was changed.

Shaya Longnis, the child of the slime race, was the fantasy individual who was burdened with the whole race's hope and future.

Slime didn't have a gender, they produced offspring by dividing into new individuals. In order to survive, they could eat anything.

Soil, rotten leaves, dead animals and plants, polluted water, and even scalding magma!

In order to survive, slimes could transform themselves into various forms, so that they could adapt to the environment and produce offspring.

As time went by, the slime race gradually evolved out of all kinds of subspecies and hero units like the golden slime king were born.

As this process repeated over and over again, due to a mutation whose probability of occurrence was even more tiny than the self destruction of a star, a special individual was born into this universe.

At the first, this individual didn't look any different than common slimes. It was just a gel like ball.

However, this ball was a perfect sphere, and its surface reflected a green gem like color.

After it was born, it unconsciously swallowed the food around it.

After eating great amounts of soil, it suddenly understood what ability it had.

It could copy and transform into the forms of all beings in this world.

After eating the soil, it understood how to transform into a rock.

After eating a northern wolf who fell on the rock due to hunger, it understood how to transform into a wolf.

After obtaining the wolf body, it quickly adjusted to the new body and learned how to move with four limbs. After seven days and seven nights, it had walked in a cold ice storm and arrived at the border of the snowland and the mountains.

There, it encountered a strong bear. Its wolf body was torn open and eaten by the bear.

It doesn't matter, because the wolf body was just a simulation. Soon afterwards, it revived inside the bear's stomach. It tore open the bear's belly and ate this bear that was far stronger than the wolf.

After a very long time, it repeated the process. Eating or being eaten by its prey, it doesn't matter. After all, it would always be the winner.

After eating an eagle, it had a pair of wings to fly in the air.

After eating a shark, it could swim in the sea.

After eating the sandworm under the ground, the desert also became its territory.

While eating different creatures, it became stronger and stronger during this process.

It didn't have an inherently immortal body like the nine headed snake. It just hunted, ate and absorbed different creatures, then the weakest slime became a nightmare even to gods.

This was Shaya Longnis', the Sky Sword's growth process, stepping onto the road of the legend rank by eating countless strong creatures.

Shaya Longnis was an unique individual amongst all slimes. It had exceeded the limit of the slime race, becoming the strongest predator in the universe.

The last strong creature it ate was a three headed golden dragon. After that, it lost interest in adding any more creatures into its recipes.

The reason was simple: it didn't need to absorb any creature who was weaker than the three headed golden dragon.

The dragon's three heads had different natures. It could fly through the void with its body, and its combat power was also not inferior to the strongest nine headed snake, Hydra. The three headed golden dragon had met all the requirements she needed. For a long time, she didn't want to eat anything.

Till this moment, she looked at Yun Xi who was releasing Hydra's power with a lack of restraint.

"Gu..." How long has it been? How long since Shaya Longnis felt this strong desire of hunger?

It was hungry.

In fact, after reaching the legend rank, Hydra and Shaya Longnis didn't need to eat, because "eating" was a very inefficient method of obtaining energy for them.

Legend ranked beings had exceeded the limit of flesh and blood. Even if they ate nothing for a thousand years, they would still be as immortal as the stars.

However, Shaya Longnis' slime instinct told her that "this food" was different.

He was different to all beings she had eaten. Just like the butter bread she tasted after just obtaining her human body, this time, another food of temptation appeared in front of her.

He looks yummy. Shaya Longnis licked her lips. Countless green threads appeared behind her and weaved braids in the air.

Yun Xi had nine snake tails of Hydra on his mask, therefore, Shaya Longnis weaved nine green braids with her life force.

Let me taste you gently.

Anyway, you had done "that" to me...

Green braids and snake tails intertwined together, emitting a sound that made the whole world tremble.

"Ka! Ka! Ka! Ka!" The two sides could revive themselves over and over again, so no one could gain the upper hand temporarily.

