

Starchild 301

Chapter 301: The Revived Sailing Jellyfishes

No, not only so. Because Yun Xi thought that this was just a dream, he did to many speechless, shameless things in this world!

The nights with the Lamia Queen, the Mermaid Queen and the Caelian Queen.

The morning with Lu Lu.

The hot, crazy night he spent with “Black Moon”.

If they weren’t just my dream but something really happened, how will I...

I can’t be an upright gentleman anymore!

“Raise your head and look around. Look, this world was saved because of us.” Standing beside Yun Xi, Yun Que smiled looking at the earth with blooming flowers.

Yes, after paying so much, isn’t this the future I always looked forward to?

A vibrant, sunny, hopeful world that could let everyone enjoy a peaceful life.

This was the future she wanted to create, even if she had to stain her hands with countless people's blood before arriving at this conclusion.

The trial in the Water God's world was a brand new start for her. It was the turning point of her life.

She witnessed the most terrifying disaster here, and the most incredible hero who saved this world.

Everyone had given up and thought that this world was doomed to be destroyed, but he still tried his best to create miracles.

Perhaps he was still a man with a lot of weaknesses, but no one could deny that he was a real hero that had saved a world.

Yun Que learned a lot from him.

Of course, her faith wouldn't change.

No pain, no gain. In order to save more people, she had to abandon a few people. To survive, mankind must pay a lot of painful prices.

However, she understood that there were really some people who could create miracles now.

"Yun Hai" who was standing in front of her at this moment was the creator of this world's miracle.

He was shameless and salacious, he had a kind of abnormal desire for beautiful girls. He married one bride after another, he was often addicted to young girls' bodies.

However!

Even so, he was still the hero who saved this world.

Now, Yun Que finally understood why Hydra trusted Yun Hai so much and conferred to him all its powers.

Because he had the ability to create miracles with Hydra's power.

Even when he was facing Shaya Longnis, the Sky Sword, he didn't falter and retreat.

When Yun Que considered it again, she admitted that she couldn't do it like Yun Hai.

Probably when she realized the desperate gap between her and the Sky Sword, she had conceded.

She didn't feel shameful about this, because Shaya Longnis' power was even more terrible than she had imagined.

The gap between the hero rank and the legend rank wasn't even possible to be counted by numbers!

“Oh... oh... ah ha ha...” Yun Xi’s mind was in a total mess now.

He still couldn’t accept the truth that the things happened before weren’t his dream but reality.

He did see the bonfire, which meant that he could revive here.

However, he was also told that this trial wasn’t in a dream world!

If so... no... maybe the Dark Forest and the Tall Tower weren’t just two dream worlds too. Perhaps he really went to two worlds that really existed.

Undoubtedly, the stars have such power. They could create such a miracle, which meant that what he had done in the trials really happened in the reality.

Perhaps the boundary between reality and dream didn’t exist in the eyes of the stars. The stars’ power could create the bonfire that could let him revive, could drag the beings around him to the same trial world and changed their minds.

“Nothing is true in this world.” Yun Xi suddenly had this idea in his mind.

Which part was his dream, and which part was reality? When did the dream and the reality start to mix up?

When Hydra saw him suddenly appearing in her world, what was she thinking?

The lights of the stars finally faded away. The Water God's Fantasy Island emerged out of the sea surface in the Storm Eye. Everything came to an end.

However, Yun Xi's troubles had just begun.

Under the starlight, one beautiful translucent creature after another swam out of the sea surface. They had beautiful silver bodies and emitted different translucent lights in accordance with their body sizes.

They were sailing jellyfishes. Yun Xi immediately recognized these fantasy creatures.

They were the mascots of the Water God's world, and the avatars of the source of the power for this world.

When this world was threatened by Shaya Longnis, they disappeared, indicating the impending doom.

After Shaya Longnis was defeated, they revived again.

Their appearance meant that the Water God's Fantasy World had really returned to peace.

Even though the Water God's Fantasy World couldn't hide itself from the prying eyes of the outsiders, and the Water God fell to sleep again, these sailing jellyfishes were still strong fantasy creatures. They could protect this world.

These beautiful sailing jellyfishes were what Hydra left for Yun Xi before it fell to sleep. They were one of Yun Xi's deserved rewards for his heroic deed of saving this world.

Of course, the biggest reward was Yun Xi's identity now.

The silver mask emitted soft and sacred lights on his face, all the sailing jellyfishes were dancing happily in the air around Yun Xi.

If the butterflies of death stood for "death", then these sailing jellyfishes stood for "life". They were the two special fantasy creatures of this world itself.

"Congratulations, our emperor."

"Thank you, our emperor."

"All glories belong to you, our great White Emperor!"

Chapter 302: Parting

The three High Priestesses' sounds came together with the sailing jellyfishes.

The Caelian Queen stood for mankind.

The Lamia Queen stood for the Lamia race and other deep sea races.

The Mermaid Queen stood for the Mermaid race and other shallow sea races.

They sang together, presenting their blessing to Yun Xi.

This world's god, Hydra had fallen into sleep, but standing for Hydra's different characters, the three Queens still existed.

Their song was the gratitude of the entire Water God's world.

At the same time, the Love System of the Stars also beeped inside Yun Xi's mind.

"The trial world's name: Water God's Fantasy Island."

"The Main Quest: The Water God's Bride (completed)."

"Optional Side Quest One: Girl Fights Evil Dragon. (Because you have joined the Water God's camp, this quest is not selectable)"

"Optional Side Quest Two: The Apostle's Call (completed)."

"You have obtained the White Holy Dragon's trust and the right to use dragon language magic. Please remember the dragon's name 'Mumu Salabert' firmly, you will have a great adventure in the future."

“Optional Side Quest Three: The Truth about the Mist (completed).”

“I have witnessed the Mist Demon Tree at the end of the Water God’s world. Your White Emperor Mask has transformed into its ultimate form.”

“Optional Side Quest Four: To Love, Starchild! (perfect execution!)”

“Life is too short, just enjoy it! Even though you will face your angry ex-girlfriends’ death chase, you should still go ahead and learn how to obtain more love.”