Sometimes, Shaya Longnis' green braids launched a violent attack towards Yun Xi's crimson snake tails, sometimes, Yun Xi's tails of Hydra excreted poison, eroding Shaya's green braids, making her braids writhe with pain.

However, both of them showed a painful but also pleasant expression on their faces.

Shaya's face had turned completely red under her mask as her lips emitted tempting gasp and groans.

Chapter 288: Yummy Time

"En... oh... oh... oh..." Like a girl who first tasted the forbidden fruit, Shaya Longnis groaned and her young body trembled.

Her skin had been covered with a layer of pink color, and her body started sweating.

His taste... is delicious!

His body doesn't only contain Hydra's taste!

Hydra's blood could even poison a demigod to death. Shaya just tasted it with her braids, her body had trembled due to the overstimulation. After eating so many rare creatures, her taste sense had become dull. Hydra's poison was like the most wonderful spicy seasoning to her.

Not only so. Apart from Hydra's poisonous blood, there were also a great amount of special tastes inside Yun Xi's body. Even though Shaya Longnis had become extremely picky with food, these tastes could still satisfy her tongue and make her drunk.

She never thought that she could enjoy so many tastes from a human body. Moreover, it seemed that it wasn't his limit!

If the three headed golden dragon was a main dish, then Hydra's blood was the most unique spice. There were all rare treasures.

As for Yun Xi, his taste was like the most sumptuous royal feast!

His taste... is even rarer than the "treasure" Hydra had robbed from me!

What a pleasant surprise!

Being worried that she would lose this "fantastic food", Shaya Longnis even ignored her old enemy, Hydra, and tasted "this food" with all her heart.

"Ga... ha... whoa..." Yun Xi was in a complete mess.

Scorching power of blood flowing inside his body. This was a real power of god, the source of the power of the world Hydra had swallowed.

Hydra said that this world was hers. She was the world.

Now, Yun Xi could say it too. After obtaining Hydra's god power, he really experienced the feeling of becoming the dominator of a world!

In his mind, his senses was stretching into this world as far as he could imagine.

The earth was his veins.

The sea was his blood.

The sky was his eyes.

The whole world was him. His breath was storm, his anger was lightning. In this world, he was immortal, he was eternity.

Therefore, as a person who could control a world, he understood how terrible Shaya Longnis' power was better than anyone.

She didn't have any support from the source of a world, so she was only using her own power, and the power she was using now was just a small part of all her might.

It was hard to imagine how many strong beings she had eaten, but it seemed that her body had infinite life force. Even the power she showed now was stronger than the power of the whole Water God's world.

"Stronger" wasn't precise. In fact, it was a desperate overwhelming advantage!

Countless green threads teared open the barrier of the void, wrapped around the body which should belong to the spider queen at first and finally turned into Shaya Longnis' real appearance.

At the same time, countless crimson threads wrapped around Yun Xi's body, combining him together with Hydra. It was Hydra's power the stars conferred him.

The two stupendous powers were fighting neck and neck in front of Yun Xi.

Yun Xi was thankful that he had the stars' support and had obtained Hydra's power. Otherwise, he wouldn't even be able to stand in front of Shaya Longnis face to face.

Undoubtedly, Shaya Longnis was the strongest being Yun Xi had met. He couldn't even guess at the limit of her power.

Probably a strand of her green braids was already sufficient to destroy the original Water God's world.

Now, her nine green braids were pressing Yun Xi's crimson snake tails, which Yun Xi hadn't understood how to control and wouldn't be able to control.

Ruthlessness, this was Shaya Longnis' most vivid impression in Yun Xi's mind. No matter how he struggled, bound her up with Hydra's snake tails or poisoned her green braids, she never moved and even smiled confidently.

What a strong and terrible Sky Sword! She didn't even use her sword and had suppressed Yun Xi.

What a confident smile! It looked as if she was enjoying Yun Xi's ferocious attacks.