“In order to fight against your ex-girlfriends, please go to obtain more girls’ love! This quest will become an irregularly scheduled quest (but you can only use the girls’ power in your trials), our Starchild.”

“The Hidden Quest: The God’s Dream.”

“The most beautiful bride, hold your sword and put on your princess dress and dance for the god!”

“The last melody played for you. As the chosen one, you stepped onto the final stage and became the most beautiful bride, fighting against the Sky Sword and protecting this world.”

“Don’t mind gender, don’t mind race. As long as your heart is still burning hot, you can create all miracles.”

“The god’s bride is the person who loves this world, who can risk everything.”

“Because of your heroic behavior, you obtain a reward from the god: the identity of this world’s ‘White Emperor’! You have the power of one million brides in this world.”

“From now on, you are the only Emperor of the Water God’s Fantasy Island, you are the only master of this world.”

“The bigger your dream is, the more larger this world is. Go ahead, Starchild.”

“Is this the last reward of this trial?” Yun Xi touched the White Emperor Mask on his face with a strange look.

This time, the stars didn’t grant him “seeds” as rewards, but let him become the Water God’s Fantasy Island’s “White Emperor”.

When Yun Xi read the mask’s information again, it had totally changed.

The equipment: White Emperor Mask, the token of the Water God’s bride, soul binding and indestructible.

Additional Ability One: Water Mist Field. You can summon mists to cover the ground, sky and sea. (It will be weakened if you use it outside the Water God’s Fantasy Island)

Additional Ability Two: Mist Soul Army. The one million girls are willing to fight for you. (It will be weakened if you use it outside the Water God's Fantasy Island)

Additional Ability Three: Summon Fantasy Creatures. (You can't use it outside the Water God's Fantasy Island)

The two fantasy creatures in this world will respond to your summon. You can summon countless butterflies of death from the mist tide or summon the fantastic sailing jellyfishes from the sea.

"This reward..." Yun Xi was shocked looking at the explanation.

All the abilities of the Water God's Apostle have been saved. Even though they will be weakened when using them outside this world, they are still the abilities of a god's Apostle!

Even though he can't use "Summon Fantasy Creatures" outside the Water God's Fantasy Island now, it doesn't mean he can't use it forever!

Not surprisingly, Yun Xi couldn't use his one million bride's power now, because the side quest "To Love, Starchild!" had finished. But, "This quest will become an irregularly scheduled quest"? What does it mean?

Compared to these rich rewards, Yun Xi directly ignored the income from obtaining the White Holy Dragon's real name, "Mumu Salabert".

Because Yun Xi didn't kill too many lives personally in this trial, he didn't obtain too many "souls".

The two additional abilities of the White Emperor Mask, “Water Mist Field” and “Mist Soul Army” are already hundreds of times better than the rewards he obtained in the two previous trials!

Even if Yun Xi could obtain a million green hippos’ souls, they were still not comparable to the two additional abilities.

Moreover, the White Emperor Mask was the token of the Master of this world.

He was the real Emperor that had been recognized by this world itself now!

“Well, I think it’s time to say ‘goodbye’ now.” Yun Xi was still immersed in the shock of becoming the real “White Emperor”. After a while, he finally realized that Yun Que was speaking to him.

“Are you going to leave?” Yun Xi asked in a reluctant tone.

Yun Que offered him too much help in the Water God’s world, including the “Expansion Plan: A Million Brides”, which had really changed the fate of this world.

He knew he wasn’t the only hero who saved this world. There were two: Yun Xi and Yun Que.

“Yes, there are things I must do. I don’t need any praise, you can be the only hero who saved this world.”

Yes, this is fine. She didn’t want to stand in front of the public, to be the sparkling saviour like “Yun Hai”.

Since a long time ago, she was doomed to stay away from all glories and praises forever.

Her sword and bow would accompany her till the end of her life.

If! It was just her wish! If she could see the miracle happened to this world again before the end of her life, she would already feel satisfied.

So, goodbye Yun Hai.

Chapter 303: Rebuilding the World

The warm sea winds blew to the two people from sea level, they swept past the sailing jellyfishes' soft tentacles and rolled up a lot of petals into the sky.

Looking at Yun Que walking away, Yun Xi couldn't help but ask, "Will we meet again?"

Why did I ask that?

Yun Xi didn't know, but when he looked at Yun Que's lonely red figure walking toward the horizon, he suddenly had this impulse.

He suddenly felt that if he didn't say something, some relationship between them would disappear forever.

“I don’t think we will have the chance.” Yun Que paused for a while, but didn’t look back.

If she stayed in this world, she would be one of the saviours.

As long as she was still wearing the Water God’s mask, she would be this world’s hero, being longed for by countless people.

If she chose it, it would be the most satisfying life she ever could enjoy.

No one would doubt or hate her, because she was a saviour, just like Yun Hai.

People would mold a statue for her, and her heroic behavior of fighting against a Sky Sword together with Yun Hai, and would be remembered by the people in this world from generation to generation. She would become a legend.

“There are things I must do, so I can’t cease to advance. Goodbye Yun Hai.”

She didn’t want to say more. Her mission and her belief were all the sins she was willing to carry on her back.

She was a princess, but she never expected to be saved by anyone.

She would change her fate with her sword and bow herself!

Looking at Yun Que's back going further away, Yun Xi felt a sense of loss.

He and the archer in red were just two different kinds of people. Even though they had communicated for a short time in their lives, their fates were destined to go in different directions.

Indeed, he could sense some deep, dark fate that was carried on Yun Que's back.

In his eyes, Yun Que was always very strict and conscientious.

Was he a soldier? No, he couldn't be a common soldier.

Was he a prince? Well, he gave Yun Xi that feeling. Yun Que's hard effort even touched Yun Xi's heart.

For the first time, Yun Xi saw such a person who perfectly met all the criteria of a "hero".

Yun Que wasn't a natural hero like Hua Huo, he didn't have great talent. However, he held his weapon tightly and never regretted walking on the road of his life.

"Wish you invincibility Yun Que. Maybe someday in the future, we can meet again!" Yun Xi put his hands on his mouth, shouting at Yun Que's back.

Yun Que stopped for the last time, she still didn't look back, but just waved her hand.

We won't meet again.

You are the White Emperor that is beloved by this world.

Your fate has been linked tightly to this world.

You have everything in this world. You are the Supreme Emperor here.

You only need to take the responsibility and rebuild this world.

That is the most important thing you should do.

As for me, I will set forth on my lonely and bloody journey again.

You are the bright sun that can warm all things, you are the Emperor that can obtain countless girls' hearts and bodies.

I'm the solitary star, I briefly shown brightly in this world, leaving my blood colored trace behind.

I know nothing apart from battle, so I'm not at all appropriate to be a manager of a country.

The road of my life is on the battlefield.

I will remember this place, because this is the first world I have saved.

I won't stay here, because there are more people waiting for my salvation outside of here, even if I will bring them bloody storms at the same time.

Waving my hand, it's my last farewell. We will never meet each other during our lives again, Yun Hai.

...

"He had really gone." Yun Xi sighed after confirming that Yun Que had really left the Water God's Fantasy Island.

"What should I do next?" Looking at the blooming flowers on the ground, Yun Xi could clearly feel that the entire world was recovering.

The four World Towers were still protecting the world. Following some rules even Yun Xi himself didn't understand, the four towers opened an energy barrier, protecting the whole of the Storm Eye inside it.

Although this world had merged into White Lotus Sword Domain, the Water God's Fantasy World was still unable to enter.

Only Yun Que had left from the Water God's Fantasy Island. The Starwing Knights girls and other Sword Palace disciples were still staying on the island.

“Boom!” Before long, another change happened.

The Caelian City, which was protected and hidden by Hydra in its body before, appeared again, right under Yun Xi’s feet, in the center of the island.

At the same time, Yun Xi’s one million brides also returned.

This was just the start, the cities and villages that were protected by Hydra before, appeared one after another. However, their locations had been changed to adapt to the new world.

One sailing jellyfish after another flew to the cities and villages, helping the people rebuild their hometowns.

Via the sailing jellyfishes’ eyes, Yun Xi could clearly see the new appearance of this world.

Circling around the Caelian City, eight islands located at the eight points, representing the eight heads of Hydra, and Caelian itself was Hydra’s biggest head.

Yun Xi’s four World Towers were at the four corners of this world. Taking the four World Towers and the eight islands as the world’s standard lines, the sailing jellyfishes were working hard to rebuild the new map of the entire Water God’s world.

Chapter 304: Yun Xi’s Choice

After saving this world from Shaya Longnis' hands, there were still a great amount of Shaya's energy, which was extracted out by Casina's "The Magnificence of Sky Dance", left in this world. The sailing jellyfishes were using it to rebuild this world.

As a side effect, as the Emperor that was recognized by the god and the world, Yun Xi also got benefits from it.

Infinite spirits of heaven and earth flowed toward Yun Xi and filled his body, but didn't cause any burden to his body.

One circle of beautiful light after another circle spread out from the place where Yun Xi was standing at, sending ripples across the world.

One Mist Soul girl after another appeared in the ripples and smiled at Yun Xi.

Their originally thin bodies were becoming more and more substantial and beautiful.

As the reward of helping Yun Xi defeat Shaya Longnis, they also obtained the blessing from this world.

All of Yun Xi's one million brides had obtained the reward.

Especially the Starwing Knights girls, because they were the cores of the Mist Soul Army, they obtained much more benefits than others.

The energy that had returned to their bodies were the purest energy from the source of this world. Only after obtaining the permission from the world's will, ordinary people could have the luck to absorb this treasure.

Because Hua Yue and Xiao Cao's help determined the final victory, they obtained the most reward. Their bodies were covered inside with a great amount of the world's energy and all their mortal natures had been washed away.

They hadn't reached the hero rank, but their bodies had become more perfect than most hero ranked beings.

To them, there was no barrier that was still barring their way of reaching the hero rank. They would reach this realm naturally in the not too far away future.

"This is... The World!" Yun Xi had become the new core of the Water God's world. He could clearly see the truth now.

The entire Water God's world was a large garden building on Hydra's body.

Hydra's body was the bedrock. The islands, no matter whether they were big or small, were all Hydra's heads and scales.

Hydra's blood were the sea and rivers.

Hydra's bones were the mountains and ground.

Hydra's breathing was the source of the mist that was covering the entire world.

This world was transformed from Hydra's body, this was the reason why Shaya Longnis attacked this world without mercy.

After being judged by the Guardian of the Door, Hydra had to sleep again. Before she closed her eyes, she handed this world over to her most beautiful bride.

From now on, Yun Xi was the master of this world, the White Emperor.

This was the biggest reward from the stars.

As long as he was still in this world, he could gain infinite power from its source, this world. Since he was the highest Apostle and the Water God's bride.

In this world that was covered by mist, he could summon wind and call for rain.

His Mist Soul Army could build countless wonders in this world. Since they would never die, they would become the most problematic defense to any intruder.

Only if he ordered, the people all over this world would move for him. The Caelian City and the eight new islands would offer him endless energy, and the sailing jellyfishes and butterflies of death would follow his command.

Even if he left this world, the abilities wouldn't disappear. Hydra was a real god, as Hydra's bride, Yun Xi could use her power anywhere.

In order to obtain all of them, Yun Xi only needed to do one thing: put the White Emperor Mask on his face.

After the battle with the Sky Sword, the White Emperor Mask had become the token of this world's master.

If Yun Xi was a common hero ranked person, he would live in this world, just like what Yun Que thought.

As the owner of this world, he could do everything here, enjoying the most comfortable life. At any rate, there wouldn't be any paradise that was better than this world.

This world had accepted Yun Xi completely. No matter what kind of demand he asked, ridiculous or shameless, the people in this world would do it for him without doubt.

At this moment, a "little devil" was whispering in Yun Xi's heart.

Stay in this world. This is your paradise, the heaven that could satisfy all of your wishes.

You are the only person that was beloved by the god. Before the Water God wakes up, you are the only avatar of the god in this world!

Whatever you do, you will be forgiven. No people would doubt your will.