Is this what a Sky Sword is? Is she the strongest legend in the entire Sky Sword God's Domain?

The gap is too wide!

“Hey, Shaya, don’t do this in front of me!” As a fair lady. Hydra finally couldn’t watch it anymore.

Are you trying to rob my bride in front of me?

What’s your expression? What are your longing eyes looking at?

Where is your Sky Sword? Once you drew your sword, you could determine the winner of the battle.  
Where is your godlike sword now?

You pretend to be pure and innocent to tempt my bride... how shameless you are!

Everyone knows that Shaya Longnis is a monster that likes to eat her lover!

“I don’t understand what you are saying.” Shaya Longnis smiled pleasantly and denied that she was tempting Hydra’s bride.

I’m just tasting my favorite food. What’s wrong with it?

Isn’t it a natural thing to enjoy the most delicious food with all one’s heart?

Don't bother me! I'm enjoying my food, you puzzled amorous feelings of a nine headed snake!

Well, just in case, I'd better eat "the food" now.

"Come here, come into my body. I promise it is a comfortable place. Hydra? Don't mind her. Even though she was a legend ranked fantasy creature, it wasn't easy to eat a world. She must be suffering from indigestion now. What a stupid choice." Licking her lips, Shaya created more green braids in the air.

It's time to enjoy this delicious food!

What an unforgettable memory will you leave me? Your taste must be more exciting than the three headed golden dragon.

Hydra, thank you for the nice meal.

Chapter 289: The Watcher

Looking at Shaya's joyful face, Yun Xi quickly understood what a bad situation he was trapped in.

The green braids should be vibrant with the infinite lights of life, but Yun Xi could only feel undisguised greed and desire from them, as if they wanted to eat him from head to foot.

Hydra's power wasn't sufficient to fight against Shaya Longnis at this moment!

"Hydra, can't you defeat her?"

Yun Xi knew nothing about the battle of legend rank. After obtaining Hydra's power, he realized how poor his knowledge about this realm was.

"Yes, she is stronger than me at least at this moment. Can you hold on for a while? I'm preparing to dock my tail. Probably 1/3 of my body is enough to still her appetite."

"In order to absorb this world and become a god, I have consumed too much energy. It's not easy to become a god. Therefore, my most beautiful bride, hold on for a while and I will run together with you."

"I will revenge for you after my power is completely recovered. It will take me thousands of years."

Hydra readily admitted that it wasn't in a good state. Shaya Longnis just intruded into this world at its weakest period.

Like what Shaya has said, this world is doomed to be destroyed.

Hydra's plan was to protect its people first, then ran away with Yun Xi from Shaya Longnis' devil's clutches.

Revenge is a dish that should be eaten cold. As a lady fantasy creature, it didn't mind to wait ten thousand years to revenge. After its power recovered, it would look for Shaya Longnis and let her pay for her crime to this world.

"How could this have happened..." For the first time, Yun Xi found that the situation was out of his control.

Is the Water God's world doomed to be destroyed?

Am I still not qualified to be Shaya Longnis', the Sky Sword's rival? Don't I even have the right to have a fair fight with her?

Thousands of years. Maybe to the beings such as Hydra and Shaya Longnis, it was just a short time for sleeping or digesting food, but Yun Xi was still a human. To him, it was a long time that could let him forget a lot of important things and people.

His childhood sweethearts, the Starwing Knights girls... it was very likely that after Hydra recovered thousands of years later, none of them would be still alive. Just imagine the sense of loneliness, Yun Xi had felt a wave of emptiness and despair in his mind.

Is time the widest gap between legend ranked beings and mortals?

As a mortal, Yun Xi didn't think that Hydra's time sense could be a reference!

"No! It shouldn't be ended like this!" Yun Xi yelled and endured the crazy power of blood in his body.

This isn't the end I want to see!

This isn't the result I'm longing for!