If one million brides aren't enough, you can look for more beautiful girls in this world.

As long as you ask, the world will meet all your requirements.

There wouldn't be any opportunity that is better than this. Why are you still hesitating?!

"Oh... it really is a paradise!" Yun Xi looked around this world. After suffering this devastating disaster, this world was recovering.

Through the eyes of the sailing jellyfishes, Yun Xi could see all the corners of this world.

Hua Yue and Xiao Cao were still standing at the south pole and north pole of this world. They were absorbing and understanding the rewards they've just obtained.

Other Starwing Knights girls were in Caelian.

After returning to the real world, they had retrieved all of their real memories. Looking at the native girls around them, their minds were in a huge mess.

Other Sword Palace disciples were in the wilds. Unfortunately for them, there were a lot of wild animals surrounding them and looking at them with hunger.

The twin witches just arrived at a town being rebuilt. It seemed that they were trying to understand what happened in this brand new world.

Yun Xi's childhood sweetheart, Hua Huo, rushed into Caelian and looked for someone with anxiety.

"Hua Huo...", Looking at the familiar figure that was running in the streets of Caelian, Yun Xi finally made his decision.

Chapter 305: What A Strange World

Three days later.

The bell of blessing echoed above the sky of Caelian again, and everyone knew the reason.

It was for the saviour, the person who is beloved by the god, the highest Apostle, the Emperor of this world.

He was the White Emperor. Compared to this title, his real name was gradually forgotten by the public, because people thought that only the title "White Emperor" was the most suitable name for him.

"Notice! Notice! The great White Emperor will hold a ceremony celebrating the rebirth of our world, he and the three High Priestesses will all attend the ceremony in front of the Water God's temple!" A young girl wearing a priestess robe was running on the street. She announced the news from the temple with excitement on her face.

"Great! I missed the White Emperor's Proposal Ceremony, what a lifetime regret it was! This time, I won't miss this ceremony again!" A girl of a deep sea race stood up with excitement. She just arrived at Caelian from a remote island, the conch behind her ears had beautiful patterns .

“It’s not too late. I heard that the great White Emperor will continue his proposal this time!” The young priestess encouraged the foreign girl.

The battle with the Sky Sword happened and ended too suddenly. Before a lot of girls of the deep sea races arrived at Caelian from their habitats, Yun Xi had saved this world from being destroyed.

These girls were also saved by the White Emperor. As the blood descendants of Hydra, these girls of the deep sea races felt regretful for not offering their powers to their White Emperor.

“Really?! Where is this news from?” The girl of the conch race was so excited that she subconsciously opened the conchs behind her ears.

She wasn’t the only person who got excited. All the girls who didn’t arrive at Caelian when Yun Xi started his proposal all cocked their ears, waiting for the young priestess’ news.

“I heard it from our Caelian Queen. In order to expand the members of the Mist Soul Army, the White Emperor will propose to more girls in this ceremony.”

“Humph. What a shameless man!” Only one girl looked at the excited girls on the street with disdain.

If she didn’t hear it with her own ears, she wouldn’t believe that there was actually such a salacious man in the entire universe.

He has married one million brides, and still wanted to marry more? How can the people in this world accept this? This world is sick!

“Oh, hello, traveller from the outside world!” When seeing Hua Huo, the girl who was carrying a huge broken sword on her back, the native girls greeted her with passion.

“Hello... I’m looking for a person. Have you seen her?” Hua Huo opened a portrait from her arms.

In the center of the portrait, it was a young maid looking to the front with her gentle eyes. Her peaceful aura immediately attracted the girls’ eyes and made them feel close. Although she was wearing a maid uniform, the uniform looked like a gorgeous princess dress on her body.

“Oh, what a beautiful girl! The White Emperor will like her if he could also see this portrait.”

“Her appearance isn’t inferior to the three High Priestesses. Who is she?”

“Her clothes is cute, I want to wear it too!” The girls on the street praised the maid’s appearance. No matter whether they were humans or girls of the deep sea races, their hearts had all been captured by the portrait.

“Sorry, I don’t know her.”

“Yes. She is a beauty, if I saw her before, I wouldn’t forget her.”

“We don’t have this kind of clothes in our world. What’s it made of? It’s cute!”

“The Caelian Queen said our world will soon start to trade with White Lotus Sword Domain. Maybe we can buy this kind of clothes at that time. I really look forward to it!”

The native girls chatted with each other like a group of sparrows.

The Water God’s world was Hydra’s garden. It was located in a special area in White Lotus Sword Domain, the Storm Eye, and was still protected by the spherical energy shield.

The entire Water God’s world was carried on Hydra’s back. Theoretically, it was a world that could move freely in the void.

Originally, Hydra had carried the dying world dropping into White Lotus Sword Domain. After sleeping for thousands of years, the embryonic form of the Water God’s world finally formed.

Now, the Water God’s world had been born again and started to show its infinite potential. The people here were planning to get in contact with the people of White Lotus Sword Domain.

When Hua Huo arrived at Caelian, her identity as an outsider was quickly exposed. A lot of people were observing her quietly.

“This world... is too strange... Are you really willing to marry the so called White Emperor?” Hua Huo felt confused about the thoughts of the people.

Why does everyone in this world think that the so called White Emperor is a good man?

Hua Huo admitted that the White Emperor had a great talent, and his Mist Soul Army was also extremely strong. She was rarely forced to release her real power in the past.

However! That was quite another matter!

He proposed to one million girls and married them all in front of the public. This thing itself was ridiculous and twisted!

The most ridiculous thing was that the people in this world accepted what the White Emperor did. He successfully married one million brides and put engagement rings on their fingers.

Hua Huo even heard that this shameless man slept with different girls every night. Not only so, he didn't even sleep with a girl, but two, three, and even more!

No! I can't keep thinking about this! It's too impure!

This man! Even though he is the saviour of this world, it's still a bit too much! Don't you people feel it strange? Girls, you shouldn't entrust your lives to that man!

"Because he is the White Emperor!"

"He is the Apostle who saved this world, he is beloved by our god."

"As the descendants of the Water God, isn't it a natural thing to marry the White Emperor!"

Chapter 306: Hua Huo's Consciousness

It's a natural thing? How can it be possible!

Strange, it's too strange! What's wrong with the girls in this world?

Hua Huo had an indescribable sense of anxiety in her heart.

Why do I care about this?

No matter what the custom in this world is, it has nothing to do with me, does it?

My contract with Shaya Longnis, the Sky Sword had finished after she was defeated. Now, I have nothing to do with this world!

But, but! Why do I feel so bad looking at these girls' smiles?

A strand of hair on her forehead, her special item as Yun Xi's childhood sweetheart, the so called "Jealousy Radar" ran rampant after she came into this world.

Look! Even now, as long as I close my eyes, I would see all the girls on the street being marked in my "Jealousy Radar" as red points.

Red color, dangerous color, enemy's color!

Since three days ago, after Hua Huo arrived at Caelian, she felt that she just stepped into her enemy's camp, because she could only see bloody red through her "Jealousy Radar".

From 13 years old to 300 years old, from mankind to non-humans, from common girls to exalted priestesses, all women were marked as enemies in Hua Huo's radar!

Red, red, and red! Red is everywhere, and is still increasing. Hua Huo felt that her brains would overload if she still stayed in this city.

What's wrong with this world?

I know my Little Xi is easy to attract girls' eyes.

If I didn't protect him in our small town, his pure body would have been deceived by the Sword Skill teacher, the aristocratic miss from the nearby town, or the daughter of the flower shop!

Especially during that summer, he had almost been "eaten".

When she walked on the road of the small village, Hua Huo could recognize the girls who had "bad" ideas for her Little Xi with a glance.

However, it seemed that her "Jealousy Radar" was broken this time.

There were far too many enemies, to the extent that she could see no difference in them.

She just calculated it roughly and had a desperate calculation: she had over one million enemies in Caelian!

Unexceptionally, these enemies were all the so called White Emperor's brides.

Can it be... although Hua Huo didn't want to imagine it, but her instinct as Yun Xi's childhood sweetheart told her that there must be something very bad that happened to her Little Xi.

All clues pointed to one truth: Yun Xi was the so called White Emperor!

Hua Huo felt her outlook was overwhelmed after realizing it.

From what she heard in the past three days, the White Emperor was a complete hedonist. After saving this world, he spent all day with his brides.

After he returned to the Water God's temple, there were always young girls' with cries echoing in the sacred temple, accusing his crimes.

No, he can't be Yun Xi. My Yun Xi is a gentle man, he won't hurt anyone unless it is absolutely necessary, and his dream is to marry the girl he liked, enjoying a peaceful life in our small village for a lifetime.

He can't become such a shameless, salacious bastard! He is the kindest human being I have ever known!

He can't be the White Emperor!

Even though all evidences showed that the White Emperor was very likely to be Yun Xi, Hua Huo still firmly believed in Yun Xi.

Then, what went wrong?

My Little Xi isn't a man who will marry one million girls.

Can it be the mask? Is Yun Xi being controlled by the terrible silver mask, so he was forced to make these mistakes?

Yes, so that explains everything. Anyway, it couldn't be Yun Xi's own will.

Yun Xi's body had been possessed by that evil mask, so he made these unforgivable mistakes.

That must be the truth!

My Little Xi is in a very dangerous situation.

If continued, soon afterward, Yun Xi would become a piece of junk that only wanted women everyday!

As his best childhood sweetheart, I can't let it happen!

I will save Yun Xi from this painful predicament!

After the perfect ratiocination, Hua Huo's eyes lit up again.

Yes, she believed in her childhood sweetheart, she believed in her doomed lover.

No matter what he had done under the control of the evil mask, she would forgive him and save him at all costs!

Even if she had to fight against an entire world!

It doesn't matter, my Sky Flying Bloodline won't be bounded by any rule. Even if the entire world supported the "White Emperor", she would support "Yun Xi".

To her, Yun Xi was a hundred times more important than this world.

"White Emperor... I will beat you down..." Holding the broken sword in her hand, Hua Huo's heart had fired up.

She had planned to release her real power, which she didn't even use when she was facing Shaya Longnis.

She clearly remembered that she couldn't use this power casually. She was told that if she wasn't going to die in the next second, she should never use this power.

The reason why she hadn't reached the hero rank was because she needed to do her best to suppress this power.

To ordinary people, strong bloodline power was an aspirational treasure, but there should be a limit.

To Hua Huo, her Sky Flying Bloodline was too strong. Even she herself felt afraid sometimes.

Till now, she didn't know her limits herself, or rather to say, does the limit of her power really exist?

Therefore, even when she faced Shaya Longnis and Hydra, she didn't feel "fear".

At that time, she felt as if her bloodline was telling her that once she aroused her true power, she didn't need to worry about any of the two legend ranked beings.

Chapter 307: The Sorrows of Lu Lu

"Where is this place? Who am I?" Walking on the street of Caelian alone, Lu Lu looked around with her lost eyes.

In her brains, her memory was telling her that she had two different lives.

In her first memory, she was a common girl born in a small town of White Lotus Sword Domain. Her sword talent was pretty good, so she could become a disciple of White Lotus Sword Palace. She had also joined a female group called Starwing Knights.

In her second memory, she was a common village girl that lived in a small village of the Water God's Fantasy Island. Because she had a great talent in pharmaceuticals, people admired her and she finally married the great Apostle. She was a pharmacist that was loved by the people.

They were two different lives and two different memories, but they were totally mixed up now, making Lu Lu feel confused about who she was.

The self that lived in the White Lotus Sword Domain was just a lucky girl who could join the Sword Palace.

The self that lived in the Water God's world was a pharmacist girl who luckily married the Apostle she liked, and she was really enjoying her married life.

Apparently, the first memory was clearer and more structured. She could clearly recall all the details of her life in the first memory. Undoubtedly, this memory couldn't be fake.

However, the self that lived in the Water God's world was also herself.

She clearly remembered her excited feelings when she first met the Apostle, her anxiety due to the Apostle's unexpected proposal, and her nervousness when she looked for the Apostle the next morning.