Yun Xi wanted to see change. Change! He wished to change the misfortune of this world with his hands. He wanted to save this world!

Even though Shaya Longnis, the Sky Sword had announced that she would make this world become the biggest tragedy.

Even though the master of this world, Hydra, had announced that it had planned to give up.

Yun Xi, as a man, still wanted to save this world.

You were looking for this, so you chose me, weren't you?

"Hydra, give me more power!" Yun Xi refused to accept this end. It looked as if his effort was totally meaningless in front of Shaya Longnis' power.

"No, I have given you all my power." Hydra raised its head and looked at the distant void.

In order to protect the living beings in the Water God's world, it had strained every nerve, because it was its responsibility as a god.

Therefore, Hydra couldn't grant Yun Xi more power.

Shaya Longnis would destroy this world, Hydra had seen this end from the beginning.

Due to this, it granted Yun Xi the White Emperor Mask, trying to change this misfortune.

It had said from the beginning that it was longing for change. It wanted to see the miracle created by the most beautiful bride.

It knew that it couldn't change this world's fate, but the bride it had chosen could.

Till now, Yun Xi was more excellent than it had expected, but this was still not enough.

He still had more potential and could create more miracles.

Turn "impossibility" into "possibility", making "hope" from "despair", this was the bride it was looking for.

He is the only person who can save this world.

It had staked on Yun Xi with all its chips, because he is the only person who can defeat Shaya Longnis, the Sky Sword!

"However, your power isn't enough!" Yun Xi could feel how weak Hydra was at this moment and how strong Shaya Longnis was becoming.

From the beginning, the balance of this battle had biased toward Shaya Longnis, this was what Yun Xi didn't expect.

“Yes, so you need to obtain more powers. Look with your eyes and listen with your ears! There are not only Shaya and me on this battlefield. There are more beings looking at this place and waiting for a result. Can you borrow their powers?” Hydra looked at its bride with a strange look.

“Are there other people here?”

Yun Xi was startled. He looked around this world with his consciousness, finally, he noticed the sights at the edge of this world, projecting into this world from very distant places.

Ah, there are really other people!

They have the powers at the same rank with Hydra and Shaya Longnis!

Who? Who are they?

Apart from Hydra and Shaya Longnis, are there other legend ranked beings having a hand in this battle?

Yun Xi could feel two different auras from the two sides of this world. It seemed that they had lasted for a period of time.

Wait. Why do I feel that there are something familiar in the two auras?

Oh, right, they are my seeds! They are the last two people of the Starwing Knights.

The leader of the Starwing Knights: Hua Yue.

The deputy leader of the Starwing Knights: Xiao Cao.

Chapter 290: The Last Marriage Contract

After entering the Water God's world, Yun Xi had looked for Hua Yue and Xiao Cao many times, but found not even the slightest trace, as if they had completely disappeared from this world.

At first, he thought that they had joined Shaya Longnis' camp, just like the twin witches and Hua Huo.

Apparently, he was wrong. There were not only the two camps, the Water God's and the Sky Sword's camp. There was a third and even a fourth camp.

Hua Yue and Xiao Cao joined the unknown third camp and fourth camp.

Compared to the Water God's camp, who had did their best and were all exhausted now, perhaps the third camp and the fourth camp were the keys to change the fate of this world!

"It's about time." After tasting Yun Xi's savor, Shaya Longnis licked her lips with a pleasant look.

It's time to enjoy my dinner!

"Hua Yue! Xiao Cao!"

Yun Xi was already at an absolute disadvantage. In desperation, he shouted out the last two girls' names.

"Who is calling me?"

"Who am I!? Where am I going? Why am I here?"

Behind her, there was a white golden longsword that was inserted into the ground and emitted a cold and sacred aura.

At the south pole of the Water God's world, Xiao Cao stood on a ice mountain and stretched herself, looking at this world with her confused eyes.