She didn't want to deny these memories. Although the time she spent with the White Emperor was short, every second was sweet and memorable. They were all her precious memories.

Before she took back her real memory, she really thought that she was a native girl of the Water God's world.

Till the starlights dropped and the Sky Sword was defeated, her past memory recovered, and she fell into a contradiction at the same time.

Because she doubted which memory was real, her personality even started to split.

One side of herself insisted that she should return to White Lotus Sword Domain, accomplishing her dream as a disciple of the Sword Palace and a member of the Starwing Knights.

Another side of herself wanted to stay together with the White Emperor forever, living out her days with him.

Two different ideas struggled against each other in her mind, and she didn't want to give up any of them.

It had nothing to do with right or wrong, she just needed to face this dilemma.

To Lu Lu whose life had just been changed, it was too difficult a choice to make a choice.

"Why did you choose me? Can you also be a person from the outside world? My dear White Emperor." Lu Lu touched her animal ears. They were the gifts she obtained from this world.

She could switch her ears from animal ears to human ears freely, and the two different forms corresponded to two different talents.

When she was in her human form, her talent was “sword skill”.

When she switched to her animal ear form, her talent would also be switched to “pharmaceutics” at the same time.

The two different talents were the root of her distress.

Why? Originally, she should feel happy to have this fantastic transformation ability, but the two forms brought two different ideas.

When Lu Lu was in her human form, she wanted to return to the Starwing Knights, become strong together with her partners and accomplished their dream of becoming the top Female Knight.

When Lu Lu was in her animal ear form, she knew she had become the White Emperor’s bride. She wanted to accompany him in this world forever. No matter what difficulty they would face, she would never leave him.

Compared to her human form, her animal ear form had a stronger will. After all, she was a talented pharmacist that would reach the hero rank very soon in this form.

Her existence was like the most excellent self in Lu Lu’s imagination. When she was in this form, she had a great talent, could do everything she liked, and had an admirable lover.

It would be perfect if I can split into two and let them enjoy each other's life! Lu Lu never felt so annoyed in her heart.

However, she wasn't the only one who was suffering this pain. Other Starwing Knights girls were also facing the same trouble. Their minds were also in a huge mess just like Lu Lu.

Their experiences in this world were like the most perfect dream they had ever had. They all became the most excellent personalities in this world.

Because they were all the disciples of the Sword Palace, most of them were still human and were strengthening their sword skill talents in this world, therefore, it was still acceptable after taking back their real memories. They just thought that they became stronger after having a nice dream.

Only Lu Lu, because her pharmacist talent was aroused but not her sword skill talent, her personality even started to split.

"Perhaps everyone is waiting for me." Lu Lu knew it. All the other girls were waiting for her choice.

Should I return to White Lotus Sword Domain, or just stay here to be the White Emperor's bride forever?

The girl's heart struggled with anguish.

Everyone was waiting for her choice, but she was hard pressed to make a decision, because she was too pure and kind to make the choice. No matter what her decision was, she would certainly hurt some people because of it.

“Lu Lu!”

“She is Lu Lu!”

“She is the White Emperor’s first bride!”

The girls on the street and in the streams looked at Lu Lu with envy.

She was the White Emperor’s first bride.

The White Emperor was beloved by the Water God, and Lu Lu was the first girl that was chosen by the saviour of this world.

She was the only person who had this privilege in the entire Water God’s world.

She was doomed to be written into the history books of the Water God’s world, her name would be praised and remembered by the people of this world from generation to generation.

Chapter 308: The Melancholy of the White Emperor

“The 1.06 millionth...” The Lamia Queen raised her tail and knocked on the bell in the Water God’s temple.

The melodious bell of blessing echoed above the sky. It announced that in the Caelian City that was circled by hazy mist, another White Emperor's bride was just born.

"The ceremony is going to start." The Mermaid Queen pressed her chest and sang in a sad tone, "Why? I love you so much. Even a thousand brides' love was no match for my love for you. Why can't you only look at me? Why can't you only love me forever?"

"You just find pleasure in it. Let's go." The Lamia Queen said roughly. The Mermaid Queen was her best friend, but she still didn't like her sentimental character. The Mermaid Queen's special habit toward tragic love was too twisted!

If she could just give up this special habit, she could be the best singer amongst the three High Priestesses. After all, a Mermaid's voice could elicit the strongest emotions hid in people's hearts. People even would die for it in legends.

"Oh, even though you are beloved by thousands of people, I will still take your eyes, letting you only look at me. Oh, Lamia, wait for me!" The Mermaid Queen sang and chased after her best friend, leaving the bell of blessing.

Today, the White Emperor would hold the first ceremony after the reforging of this world, and also, it would be the first day the Water God's world would be opened to the outside world.

At the same time, it would be a day of picking brides for the White Emperor.

This time, hundreds of people in the outside world had accepted their invitations. They would be the witness of this special ceremony of the Water God's world, so nothing could go wrong.

The three High Priestesses and the White Emperor would attend the ceremony and welcome the visitors from the outside world there.

From this day on, the Water God's world would build the communication channel with the entire Sky Sword God's Domain and become a member of this god's domain.

With Hydra as their backup force, the preliminary talk went very smoothly. A Sky Sword had agreed to attend this ceremony and would admit this world's legal status in the name of the delegate of the Sky Sword God's Domain.

Compared to the ceremony before, the atmosphere of this ceremony was more joyful. The people from all over this world all gathered in Caelian and celebrated the new life of this world.

Of course, there was also a very important thing. Due to this thing, the ceremony was delayed till this day.

...

In the Water God's temple, in front of Hydra's Nine Headed Snake Statue, the Caelian Queen was gently helping Yun Xi put on his clothes.

Yun Xi was the only Emperor in the Water God's world. His identity had been recognized by the will of this world.

Unknowingly, nine different lines appeared on his Sailing Jellyfish's Robe.

Each line meant a blessing from Hydra. Due to the nine lines, Yun Xi's Sailing Jellyfish's Robe had become the highest artifact in this world.

Each line stood for an opportunity of rebirth. As long as Yun Xi was still in the Water God's world, he could revive nine times after being killed, and the lines were rechargeable.