"Are you calling my name? ... Who are you? Your name is..." Behind her back, a dark yellow sword was floating in the air, emitting infinite Aura of the Desert.

They were really in this world!

Now, all the Starwing Knights girls had been accounted for!

Therefore, say it. Say the magical words that could change this world's fate and create a bright future.

“You don’t know my name, but I know your names. Please trust me. I need your help, I need your power! If you can believe in me, if you can lend me your power, please listen, listen to my voice and wish.”

Behind Yun Xi, the Water God’s Opera House opened again.

This time, the singers weren’t the three High Priestesses but the Starwing Knights girls.

They pressed their chests and sang at the top of their voices.

“Why? Why? We can go everywhere, but we can’t go anywhere.”

“The dark is hovering in the sky, a fantastic miracle is generating inside it.”

“My eyes opened for glory, writing the future that had been recorded.”

“Other people can’t loan me the power to open up a new path, we can only open the closed door with our own hands.”

“I’m willing to be your wings and glory, offering our unshakable belief to you.”

“Our love, will be forever!”

At the end of this world, the north pole.

Sacred lights were shining inside Hua Yue's eyes.

Oh, I heard it. I heard the sounds from the people I love, I heard the sounds from the people I want to protect.

Sword, hold the sword!

For the important thing I need to protect!

This is the guardian's persistence!

At the end of this world, the south pole.

Xiao Cao took a deep breath and exhaled.

Yes, this is the feeling. This is the impulse, spirit and will.

No matter who the enemy is, I will never give up or concede!

A flame was burning inside her heart.

The fire from the Battle God!

“Lend me your powers. Marry me!” Yun Xi announced. He proposed to the last two girls of the Starwing Knights with his most sincere voice.

“I accept your proposal.”

Hua Yue didn't remember why she was here, but the voice was so familiar and went straight into her heart.

The proud princess was moved by the girls' song echoing in the world. She drew her sword.

At that moment, a vague figure appeared behind her.

The figure had three strands of ice blue hair on her forehead, long braids on her back, steel blue gems on her sleeves, and sword shaped ribbons on the corner of her dress.

Hua Yue's sword was from this cold, beautiful girl. The sharp sword blade was reflecting a cold silver white light.

The sword handle was half a metre long, in the junction of the sword's handle and blade, there was a round compass. In the middle of the compass, there was a big lock-hole, looked as if something was sealed inside it.

At the end of this world, the south pole.

“I’m willing to marry you.” Following her instinct, Xiao Cao also accepted Yun Xi’s proposal and caught the sword that dropped in her hand. A tall woman appeared behind her. She was wearing a special, tribal style clothes with a pair of fetters on her feet. Her body shape was so perfect that it far exceeded any mortal. On her fallow coloured skin, there were tattoos of black and white. Her braided tail was also very long and reached her ankles.

The sword in Xiao Cao’s hands looked very rough, as if it was made of some poor quality sand gravel, but these “sand gravels” were flowing along the shape of the sword!

The sword handle looked like a strange sandglass. The sand gravel were flowing out of the sandglass and flowing into the sandglass, so that the sword could keep such a strange shape due to such a weird circulation.

“Ga!” When the two girls accepted his proposal, Yun Xi’s mind was instantly covered by two prodigious powers.

Unlike Hydra’s infinite power of blood, the powers Yun Xi obtained from Hua Yue and Xiao Cao were two pure, special mental strengths.

To Yun Xi who had the great physical power but didn’t have the mental strength to control it, the two mental strengths were like a welcome rain after a long drought!

“Hum? Those two auras...” For the first time, Shaya Longnis didn’t look calm. Something was out of her control.

Because something should never belong to Yun Xi appeared on his body.

“The oldest Sky Sword, the guardian of the door...”

“And the sixth Sky Sword, Casina, the Battle God!”

Shaya Longnis cocked her head, looking at Yun Xi in surprise.

Why did their powers appear on my food?