With the glory and holiness of the god, Yun Xi looked taller and brighter than usual. Looking at his body was like bathing in the sunlight of summer, the Caelian Queen felt extremely thrilled.

"You are more perfect today than anyone." Touching Yun Xi's hair with her fingers, the Caelian Queen lowered his head and kissed Yun Xi's cheek.

"But I'm originally a flawed man." Looking at his image in the mirror, Yun Xi was at a loss.

It can't be me!

Coincidentally, Yun Xi felt the same confusion as Lu Lu, although his memory hadn't been sealed like hers before.

White Emperor is my identity in the Water God's world, but is it really me?

The White Emperor is the man that is beloved by the god, the most perfect Apostle, the saviour of this world, the man who defeated Shaya Longnis. As for me, I'm just an excellent Baker, and my dream is to live a peaceful life in my small town. Are they really the same person? Are both of them me?

If I'm still Yun Xi, I wouldn't marry a million brides. I wasn't a lecher who couldn't control my desire.

If the situation continues, I can't be a gentleman at all... Originally, before I entered this world, I thought I could honorably go to the Sword Palace, in the identity of Hua Huo's maid!

"No person could be born perfect. People think that you are perfect, because you are indispensable to this world, so they ignore your weaknesses."

"The sun illuminates all things and brings vitality to the world, but it also burned all things into ashes sometimes. However, we still praise the sun."

"Our White Emperor, you are the unique sun of our world. No matter where you are from and where you are going to go, this world will be your power forever. Therefore, have confidence in yourself."

The Caelian Queen saw through Yun Xi's thought. She held his cheeks in her hands and blocked his mouth with her lips.

"Everyone loves you in this world. You are not only the favorite of the god, you are also beloved by our world."

"You helped this world stop the tragedy that was doomed to happen, therefore, as the descendants of the god, we will let you become a legend."

"Our White Emperor, my lover, a million brides is just a beginning."

Yun Xi looked at the Caelian Queen's face with an air of resignation. He knew he couldn't change her ideas.

She wasn't the only person who had this idea. The other two High Priestesses, and the people in this world, they all thought that it was a natural thing to help him expand his Mist Soul Army.

In the final analysis, all the living beings in this world were Hydra's children.

Therefore, was it Hydra's preference to her bride?

Oh, I shouldn't keep staying in this world. As long as I'm still the White Emperor, I can't be a good man any longer.

Chapter 309: The Battle God Comes

Countless prayer flags and silk ribbons blew in the wind. The biggest ceremony in the Water God's world started.

A strange light bridge dropped from the clouds. It was for greeting the visiting team that was sent by the Sky Sword God's Domain. Incidentally, the investigators from the Sword Palace were also in the team.

After sleeping in Hydra's dream for thousands of years, the Water God's world finally opened to the outside world.

Today was doomed to be recorded in the history book of the Water God's world.

On the light bridge, the tutors of White Lotus Sword Palace stood behind the White Lotus Throne, holding their breath carefully, because there was a woman sitting on the throne with a “not lady like at all” posture. She was one of the legends of the entire Sky Sword God’s Domain, the Battle God, the sixth Sky Sword.

Casina!

She didn’t look like a female Swordsman, because she had brown skin and slender legs, wore exotic clothes and had a pair of fetters on her feet. If ordinary people saw her, they would think that she was a dancing diva.

Only the people who had experienced her attack knew how terrible the strength her slender legs contained. When Casina, the Battle God got serious, even a real god would be scared.

However, it only meant “THE” Casina, when she was in battle. At other times, Casina was just a lazy lady who didn’t mind her appearance at all. It was said that once upon a time, she really went to a circus troupe to be a dancer, because she lost her way and needed money for her traveling expenses.

Of course, the tutors of the White Lotus Sword Palace didn’t have the guts to ask her whether the rumour was true.

Sky Swords, no matter who the Sky Sword was, had enough capital to do what they wished without restraint. As the sixth Sky Sword, Casina also had a great potential to be the fourth Decide Sky Sword, just like Shaya Longnis.

Even though Casina was “not lady like at all”, no one dared to scold her, because it was her right as a strong being.

Most people paid their attentions to the sword on her back.

“The Sands of Time” was the sword’s name. It was famous as a legend ranked artifact in the entire Sky Sword God’s Domains.

Just looking at the sword, people would see an endless desert that had infinite sands spreading to the end of the world.

Every second, there would be gravels dropping from the hourglass shaped sword handle and returned to the hourglass following some fantastic rules.

The sands stood for the most mysterious rule in the entire universe: time.

In legends, if a person could understand the rule of time, the person would be able to see all things in history, at present and in the future.

Throughout the endless god’s domains, there weren’t too many time-type artifacts. No matter whether it was a human or a god, they could never leave their traces in the river of time forever.

It was said that “The Sands of Time” could be used to look into the past, observe the present, and forecast the future. It was one of the top 3 artifacts amongst all artifacts.

Sadly, Casina never used this sword, and due to that, no one knew the true power of her sword, “The Sands of Time”.

To the people living in Sky Sword God's Domain, swords are everything, countless people dreamed that they would witness the true appearance of "The Sands of Time", and the tutors of White Lotus Sword Palace weren't some exceptions.

When Casina appeared in front of them, their eyes were immediately captured by the sword on her back.

The longer they looked at the sword, the more mystery they felt from this sword. They knew it was a realm they could never reach during their lives.

It deserved to be one of the top 3 artifacts! As its owner, Casina was more unfathomable in their eyes.

"Your honour, we are almost there." After a long while, a tutor hardly moved his eyes away from the sword and noticed Casina.

"Well, really?" Leaning on the throne, Casina stretched herself leisurely. Her legs stretched out and her toes huddled up like some cute little rabbits.

She had become a famous female Sky Sword over hundreds of years, but the time left no trace on her body. Just like all legend ranked beings, the Battle God wasn't a mortal any longer.

They were called "legend", because they not only had devastating power, but also had a long life. When history became legend, legend became myth, their names were eulogized by people from generation to generation, and they were still alive.

“Not bad. It seems that Hydra has reached that realm.” Casina sat up and squinted her eyes, looking at the sailing jellyfishes in the sky.

These translucent jellyfishes weren’t just some ornaments in the sky, they were the protectors of this world. If any being wanted to enter this world, it would be scanned by these sailing jellyfishes first.

Once void creatures tried to enter this world, they would be expelled by these seemingly harmless sailing jellyfishes.

Sailing jellyfishes stood for “life”.

The butterflies of death stood for “death”.

The two different but also similar creatures formed the circulation of “life” and “death” in this world. The two fantasy creatures were the balancers of this world created by the Water God.

Since Hydra could create the two fantasy creatures, it meant that she had really become a “god”. She wasn’t a god that needed “faith”, but the real god that could create a brand new world.

From a fantasy creature to a god, it was really a tremendous progress.

Although Hydra had paid too much for this, and still needed to sleep for thousands of years, it was still a successful business.

At least, even Casina felt a bit jealous, because Hydra had found her own road as the Water God.

Chapter 310: The Witness

To legend ranked beings, their nature of life had changed, becoming a form that was close to some rules in the universe. Generally, they were called “fantasy creatures”.

The sailing jellyfishes and the butterflies of death were natural fantasy creatures. They were born with the rule of life and death that could be regarded as the lowest legend rank.

They were still at the lowest legend rank, because they didn’t have wisdom. Even so, they were not some creatures that could be defeated by any hero ranked being. They were inherently stronger than most beings in the countless god’s domains.

Hydra gestated them and helped them develop their own power of rule. This could prove that Hydra had entered the “realm” of “gods”.

Shaya Longnis was slightly inferior to Hydra, because she was still a step away from this “realm”. She could be called a real god.

Of course, as the child of slimes, it wasn’t a difficult thing to go across that “realm” to Shaya, she just needed more time to let quantitative change lead to qualitative change.

Otherwise, she couldn’t fight against Casina for such a long while.

In fact, Casina also looked forward to it. The handfeel when she punched Shaya’s body was very good, she was content with it.

To Casina, Shaya Longnis was a very competent “sandbag”, although Shaya was still a bit naive now, it wasn’t a big problem.

When Shaya really grew up, becoming a monster above all monsters, it would really be an excellent experience to beat her down!

“Well, I think I need to say ‘thank you’ to that little boy.” After woolgathering for a long while, Casina finally walked down the throne in front of the public, walking to the highest seat on the left of the Water God’s temple with her naked feet.

Today, she would be a witness, recognizing the Water God as a new member of Sky Sword God’s Domain.

Having the sixth Sky Sword as its witness, the Water God’s Fantasy Island’s status was even slightly higher than White Lotus Sword Domain.

After all, it was a kingdom building on a real god’s body, having a god and two fantasy creatures as its protectors, how could the small White Lotus Sword Domain be compared with it?

If it wasn’t because Hydra’s real body was still sleeping in the Eye of the Storm, it wasn’t up to White Lotus Sword Domain to accommodate the Water God’s Fantasy Island.

Predictably, once the news of the Water God’s world spread in the god’s domains, the status of White Lotus Sword Domain would also rise due to that.

In fact, many masters of god’s domain had been startled due to this news, and it could perfectly explain the abnormal transformation of stars before.

Hydra's recovery, a real god's resurrection, could change the stars, although the change was still too big.

Now, only Casina had arrived at the Water God's world, but soon afterward, one big shot after another would come to visit this world.

It was a world that was protected by a real god! Even in Western God's Domain, it could be called "a fantastic sacred land". Perhaps even in the entire Sky Sword God's Domain, only the Great Xia, the oldest Sword Domain, could compare favourably with this world.

Hydra wasn't a nobody, because she became a god, she was already a famous fantasy creature overlord.

Before she became a god, she was eulogized as the best genius amongst all fantasy creatures. After disappearing for thousands of years, her name appeared in front of the public again and she was a god now.

After hearing this news, Hydra's old friends, the strong fantasy creature ladies would undoubtedly come to this world one after another, making this world a paradise of fantasy creatures.

Thinking of it, Casina looked at the boy that was nervously standing on the stage. He really had a bright future!

Perhaps he hadn't understood what it meant to be a god's bride and how lucky he was.

...

Why do I feel she is looking at me?

Yun Xi nervously looked at Casina, who was sitting on the highest seat and looked at him up and down with curiosity.

Undoubtedly, the sixth Sky Sword was the strongest being Yun Xi had ever met apart from Hydra and Shaya Longnis.

He experienced the strong power of her martial arts using his own body. Even the Slime Sky Sword, Shaya Longnis was punched her teeth through the back of her skull by Casina.

Her godlike martial arts, "The Magnificence of Sky Dance" was Yun Xi's last trump card to save this world. Without it, even if Yun Xi could defeat Shaya Longnis, this world would be destroyed.

Compared to Yun Xi's nervous behavior, the Caelian Queen behaved more generous and perfect.

After Yun Xi exposed the secret of the Mist Tide and saved this world, the Caelian Queen had nothing to worry about.

At this moment, the sailing jellyfishes were flying in the sky, and the butterflies of death were dancing in the mist, forming the circulation of life and death of this world.

The Lamia Queen shook her tail and moved to Yun Xi's left, just like what she did when Yun Xi proposed to his one million brides.

Her long screw tail rolled up onto Yun Xi's waist, standing for her unshakable love.

It was a love that would never be shaken no matter how many brides Yun Xi had married.

On Yun Xi's left side, the Mermaid Queen glanced at the Lamia Queen and showed a mysterious smile on the corners of her mouth. She was humming a ditty the Mermaid girls knew.

The Mermaid girls under the stage heard the ditty from their Queen, their spirits raised high and their mood became excited.

"As expected... our Queen... whoo hoo hoo."

"This time, the White Emperor, the Lamia Queen, and the Caelian Queen..."

"There is no stage that is larger than this... that's really enviable..."

Looking at the excited Mermaid girls, the Caelian Queen let out a sigh involuntarily.

What a group of naughty young girls!

Even though the youngest Lamia was still older than her, the Caelian Queen still thought that they were too childish.
